ALPHA PREMIER GROUP

ALPHA PREMIER GROUP OF COMPANIES

Website & Admin Console User Manual

A complete, illustrated guide to the public website, the eight enterprise sites, the chat assistant, careers, and the staff administration console.

Version 1.1 · October 2026

alphapremiergroup.com

FOR VISITORS · STAFF · ADMINISTRATORS

Document information

Document	Alpha Premier Group Website & Admin Console — User Manual
Version	1.1
Release date	11 October 2026
Applies to	alphapremiergroup.com, its eight enterprise sites (realty, luxe-prime, construction, swiftclear, 88prime, alta-venture, dynamic-tree, virtual-office), and the Admin Console at alphapremiergroup.com/admin
Audience	Part I — website visitors, clients and job seekers. Part II — staff: administrators, editors, recruiters and chat agents.
Owner	Alpha Premier Group — Web & Digital Team

Revision history

Version	Date	Changes
1.1	11 Oct 2026	Added newsletter sign-up (3.4), careers feedback (6.3), sharing article links (7), enterprise job applications (10.2) and the related emails (21). The cookie notice is now asked once for all APG sites and matches each site's colours (3.2). One contact address throughout: contact@alphapremiergroup.com.
1.0	11 Oct 2026	First release. Covers every public page, enterprise site, chat assistant, careers portal, live property listings and all Admin Console modules.

> **ABOUT THE SCREENSHOTS**
>
> Public-website screenshots were taken from the live site in October 2026. Screens for features added in version 1.1 were taken from the release build. Admin Console screenshots use sample data (for example, the demo user “Maria Santos”), so names, numbers and messages you see will be different. Layouts, buttons and labels are the same.

1 Introduction

1.1 Purpose of this manual

This manual explains how to use every feature of the Alpha Premier Group (APG) web system: what each screen is for, what every button does, and step-by-step instructions for common tasks. It also covers what happens after you submit something (emails, reference numbers) and how to fix common problems.

1.2 Who should read which part

If you are…	Read
A client or website visitor	Chapter 3 (Getting started) and Part I, Chapters 4–10
A job seeker	Chapter 6 (Careers) and Chapter 9 (Chat assistant)
A content editor	Part II: Chapters 11, 12, 14, 15, 18
A recruiter or HR staff member	Part II: Chapters 11, 12, 13, 16, 17
A chat agent / broker	Part II: Chapters 11 and 13
An administrator or super-administrator	All of Part II, including Chapters 19–21

1.3 Conventions used in this manual

Convention	Meaning
Inquire Now	A button, link, tab or label exactly as it appears on screen.
`realty.alphapremiergroup.com`	A web address, file name or text you type.
Numbered gold circles	Steps to follow in order.
Menu › Item	A path through menus, e.g. **Admin Console › Blog Manager**.

> **NOTE**
> Extra information that helps you understand a feature.

> **TIP**
> A shortcut or best practice that saves time.

> **IMPORTANT**
> Something that can cause data loss, a failed submission or a security problem if ignored.

2 System overview

The APG web system is one platform that serves the group's main corporate website, a dedicated website for each enterprise, an AI chat assistant, an online careers portal, and a private Admin Console for staff.

2.1 Main components

Component	What it does	Used by
Main website	Corporate home page, enterprises directory, blogs, careers, inquiry forms, contact, Virtual Office, privacy and terms pages.	Visitors
Enterprise sites	A branded website for each APG company, each on its own web address.	Visitors
Live property listings	Available properties synced automatically from the Alpha Premier Realty Google Drive every 15 minutes.	Visitors, Realty team
Chat assistant	AI concierge on every page that answers questions and hands the chat to a live agent when needed.	Visitors, chat agents
Careers portal & ATS	Job listings and online applications. Every resume is automatically scored by the Applicant Tracking System (ATS).	Job seekers, HR
Admin Console	Private staff area to answer chats, edit website content, and manage services, jobs, applicants, blog articles and user accounts.	Staff
Email notifications	Branded emails to staff and to visitors for inquiries, applications and chat handoffs.	Everyone

2.2 Web addresses

Address	Site
`alphapremiergroup.com`	Alpha Premier Group — main corporate website
`realty.alphapremiergroup.com`	Alpha Premier Realty — property services and live listings
`luxe-prime.alphapremiergroup.com`	Luxe Prime Realty — luxury property management
`construction.alphapremiergroup.com`	Alpha Premier Construction — contracting and materials
`swiftclear.alphapremiergroup.com`	SwiftClear — cleaning, sanitation, aircon and pest control
`88prime.alphapremiergroup.com`	88 Prime — corporate supplies, procurement and advisory
`alta-venture.alphapremiergroup.com`	Alta Venture — outsourcing: finance, HR, IT and CX

`dynamic-tree.alphapremiergroup.com`	Dynamic Tree — multimedia, talent and production
`virtual-office.alphapremiergroup.com`	Virtual Office — business address packages in Ortigas
`alphapremiergroup.com/admin`	Admin Console (staff only)

> **NOTE**
>
> If you open an enterprise page through the main site (for example `alphapremiergroup.com/realty`), you are taken to that enterprise's own address automatically. Privacy, Terms and the Admin Console always open on the main address.

2.3 How information flows

1. **Visitors** browse the sites, chat with the assistant, send inquiries and apply for jobs.
2. **Inquiries** are emailed to the company inbox, and the visitor receives a confirmation with a reference number.
3. **Applications** are saved, scored by the ATS, and emailed to HR with the resume attached. Recruiters manage them in the Admin Console.
4. **Chats** are answered by the assistant. When a visitor needs a person, the chat joins the Live Chat queue and the team is emailed.
5. **Staff** update content, services, jobs and articles in the Admin Console, and the public sites show the changes immediately.
6. **Property listings** are maintained in Google Drive and appear on the Realty site within about 15 minutes.

3 Getting started

3.1 What you need

- An up-to-date web browser: Google Chrome, Microsoft Edge, Mozilla Firefox or Apple Safari.
- An internet connection. No app or account is needed to use the public websites.
- The site adapts to phones, tablets and desktop screens.
- Staff need an Admin Console account created by a super-administrator (see Chapter 19).

3.2 The cookie notice

On your first visit a **We value your privacy** notice appears in the bottom-right corner.

Figure 1. The cookie notice on the first visit to the home page.

1. Click **Accept All** to allow essential and analytics cookies, or **Decline** to allow essential cookies only. Clicking the × counts as Decline.
2. Your choice is remembered for a year in this browser, across the main website **and every enterprise site**. You are asked only once.

The notice takes on the colours of the site you are visiting, so it always matches the page.

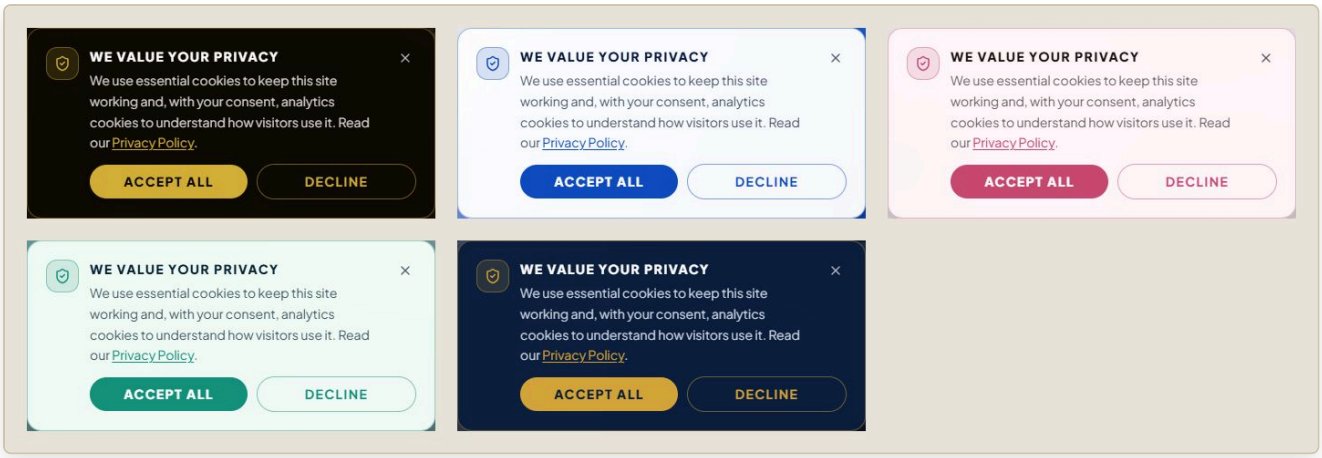

Figure 2. The same cookie notice on the main site, SwiftClear, Dynamic Tree, Alta Venture and 88 Prime.

> **NOTE**
>
> Analytics cookies are only used after you click **Accept All**. If you decline, no analytics are loaded.

> **TIP**
>
> To see the notice again (for example to change your choice), clear this website's cookies in your browser settings and reload the page. The **Privacy Policy** link in the notice opens the full policy.

3.3 Navigating the main website

The top bar is on every page of the main website:

- **Logo** — returns to the home page.
- **HOME** **ENTERPRISES** **BLOGS** **CAREERS** — the main sections. The current section is highlighted in gold.
- **INQUIRE NOW** — opens the inquiry page (on wide screens).
- **Chat button** (round gold robot icon, bottom-right) — opens the chat assistant (Chapter 9).

Figure 3. The main website home page: top navigation, hero section and the chat button (bottom-right).

ON A PHONE

1. Tap the menu icon (three lines) at the top-right.
2. Tap a section, or **INQUIRE NOW**. The company phone and email are listed at the bottom of the menu.
3. Tap × (or press Esc on a keyboard) to close the menu.

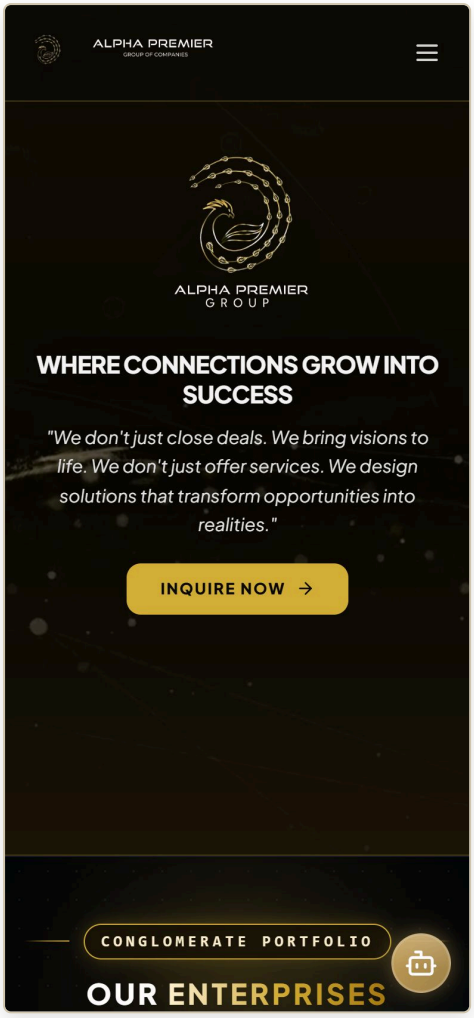

Figure 4. Home page on a phone.

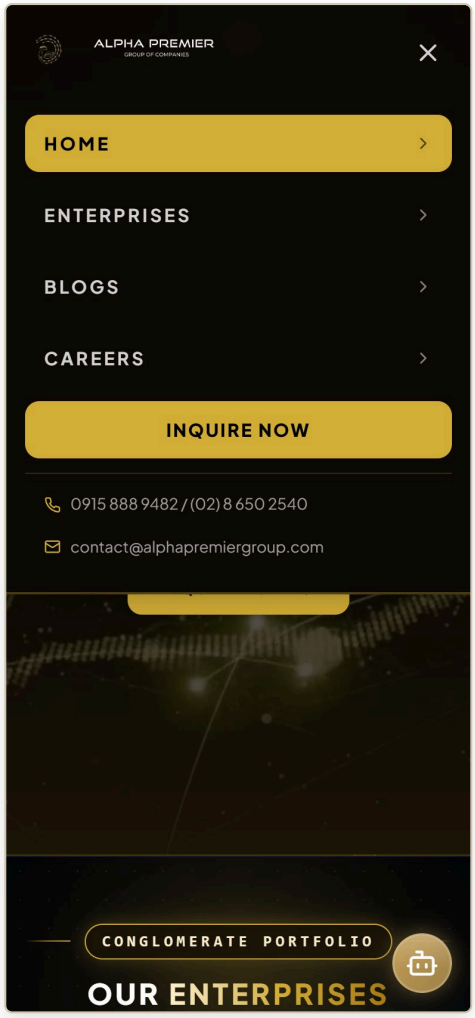

Figure 5. The phone menu, opened.

THE FOOTER

At the bottom of every main-site page you will find: social media links (Facebook, Instagram, TikTok, LinkedIn); **Quick Links** to every section, including **Properties & Real Estate** and **Schedule Consultation →**; buttons for each of the seven enterprises; the office address, phone and email; the **Newsletter** sign-up; links to the **Privacy Policy** and **Terms of Use**; and a back-to-top arrow.

3.4 Subscribing to the newsletter

You can subscribe to news and articles from the footer of the main website, or from the blog pages of Alpha Premier Construction, 88 Prime, Alta Venture and Dynamic Tree.

1. Type your email address in the **Newsletter** box.
2. Click the send arrow (or **Subscribe** on the enterprise blogs).
3. A message confirms the subscription, and a confirmation email arrives in your inbox.

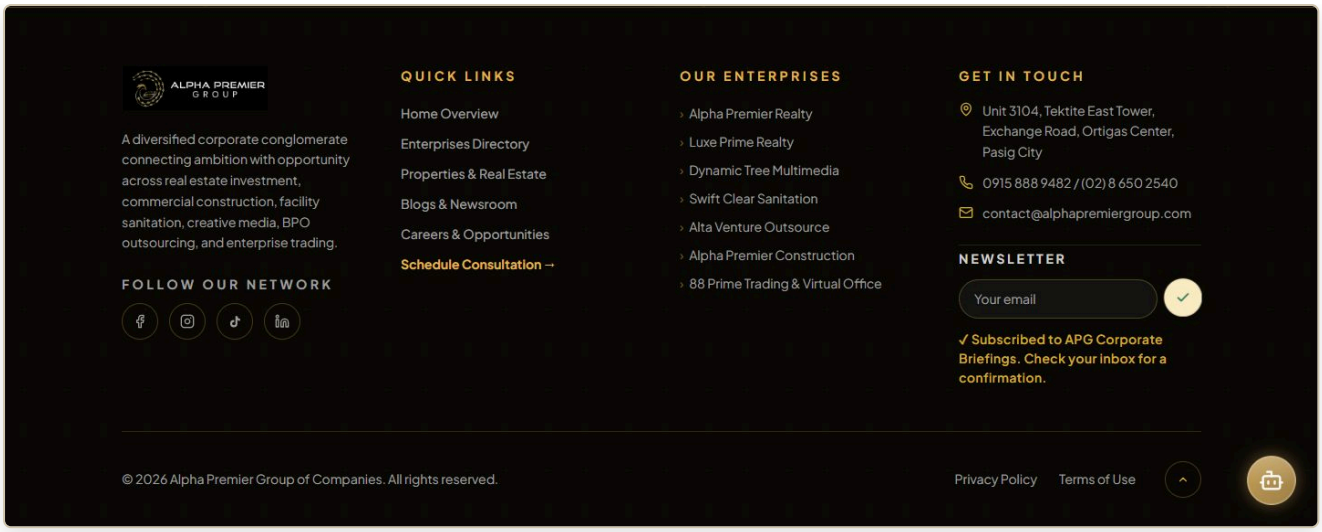

Figure 6. The footer Newsletter box after subscribing.

UNSUBSCRIBING

Reply to any newsletter or to the confirmation email with the word “Unsubscribe”, and the team will remove your address.

PART I

Visitor Guide

Using the public websites: exploring the group, sending inquiries, applying for jobs, reading articles, browsing properties and chatting with the assistant.

4 Home page & Enterprises

4.1 Home page sections

Scroll down the home page to see these sections, in order:

Section	What you can do
Hero	Read the group's tagline and click **Inquire Now**.
Our Enterprises	Click any of the seven company cards to open that company's website.
Alpha Premier Group of Companies	Read the four pillars of the group and the CEO profile.
Strategic Asset Categories	Hover over or click a category column (on phones, tap a row to expand it, then **Explore …**) to go to the Enterprises page.
CEO message	**Partner With Our Leadership** opens the inquiry page.
Mission & Vision	Click or hover a card to expand it.
Core Values	Hover or tap a value to read its description.
Closing banner	**Inquire Now** opens the inquiry page.

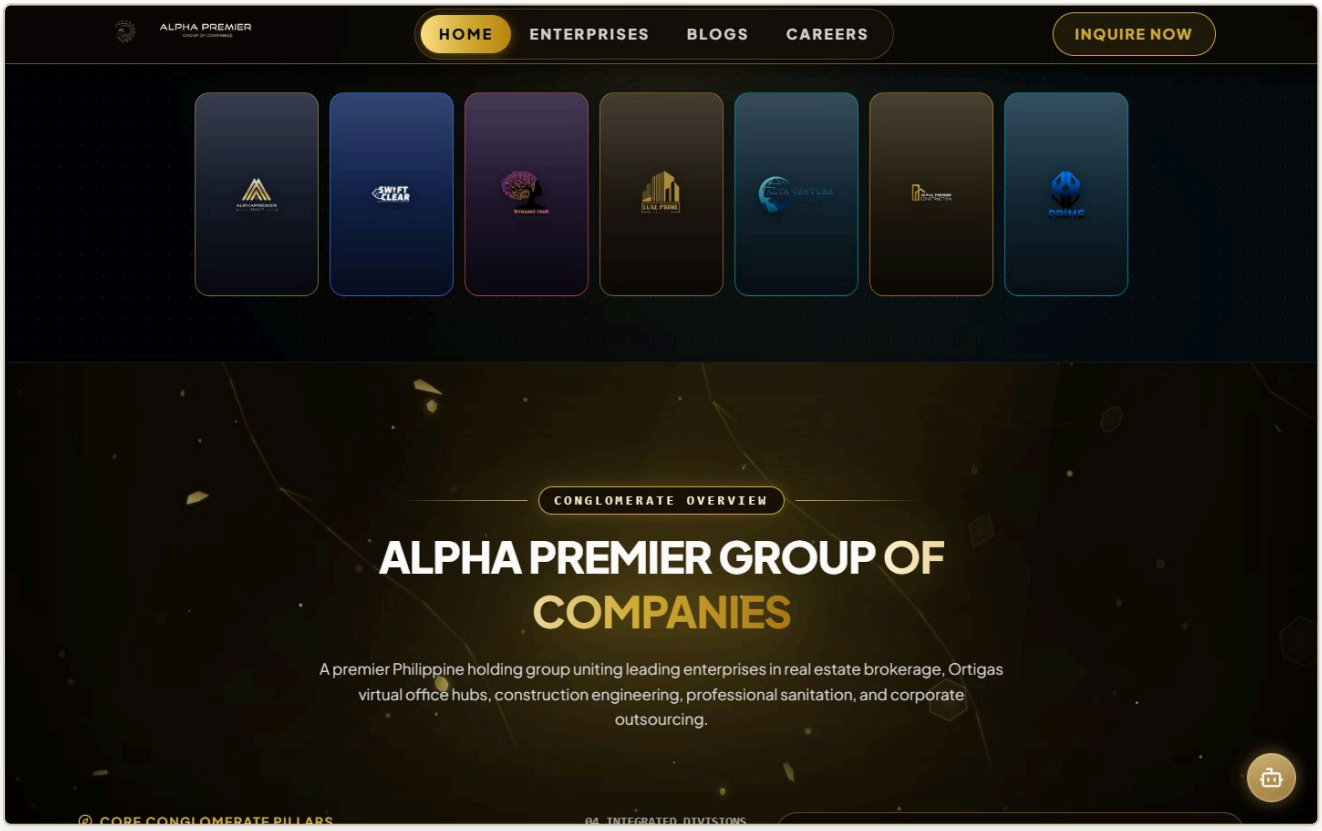

Figure 7. "Our Enterprises": click a company card to visit its website.

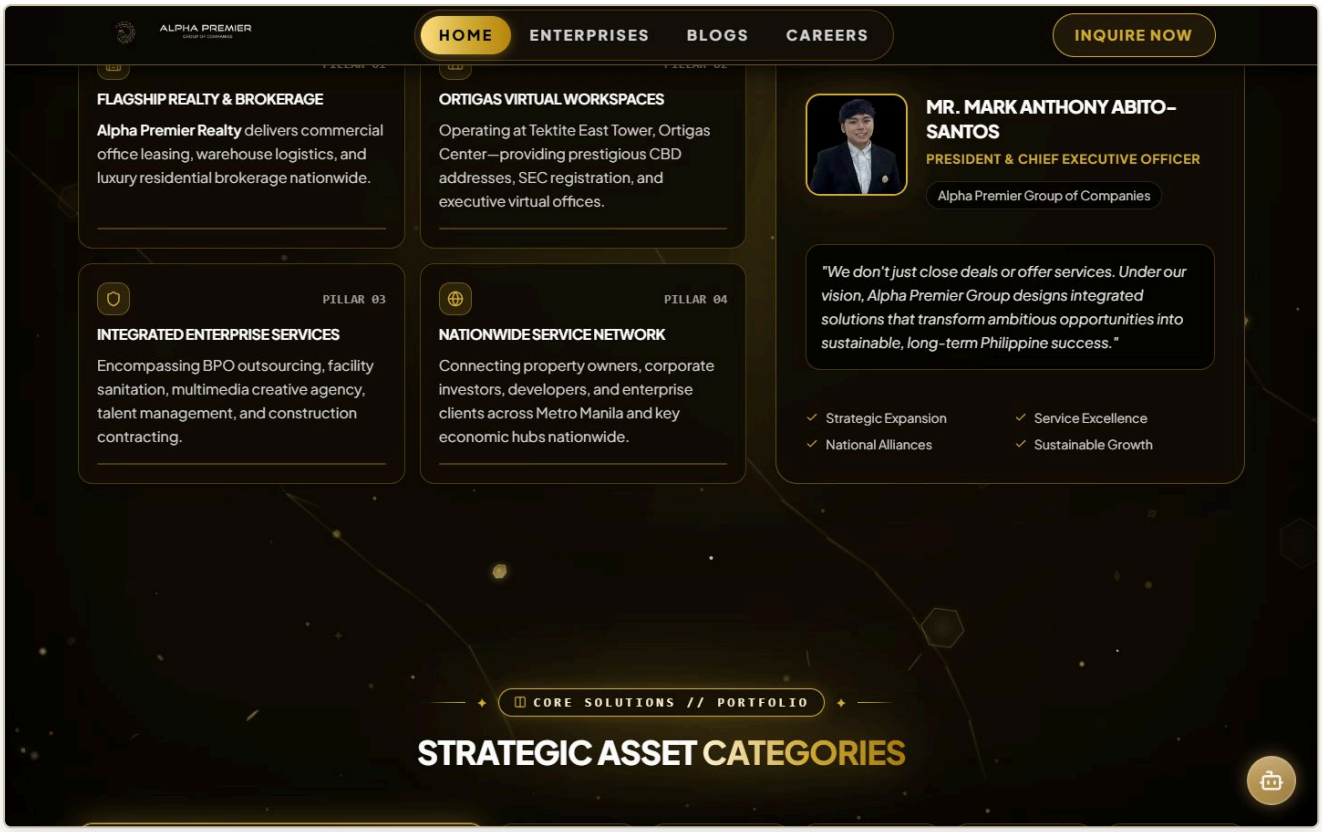

Figure 8. Further down the home page.

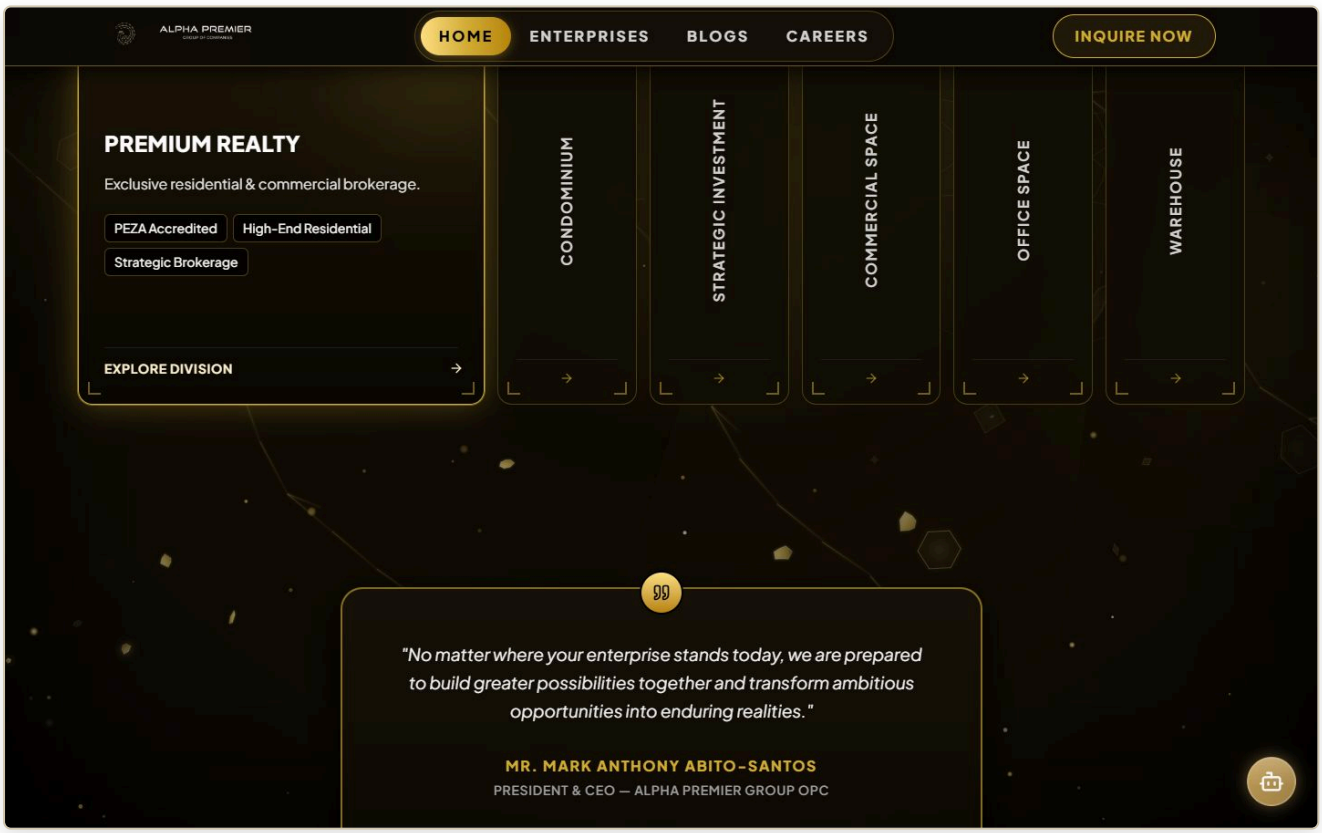

Figure 9. Home page — group story and categories.

4.2 Enterprises page

Click **ENTERPRISES** in the top bar to see a section for each of the seven companies. Every section has two buttons:

- **An inquiry button** (e.g. **INQUIRE ABOUT REALTY**, **START A CONSTRUCTION PROJECT**, **DISCOVER LUXE PROPERTIES**). It opens the inquiry form with that company already selected (Chapter 5).
- **VISIT FULL SITE** — opens that company's own website (Chapter 10).

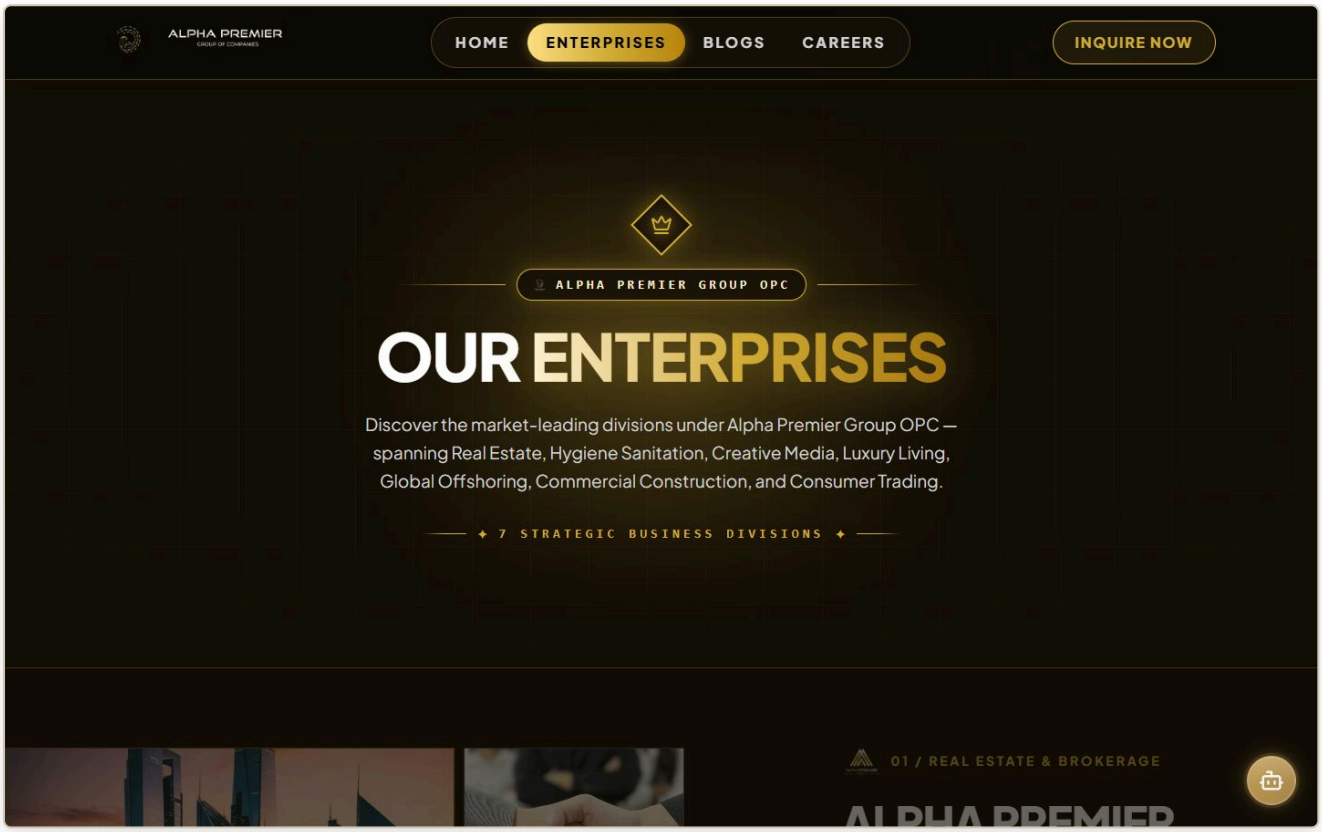

Figure 10. The Enterprises page.

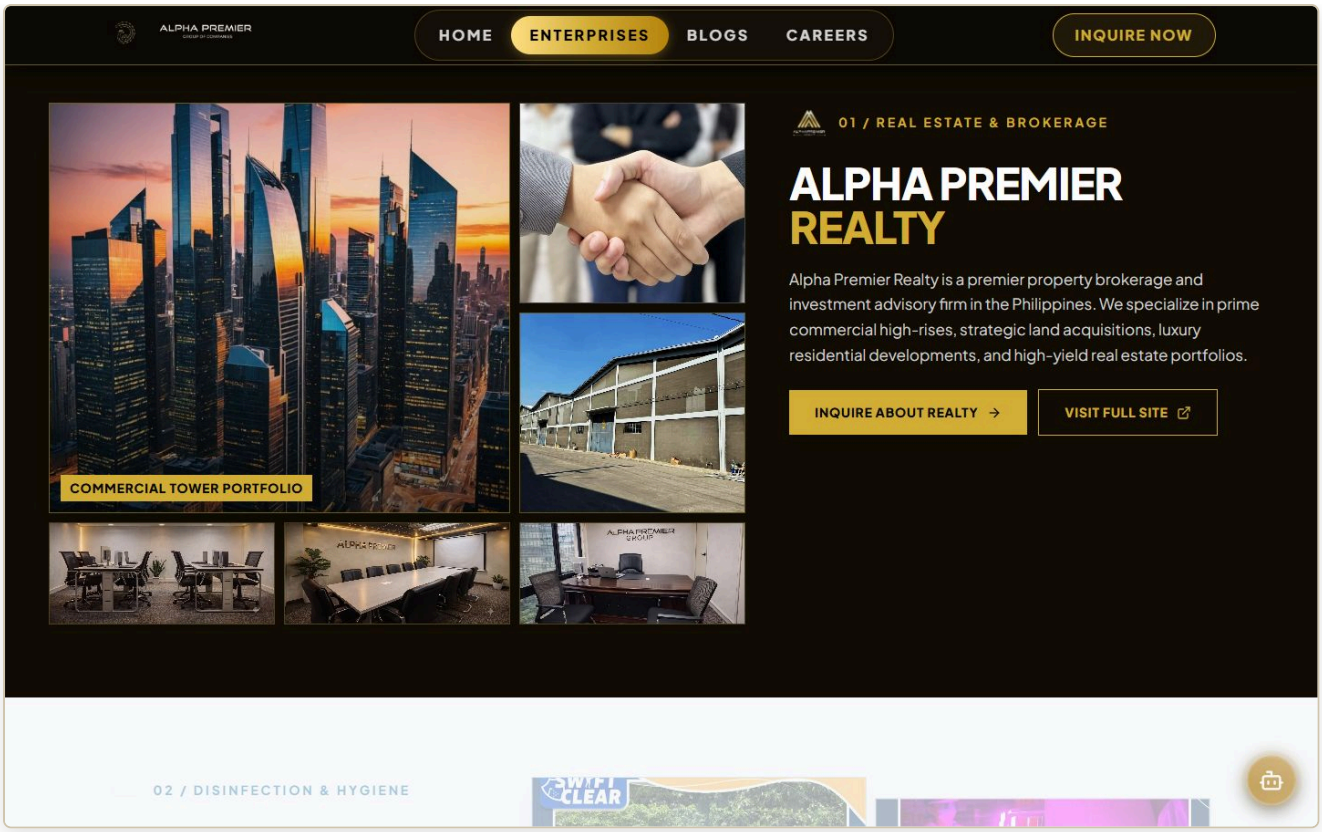

Figure 11. An enterprise section with its inquiry and "Visit Full Site" buttons.

5 Sending an inquiry

An inquiry is a request for a consultation, quotation or information. You can send one from four places: the **INQUIRE NOW** page, the pop-up form on the Enterprises page, the Contact page, or each enterprise site's own inquiry form.

5.1 Submit an inquiry

1. Click **INQUIRE NOW** in the top bar (or an inquiry button on the Enterprises page).
2. Fill in the form. Fields marked ***** are required:

Field	Notes
Full Name *	Up to 150 characters. Do not include web links.
Email Address *	Your confirmation email is sent here.
Company / Organization	Optional.
Enterprise Division Interest *	Which company your inquiry is for. Pre-selected if you came from an enterprise button.
Budget Range	From "Under ₱50,000" to "₱1,000,000+", or "To be discussed".
Target Timeline / Date	Free text, e.g. "Q3 2026" or "Immediate".
Phone / Viber Number *	So the team can call or message you.
Project Details / Message *	Describe what you need (up to 10,000 characters).

3. Click **Send Message via Email**. The button shows "Submitting…" while it sends.
4. A success screen shows your **reference ticket** (for example `APG-1A2B3C4D`). Write it down. Click **SUBMIT ANOTHER INQUIRY** or **EXPLORE ENTERPRISES** to continue.

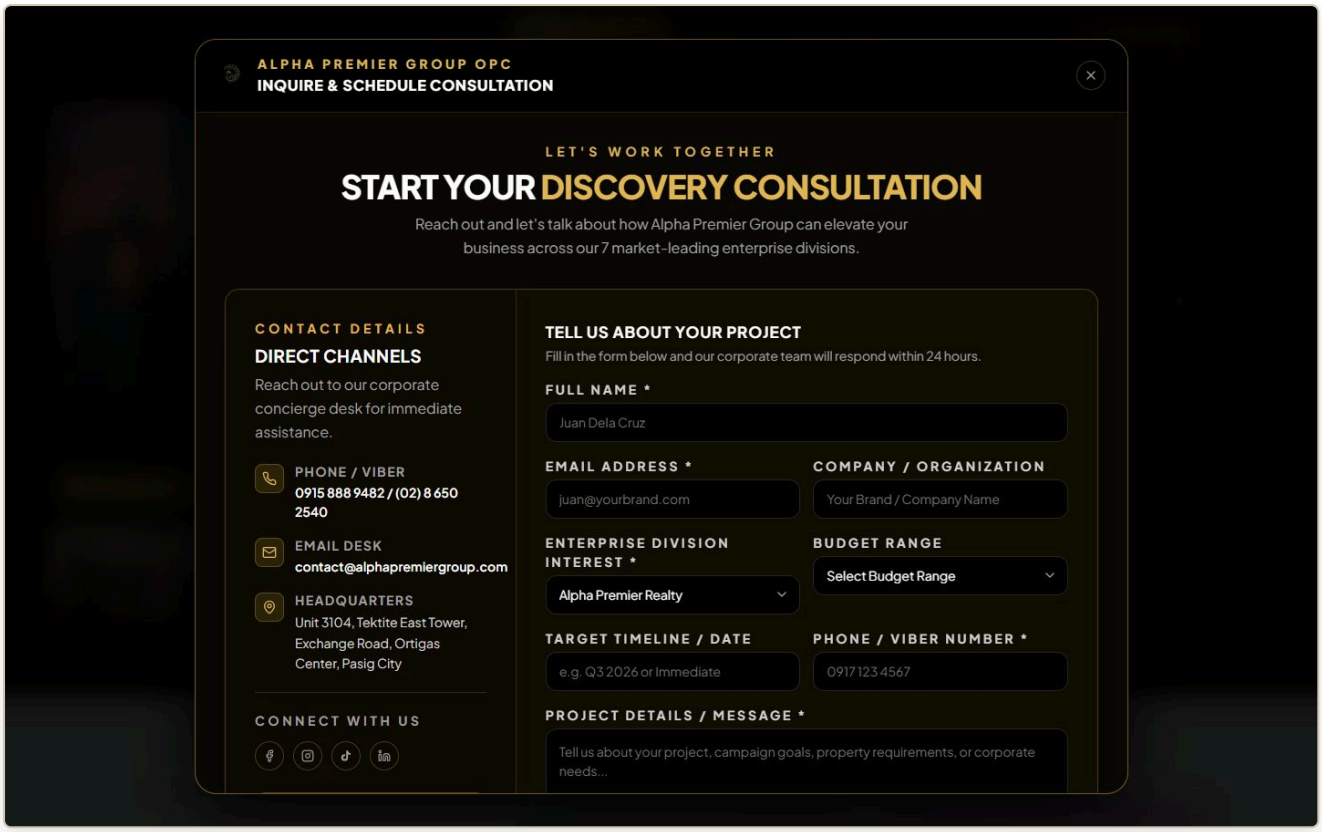

Figure 12. The inquiry pop-up opened from the Enterprises page. The contact details on the left let you call or email directly.

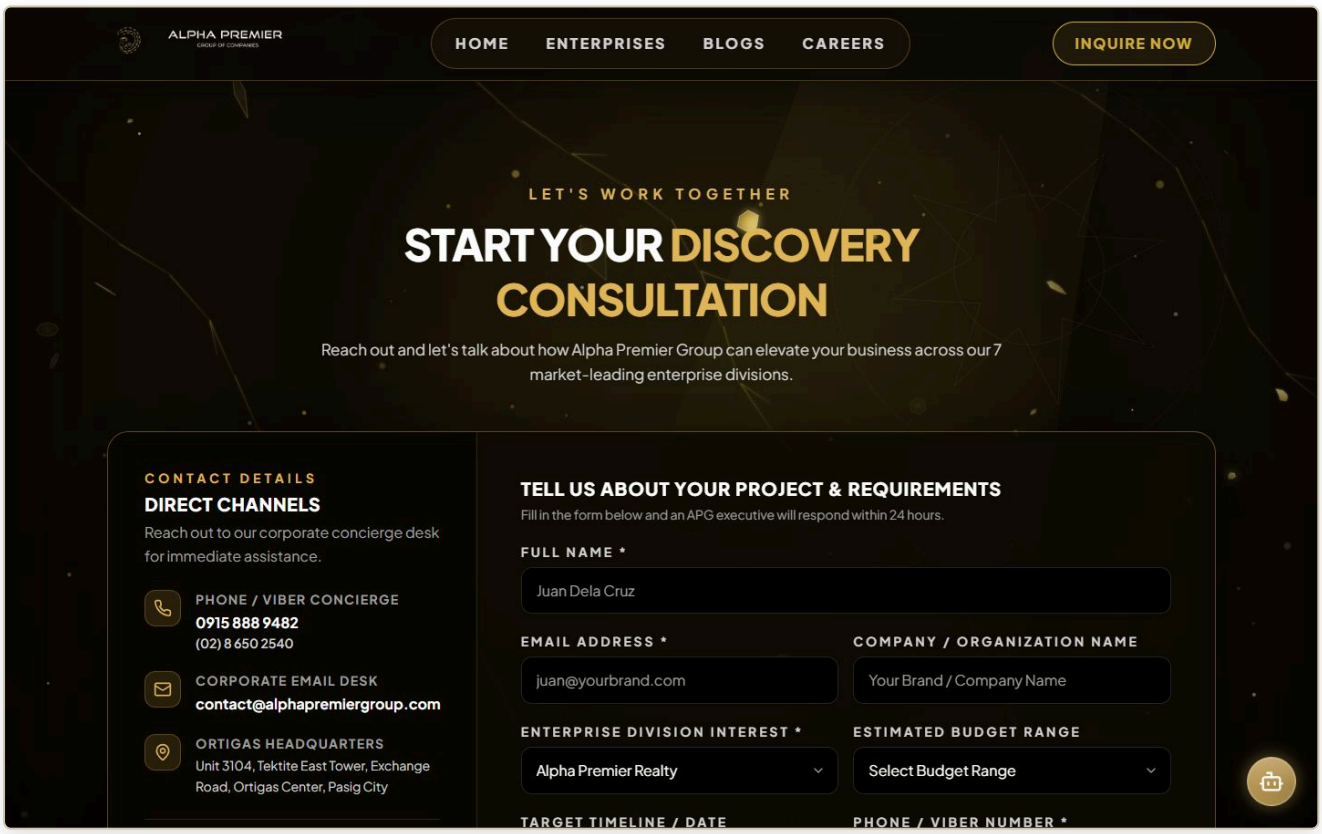

Figure 13. The inquiry form on the Inquire page.

WHAT HAPPENS NEXT

- The APG team receives your inquiry by email immediately and can reply to you directly.
- You receive a branded confirmation email: “We've received your inquiry [your ticket]”. The team aims to reply within one business day.

IMPORTANT

- Take at least a few seconds to fill in the form. Forms sent in under 3 seconds, or more than 4 hours after the page was opened, are rejected as possible spam. Refresh the page and try again.
- Avoid web links in your name, and use no more than two links in the message.
- You can send up to 5 forms every 10 minutes.

5.2 Contact page

The Contact page (`alphapremiergroup.com/contact`) lists the office phone, email and address, and has a short form: **Your Name***, **Your Email***, **Subject** and **Your Message***. Click **Send Message**. On success you see “Message sent successfully! Ticket: APG-…”.

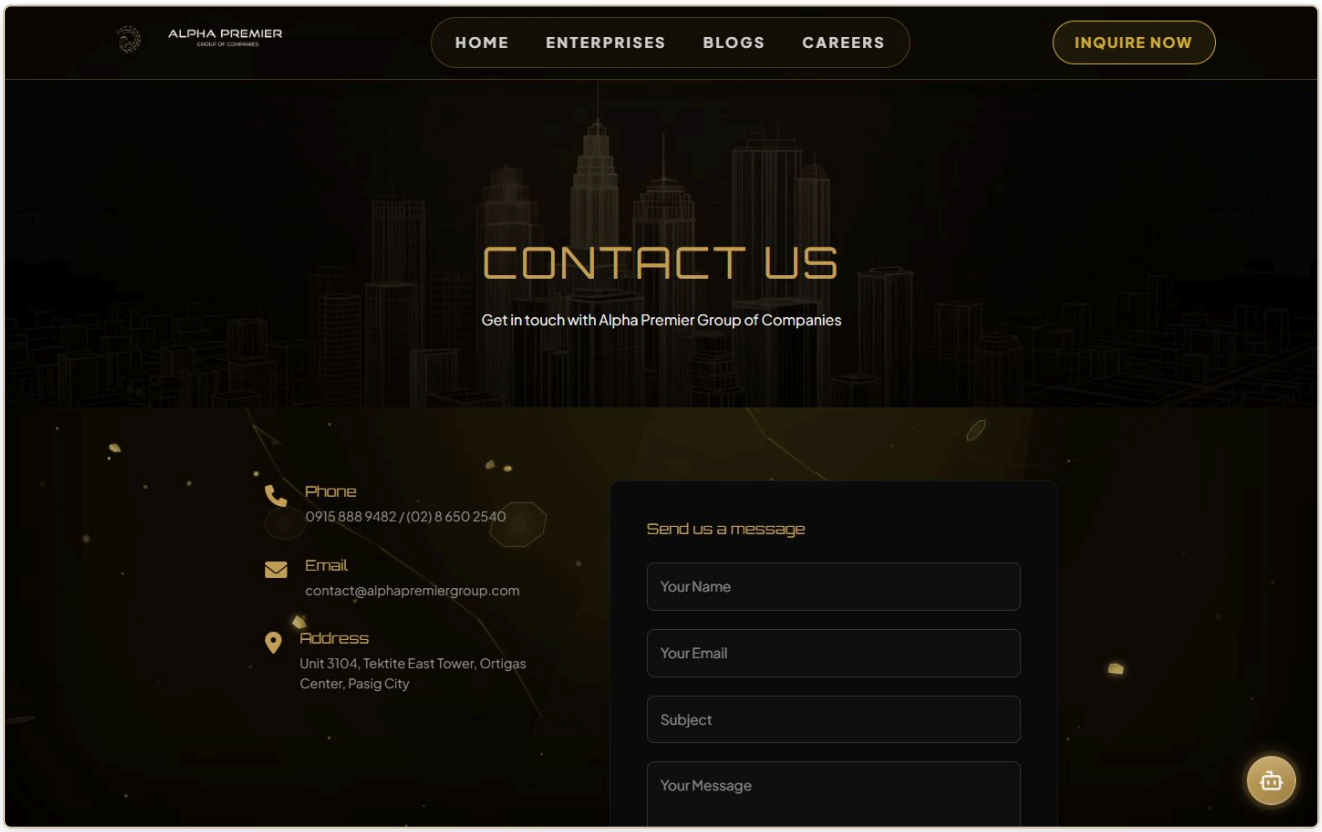

Figure 14. The Contact page.

5.3 Security check

Every form is protected against automated spam by an invisible check. Almost all visitors never see it. If the system is unsure, a small “verify you are human” checkbox appears at the bottom-right of the screen. Tick it, then submit again.

6 Careers: finding and applying for jobs

6.1 Browse open positions

1. Click **CAREERS** in the top bar.
2. Click **EXPLORE OPEN POSITIONS** to jump to the job list, or **WHY JOIN US** to read about working at APG.
3. Type in the search box to search job titles, descriptions and locations, or click a division filter (**ALL**, **Real Estate**, **Construction**, **Corporate**, **Business Hub**, **Swift Clear**).
4. Click **View Full Details** on a job card to see its responsibilities and requirements. Click **Less Details** to collapse it.

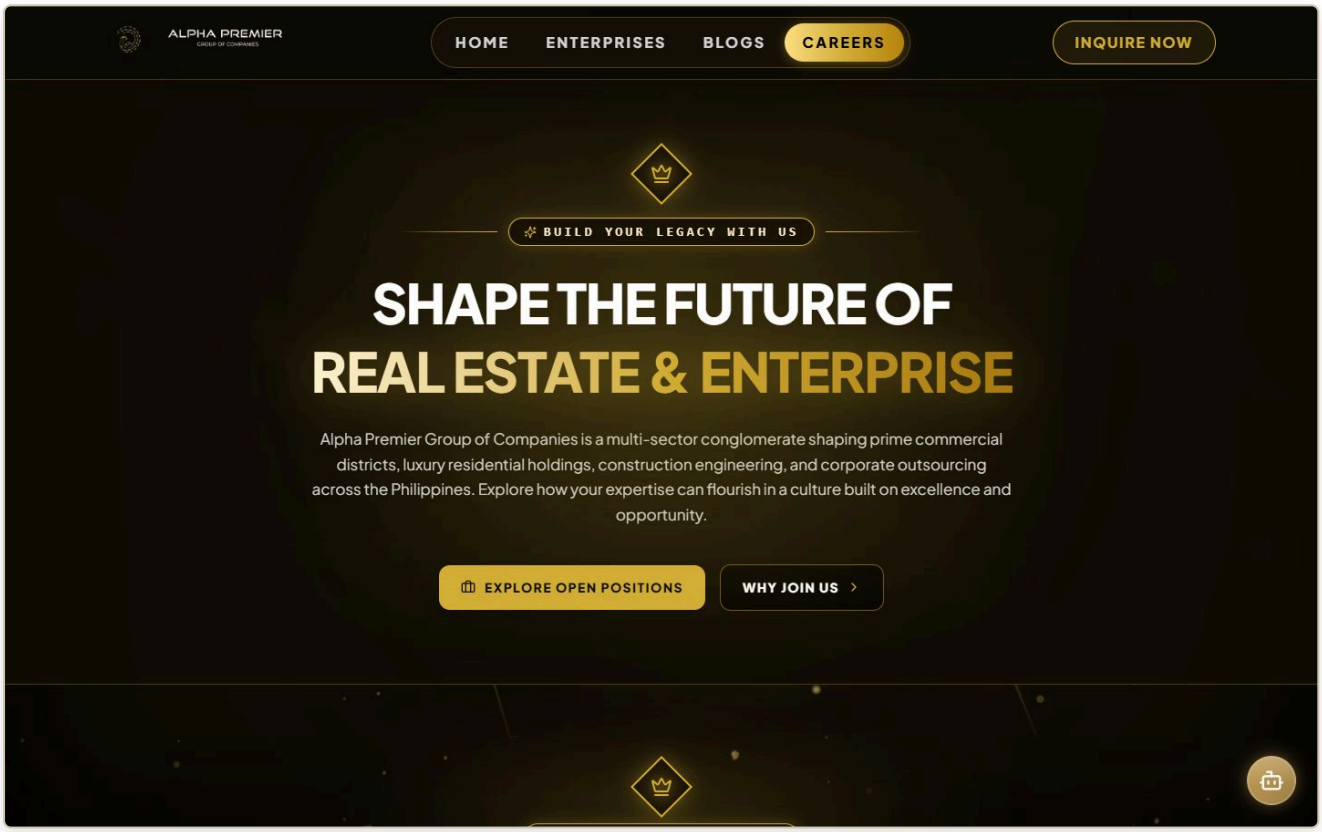

Figure 15. The Careers page.

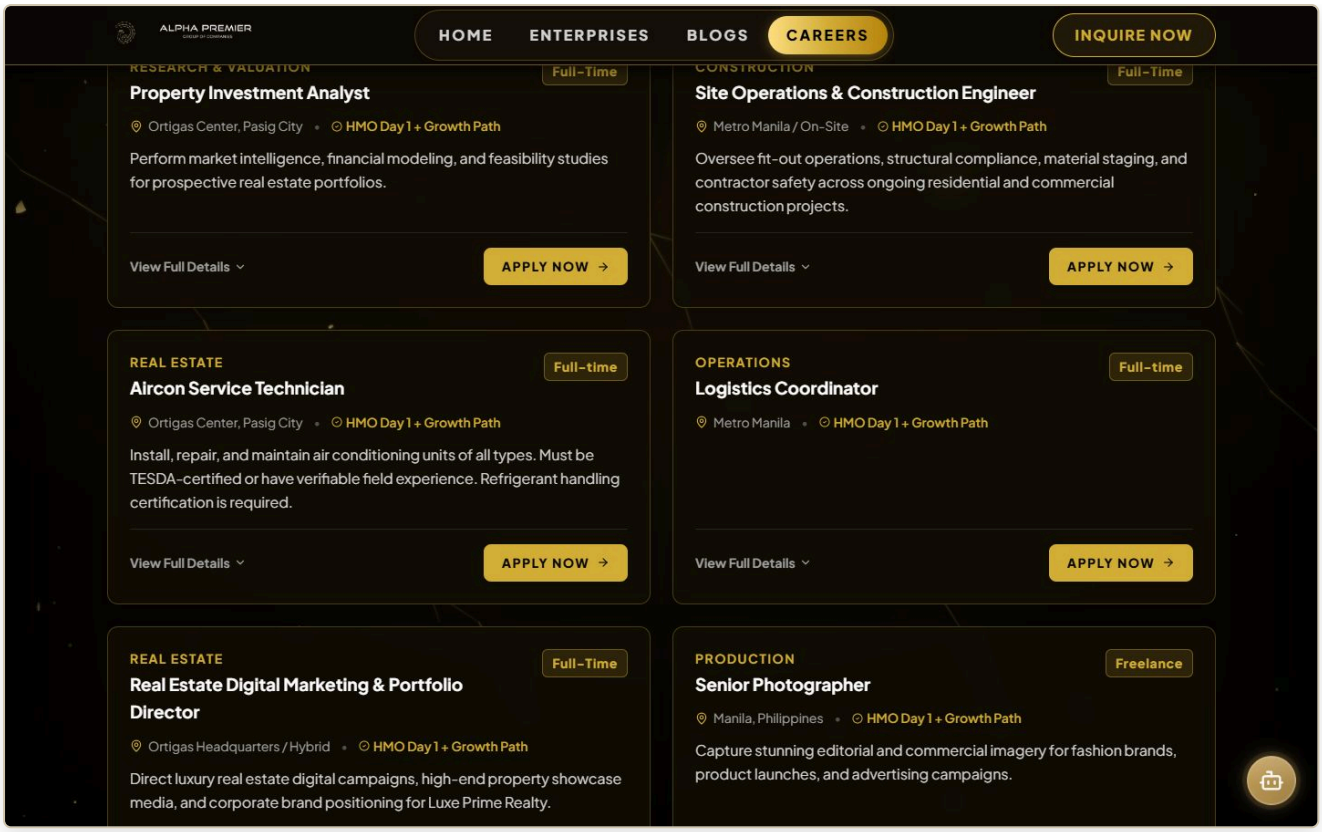

Figure 16. Job cards with “View Full Details” and “APPLY NOW”.

6.2 Apply for a job

1. Click **APPLY NOW** on the job you want. To be considered for any suitable role, click **SUBMIT GENERAL RESUME** at the bottom of the list instead.
2. On the **Job Application Portal**, check the position in **Applying for position**. You can switch to another job or to “General Application”.
3. Enter your **Full Name***, **Email Address*** and **Mobile Number***.
4. Click **↑ BROWSE** and choose your resume (PDF, DOC or DOCX, up to 15 MB).
5. Optionally write a **Career Summary / Cover Note** (up to 10,000 characters).
6. Click **SUBMIT APPLICATION**. You will see “Application Received!” with a reference such as `APG-APP-1A2B3C4D`.

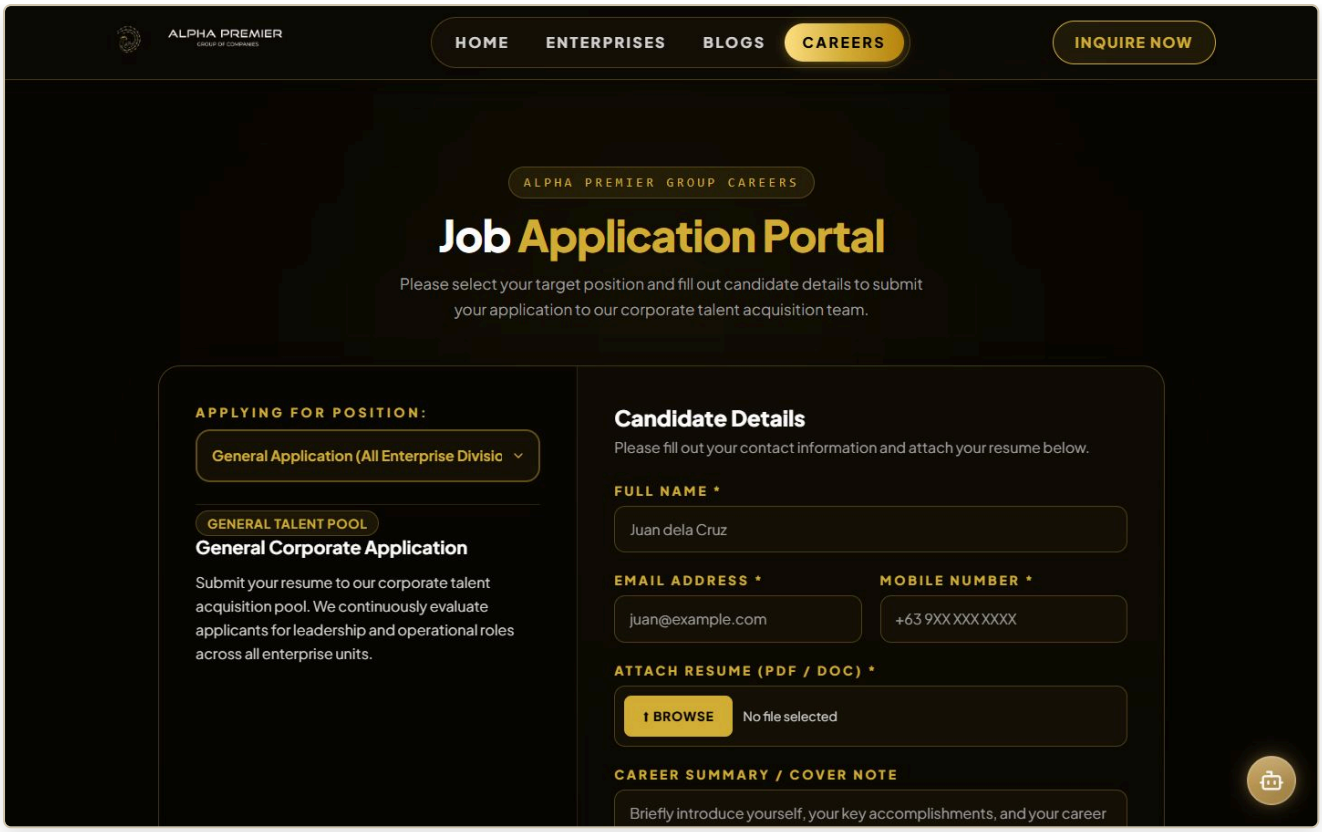

Figure 17. The Job Application Portal.

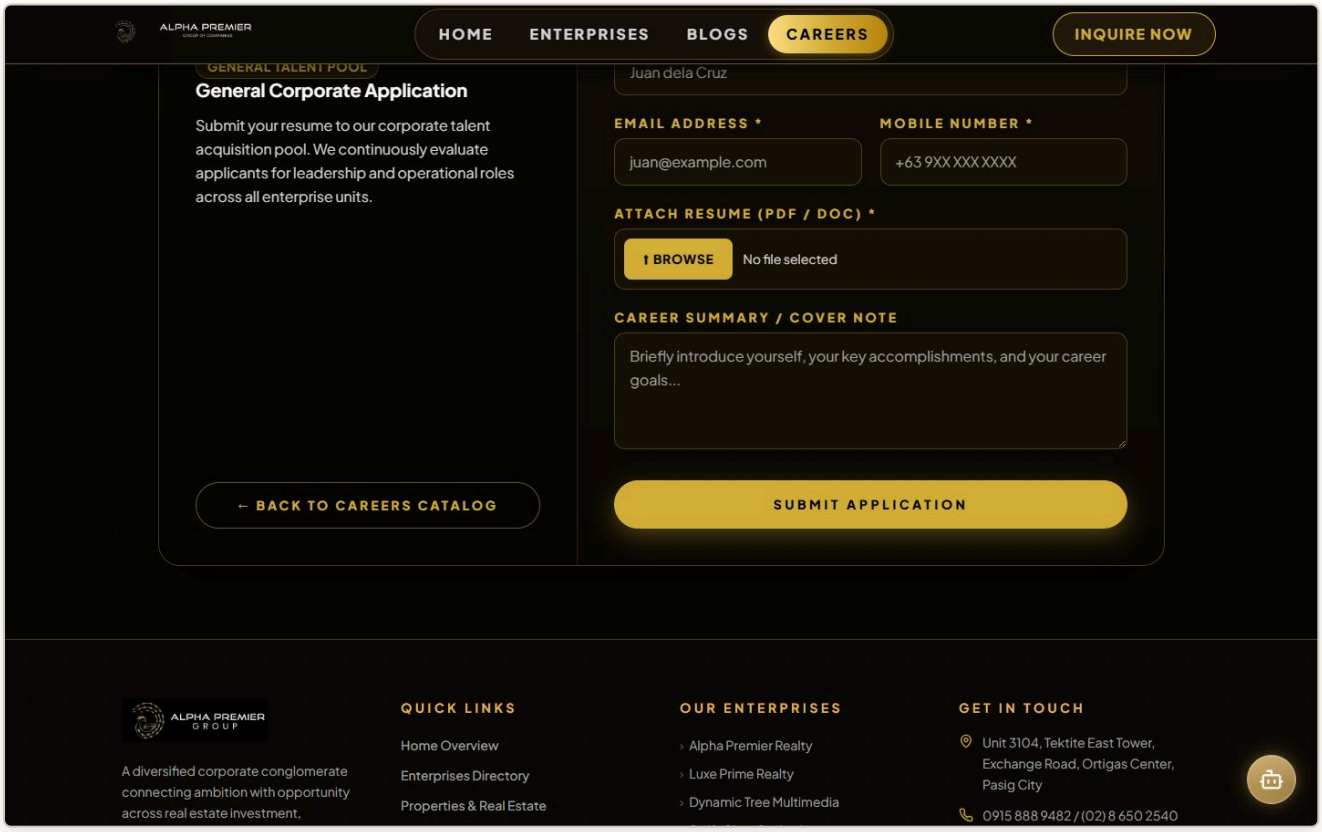

Figure 18. Candidate details and resume upload.

AFTER YOU APPLY

- You receive an email: “We've received your application [reference]”. It confirms the position and whether your resume was received.
- Your application goes straight to HR with your resume attached and an automatic suitability score.
- Missing a field shows a message under it, e.g. “Please attach your Resume / CV file”.

TIP

Make sure your resume is a text-based PDF or Word file, not a photo of a printed page. The screening system reads the text to match your skills to the job.

6.3 Share your experience (feedback)

Employees, applicants and clients can send feedback about working with APG from the Careers page (and from the Alpha Premier Realty careers page).

1. On the Careers page, scroll to the testimonials and click **Add Feedback**.
2. Enter your **Full Name***, **Email Address*** and **Role / Position***, and choose your **Division**.
3. Choose a star **Rating** and write your **Feedback / Testimonial***.
4. Click **Submit Feedback**. “Feedback Submitted!” appears, and you receive a thank-you email.

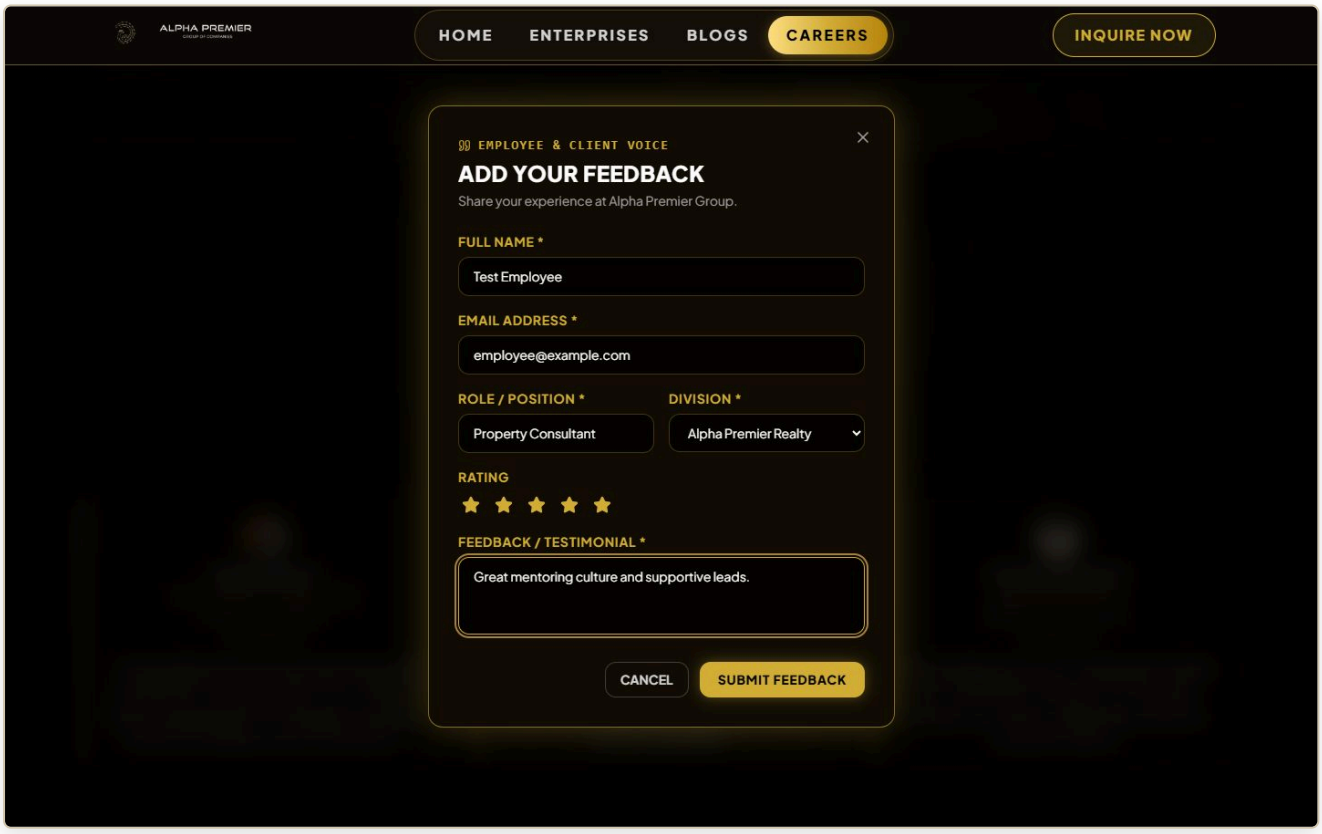

Figure 19. The feedback form on the Careers page.

> **NOTE**
>
> Feedback goes privately to the HR team. It is not published on the website automatically; HR may ask your permission to feature it.

7 Blogs & news

1. Click **BLOGS** in the top bar.
2. Filter by category (**ALL**, **REAL ESTATE**, **CONSTRUCTION**, **BUSINESS HUB**, **LEADERSHIP**, **LOGISTICS**, **MARKET UPDATE**) or type in **Search articles...**.
3. Click **READ FULL ARTICLE** on the featured article (shown when ALL is selected and the search is empty), or **READ ARTICLE** on any card.
4. The article opens in a reading window. Use **INQUIRE NOW** to contact the team, and × or Esc to close.
5. To share the article, click **Share**. A direct link to the article is copied ("Copied!" appears). Paste it into a message or email; anyone who opens it lands on that article.

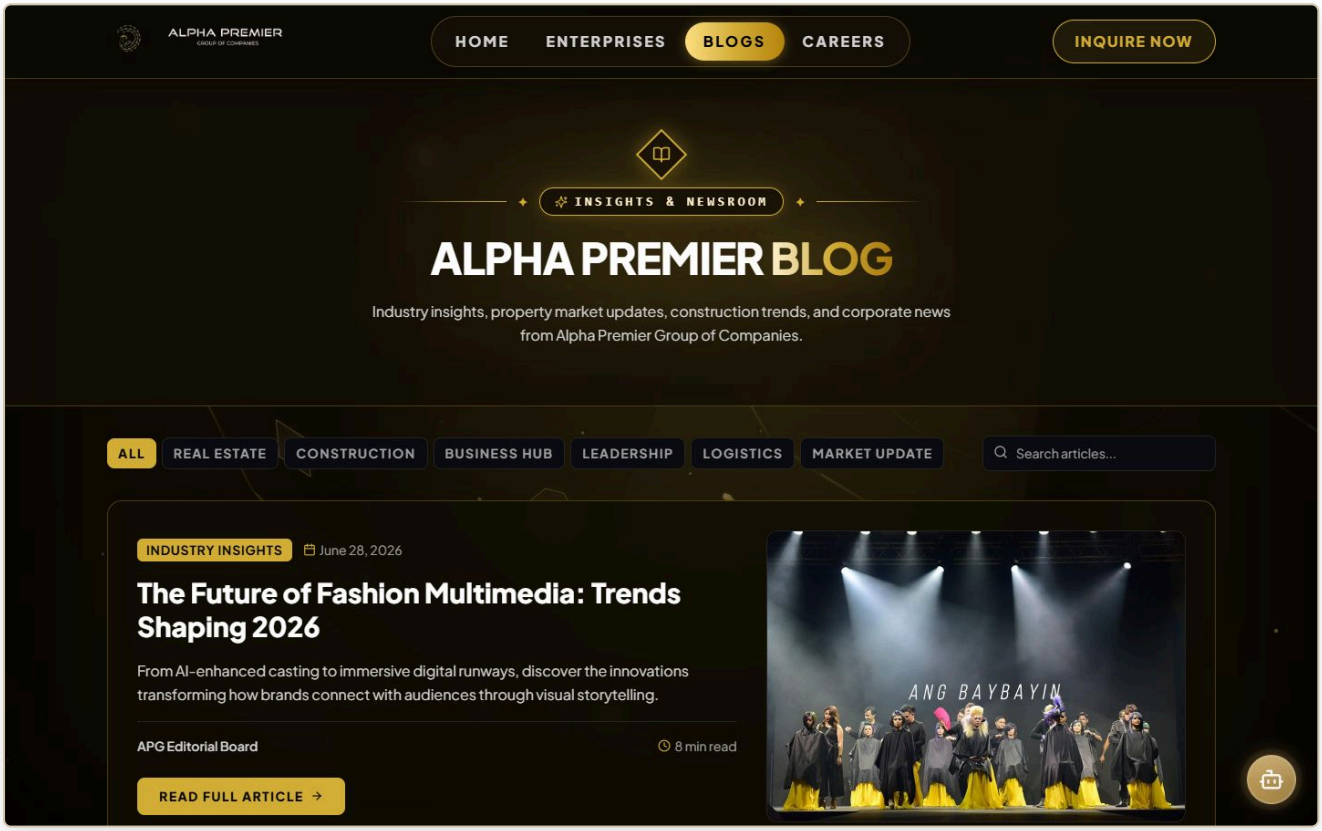

Figure 20. The blog list with category filters and search.

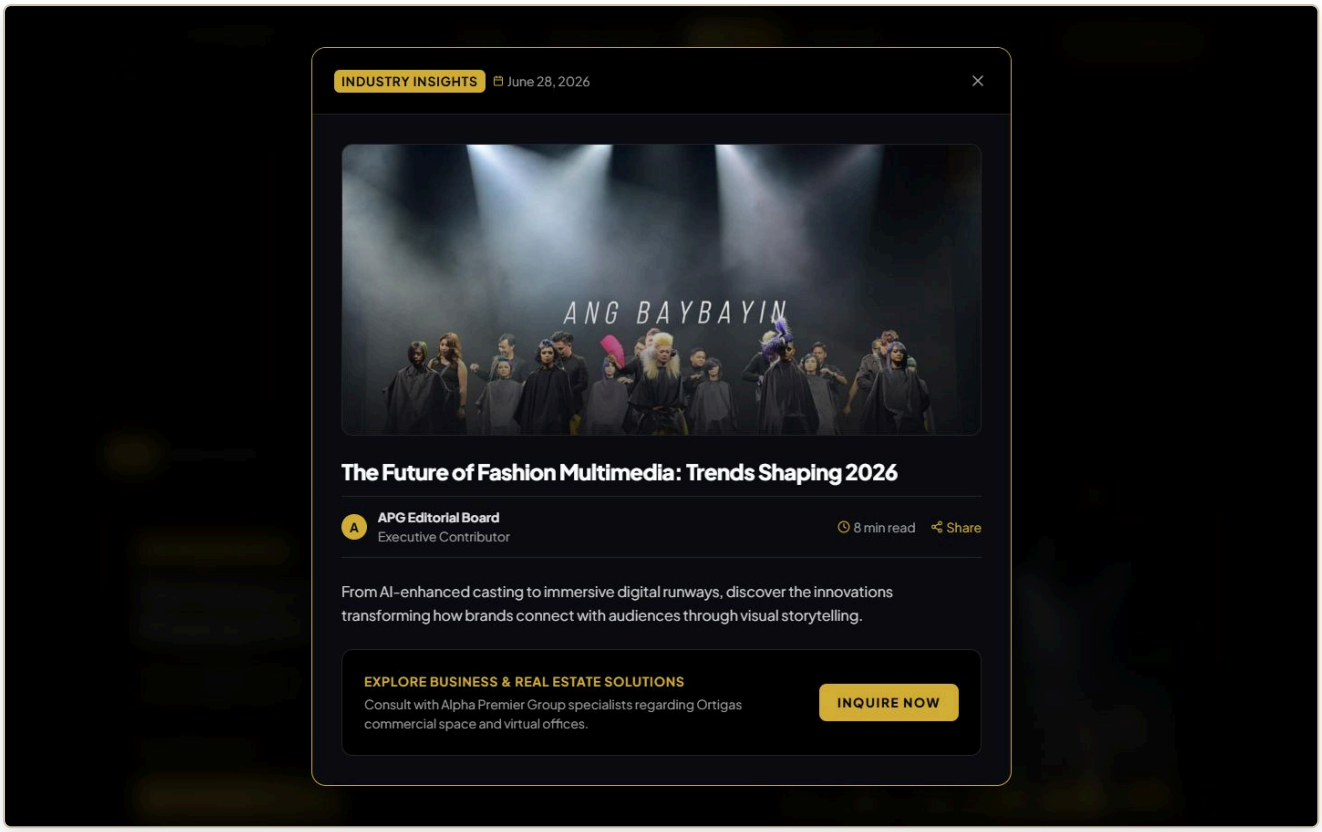

Figure 21. An article open in the reading window.

8 Virtual Office

The Virtual Office page (`virtual-office.alphapremiergroup.com`) presents business-address packages in Ortigas Center (for example Bronze, Silver, Gold and Platinum). Each package card shows its price and inclusions.

1. Open the Virtual Office site and scroll to the packages.
2. Compare the inclusions and click **INQUIRE NOW** on the package you want.
3. Complete the inquiry form (Chapter 5) and mention the package in your message.

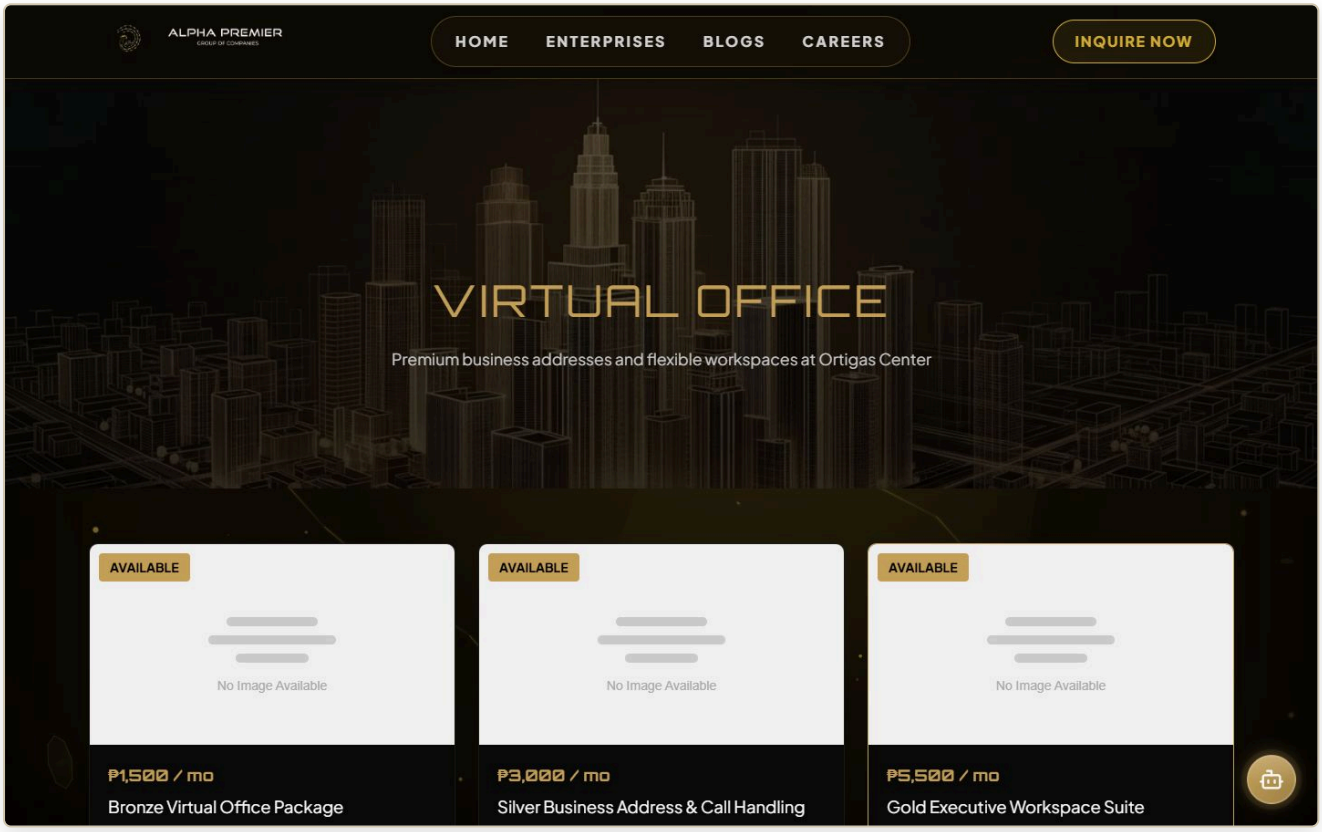

Figure 22. The Virtual Office page.

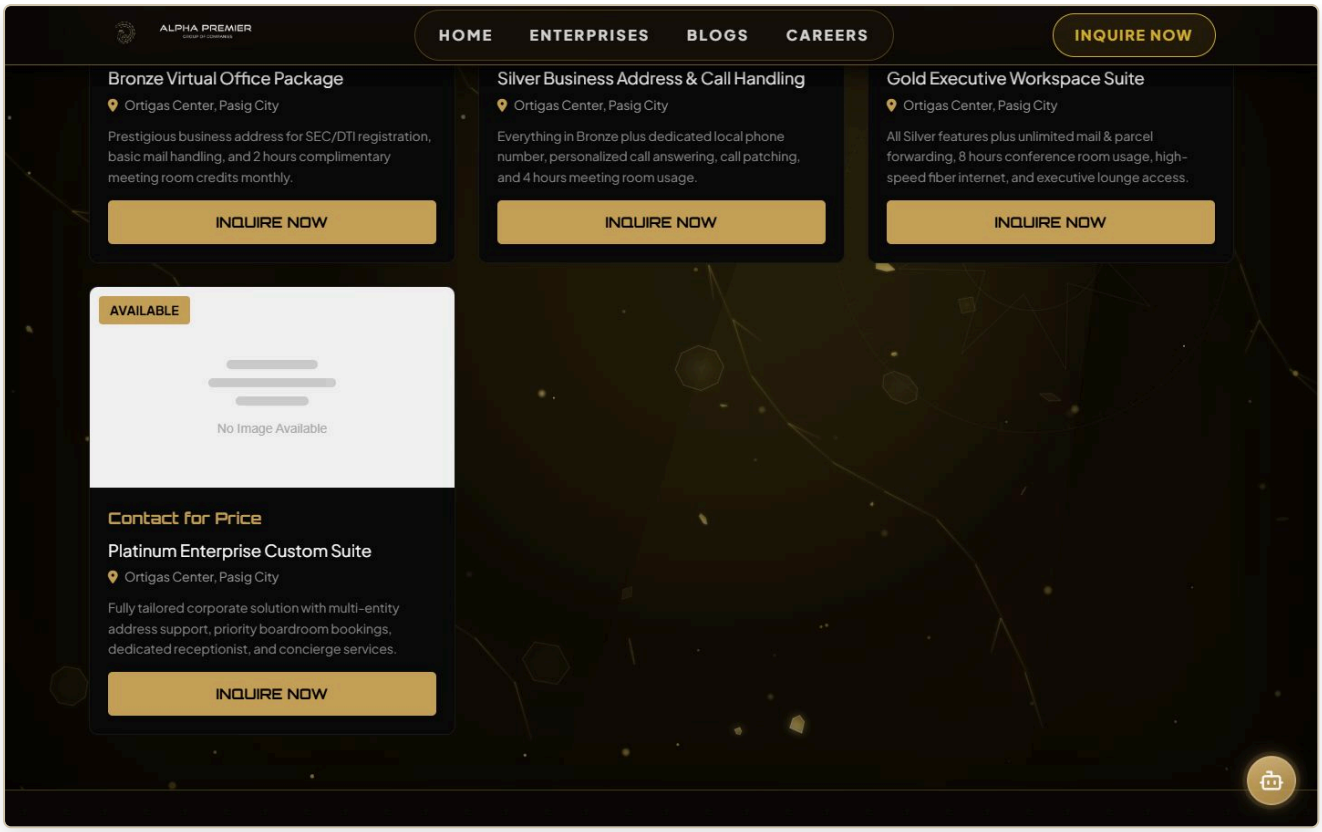

Figure 23. Virtual Office packages.

9 The chat assistant

Every page of every site has a chat assistant. It answers questions about services, prices, locations, office hours, careers and available properties, and connects you with a real person when needed.

9.1 Start a chat

1. Click the round gold chat button at the bottom-right of the page.
2. Read the welcome message, then either click a **quick-reply** button (e.g. **Properties & Realty**) or type your question in the box and press Enter.
3. To close the window, click ×, the chat button again, or anywhere outside the chat.

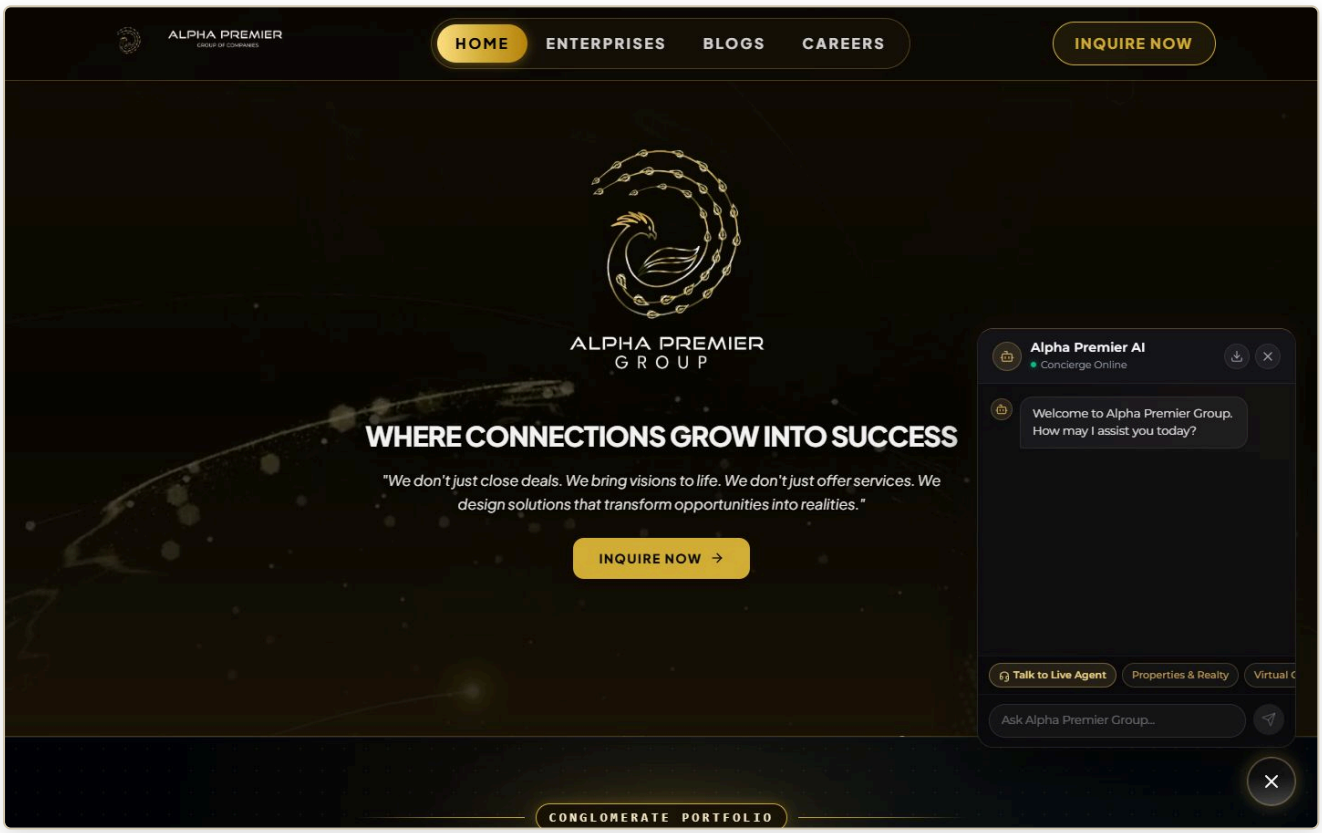

Figure 24. A new chat, with quick-reply buttons above the message box.

Each enterprise site has its own assistant (for example “Alpha Realty AI” or “SwiftClear AI”) with quick replies for that company's services.

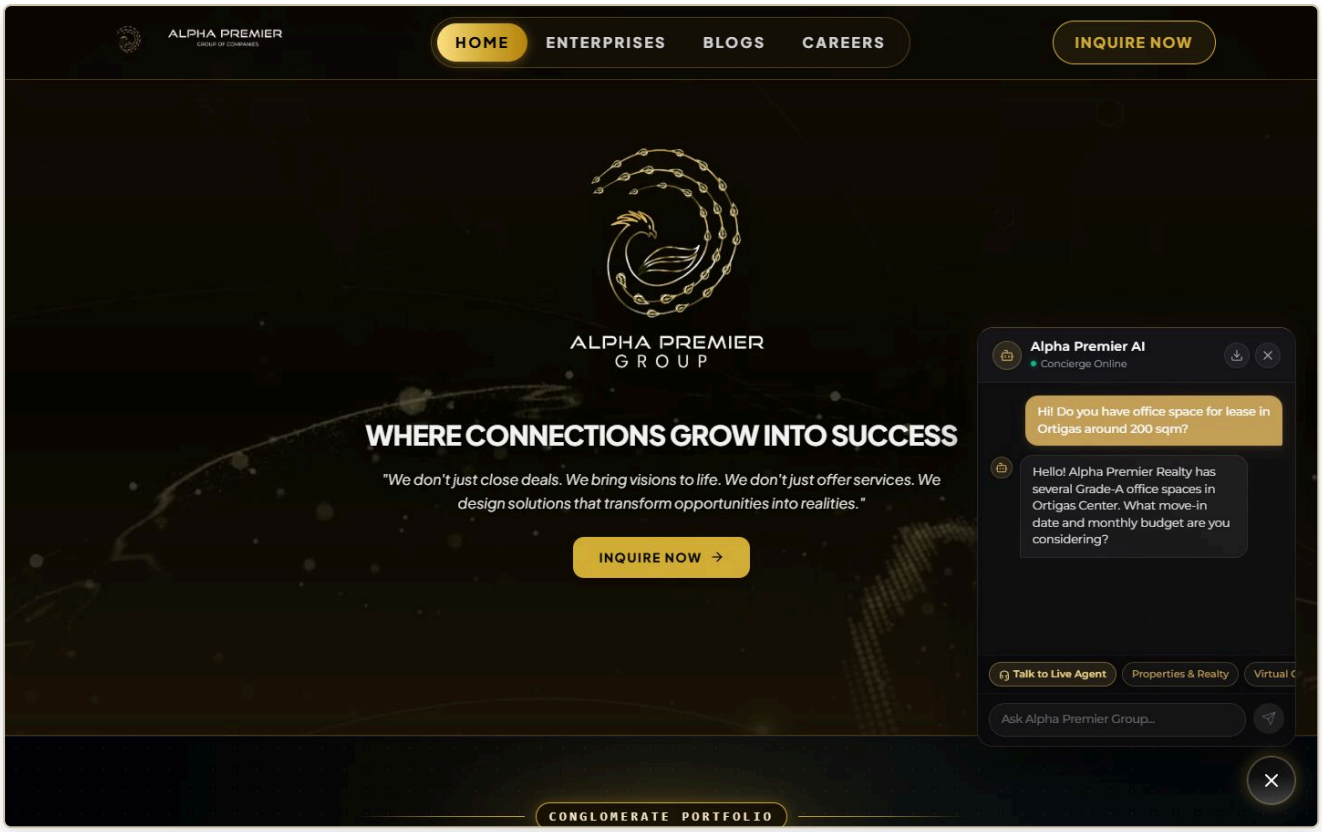

Figure 25. The assistant answering a question.

9.2 Talk to a live agent

You are connected to a person when you:

- click the **Talk to Live Agent** quick reply;
- ask for an agent, broker, representative, manager or specialist;
- ask about negotiating, discounts, payment terms or a viewing schedule; or
- the assistant cannot understand two messages in a row.

1. The assistant replies “Connecting you to a live representative…” and the team is alerted by email.
2. While you wait, add any details (budget, dates, requirements). The agent will see them.
3. When an agent joins, the header shows their name with “Broker Live”, and a green banner reads “You're now chatting with [name]”. Their messages are marked with their name.

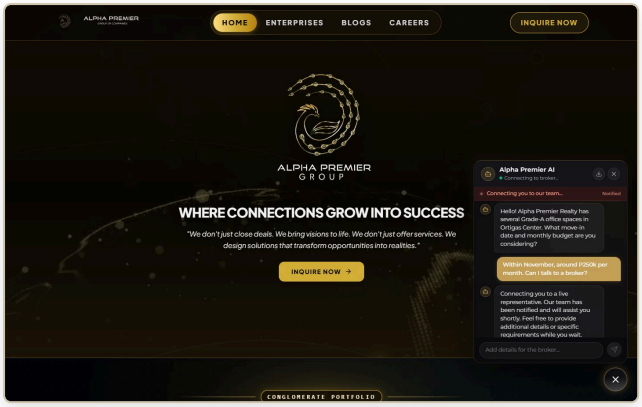

Figure 26. Waiting for an agent.

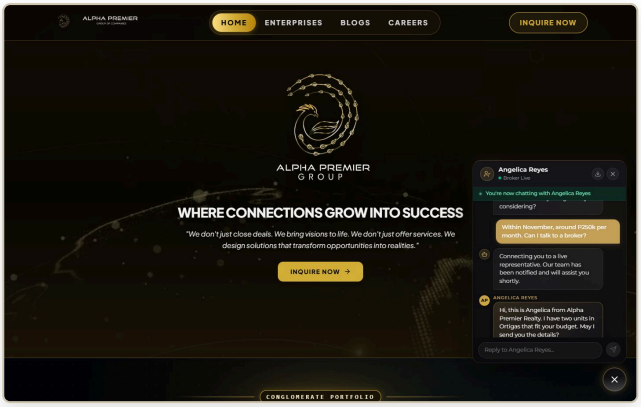

Figure 27. A live agent has joined.

9.3 Transcripts, closed chats and returning later

- **Download a transcript:** click the download icon in the chat header to save the conversation as a PDF.
- **Closed chats:** when the agent resolves your inquiry, you see "Conversation resolved & closed". Click **Start New Chat** to ask something else.
- **Coming back:** your conversation is remembered in this browser, even if you reload the page or move to another APG site. A red number on the chat button shows unread agent replies.

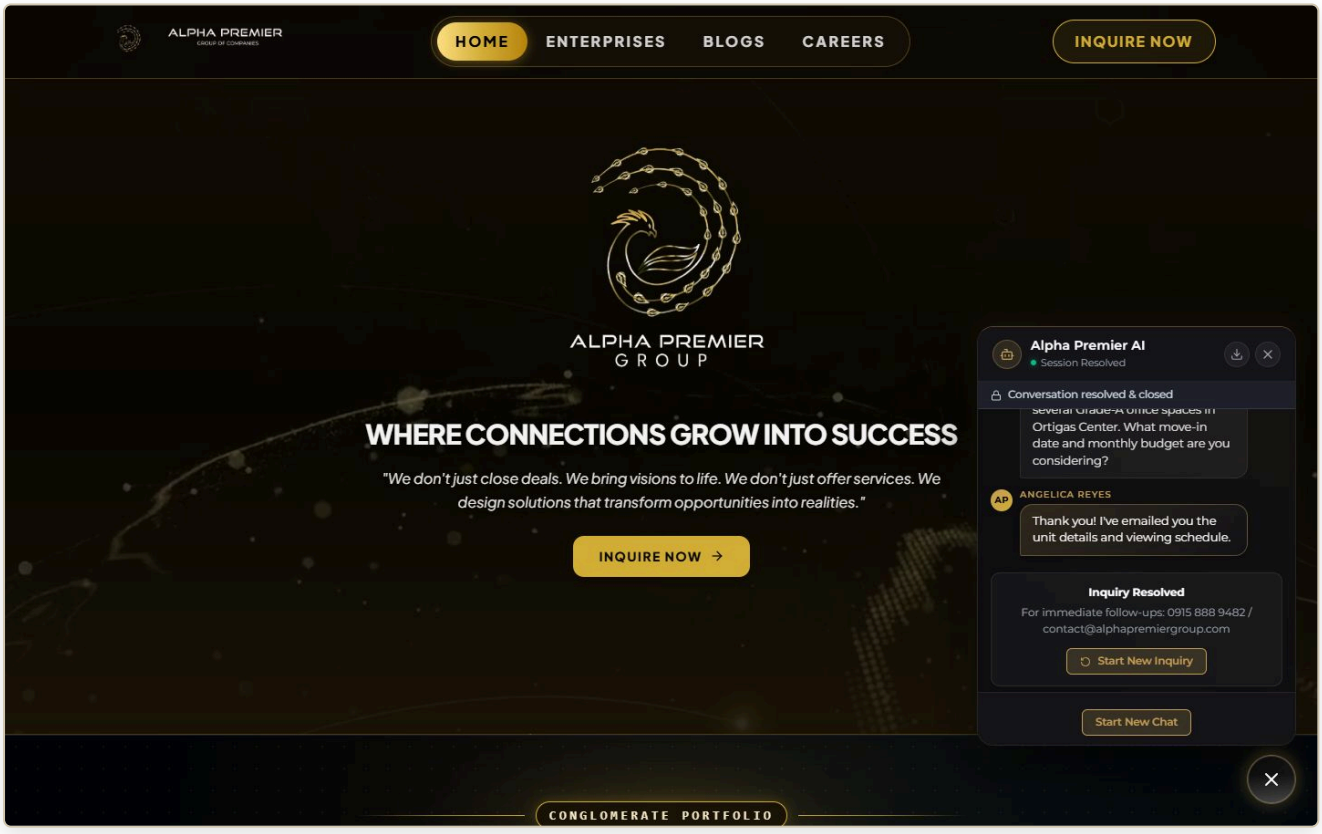

Figure 28. A resolved conversation with the "Start New Chat" option.

> **NOTE**
>
> Agent replies appear only inside the chat window; they are not emailed. Keep the page open (or come back later in the same browser) to see them. For urgent matters call 0915 888 9482 or (02) 8 650 2540.

10 Enterprise sites

Each APG company has a branded website. They share a common layout: an **‹ APG MAIN SITE** button that returns to the group website, a menu (Home, Services, Blogs, Careers), an **Inquire** button, a footer with contact details, and the company's own chat assistant.

10.1 Alpha Premier Realty and live property listings

`realty.alphapremiergroup.com` — property brokerage, leasing and valuation. Its home page shows an **Available now** strip with the newest listings and a **View all** link.

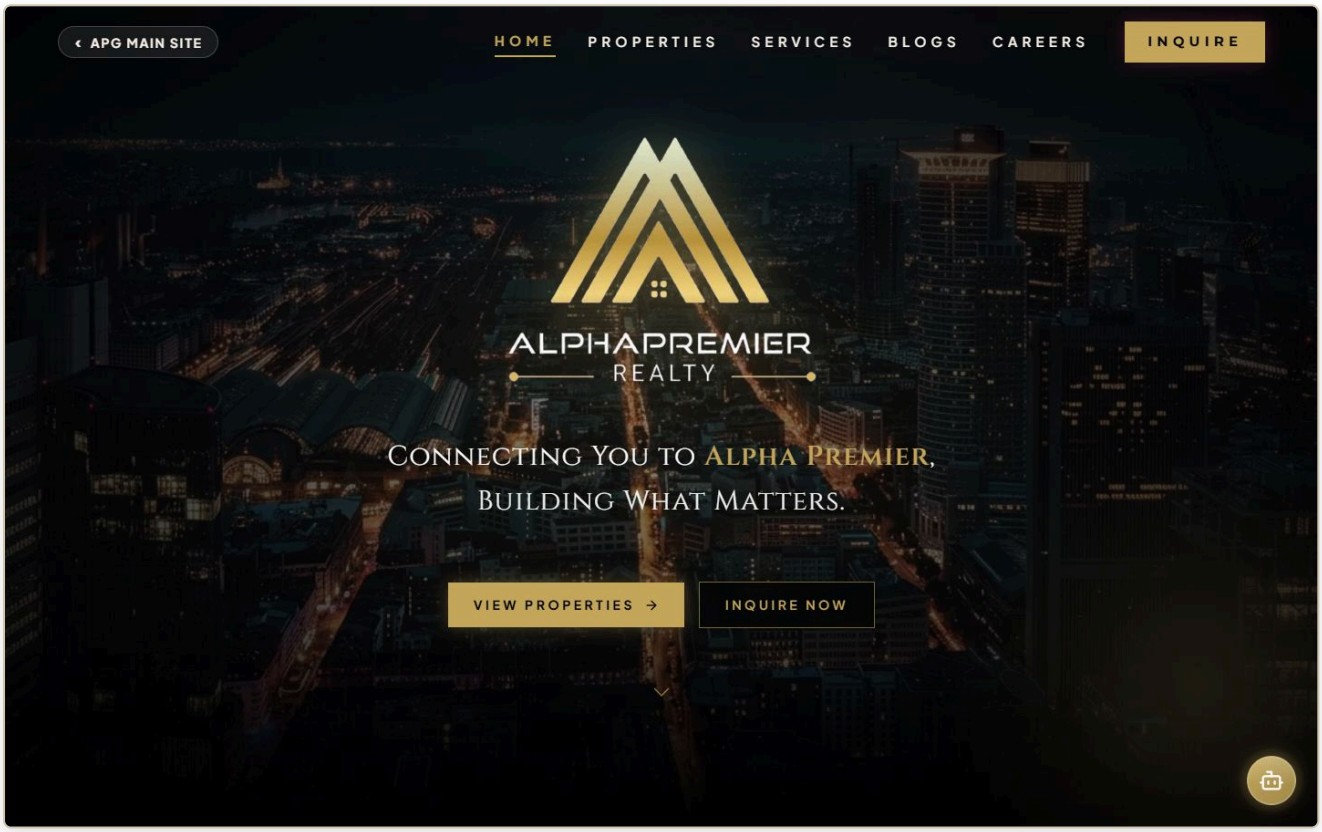

Figure 29. Alpha Premier Realty home page.

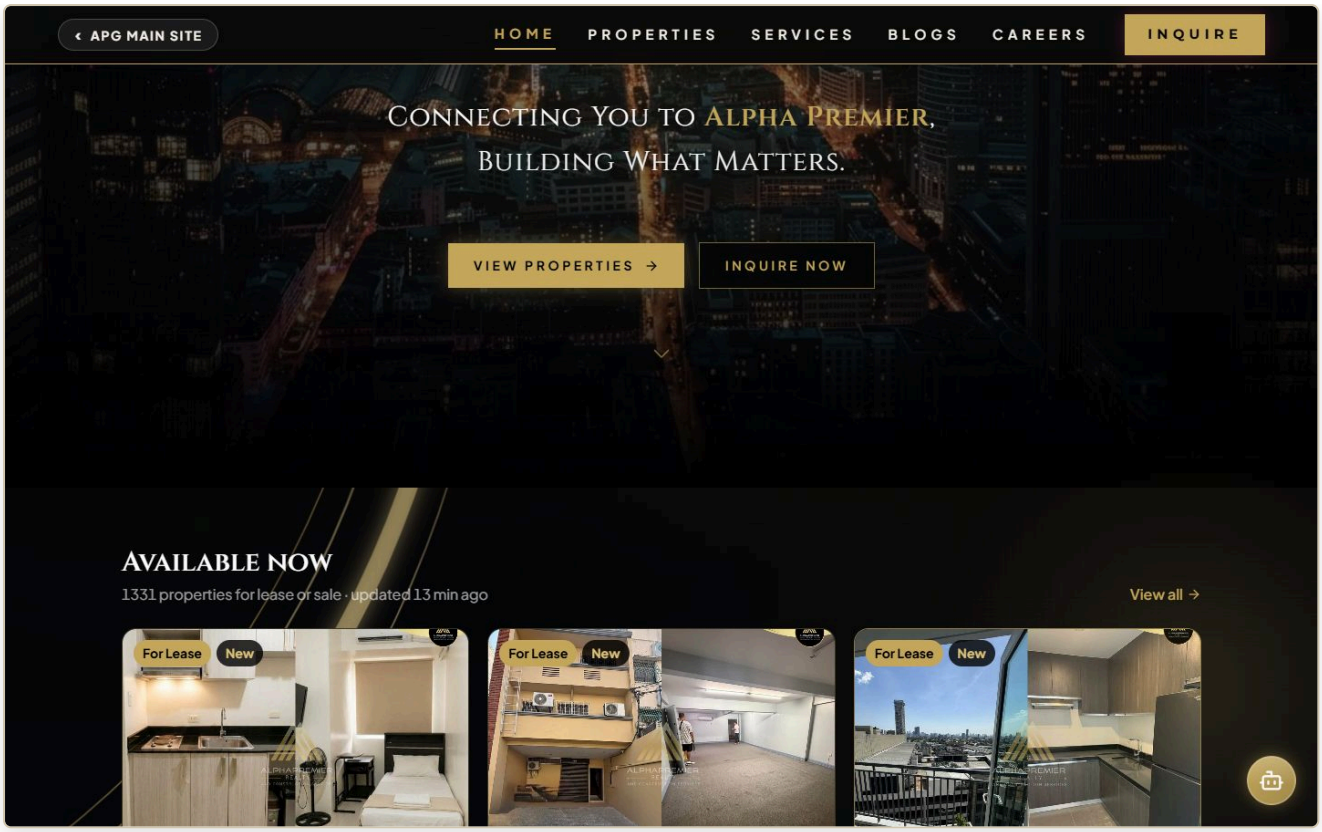

Figure 30. The "Available now" strip on the Realty home page.

FIND A PROPERTY

1. Click **PROPERTIES** (or **VIEW PROPERTIES**). The page shows how many properties are available and when the list was last updated.
2. Type a city, size or reference number in **Search city, size or ref**.
3. Choose **All**, **For Lease** or **For Sale**.
4. Click a property-type chip (e.g. **Lot**, **Commercial Space**, **Warehouse**, **Office Space**). The number on each chip is how many are available.

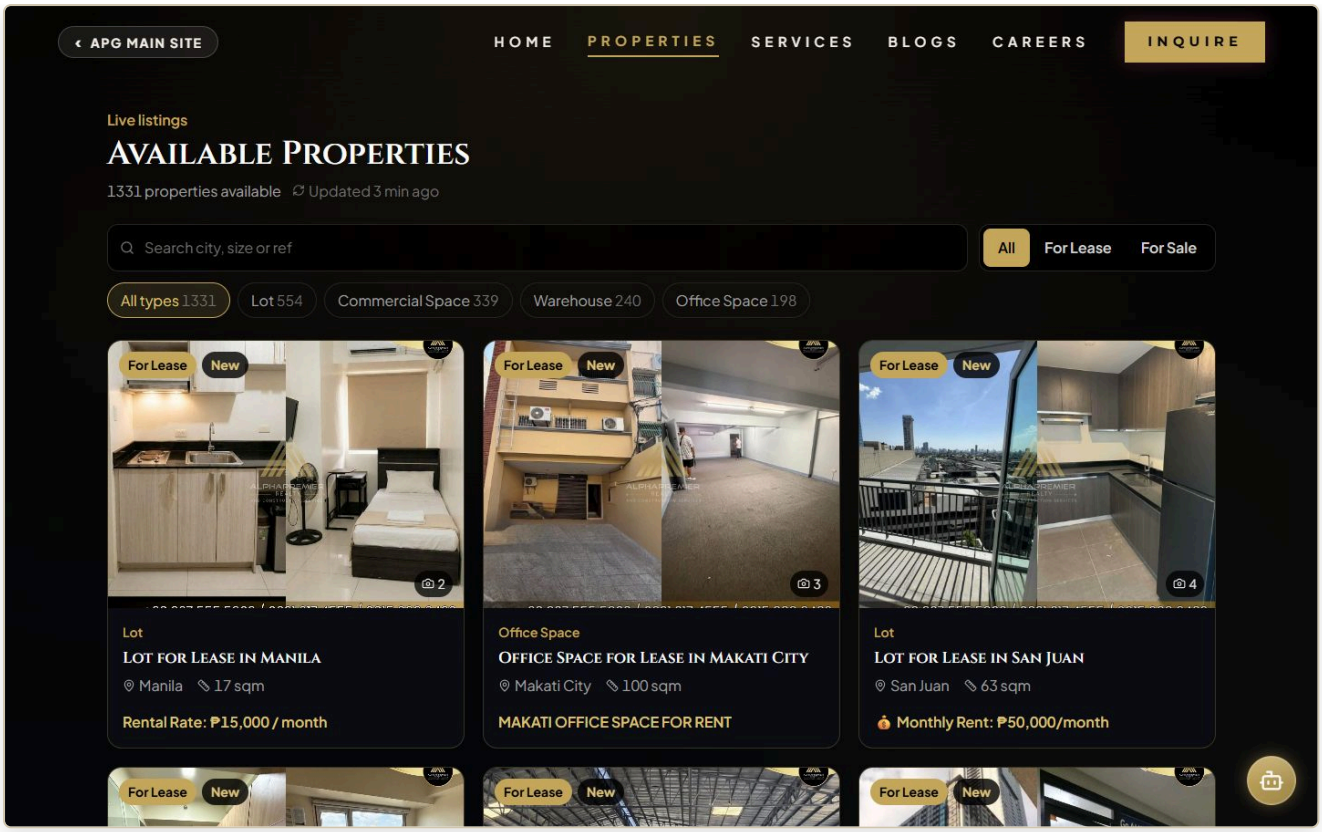

Figure 31. The Available Properties page with search and filters. "New" marks listings added in the last 14 days.

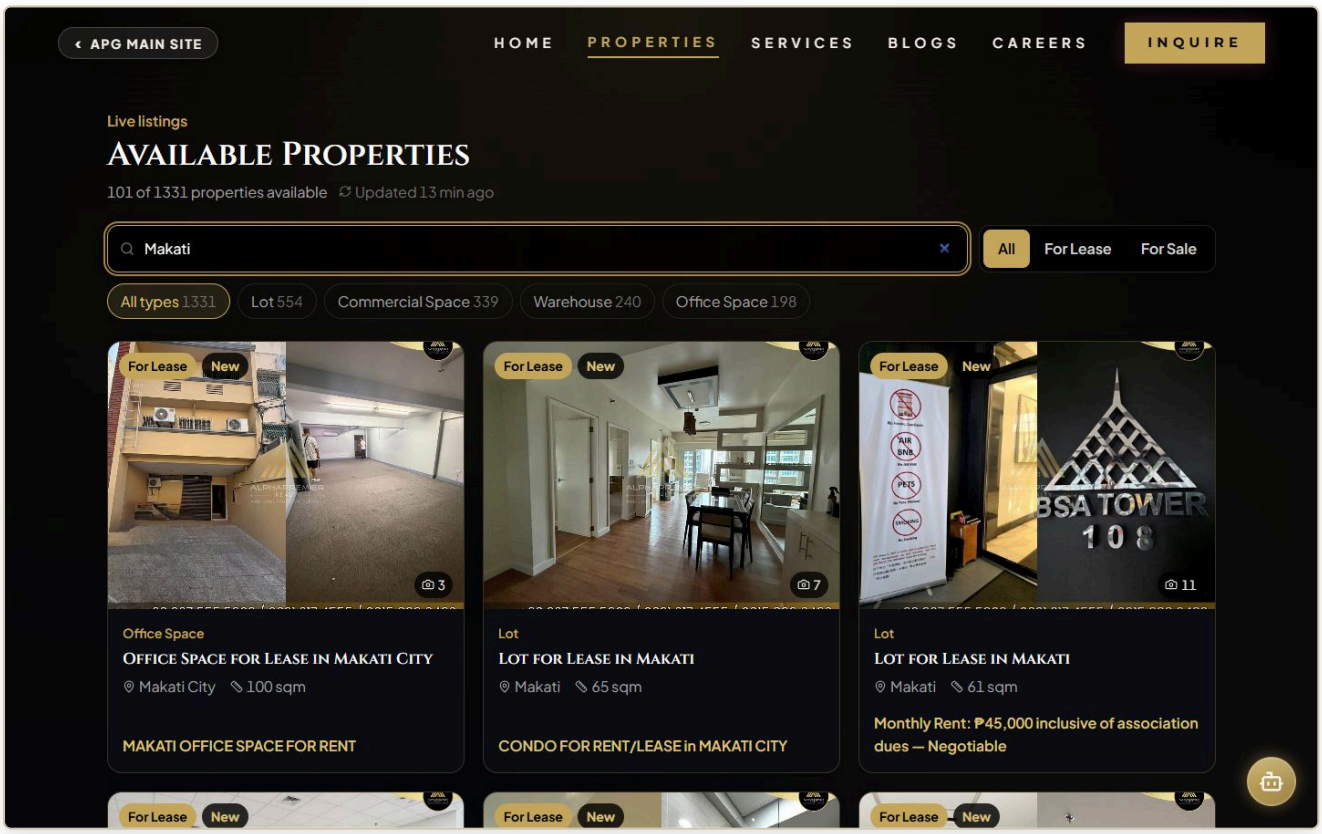

Figure 32. Searching for "Makati".

> **TIP**
>
> Your search and filters are saved in the page address. Copy the address from your browser to share the same filtered list with someone.

VIEW A PROPERTY AND INQUIRE

1. Click a property card. A window opens with photos, type, area, size, rate and key terms.
2. Use the arrows, the thumbnails or your keyboard's arrow keys to browse photos.
3. Click **Inquire about this property**. The Realty inquiry form opens with the property reference (e.g. `APR-1BC5A4`) filled in.
4. Enter your name, email and Viber number and your notes, tick the privacy checkbox, and click **SUBMIT SECURE INQUIRY FILE**.

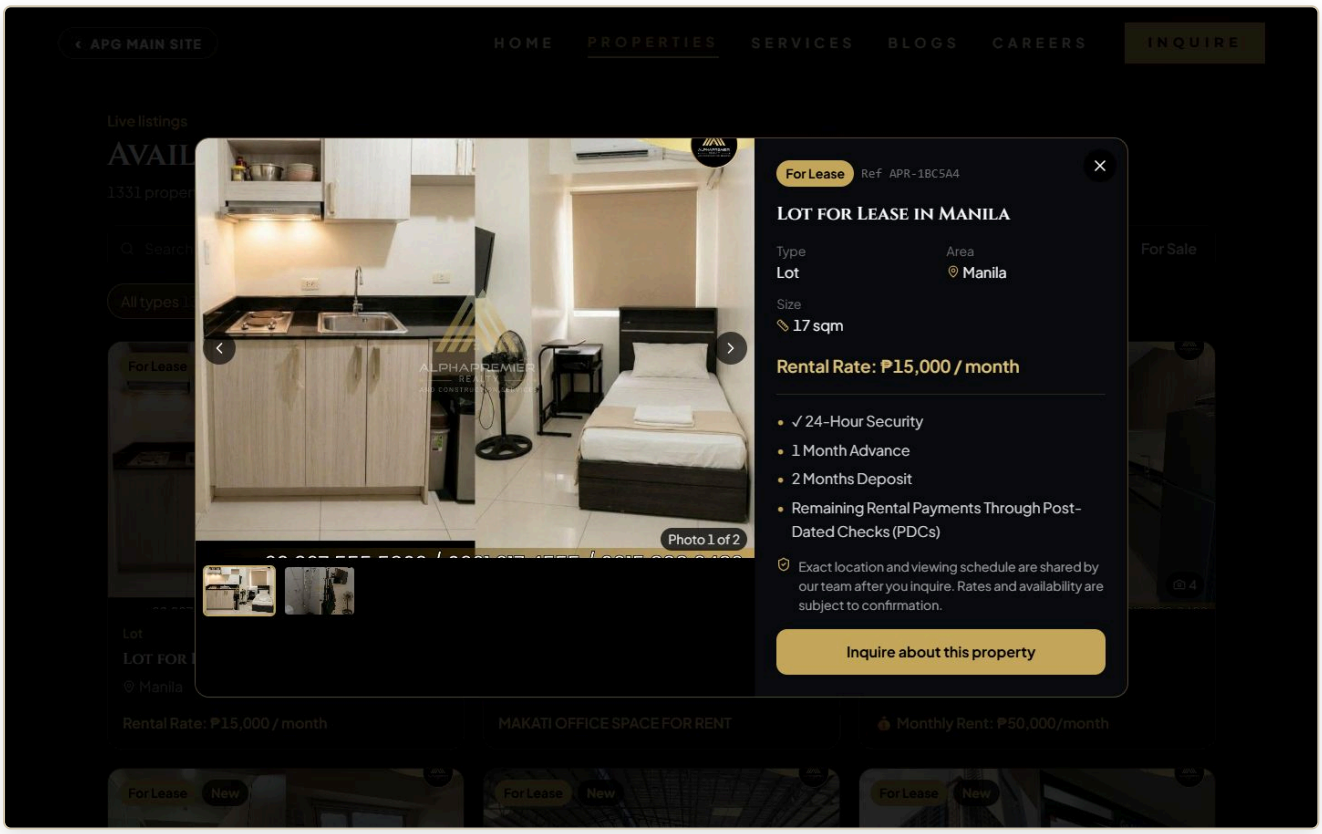

Figure 33. A property's detail window.

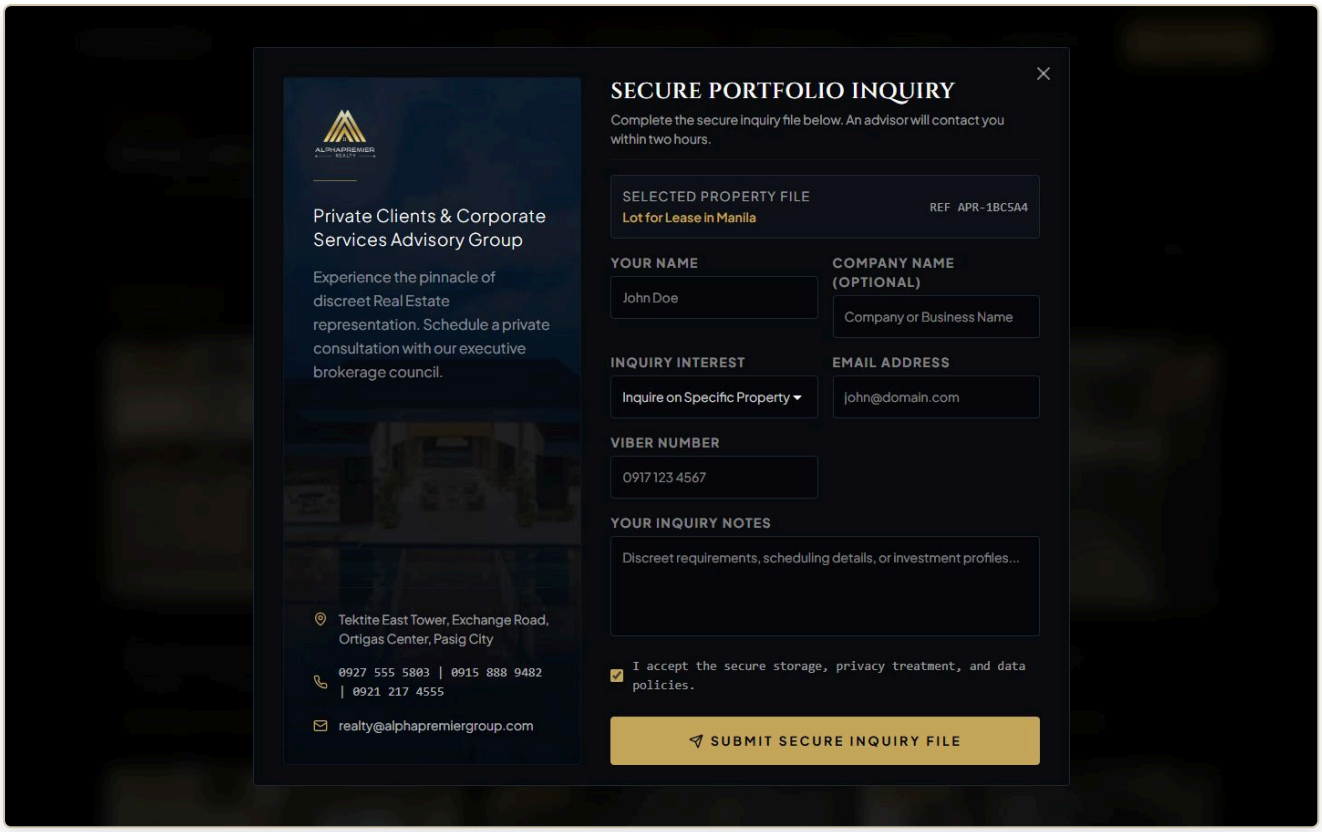

Figure 34. The Realty inquiry form with the selected property.

> **NOTE**
>
> For privacy, exact addresses, building names and owner details are never shown online. The Realty team shares them after you inquire. Rates and availability are subject to confirmation.

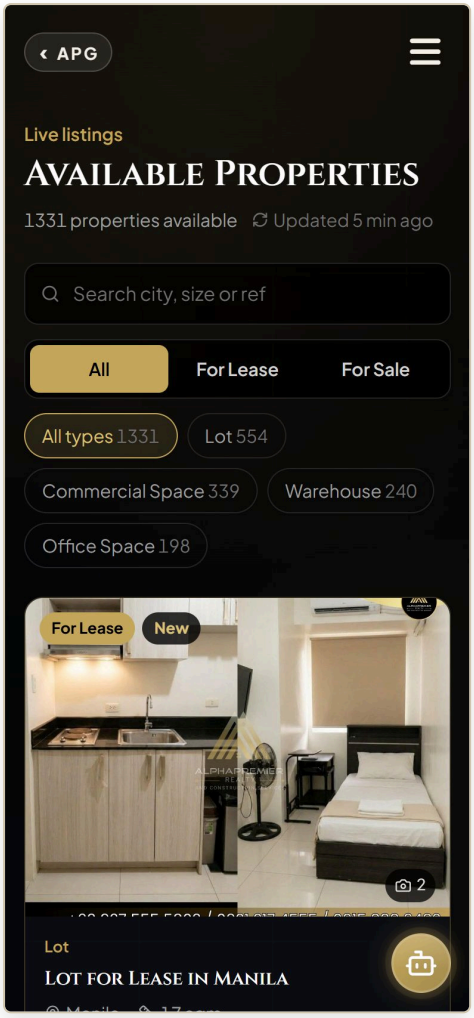

Figure 35. Property listings on a phone.

OTHER REALTY PAGES

- **Services** — **Inquire for Consultation** on each service, or **Speak with a Broker**.
- **Blogs** — filter by Market Trends, Property Tips, Investment Guides or Company News, then search and read.
- **Careers** — search Realty jobs, open **View Details**, then **APPLY NOW →** and attach your resume.

10.2 The other enterprise sites

Site	Pages	Highlights
Luxe Prime Realty	Home, Services, Blogs, Careers, Inquire	Luxury property services with photo galleries, **Inquire About This Service** and **Schedule Private Consultation**; online job applications.
Alpha Premier Construction	Home, Services, Blogs, Careers, Inquire	General contracting, materials supply and project portfolio; project inquiry form; online job applications (**Apply for this Role** or **Submit General Application**); newsletter on the blog page.
SwiftClear	Home, Services, Blogs, Careers, Inquire	**GET FREE ESTIMATE**; a sanitation request form (facility, service, preferred date, contact); the team aims to reply within 2 hours.

88 Prime	Home, Services, Blogs, Careers, Inquire	**Request a Quote** and **Request a Consultation**; searchable procurement articles and newsletter; **SUBMIT RESUME TO TALENT POOL**.
Alta Venture	Home, Services, Blogs, Careers, Inquire	Outsourcing packages with **Book Consultation**; service and blog tag filters; newsletter; department filter on careers with **Send Open Application**.
Dynamic Tree	Home, Services, Blogs, Careers, Inquire	Portfolio (**View Our Work**); newsletter on the blog page; careers application with a portfolio link field; campaign inquiry form with event date and service type.
Virtual Office	Packages	See Chapter 8.

ENTERPRISE INQUIRY FORM

1. Click **Inquire** in the enterprise menu.
2. Choose your main area of interest from the topic chips.
3. Enter **Full Name***, **Business Email***, **Phone / Viber Number*** and **Message***, plus optional company, budget and subject.
4. Click **Submit Inquiry**. The success screen shows your reference ticket, and a confirmation email follows.

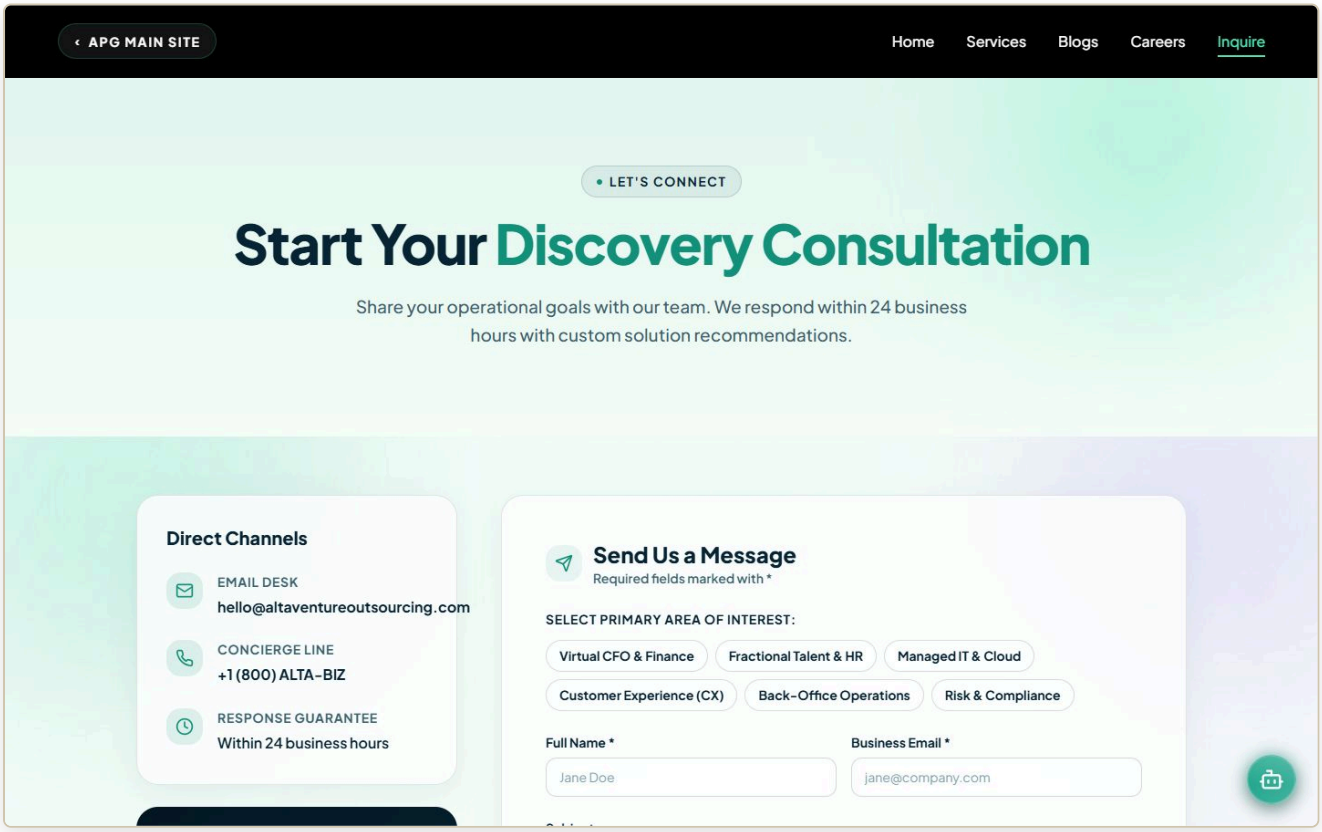

Figure 36. An enterprise inquiry form (Alta Venture).

APPLYING FOR A JOB ON AN ENTERPRISE SITE

Each enterprise's Careers page lists its open roles. Click the role's apply button (for example **Apply for this Role** on Alpha Premier Construction), or the general application button if no role fits. Fill in your name, email, mobile number and resume as described in section 6.2, then submit.

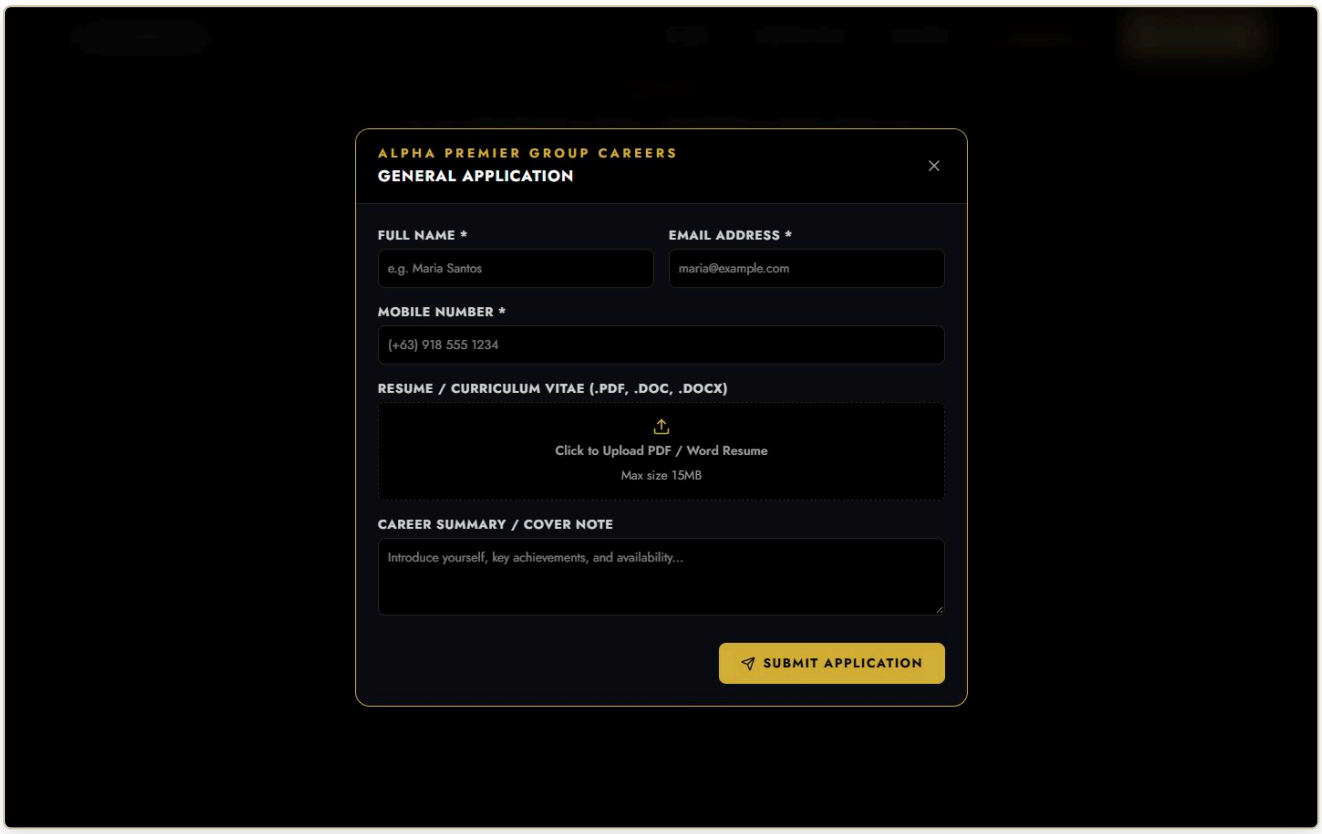

Figure 37. The application form on the Alpha Premier Construction careers page.

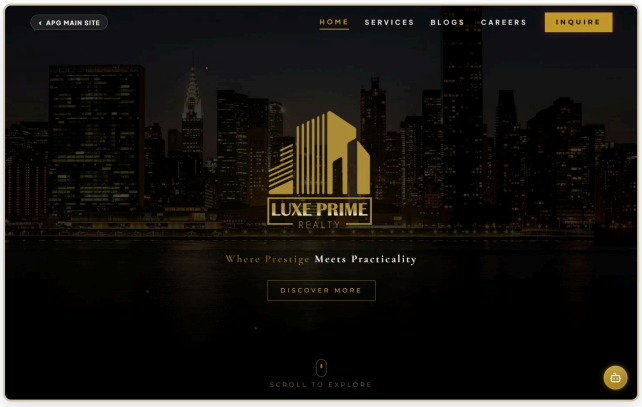

Figure 38. Luxe Prime Realty.

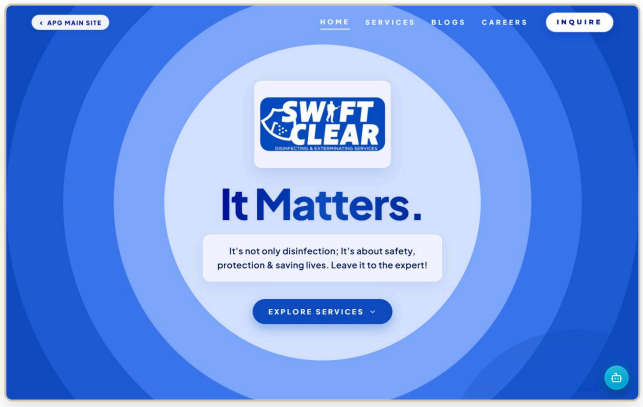

Figure 39. SwiftClear.

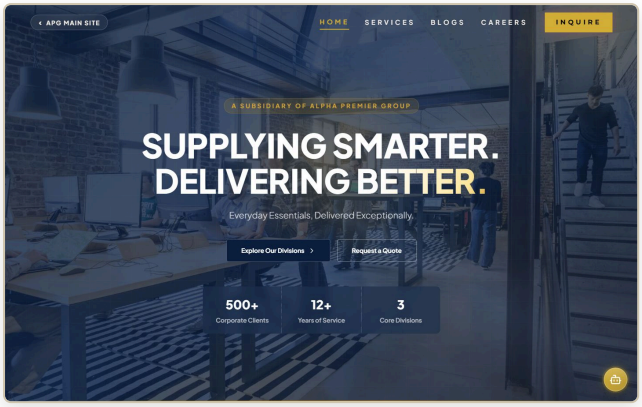

Figure 40. 88 Prime.

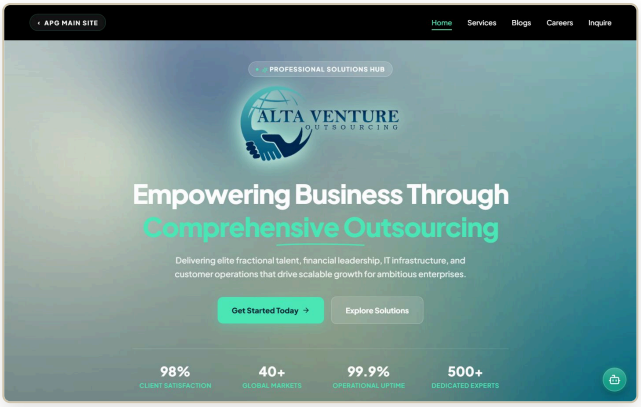

Figure 41. Alta Venture.

Figure 42. Alpha Premier Construction.

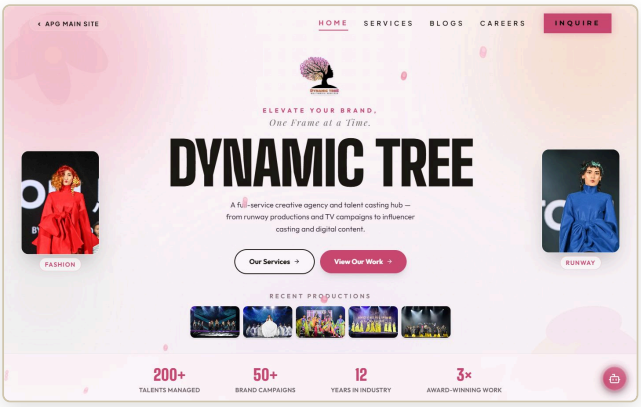

Figure 43. Dynamic Tree.

PART II

Staff Guide — Admin Console

Signing in, answering live chats, editing website content, managing services, jobs, applicants, blog articles, property listings and user accounts.

11 Signing in, roles and your account

11.1 Sign in

1. Go to `alphapremiergroup.com/admin`.
2. Enter your work **Email** and **Password**, then click **Sign in**.
3. The Dashboard opens. Your name and role appear at the top-right.

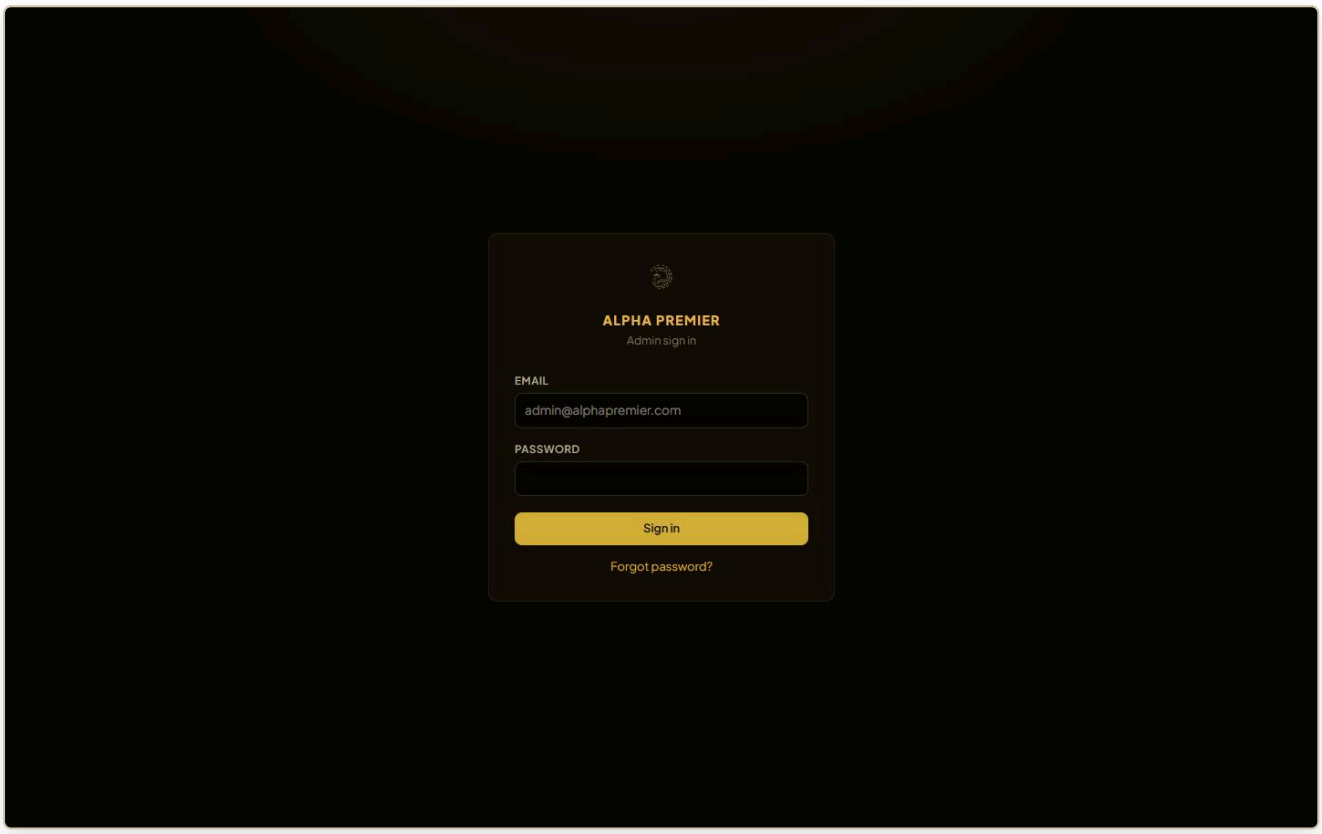

Figure 44. The Admin Console sign-in page.

> **IMPORTANT**
> After 5 failed sign-in attempts, sign-in is blocked for 15 minutes ("Too many failed login attempts"). Never share your account. Ask a super-administrator to create one for each staff member.

11.2 Forgot your password

1. On the sign-in page click **Forgot password?**.
2. Enter your admin email and request a code. A **6-digit code** is sent to the company security inbox. Ask the person who manages that inbox for the code.
3. Enter the code, a new password (at least 10 characters) and confirm it, then click **Reset password**.
4. "Password updated" appears. Sign in with the new password.

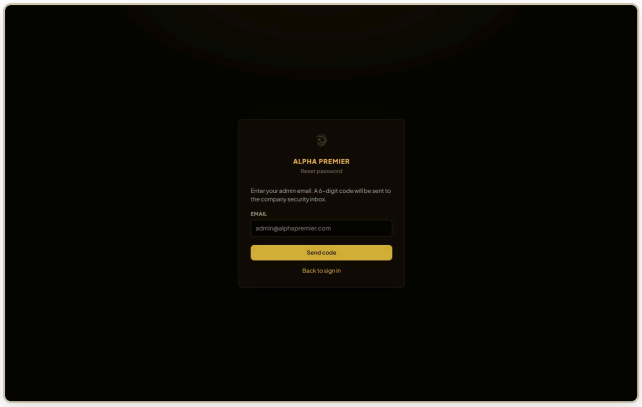

Figure 45. Step 2 — request a code.

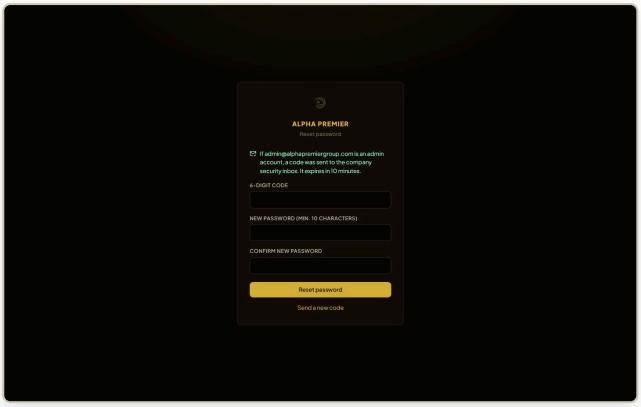

Figure 46. Step 3 — enter the code and a new password.

> **NOTE**
>
> Codes expire after 10 minutes and allow 5 attempts. Click **Send a new code** if yours has expired. Code requests are limited; if you see “Too many reset requests”, wait 15 minutes.

11.3 Change your password

1. Click **Change password** at the top-right of any Admin Console page.
2. Enter your current password and click **EMAIL ME A CODE**. A verification code is sent to the company security inbox.
3. Enter the code and your new password (min. 10 characters) twice, then save.

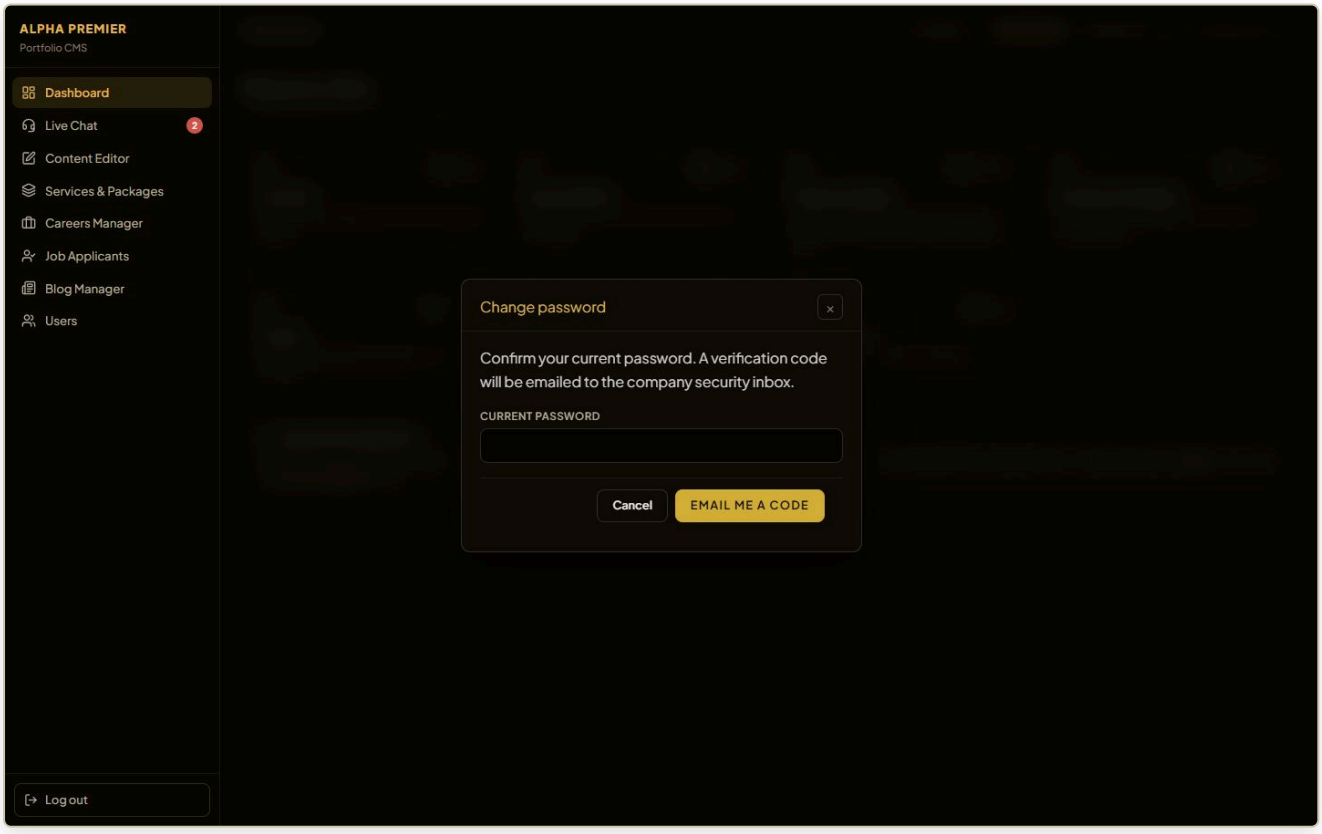

Figure 47. Changing your password.

11.4 Console layout and signing out

- **Left sidebar** — the modules you are allowed to use. The red number beside **Live Chat** is the number of visitors waiting for an agent.
- **Top bar** — **View site** opens the public website, your role badge and name, and **Change password**.
- **Log out** at the bottom of the sidebar ends your session. Always log out on shared computers.

11.5 Roles and permissions

Each account has one role. The sidebar shows only the modules your role can use; the server also blocks any action your role is not allowed to take.

Module / action	Super-admin	Admin	Editor	Recruiter
Dashboard	✓	✓	✓	✓
Live Chat	✓	✓	—	✓
Content Editor	✓	✓	✓	—
Services & Packages	✓	✓	✓	—
Careers Manager	✓	✓	—	✓
Job Applicants & ATS	✓	✓	—	✓
Blog Manager	✓	✓	✓	—
Delete any record	✓	✓	—	—
Users (create, edit, delete accounts)	✓	—	—	—

12 Dashboard

The Dashboard is the first page after sign-in. It greets you by name and shows a card for each module with a live count:

Card	Count shown
Live Chat	Visitors waiting for an agent
Content Editor	Number of editable content blocks
Property Listings	Properties currently on the website (from Google Drive)
Services & Packages	Number of services
Careers	Number of job openings
Job Applicants	New (unreviewed) applications
Blog Manager	Number of articles

Click a card to open its module. The panel at the bottom shows which inbox receives inquiries and applications.

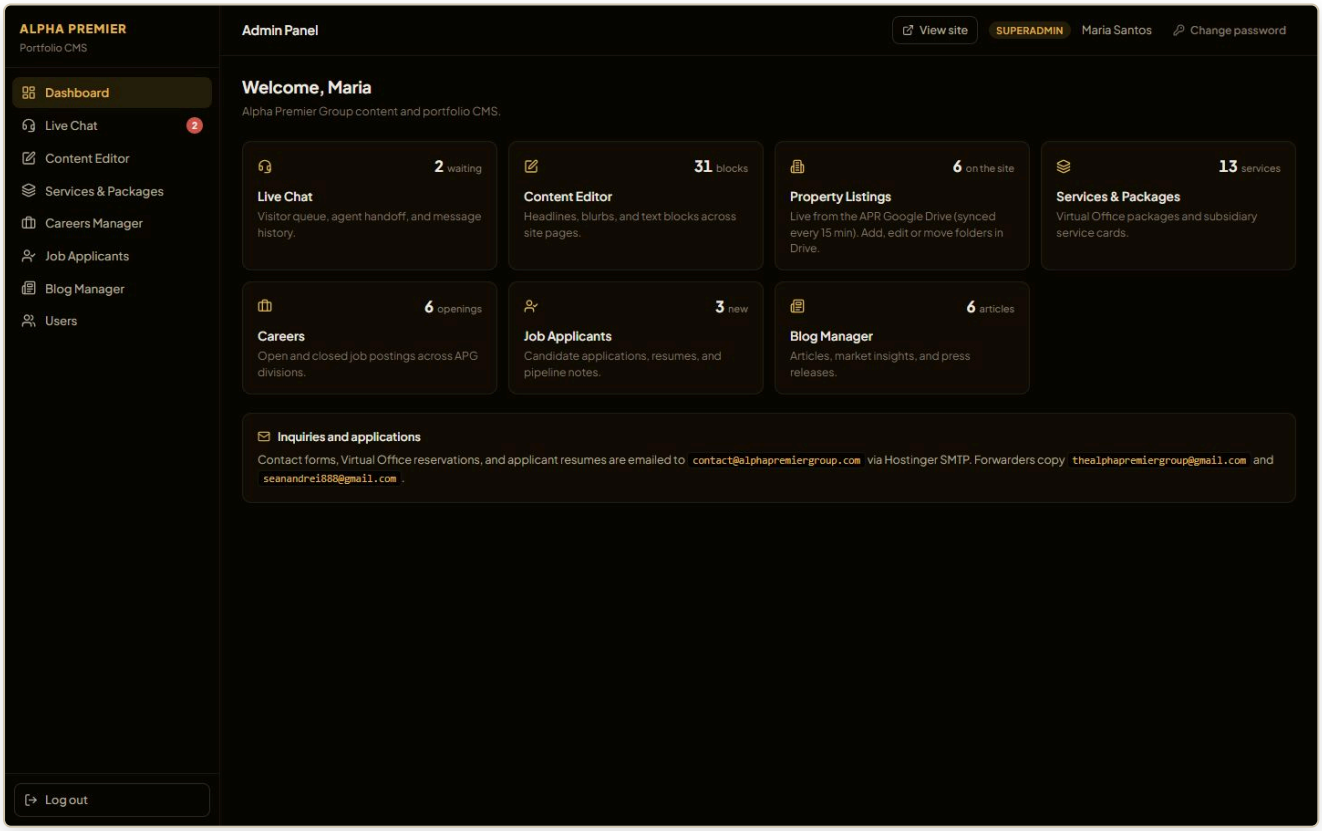

Figure 48. The Admin Console Dashboard.

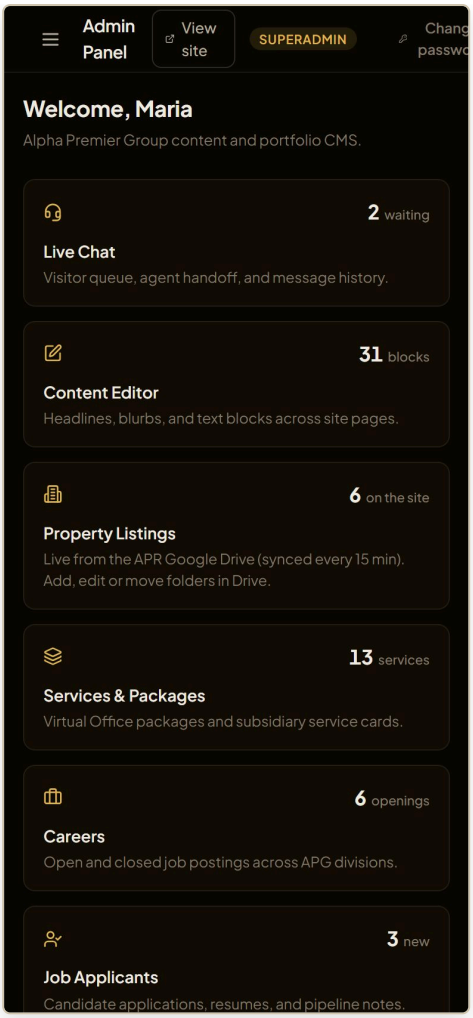

Figure 49. The Admin Console also works on a phone.

13 Live Chat

Live Chat is where agents take over conversations from the chat assistant. The queue refreshes automatically every few seconds.

13.1 The Live Chat screen

- **Tabs** — **WAITING** (visitors asking for a person), **ACTIVE** (chats an agent is handling), **CLOSED**; each tab shows a count.
- **Search** — find a conversation by visitor name or message text.
- **Conversation list** — the enterprise, visitor name, how long they have waited, the last message, who it is assigned to and the number of messages.
- **Thread** — the full conversation. Visitor messages, **APG Assistant** (bot) messages and agent messages (gold) are labelled. The header shows the visitor's email, phone and the assigned agent.

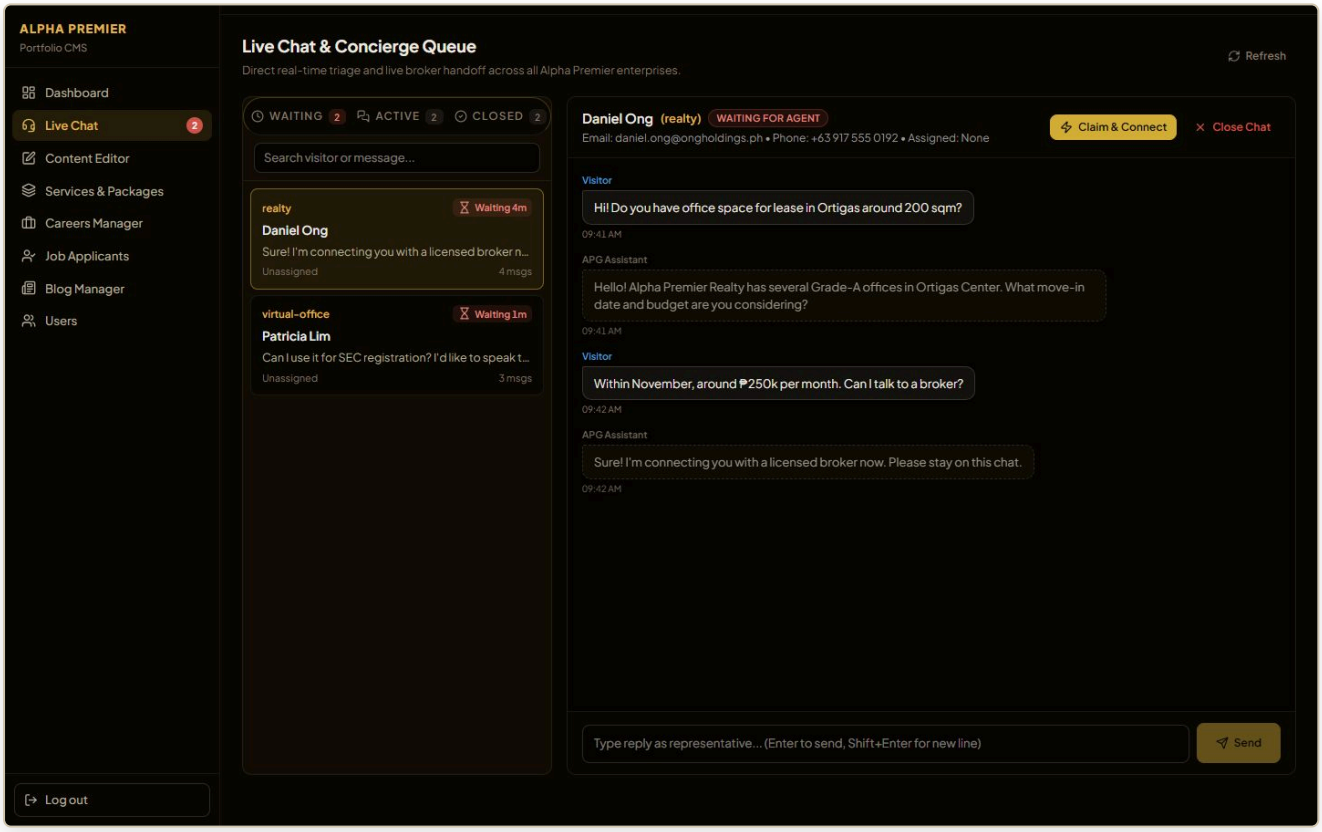

Figure 50. The Live Chat queue with a visitor waiting for an agent.

13.2 Answer a waiting visitor

1. Open **Live Chat** (or click the link in the "[Live chat] Visitor waiting" email). The oldest waiting chat opens automatically.
2. Read the conversation so far, including the reason for the handoff.

3. Click **Claim & Connect**. The chat moves to **ACTIVE** and is assigned to you, and the visitor sees your name.

4. Type your reply in the box at the bottom and press Enter (Shift+Enter adds a new line) or click **Send**.

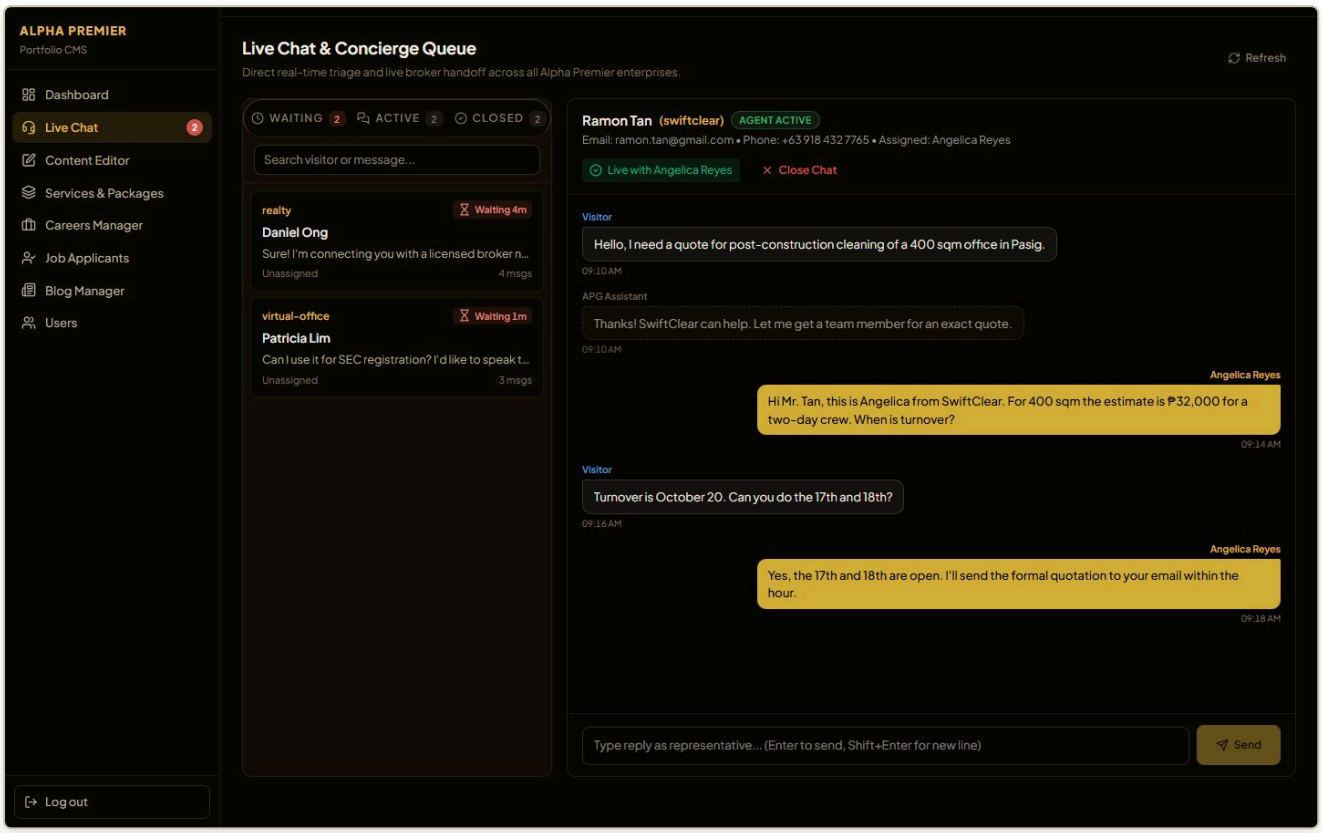

Figure 51. An active chat being handled by an agent.

13.3 Take over a bot conversation

You can join any conversation the assistant is still handling (status **BOT**) — for example a promising lead. Open it from the list and click **Connect & Take Over**. From then on the assistant stops replying and you are in charge.

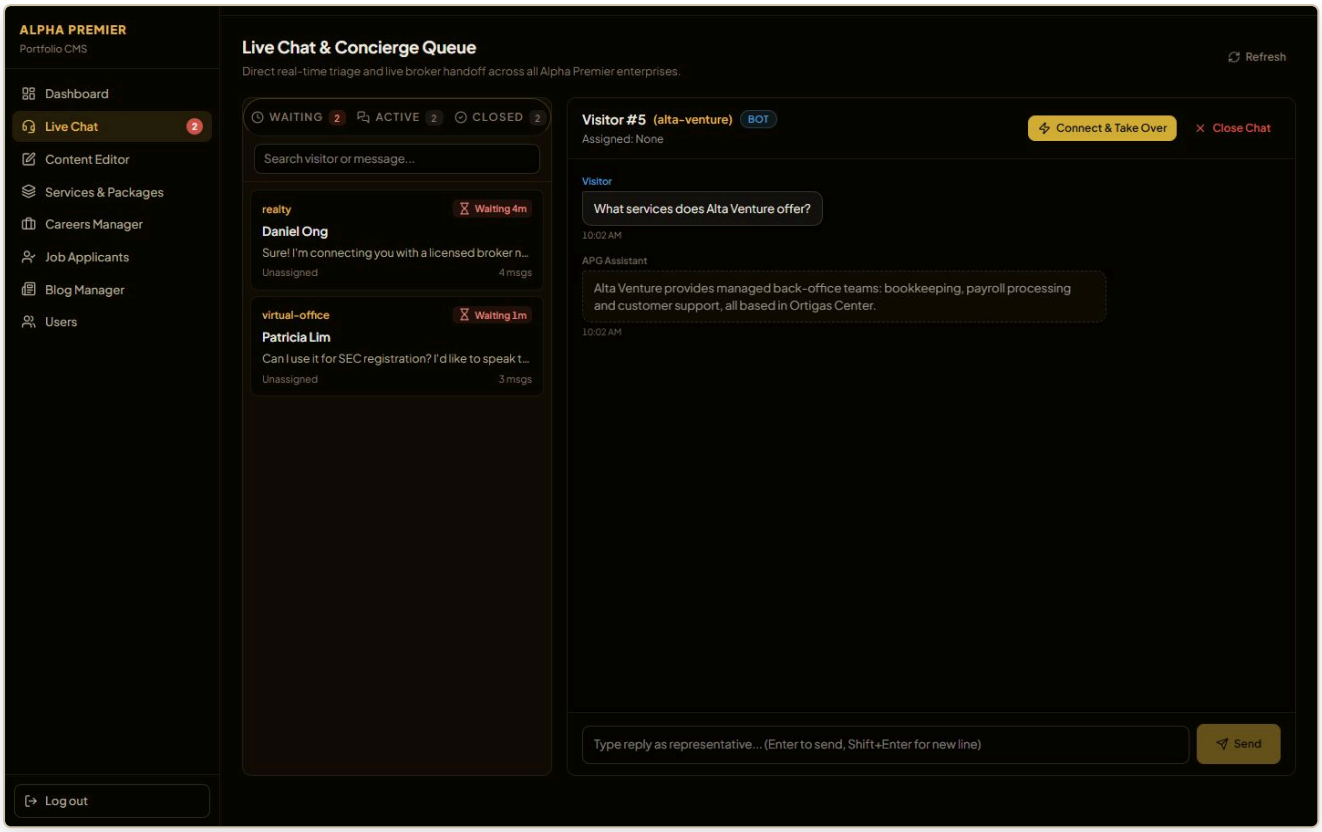

Figure 52. A conversation still handled by the assistant, with “Connect & Take Over”.

13.4 Close a chat

1. When the inquiry is resolved, click **Close Chat**.
2. Confirm in the dialog. The visitor sees “Conversation resolved & closed” and can start a new chat.

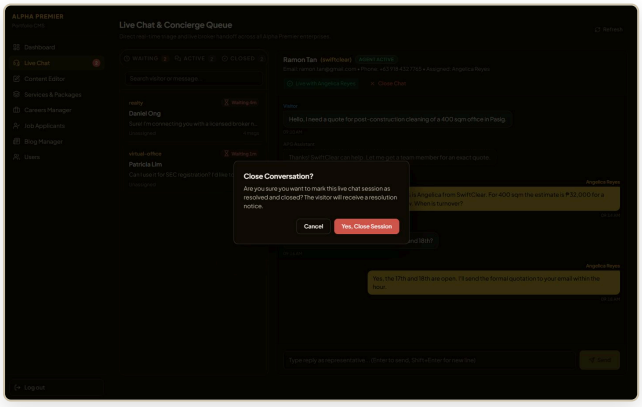

Figure 53. Confirming that a chat should be closed.

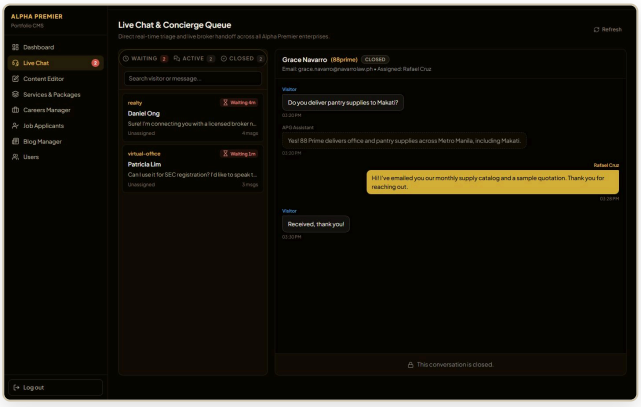

Figure 54. A closed conversation is read-only.

BEST PRACTICE

- Claim waiting chats quickly — the visitor sees “Connecting you to our team…” until you do.
- Collect the visitor's email or phone early, so you can follow up if they leave the page.
- Close chats once they are resolved, to keep the queue accurate.

14 Content Editor

The Content Editor changes headlines, paragraphs, images and other text blocks on the main website and each enterprise site without a developer.

14.1 Find a content block

1. Open **Content Editor** from the sidebar.
2. Click the tab for the page or site: **Home Page**, **Virtual Office**, **Alpha Realty**, **Alpha Construction**, **Swift Clear**, **Alta Venture**, **88 Prime**, **Dynamic Tree** or **Luxe Prime**.
3. The table lists each block's **Section key** (which place on the page it fills), **Type**, current **Content value** and **Sort** order.

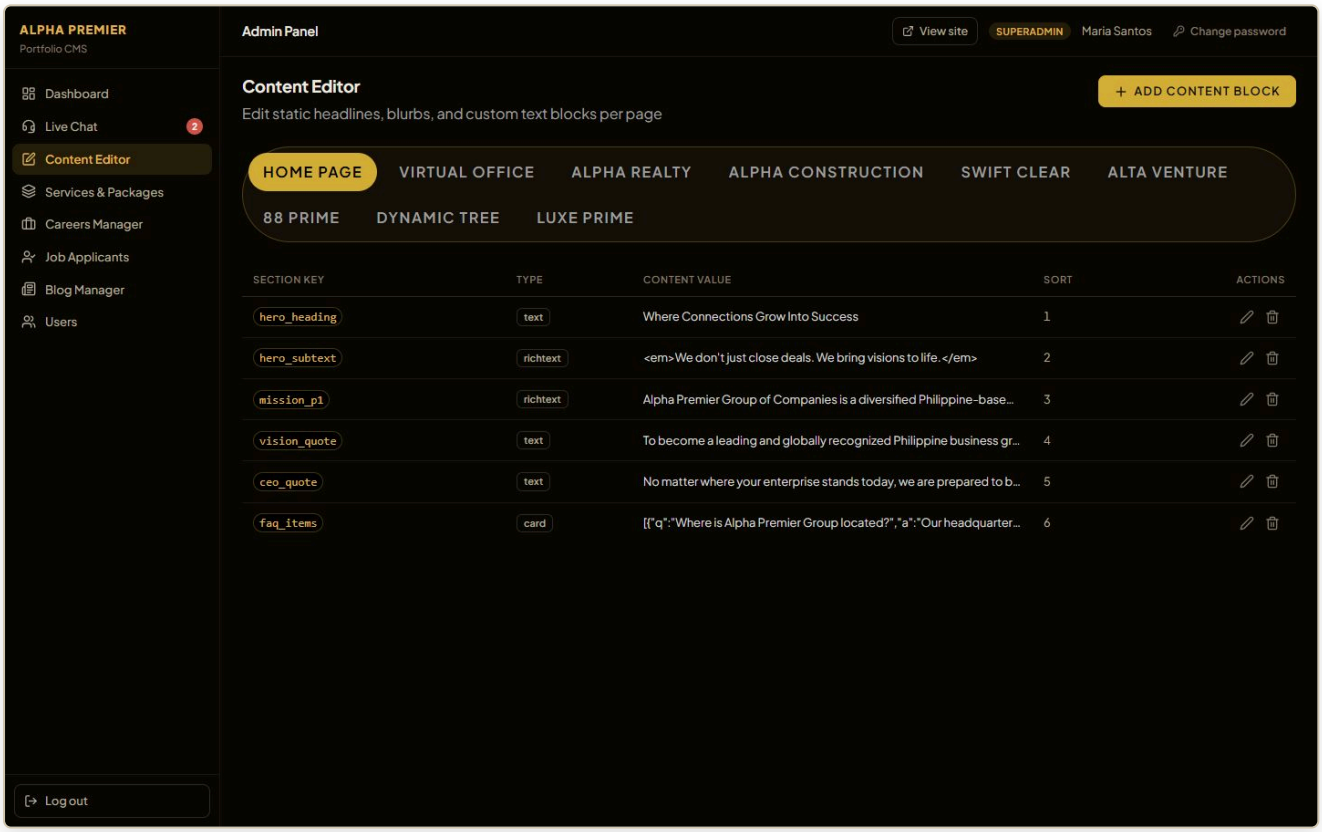

Figure 55. The Content Editor with the Home Page blocks.

14.2 Edit a block

1. Click the pencil icon on the block's row.
2. Change the **Content value**. The editor depends on the block type:
   - **Text** — plain text, such as a heading.
   - **Rich text** — use the **B**, *I*, List and Link buttons; a live preview shows the result.
   - **Image URL** — paste an image address or click **UPLOAD IMAGE FILE**; a preview appears.

- **Card** — structured data (for example FAQ question/answer pairs). Keep the existing format exactly.

3. Click **Save Block**. The change appears on the website straight away.

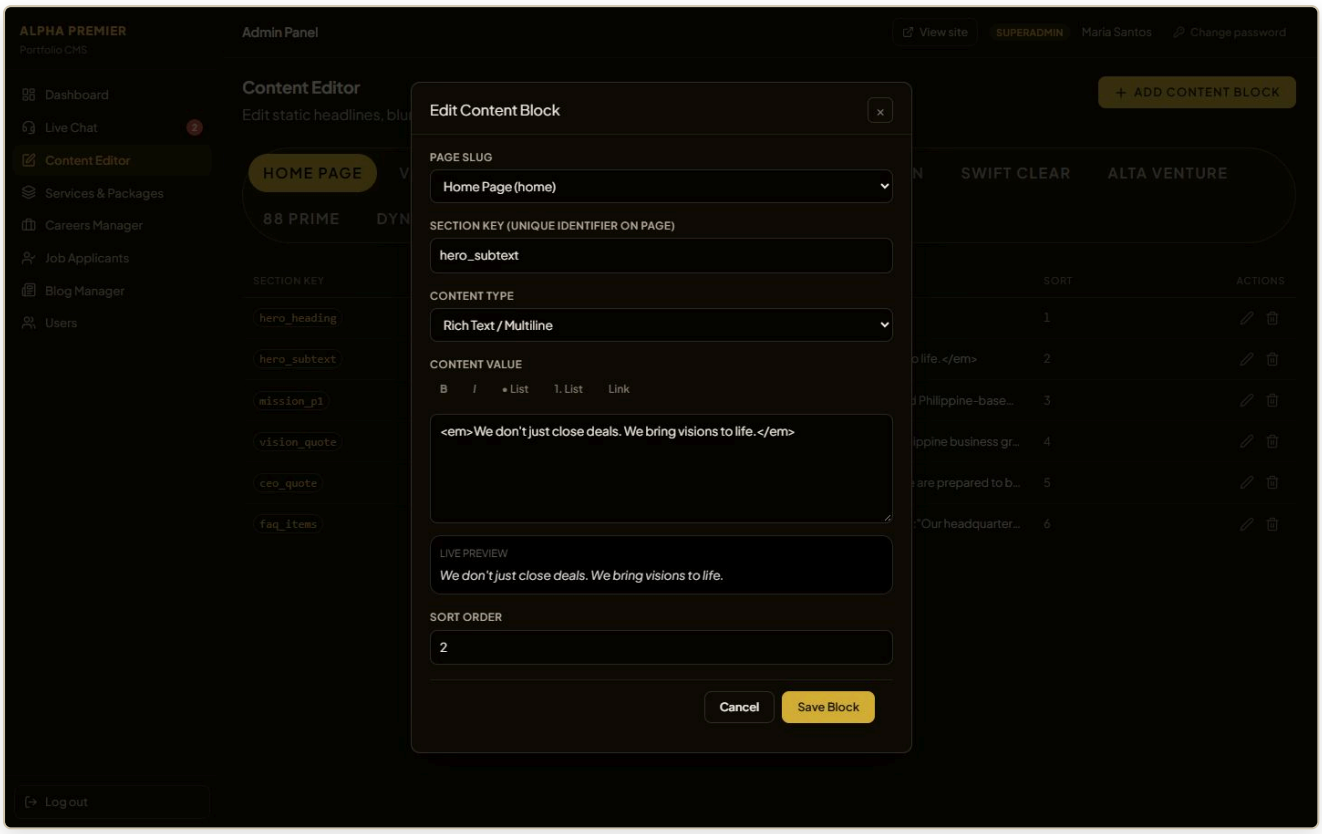

Figure 56. Editing a rich-text block with the formatting toolbar and live preview.

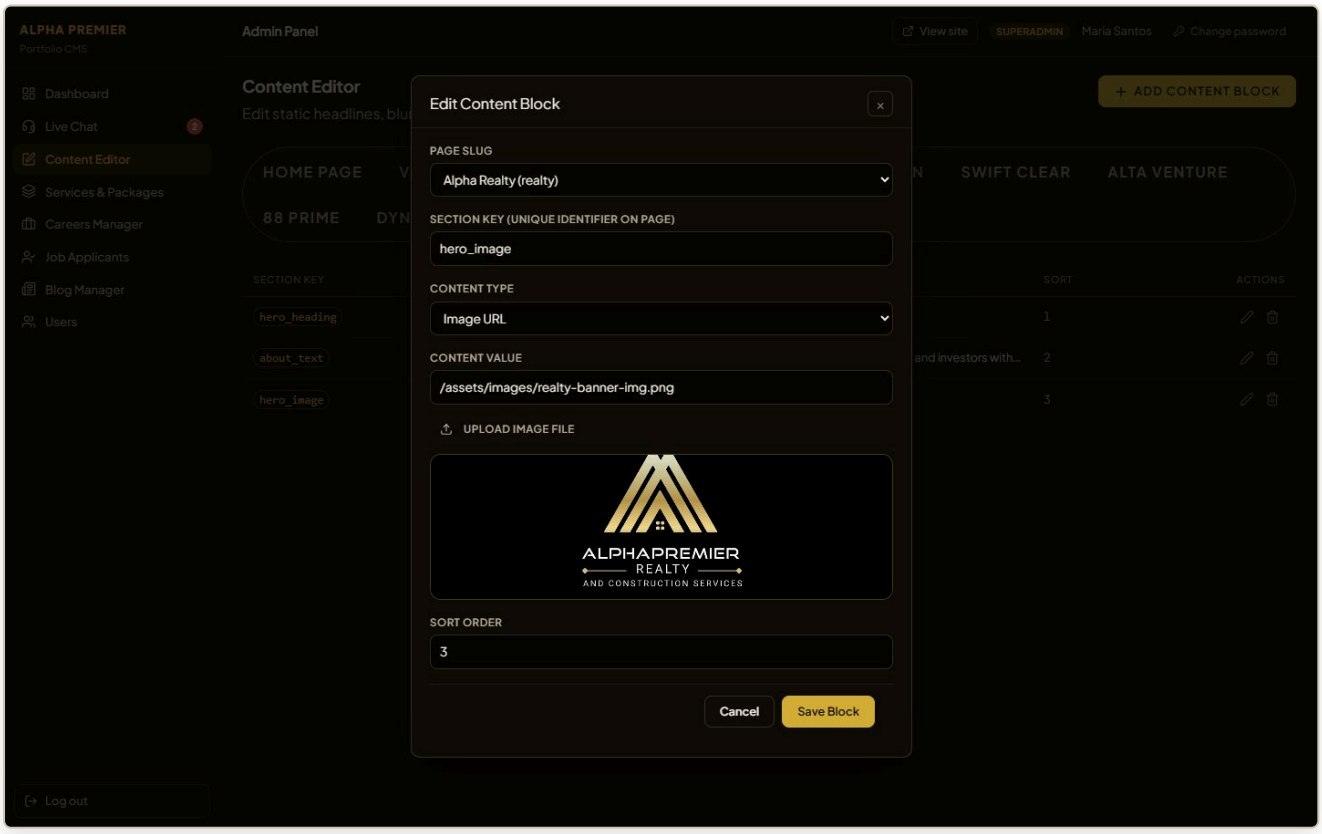

Figure 57. Editing an image block: upload a file or paste an address.

> **IMPORTANT**
>
> Do not rename the **Section key** of an existing block. The website uses the key to know where to show the content; a renamed key means the site falls back to its default text. Change only the **Content value**.

14.3 Add or delete a block

- **Add:** click **ADD CONTENT BLOCK**, choose the page, enter the section key agreed with the web team, choose the content type, enter the value and sort order, then save.
- **Delete** (admins only): click the bin icon and confirm. The site then shows its built-in default for that section.

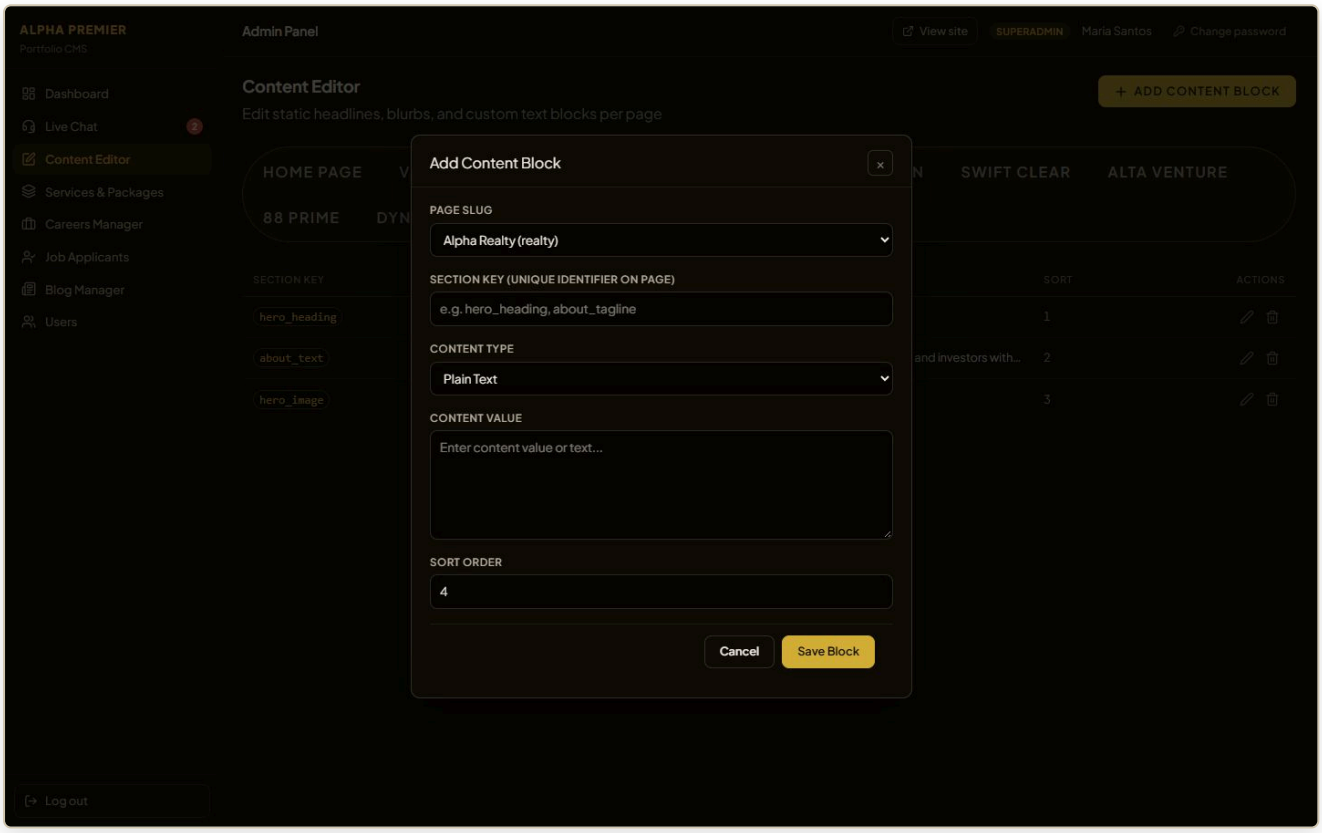

Figure 58. Adding a new content block.

15 Services & Packages

This module manages the service cards and price packages shown on the enterprise sites and the Virtual Office packages.

1. Open **Services & Packages**. Use the pills to filter by company (**All Services**, Alpha Premier Group, Virtual Office, Alpha Premier Realty, and so on).
2. Click **ADD SERVICE / PACKAGE** for a new item, or the pencil icon to edit one.
3. Fill in the form:

Field	Purpose
Category	Which company/site shows the item.
Service title	Card heading, e.g. “Gold Executive Workspace Suite”.
Summary / card teaser	Short line shown on the card (optional).
Tag	Small label such as “FINANCE” (optional).
Price display	Shown exactly as typed, e.g. “₱5,500 / mo” or “Contact for Price”.
Image URL	Card image (optional).
Description & inclusions	Full details of the package.
Feature bullets	One feature per line.
Gallery image URLs	One image address per line.
Sort order	Lower numbers appear first.
Publish status	**Published** (visible on the site) or **Draft** (hidden).

4. Save. To hide or show an item quickly, click its **Published/Draft** pill in the list.

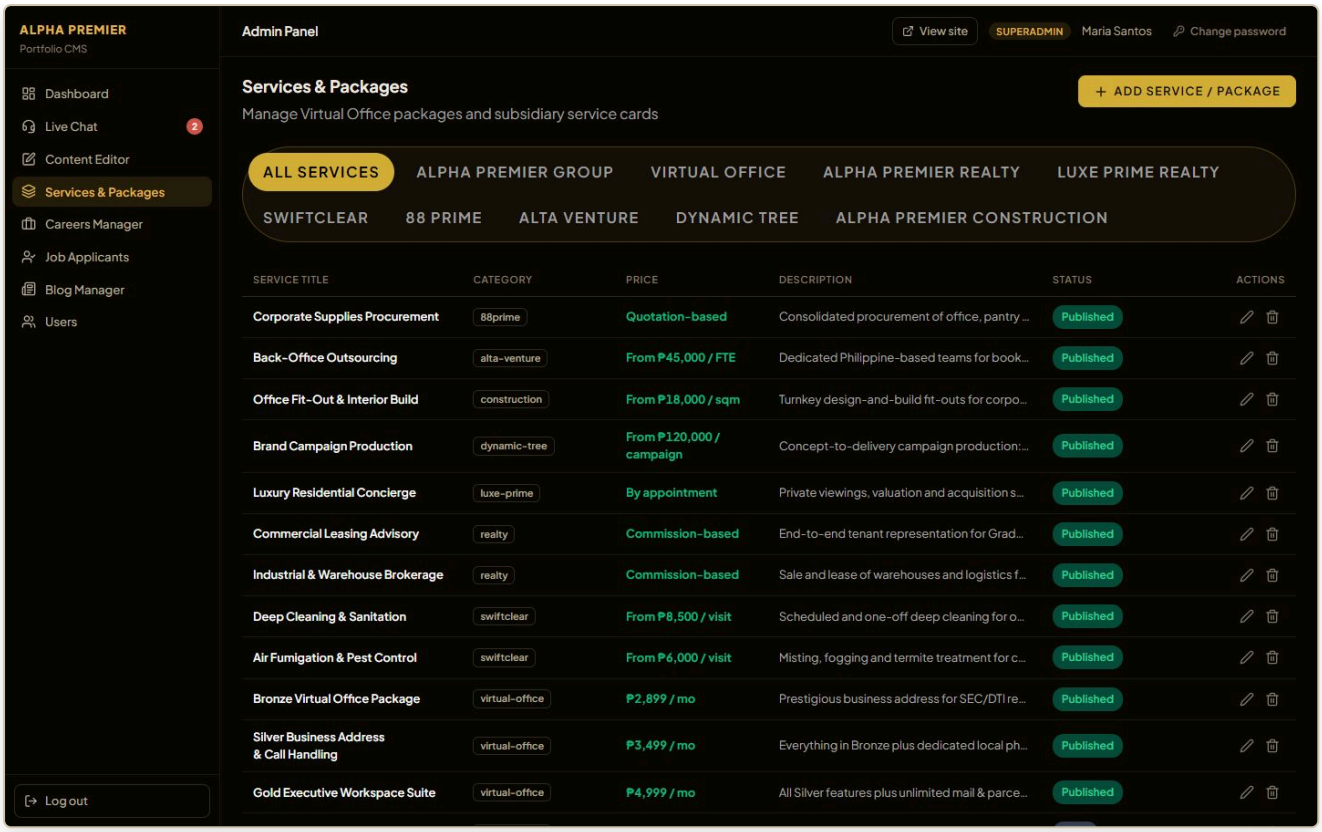

Figure 59. The Services & Packages list.

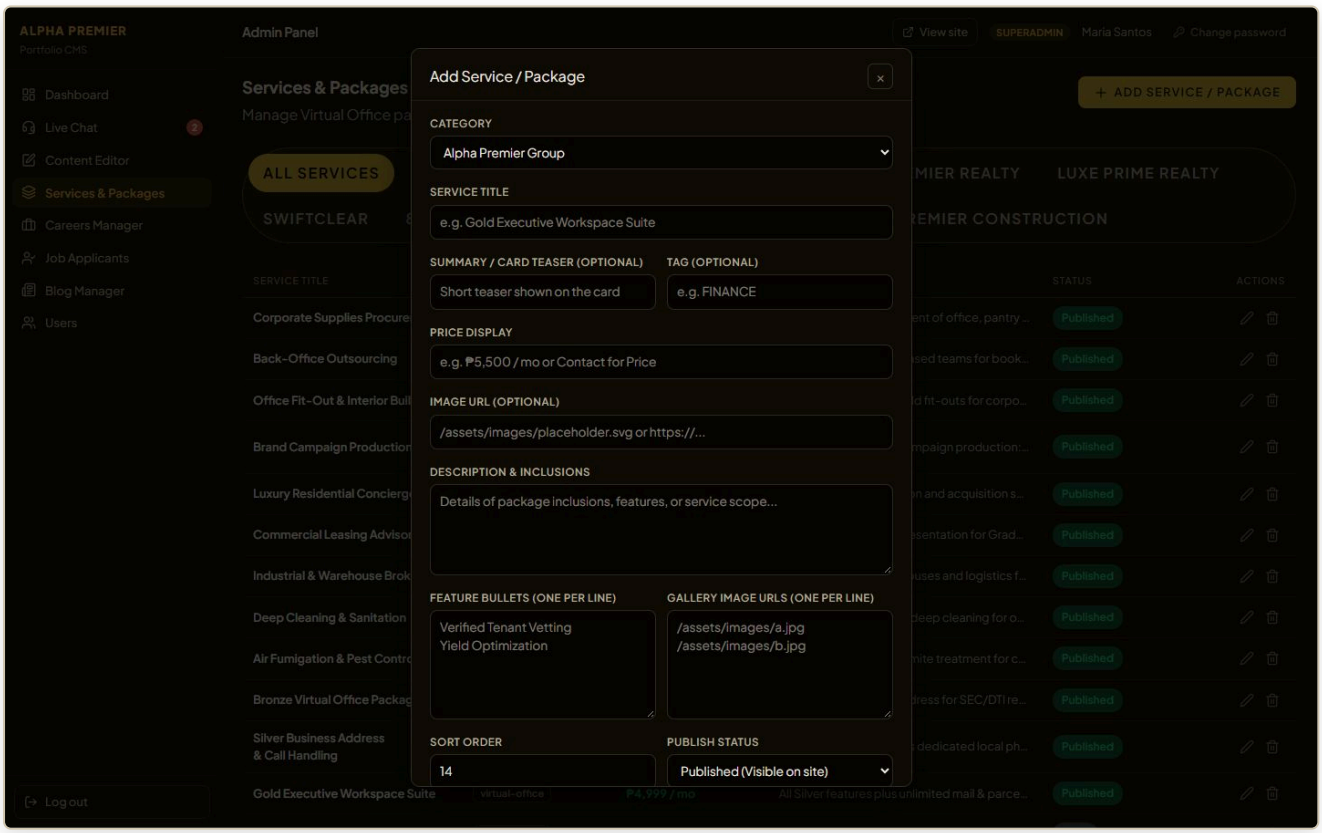

Figure 60. Adding a service or package.

16 Careers Manager

Create and maintain job openings for every APG company. Active openings appear on the main Careers page and on the matching enterprise's careers page.

1. Open **Careers Manager**. Filter by enterprise tab, by status (**All**, **Active**, **Closed**), or search titles and divisions.
2. Click **POST NEW JOB OPENING** (or the pencil icon to edit).
3. Enter **Job title**, **Division / tag**, **Employment type**, **Location** and **Job description & responsibilities**.
4. Add each requirement and responsibility one at a time: type it and click **Add**. Each appears as a chip you can remove.
5. Choose the **Enterprise**, optionally a **Salary**, and tick **Feature this opening** to highlight it on the enterprise careers page.
6. Set **Status** to **Active (Accepting applications)** or **Closed**, set the sort order, and save.

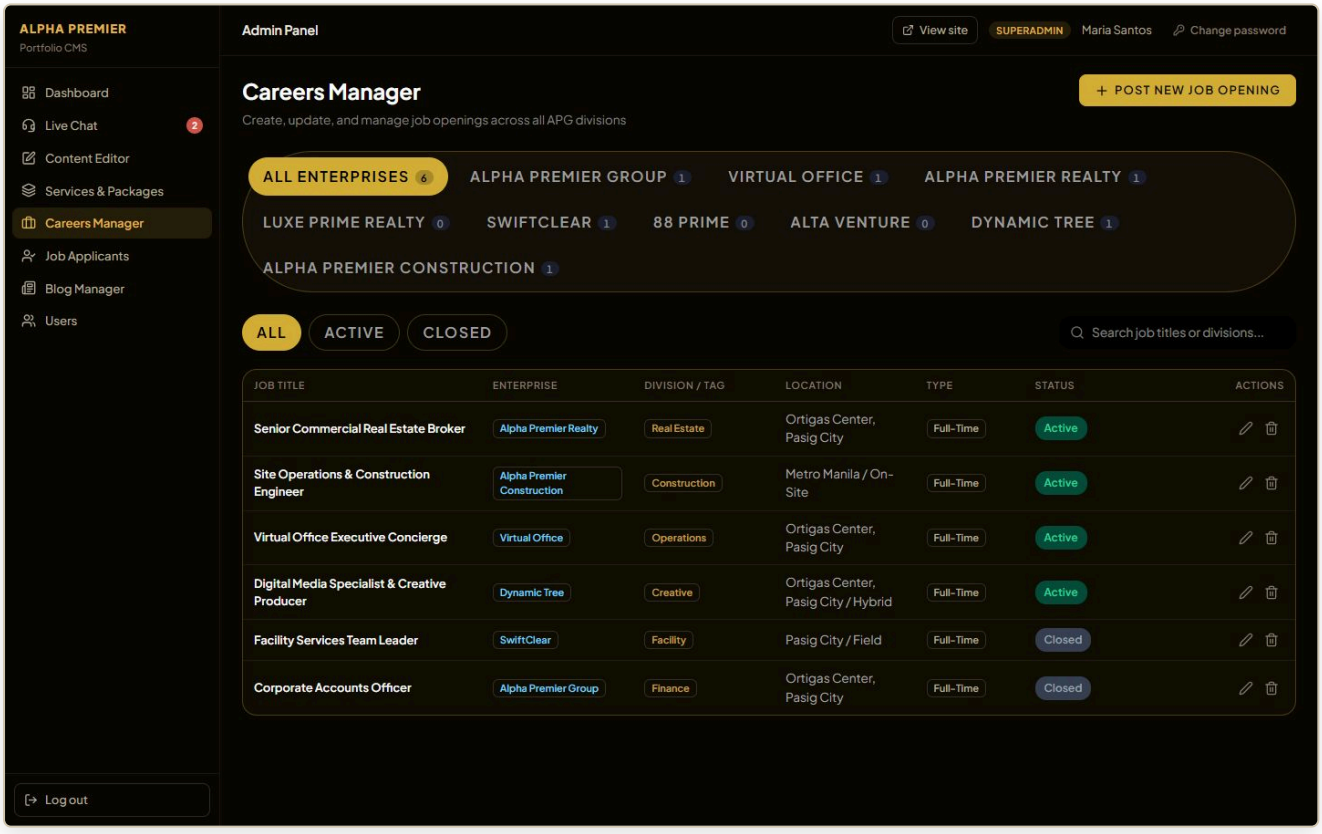

Figure 61. The Careers Manager.

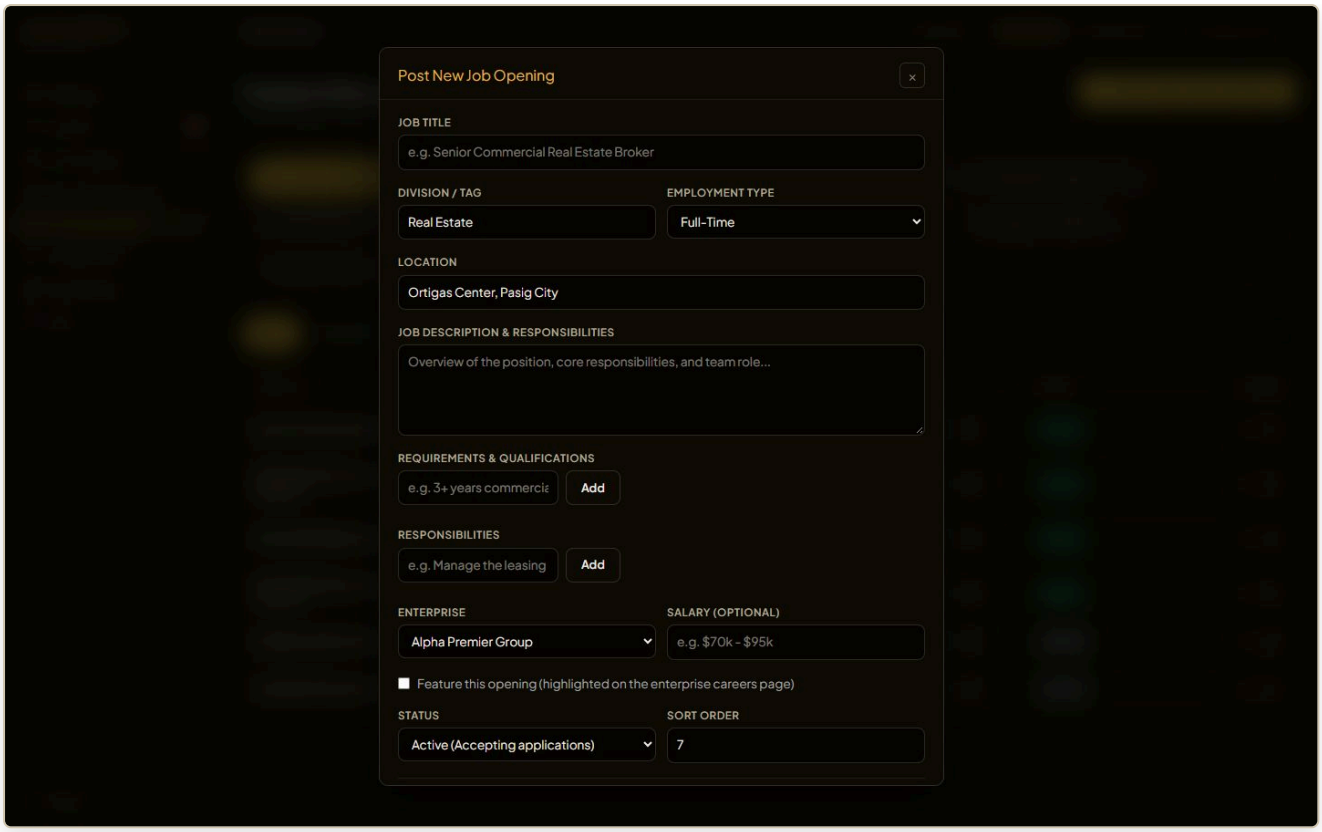

Figure 62. Posting a new job opening.

TIP

Closing a job (click its **Active** status pill) is better than deleting it: the posting disappears from the website, but the applicants linked to it keep their position name.

KEYWORDS MATTER

The ATS compares each resume with the job's title, description, requirements and responsibilities. Clear, specific requirements (licences, tools, years of experience) produce more accurate scores.

17 Job Applicants & ATS

Every application from any careers page arrives here. The Applicant Tracking System (ATS) automatically scores each resume against the job from 0 to 100.

17.1 The applicant list

- **Enterprise tabs** with counts, and **status pills**: All Statuses, New, Reviewed, Interviewing, Hired, Rejected.
- **SHORTLISTED** — shows only applicants who reached the shortlist score.
- **Sort** — **Newest first** or **Highest ATS score**.
- **Search** — by name, email, phone or role.
- Each row shows the candidate's contact details, position and division, **ATS score**, a status drop-down, the submission date, **View CV**, a review (eye) icon and a delete icon.

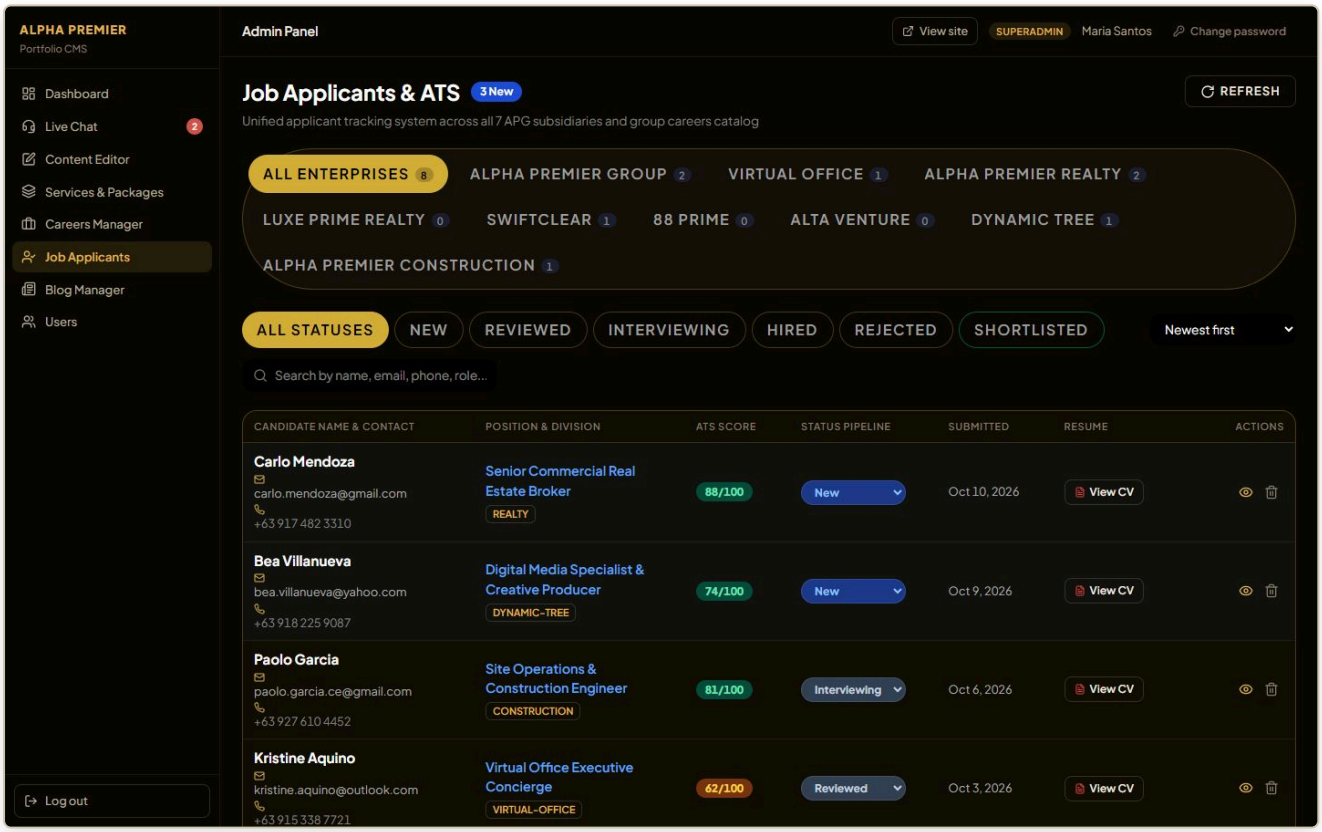

Figure 63. The Job Applicants list with ATS scores.

17.2 Reading the ATS score

Badge	Meaning
Green	Shortlisted — score at or above the shortlist threshold (70 by default).
Amber	"Maybe" — worth a closer look.

Red	Weak match for this job.
Pending	Not scored yet. A daily job scores any applicant that was missed.

Scores are produced either by AI (**AI scored**) or, when AI is unavailable, by keyword matching (**Keyword scored**). The score is a guide for prioritising — always read the resume before deciding.

17.3 Review an applicant

1. Click the eye icon on the applicant's row.
2. Check the position, contact details and **current status**.
3. Click **OPEN RESUME** to view the resume (it opens securely in a new tab; only signed-in staff can open it).
4. Read the **ATS screening** panel: the summary, **Strengths**, **Gaps** and **Matched keywords**.
5. Read the applicant's cover note, and add **Internal recruiter & interview notes** (visible only to staff).
6. Update the status as the candidate progresses: **New** → **Reviewed** → **Interviewing** → **Hired** (or **Rejected**). You can also change the status directly from the list.

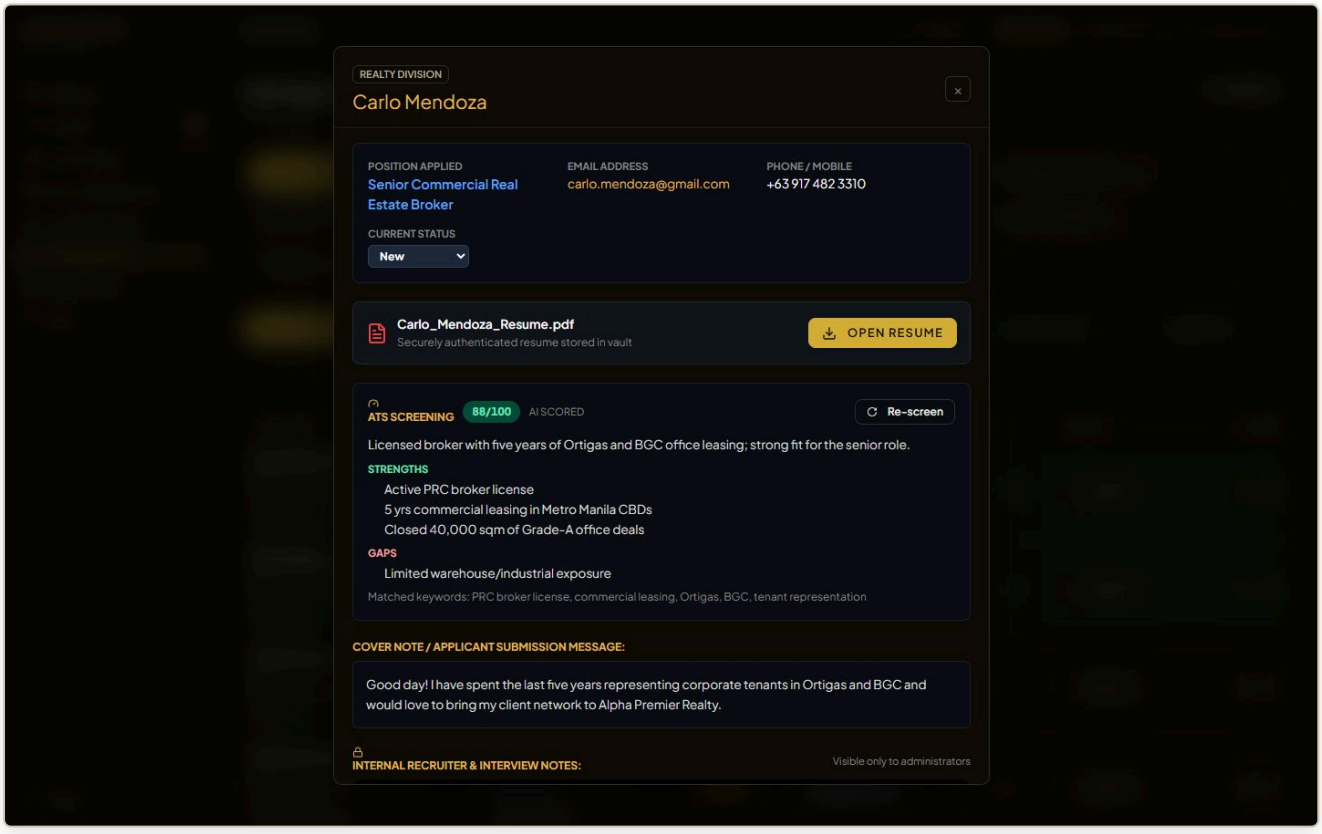

Figure 64. Applicant details with the ATS screening panel.

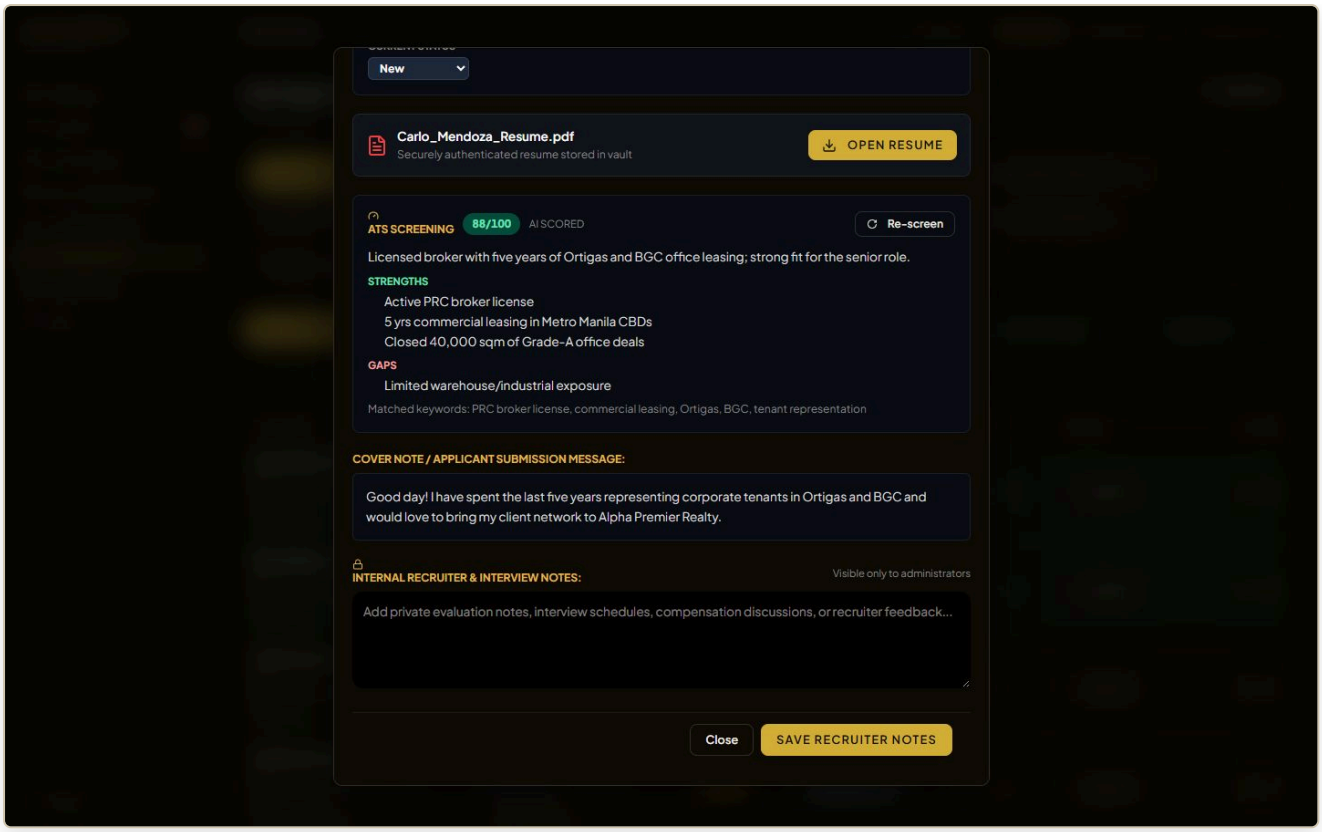

Figure 65. Cover note and internal recruiter notes.

RE-SCREEN

If you edit a job's requirements after people have applied, open an applicant and click **Re-screen** to score them again against the updated job.

DATA PRIVACY

Applicant data is personal information protected by the Data Privacy Act of 2012 (RA 10173). Do not download or forward resumes outside the hiring team. Only administrators can delete applicants.

18 Blog Manager

Write and publish articles for the main Blogs page and each enterprise's blog.

18.1 Create or edit an article

1. Open **Blog Manager**. Filter by enterprise tab or status (**All**, **Published**, **Draft**), or search.
2. Click **New Article** (or the edit icon on a row).
3. Enter the **Article title**, choose the **Enterprise** (which site shows it) and **Category**.
4. Enter a **URL slug** — a short, lowercase, hyphenated name such as `metro-manila-real-estate-2026` — and an optional read time.
5. Add a cover image: paste an address or click **UPLOAD IMAGE FILE**.
6. Write a 1–2 sentence **Summary / excerpt** for the article card.
7. Write the **Full content**. Use the toolbar (Bold, Italic, bullet list, numbered list, Link); the **Live preview** shows how it will look.
8. Choose a **Status** (Draft or Published) and **Publish date**, then save.

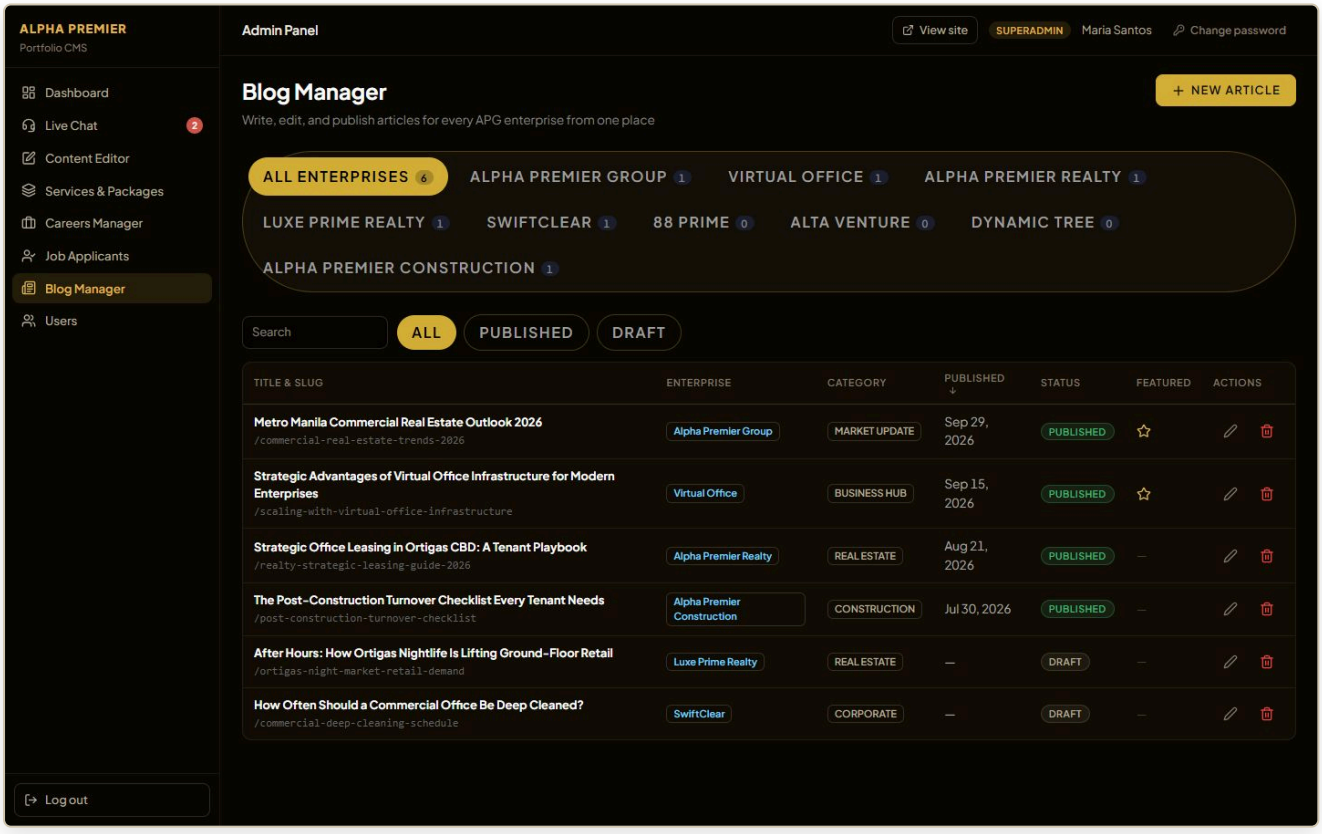

Figure 66. The Blog Manager list.

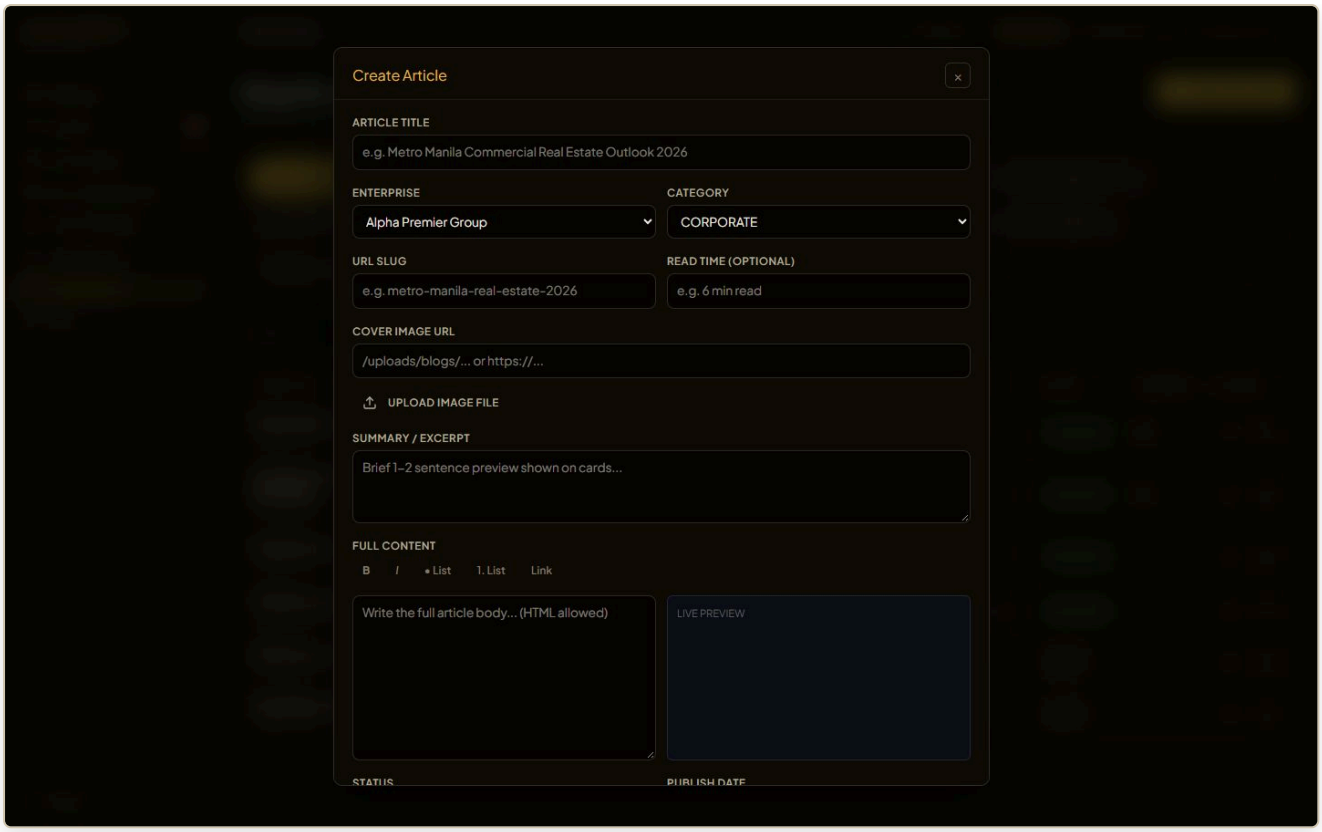

Figure 67. Creating an article.

18.2 Feature, unpublish or delete

- Click the **star** to feature an article (shown prominently on the blog page).
- Switch an article to **Draft** to hide it from the website without deleting it.
- **Delete** (admins only) — click the bin icon and confirm. This cannot be undone.

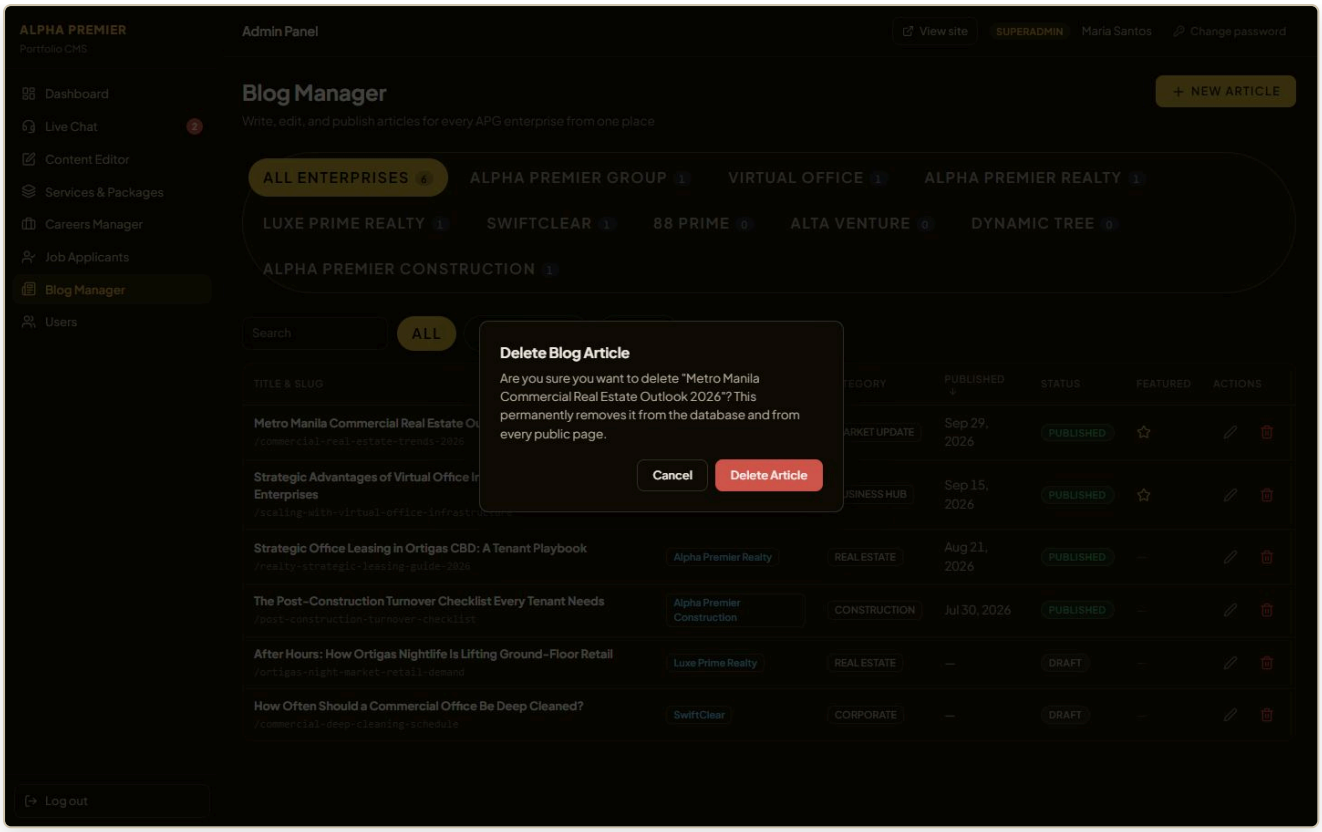

Figure 68. Every delete asks for confirmation.

19 Users (super-administrators)

Only super-administrators can see this module. It lists every Admin Console account with its role. Your own account is marked **YOU** and cannot be deleted.

19.1 Create an account

1. Open **Users** and click **New Admin**.
2. Enter the person's work **Email** and **Name**.
3. Choose a **Role**: superadmin, admin, editor or recruiter (see section 11.5).
4. Set a temporary **Password** of at least 10 characters and click **SAVE ACCOUNT**.
5. Give the person their email and temporary password in person or by phone, and ask them to change it at first sign-in (section 11.3).

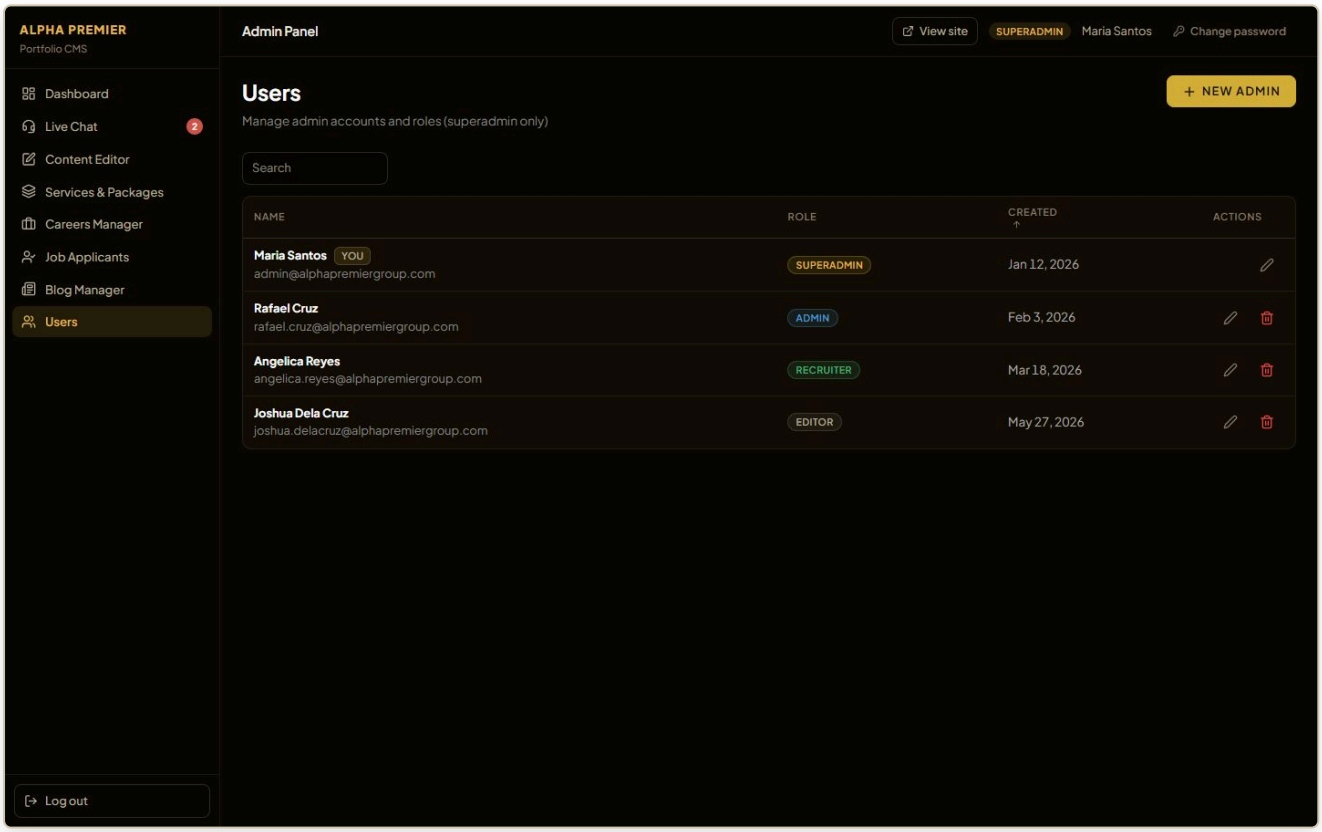

Figure 69. The Users list.

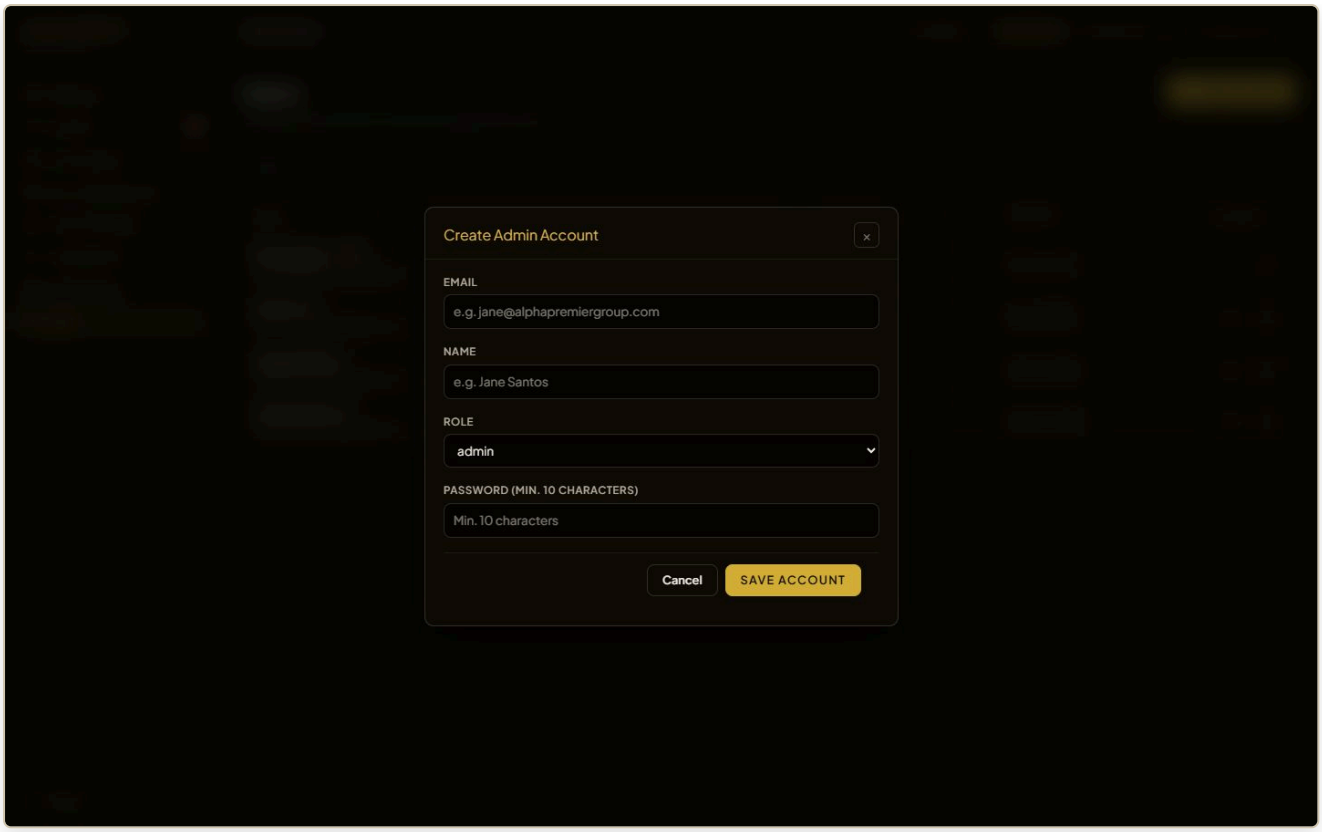

Figure 70. Creating an admin account.

19.2 Edit or remove an account

- **Edit** — change a person's name or role, or set a new password.
- **Delete** — remove the account of someone who has left the company, on their last day. This cannot be undone.

> **SECURITY**
> Give each person the lowest role they need. Keep at least two super-administrator accounts so you are never locked out of user management.

20 Managing property listings (Google Drive)

Properties on the Realty site are not entered in the Admin Console. They come automatically from the Alpha Premier Realty (APR) listings folder in Google Drive. The website checks the folder every 15 minutes.

20.1 Add a listing

1. In the APR listings folder, open the category folder that describes the property. Folder names decide the listing type and deal:
   - Type — words like **Warehouse/Industrial**, **Office**, **Commercial/Retail**, **Lot/Land**, or **Condo/House/Residential**.
   - Deal — **Sale** for properties for sale; **Lease** or **Rent** for properties for lease.
2. Create a folder for the property named **City, size street**, for example `Valenzuela, 1,000 Lingunan`. The text before the first comma becomes the area and the number becomes the size in sqm. The street is not shown online.
3. Inside it, create one Google Doc with the rate and terms (rental rate or price, dues, advance, deposit, lease length, parking).
4. Upload up to 12 photos (JPG, PNG or WebP). They are shown in file-name order, so name the best photo first (e.g. `01-front.jpg`).
5. Within about 15 minutes the property appears on `realty.alphapremiergroup.com/properties`, with a reference number (`APR-xxxxxx`) and a “New” badge for 14 days.

> **AUTOMATIC PRIVACY PROTECTION**
>
> Only the area, size, type, rate and key terms are published. Exact addresses, building and unit names, owner or broker names, phone numbers, emails and links in the Doc are never shown, and photo location data is removed. Still, avoid putting phone numbers or watermarks with personal numbers on the photos themselves.

20.2 Update or remove a listing

- **Update** — edit the Doc or replace photos; the website updates on the next sync.
- **Mark as sold or no longer available** — move the property folder into a folder named **SOLD**. It disappears from the website, and the chat assistant knows it is no longer available.
- **Virtual Office material** — folders named **VO** or **Virtual Office** are ignored by the listings page.

> **TIP**
>
> The Dashboard's **Property Listings** card shows how many properties are live. The listings page shows “Updated N min ago”. If a change has not appeared after 30 minutes, check the folder name format, then contact the web team.

21 Email notifications

All emails use the branding of the enterprise involved. Staff can reply directly to the visitor or applicant from their email program.

When	Who receives it	What it contains
An inquiry or contact form is sent	Company inbox	Subject `[APG-XXXXXXXX]` …; the visitor's details and message. For a property inquiry, also the property title and a link to its Drive folder.
Same	The visitor	"We've received your inquiry [ticket]", with a reply within one business day; for a property, a link back to the listing.
A job application is submitted	HR inbox	Candidate details, ATS score, summary, strengths and gaps, cover note, and the resume attached.
Same	The applicant	"We've received your application [reference]" with the position and whether the resume was received.
Someone subscribes to a newsletter	Company inbox	"[APG-…] Newsletter subscription — [email] ([company])", so the address can be added to the mailing list.
Same	The subscriber	"You're subscribed to [company] updates", including how to unsubscribe.
Careers feedback is submitted	Company inbox	"[APG-…] Careers feedback from [name]" with role, division, rating and the feedback.
Same	The sender	"Thank you for your feedback [reference]".
A chat is handed to a live agent	Company inbox	"[Live chat] Visitor waiting — [company]", the reason, the conversation so far, and an **Open live chat** button.
A password reset or change is requested	Company security inbox	A 6-digit code, valid for 10 minutes.

> **NOTE**
> Each email address receives at most three confirmation emails per day, to prevent abuse. If HR's email for an application fails to send, the system retries automatically once a day.

A Troubleshooting

A.1 Messages when sending a form

Message	What to do
Too many submissions. Please try again in a few minutes.	You sent 5 forms within 10 minutes. Wait 10 minutes.
Please review the form and try again.	The form was sent too fast (under 3 seconds) or the page was open for over 4 hours. Refresh the page, fill it in again and submit.
Please remove links from your message and try again.	Remove web links from your name, and keep at most two in the message.
Security check failed. Please refresh the page and try again.	Refresh the page. If you use an ad blocker or privacy extension, allow this site, then try again.
Name and email are required fields. / Invalid email address.	Fill in your name and a valid email address.
One or more fields exceed the maximum allowed length.	Shorten your message (10,000 characters maximum).
Resume file exceeds maximum allowed size (15MB).	Save the resume as a smaller PDF (remove large images) and upload again.
Invalid file format. Please upload a PDF, DOC, or DOCX resume.	Convert your resume to PDF or Word.
Something went wrong. Please try again or email us directly…	Try again in a few minutes, or email the address shown.
Network error. Please check your connection and retry.	Check your internet connection, then submit again.

A.2 Other common problems

Problem	Solution
The chat says “If you need immediate assistance, please call…”	The message could not be delivered (too many messages too quickly, or over 2,000 characters). Wait a moment and send a shorter message, or call 0915 888 9482.
The chat opens but shows no welcome message	Too many new chats were started from your network in the last hour. Try again later, or use the inquiry form.
I did not get a confirmation email	Check your spam/junk folder. Keep your reference number. The team still received your submission.

A property I saw is gone	It was leased or sold, or removed by the Realty team. Ask the chat assistant or send an inquiry for similar properties.
"404 — Oops! Looks like you're lost."	The page address is wrong or out of date. Click **GO HOME**.
Staff: "Too many failed login attempts"	Wait 15 minutes, then sign in carefully, or reset your password (11.2).
Staff: a module is missing from my sidebar	Your role does not include it (11.5). Ask a super-administrator.
Staff: my content change does not show	Refresh the public page. If the block's section key was changed, change it back (14.2).
Staff: "Too many reset requests"	Wait 15 minutes before requesting another code.

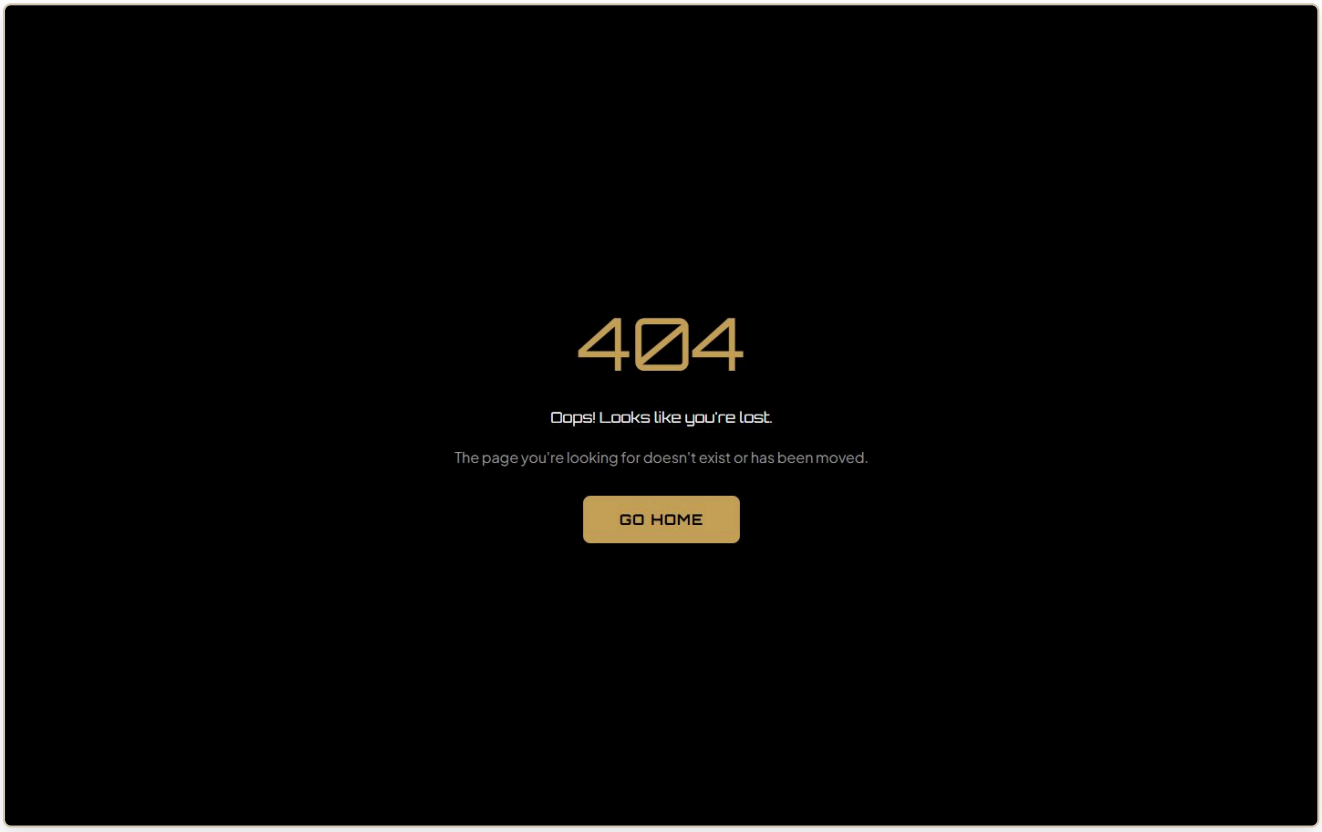

Figure 71. The page shown for an address that does not exist.

B Frequently asked questions

DO I NEED AN ACCOUNT TO USE THE WEBSITE?

No. Only staff need an account, for the Admin Console.

WILL EVERY APG SITE ASK ME ABOUT COOKIES?

No. Your choice on any APG site applies to the main website and all enterprise sites in the same browser for one year.

HOW DO I STOP RECEIVING THE NEWSLETTER?

Reply “Unsubscribe” to any newsletter or to the subscription confirmation email.

HOW QUICKLY WILL APG REPLY TO MY INQUIRY?

Usually within one business day; SwiftClear and Realty property inquiries aim for about two hours during office hours. For urgent matters use the chat's **Talk to Live Agent** or call 0915 888 9482 / (02) 8 650 2540.

CAN I APPLY FOR MORE THAN ONE JOB?

Yes. Submit a separate application for each position, or one **General Application** to be considered for all suitable roles.

IS MY PERSONAL INFORMATION SAFE?

Yes. Forms are sent over a secure connection, resumes can only be opened by signed-in staff, and data is handled under the Data Privacy Act of 2012 (RA 10173). See the Privacy Policy.

WHY DOES THE ASSISTANT SAY RATES ARE “SUBJECT TO CONFIRMATION”?

Listings are synced from the Realty team's records every 15 minutes; final rates and availability are always confirmed by a broker.

(STAFF) HOW DO I PUT A PROPERTY ON THE WEBSITE?

Add it to the APR Google Drive folder using the naming format in Chapter 20. It appears within about 15 minutes.

(STAFF) CAN TWO AGENTS ANSWER THE SAME CHAT?

A chat is assigned to the agent who claims it. Others can read it, but the visitor sees the assigned agent's name.

(STAFF) WHAT IF AI IS UNAVAILABLE?

The chat assistant switches to its built-in answers, and the ATS switches to keyword scoring. Everything else works normally.

C Glossary

Term	Meaning
Admin Console	The private staff area at `/admin`.
APG	Alpha Premier Group of Companies.
APR	Alpha Premier Realty. Listing references start with `APR-`.
ATS	Applicant Tracking System — automatic resume screening and the applicant pipeline.
Chat assistant / bot	The automated concierge in the chat window ("APG Assistant" in the Admin Console).
Claim	An agent taking ownership of a waiting chat.
Content block	One editable piece of a page (heading, paragraph, image) in the Content Editor.
Draft	Saved but not visible on the website.
Enterprise	One of the APG companies, each with its own site.
Handoff	Passing a chat from the assistant to a live agent.
Reference / ticket	The ID you receive after submitting a form (`APG-…`, `APG-APP-…`).
Section key	The identifier that tells the website where a content block belongs.
Shortlisted	An applicant whose ATS score reaches the threshold (70 by default).
Slug	The short, hyphenated name used in a web address.
Sync	The automatic 15-minute update of property listings from Google Drive.

D Support & contact

For	Contact
General inquiries	0915 888 9482 · (02) 8 650 2540 · contact@alphapremiergroup.com
Alpha Premier Realty	0927 555 5803 · 0915 888 9482 · 0921 217 4555 · realty@alphapremiergroup.com
Office address	Unit 3104, Tektite East Tower, Exchange Road, Ortigas Center, Pasig City
Online	Chat assistant on any page, or `alphapremiergroup.com/inquire`
Staff: account or access problems	Your super-administrator
Staff: technical problems	The APG Web & Digital Team — include the page address, what you did, the exact message, and a screenshot.

PRIVACY & TERMS

Read the full Privacy Policy at `alphapremiergroup.com/privacy` and the Terms and Conditions at `alphapremiergroup.com/terms`.
