ALPHA PREMIER GROUP

ALPHA PREMIER GROUP OF COMPANIES

Website & Admin Console User Manual

A complete, illustrated guide to the public website, the eight enterprise sites, the chat assistant, careers, and the staff administration console.

Version 2.1 · October 2026

alphapremiergroup.com

FOR VISITORS · STAFF · ADMINISTRATORS

Document information

Document	Alpha Premier Group Website & Admin Console — User Manual
Version	2.1
Release date	13 October 2026
Applies to	alphapremiergroup.com, its eight enterprise sites (realty, luxe-prime, construction, swiftclear, 88prime, alta-venture, dynamic-tree, virtual-office), and the Admin Console at alphapremiergroup.com/admin
Audience	Part I — website visitors, clients and job seekers. Part II — staff: administrators, editors, recruiters and chat agents.
Owner	Alpha Premier Group — Web & Digital Team

Revision history

Version	Date	Changes
2.1	13 Oct 2026	Admin Console redesign: pages grouped in the sidebar (Engagement, Website, Recruitment, Administration), one header style on every page, an enterprise drop-down and a status switcher in place of the long filter rows, highlighted Dashboard cards for work that needs attention, renamed buttons (New opening, New article, New admin, Add service or package), and no cookie notice inside the console (11.4, 12, 13, 15.2, 16, 18–21). Virtual Office updated to the 2026 V3.0 plans — Premier Access, Premier Prestige and Alpha Premier — with photos and inclusions on each plan card (8, 16.2). Admin and Virtual Office screenshots retaken.
2.0	12 Oct 2026	Updated for the Admin Console “full control” release. New chapters: Inquiries & newsletter (14) and Property Listings management (17). Content Editor rewritten for the guided editor, Site settings, the announcement banner and Private settings (15). Services now cover kinds, images, the 88 Prime catalog and Virtual Office prices (16). Updated sign-in and session behaviour, roles, Dashboard, Live Chat, Blog Manager, Users and emails. Visitor guide updated: Virtual Office plans and prices, eighth enterprise card, home FAQ, 88 Prime catalog, article pages on every company blog, renamed form fields, rate limits and error messages. All screenshots retaken.
1.1	11 Oct 2026	Added newsletter sign-up (3.4), careers feedback (6.3), sharing article links (7), enterprise job applications (10.2) and the related emails (21). The cookie notice is now asked once for all APG sites and matches each site's colours (3.2). One contact address throughout: contact@alphapremiergroup.com.
1.0	11 Oct 2026	First release. Covers every public page, enterprise site, chat assistant, careers portal, live property listings and all Admin Console modules.

ABOUT THE SCREENSHOTS

Public-website screenshots were taken from the live site on 12 October 2026; Virtual Office and Admin Console screenshots on 13 October 2026. Admin Console screenshots were taken on a test copy of the system with sample data (demo inquiries, chats and applicants), so names, numbers and messages you see will be different. Layouts, buttons and labels are the same.

1 Introduction

1.1 Purpose of this manual

This manual explains how to use every feature of the Alpha Premier Group (APG) web system: what each screen is for, what every button does, and step-by-step instructions for common tasks. It also covers what happens after you submit something (emails, reference numbers) and how to fix common problems.

1.2 Who should read which part

If you are…	Read
A client or website visitor	Chapter 3 (Getting started) and Part I, Chapters 4–10
A job seeker	Chapter 6 (Careers) and Chapter 9 (Chat assistant)
A content editor	Part II: Chapters 11, 12, 15, 16, 17, 20
A recruiter or HR staff member	Part II: Chapters 11, 12, 13, 18, 19
A chat agent / broker	Part II: Chapters 11 and 13
A Realty team member	Chapter 17 (Property Listings) and Chapter 14 (Inquiries)
An administrator or super-administrator	All of Part II, including Chapters 14, 21 and 22

1.3 Conventions used in this manual

Convention	Meaning
Inquire Now	A button, link, tab or label exactly as it appears on screen.
`realty.alphapremiergroup.com`	A web address, file name or text you type.
Numbered gold circles	Steps to follow in order.
Menu › Item	A path through menus, e.g. **Admin Console › Blog Manager**.

> **NOTE**
> Extra information that helps you understand a feature.

> **TIP**
> A shortcut or best practice that saves time.

> **IMPORTANT**
>
> Something that can cause data loss, a failed submission or a security problem if ignored.

2 System overview

The APG web system is one platform that serves the group's main corporate website, a dedicated website for each enterprise, an AI chat assistant, an online careers portal, and a private Admin Console for staff.

2.1 Main components

Component	What it does	Used by
Main website	Corporate home page, enterprises directory, blogs, careers, inquiry forms, contact, Virtual Office, privacy and terms pages.	Visitors
Enterprise sites	A branded website for each APG company, each on its own web address.	Visitors
Live property listings	Available properties synced automatically from the Alpha Premier Realty Google Drive every 15 minutes; staff control which are shown, featured and how they are priced.	Visitors, Realty team
Chat assistant	AI concierge on every page that answers from live website data (services, prices, jobs, listings, contacts) and hands the chat to a live agent when needed.	Visitors, chat agents
Careers portal & ATS	Job listings and online applications. Every resume is automatically scored by the Applicant Tracking System (ATS).	Job seekers, HR
Admin Console	Private staff area to answer chats, handle inquiries and newsletter sign-ups, edit all website text, images and contact details, post announcements, and manage services, products, plans, property listings, jobs, applicants, blog articles and user accounts.	Staff
Email notifications	Branded emails to staff and to visitors for inquiries, applications, newsletter sign-ups, feedback and chat handoffs.	Everyone

2.2 Web addresses

Address	Site
`alphapremiergroup.com`	Alpha Premier Group — main corporate website
`realty.alphapremiergroup.com`	Alpha Premier Realty — property services and live listings
`luxe-prime.alphapremiergroup.com`	Luxe Prime Realty — luxury property management
`construction.alphapremiergroup.com`	Alpha Premier Construction — contracting and materials

`swiftclear.alphapremiergroup.com`	SwiftClear — cleaning, sanitation, aircon and pest control
`88prime.alphapremiergroup.com`	88 Prime — corporate supplies, procurement and advisory
`alta-venture.alphapremiergroup.com`	Alta Venture — outsourcing: finance, HR, IT and CX
`dynamic-tree.alphapremiergroup.com`	Dynamic Tree — multimedia, talent and production
`virtual-office.alphapremiergroup.com`	Virtual Office — business address packages in Ortigas
`alphapremiergroup.com/admin`	Admin Console (staff only)

> **NOTE**
> If you open an enterprise page through the main site (for example `alphapremiergroup.com/realty`), you are taken to that enterprise's own address automatically. Every section of an enterprise site has its own address (for example `88prime.alphapremiergroup.com/services`), so Back, Forward, refresh and sharing links all work. Privacy, Terms and the Admin Console always open on the main address.

2.3 How information flows

1. **Visitors** browse the sites, chat with the assistant, send inquiries and apply for jobs.
2. **Inquiries**, newsletter sign-ups and feedback are emailed to the right company inbox and saved in the Admin Console's Inquiries page; the visitor receives a confirmation with a reference number.
3. **Applications** are saved, scored by the ATS, and emailed to the company's HR inbox with the resume attached. Recruiters manage them in the Admin Console.
4. **Chats** are answered by the assistant. When a visitor needs a person, the chat joins the Live Chat queue and the team is emailed.
5. **Staff** update text, contact details, services, prices, jobs and articles in the Admin Console, and the public sites show the changes on the next page load.
6. **Property listings** are maintained in Google Drive and appear on the Realty site within about 15 minutes; staff can hide, feature or re-price them in the console.

3 Getting started

3.1 What you need

- An up-to-date web browser: Google Chrome, Microsoft Edge, Mozilla Firefox or Apple Safari.
- An internet connection. No app or account is needed to use the public websites.
- The site adapts to phones, tablets and desktop screens.
- Staff need an Admin Console account created by a super-administrator (see Chapter 21).

3.2 The cookie notice

On your first visit a **We value your privacy** notice appears in the bottom-right corner.

Figure 1. The cookie notice on the first visit to the home page.

1. Click **Accept All** to allow essential and analytics cookies, or **Decline** to allow essential cookies only. Clicking the × counts as Decline.
2. Your choice is remembered for a year in this browser, across the main website **and every enterprise site**. You are asked only once.

The notice takes on the colours of the site you are visiting, so it always matches the page.

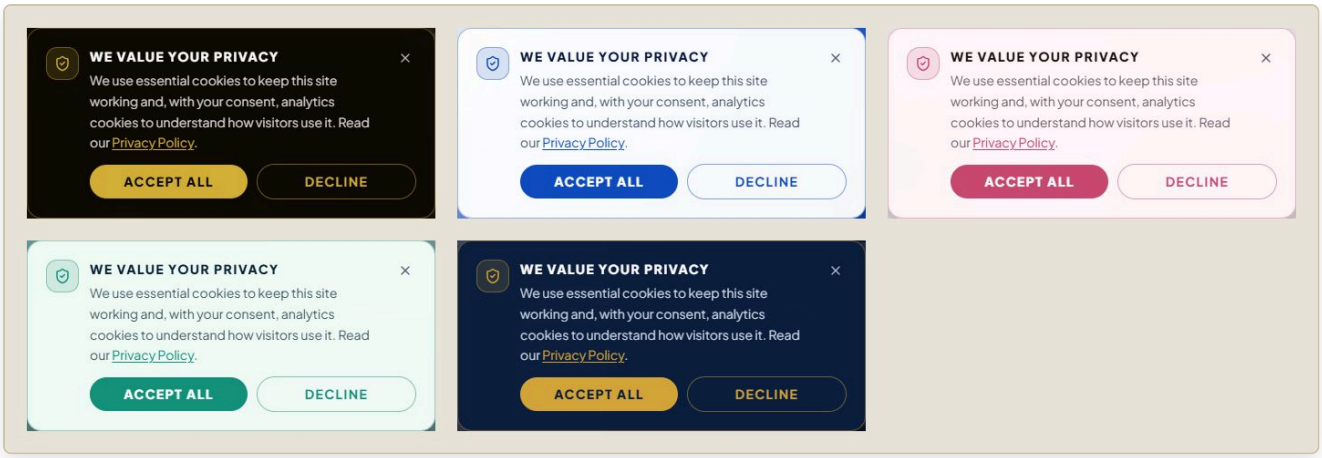

Figure 2. The same cookie notice on the main site, SwiftClear, Dynamic Tree, Alta Venture and 88 Prime.

> **NOTE**
>
> Analytics cookies are only used after you click **Accept All**. If you decline, no analytics are loaded.

> **TIP**
>
> To see the notice again (for example to change your choice), clear this website's cookies in your browser settings and reload the page. The **Privacy Policy** link in the notice opens the full policy.

3.3 Navigating the main website

The top bar is on every page of the main website:

- **Logo** — returns to the home page.
- **HOME** **ENTERPRISES** **BLOGS** **CAREERS** — the main sections. The current section is highlighted in gold.
- **INQUIRE NOW** — opens the inquiry page (on wide screens).
- **Chat button** (round gold robot icon, bottom-right) — opens the chat assistant (Chapter 9).

Figure 3. The main website home page: top navigation, hero section and the chat button (bottom-right).

ON A PHONE

1. Tap the menu icon (three lines) at the top-right.
2. Tap a section, or **INQUIRE NOW**. The company phone and email are listed at the bottom of the menu.
3. Tap × (or press Esc on a keyboard) to close the menu.

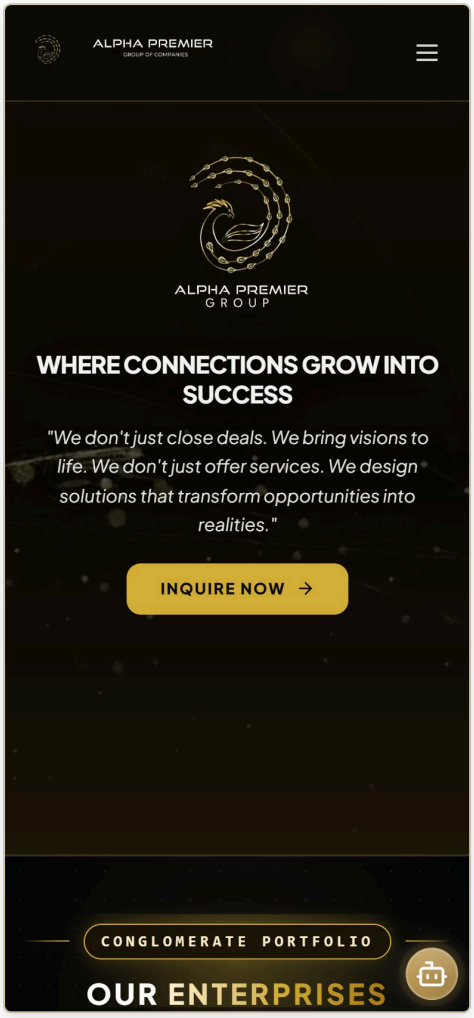

Figure 4. Home page on a phone.

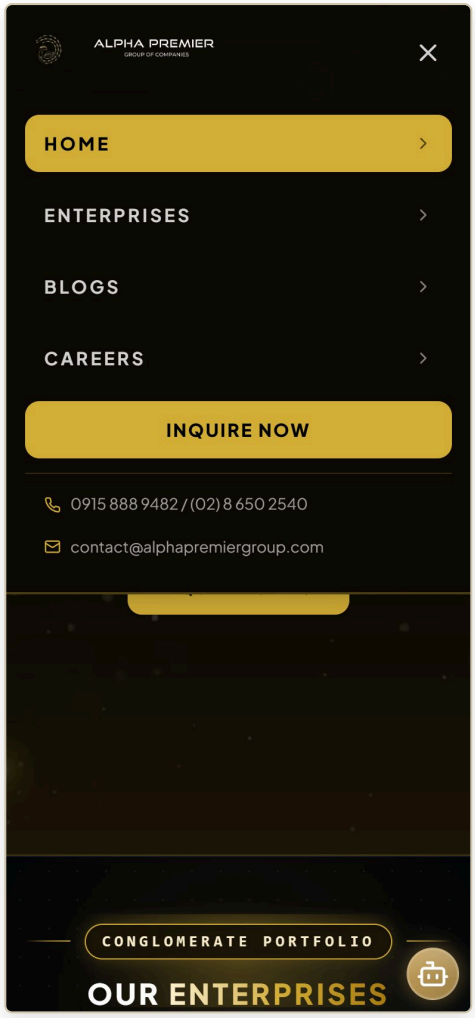

Figure 5. The phone menu, opened.

THE FOOTER

At the bottom of every main-site page you will find: social media links; **Quick Links** to every section, including **Properties & Real Estate** and **Schedule Consultation →**; buttons for each enterprise; the office address, phone, email and (when published) business hours; the **Newsletter** sign-up; links to the **Privacy Policy** and **Terms of Use**; and a back-to-top arrow.

3.4 Subscribing to the newsletter

You can subscribe to news and articles from the footer of the main website, or from the blog pages of Alpha Premier Construction, 88 Prime, Alta Venture and Dynamic Tree.

1. Type your email address in the **Newsletter** box.
2. Click the send arrow (or **Subscribe** on the enterprise blogs).
3. A message confirms the subscription, and a confirmation email arrives in your inbox.

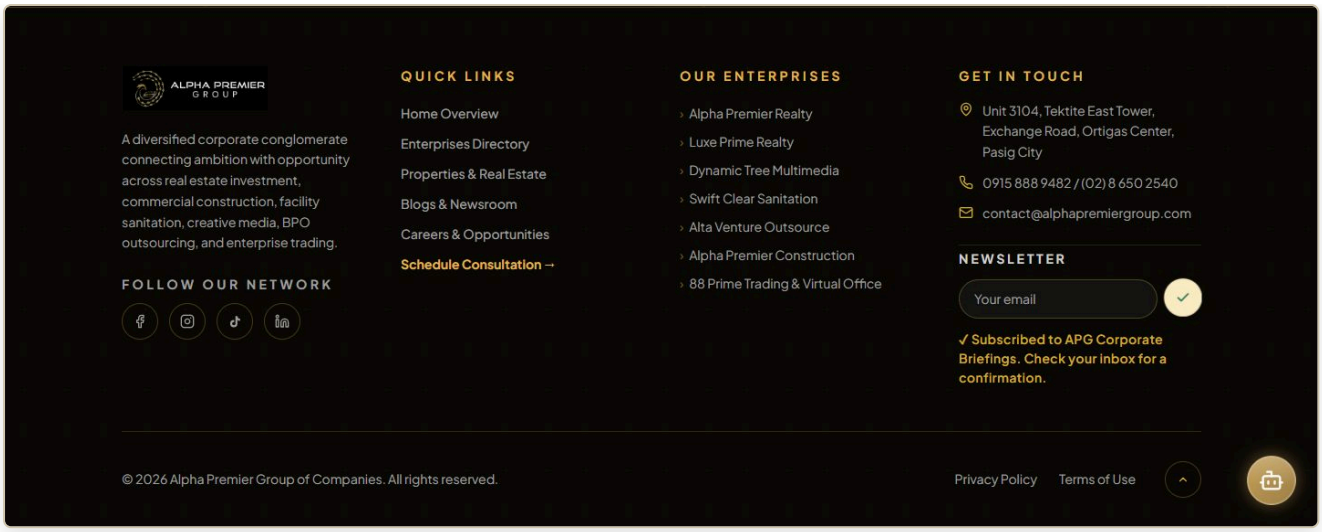

Figure 6. The footer Newsletter box after subscribing.

> **UNSUBSCRIBING**
>
> Reply to any newsletter or to the confirmation email with the word “Unsubscribe”, and the team will remove your address.

3.5 Announcements

From time to time a small announcement card appears at the bottom-left of the page (across the bottom on phones) — for example a holiday closure or a promotion. It may include a **Learn more** link. Click its × to hide it for the rest of your visit.

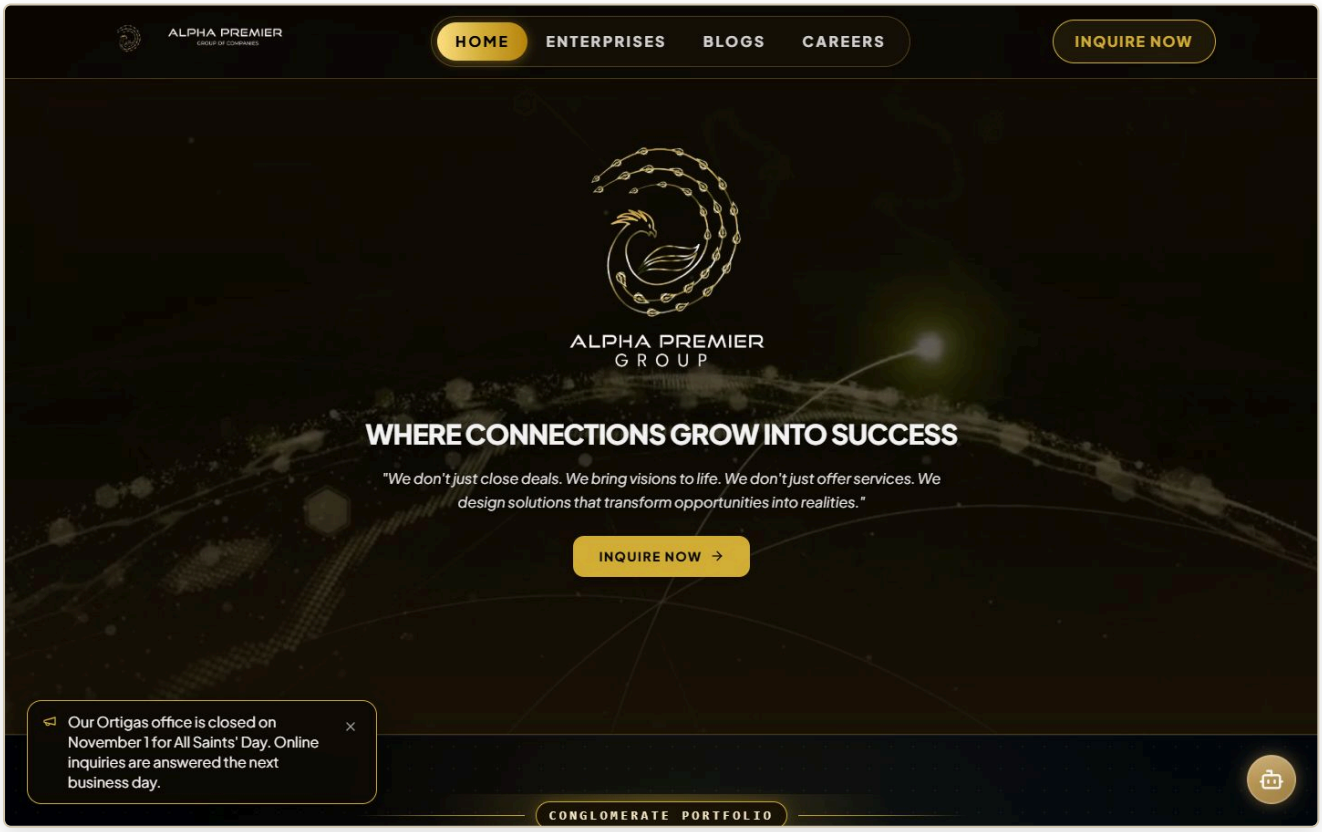

Figure 7. An announcement (bottom-left) on the main website.

PART I

Visitor Guide

Using the public websites: exploring the group, sending inquiries, applying for jobs, reading articles, browsing properties and chatting with the assistant.

4 Home page & Enterprises

4.1 Home page sections

Scroll down the home page to see these sections, in order:

Section	What you can do
Hero	Read the group's tagline and click **Inquire Now**.
Our Enterprises	Click any of the eight cards (the seven companies plus Virtual Office) to open that website.
Alpha Premier Group of Companies	Read the four pillars of the group and the CEO profile.
Strategic Asset Categories	Hover over or click a category column (on phones, tap a row to expand it, then **Explore ...**) to go to the Enterprises page.
CEO message	**Partner With Our Leadership** opens the inquiry page.
Mission & Vision	Click or hover a card to expand it.
Core Values	Hover or tap a value to read its description.
Frequently Asked Questions	Click a question to open its answer.
Closing banner	**Inquire Now** opens the inquiry page.

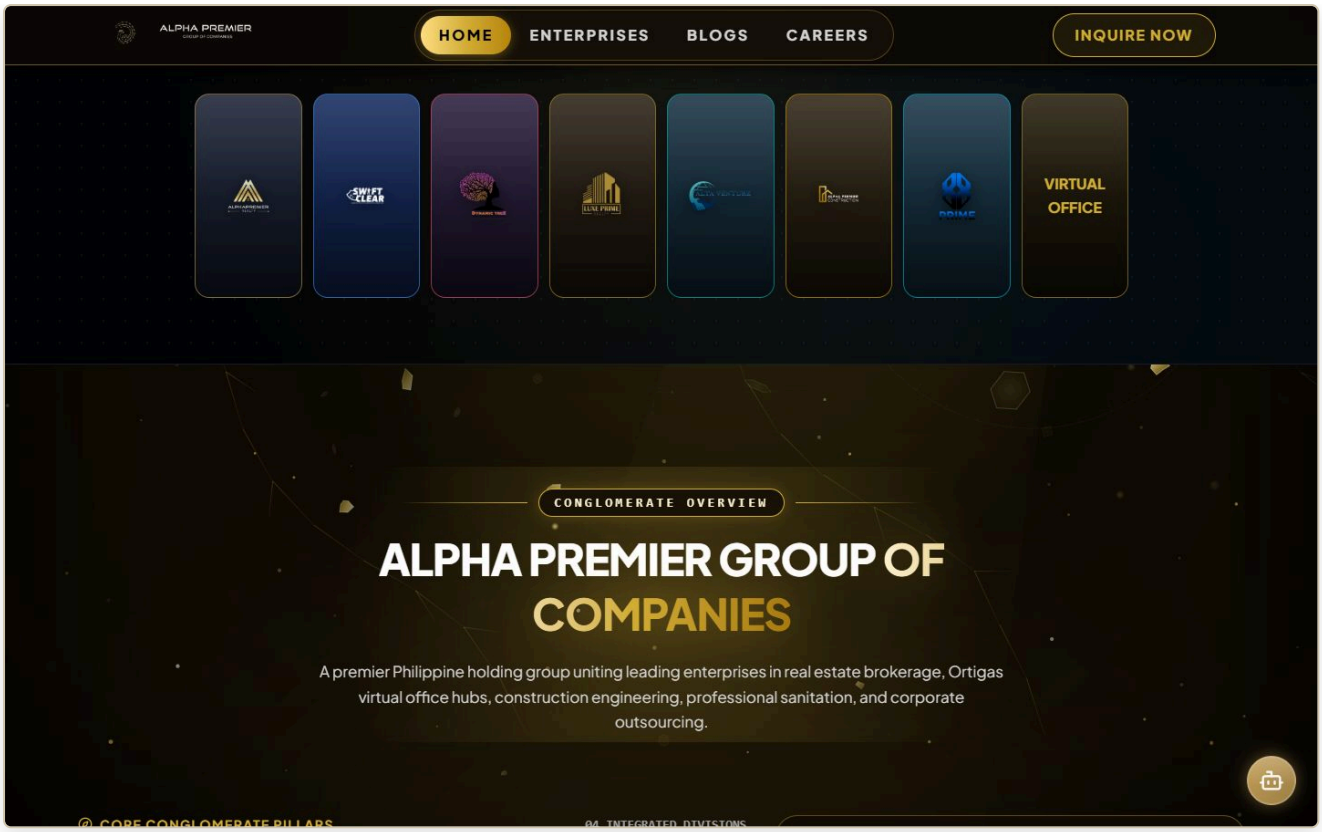

Figure 8. "Our Enterprises": click a card to visit that website.

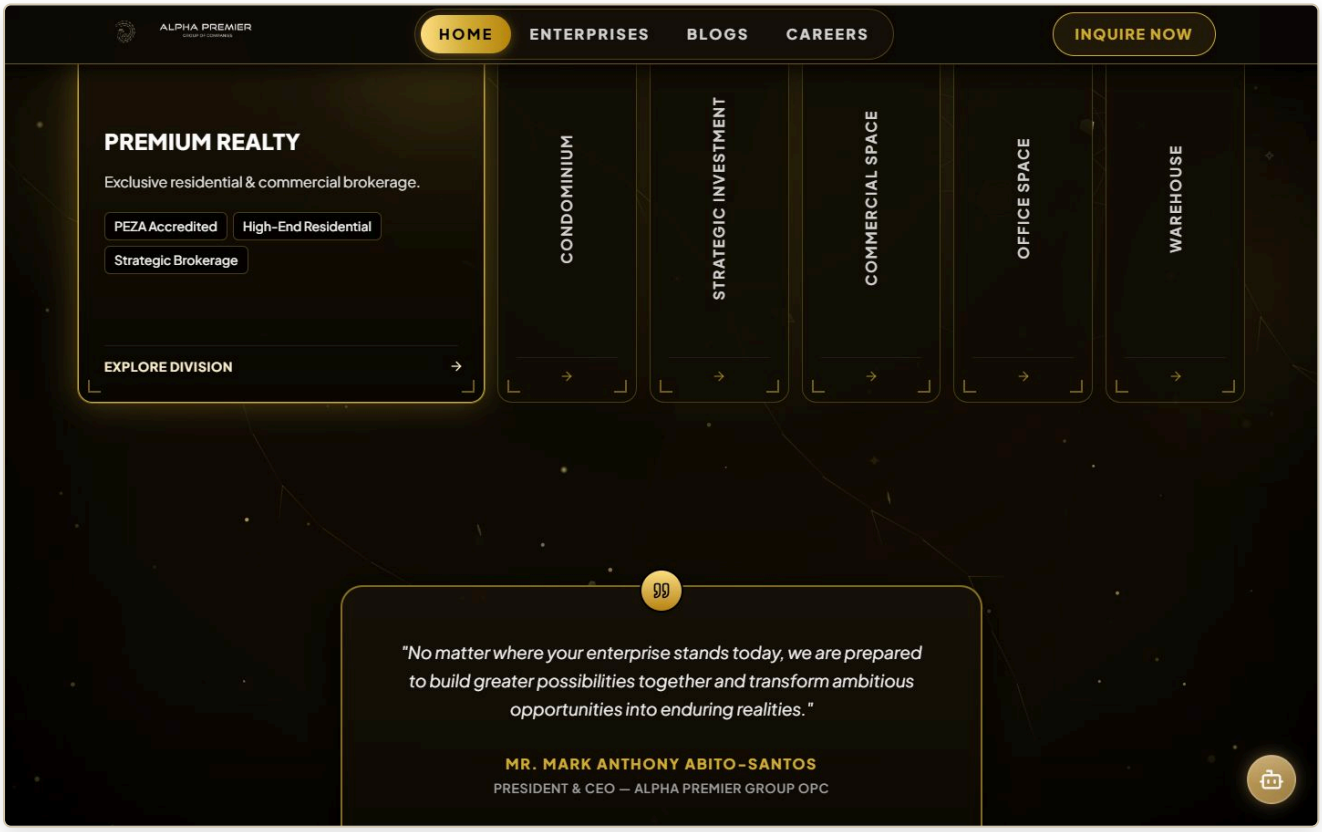

Figure 9. Home page — group story and categories.

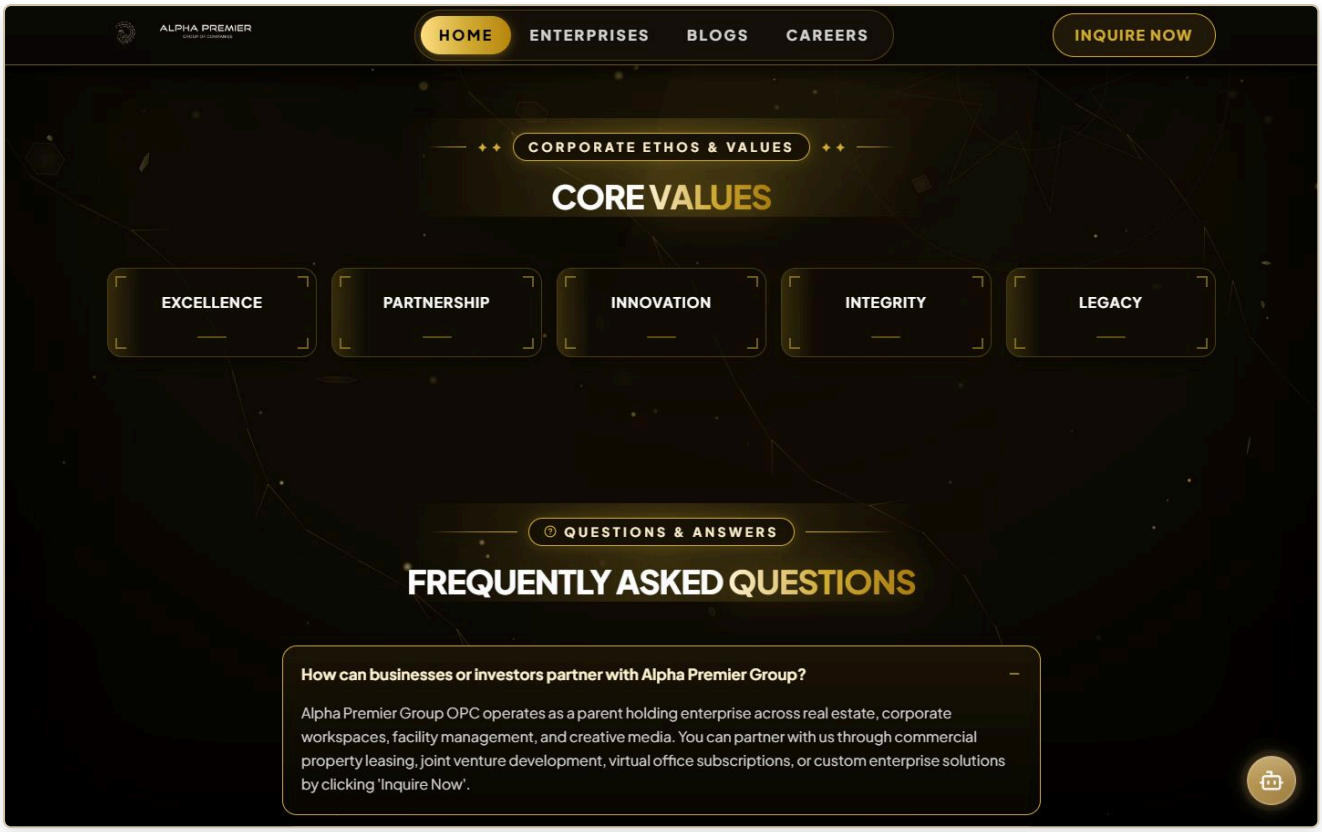

Figure 10. Core Values and the Frequently Asked Questions.

4.2 Enterprises page

Click **ENTERPRISES** in the top bar to see a section for each of the seven companies and for Virtual Office. Every section has two buttons:

- **An inquiry button** (e.g. **INQUIRE ABOUT REALTY**, **START A CONSTRUCTION PROJECT**, **INQUIRE ABOUT VIRTUAL OFFICE**). It opens the inquiry form with that company already selected (Chapter 5).
- **VISIT FULL SITE** (or **VIEW ALL PLANS** for Virtual Office) — opens that website (Chapters 8 and 10).

The Virtual Office and Realty sections show the Virtual Office plan prices; click a price tile to open the inquiry form with that plan already filled in.

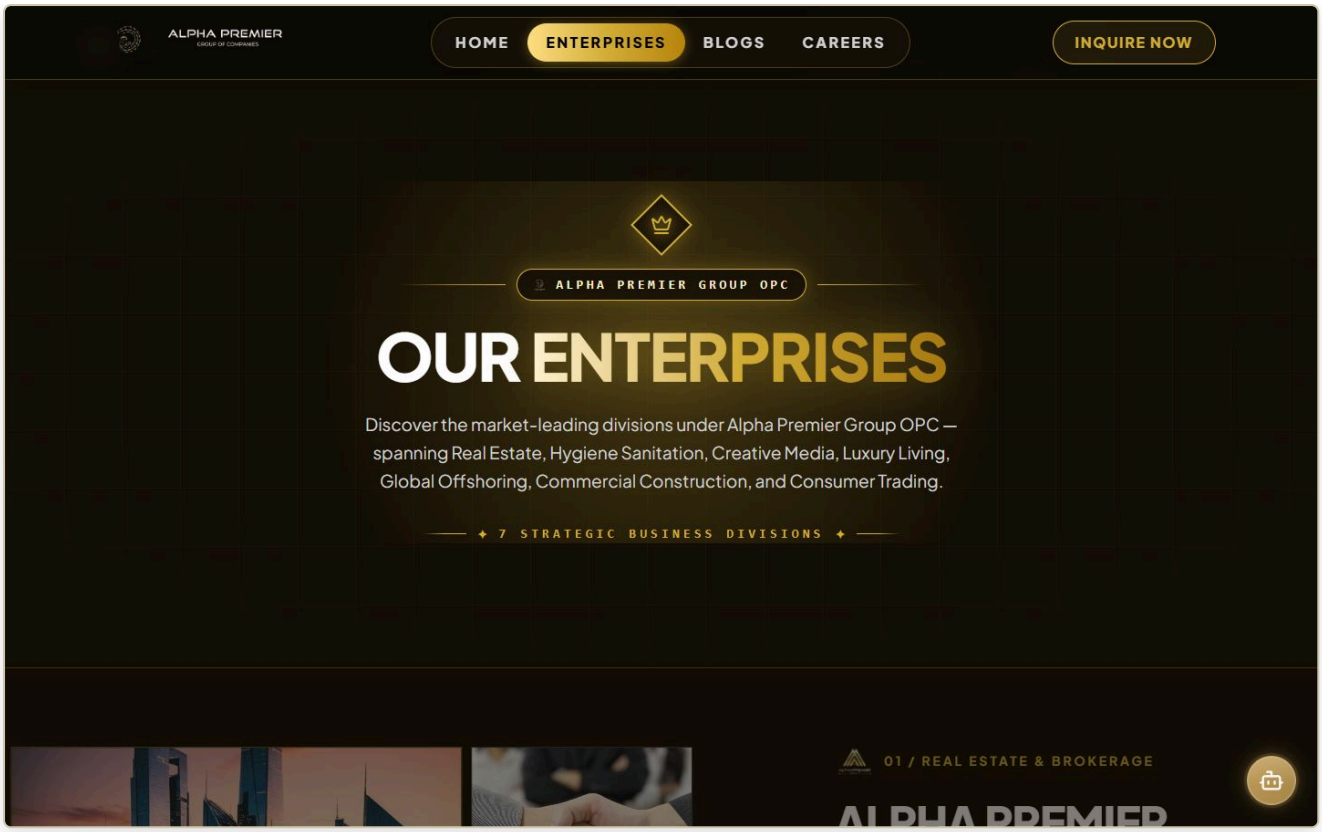

Figure 11. The Enterprises page.

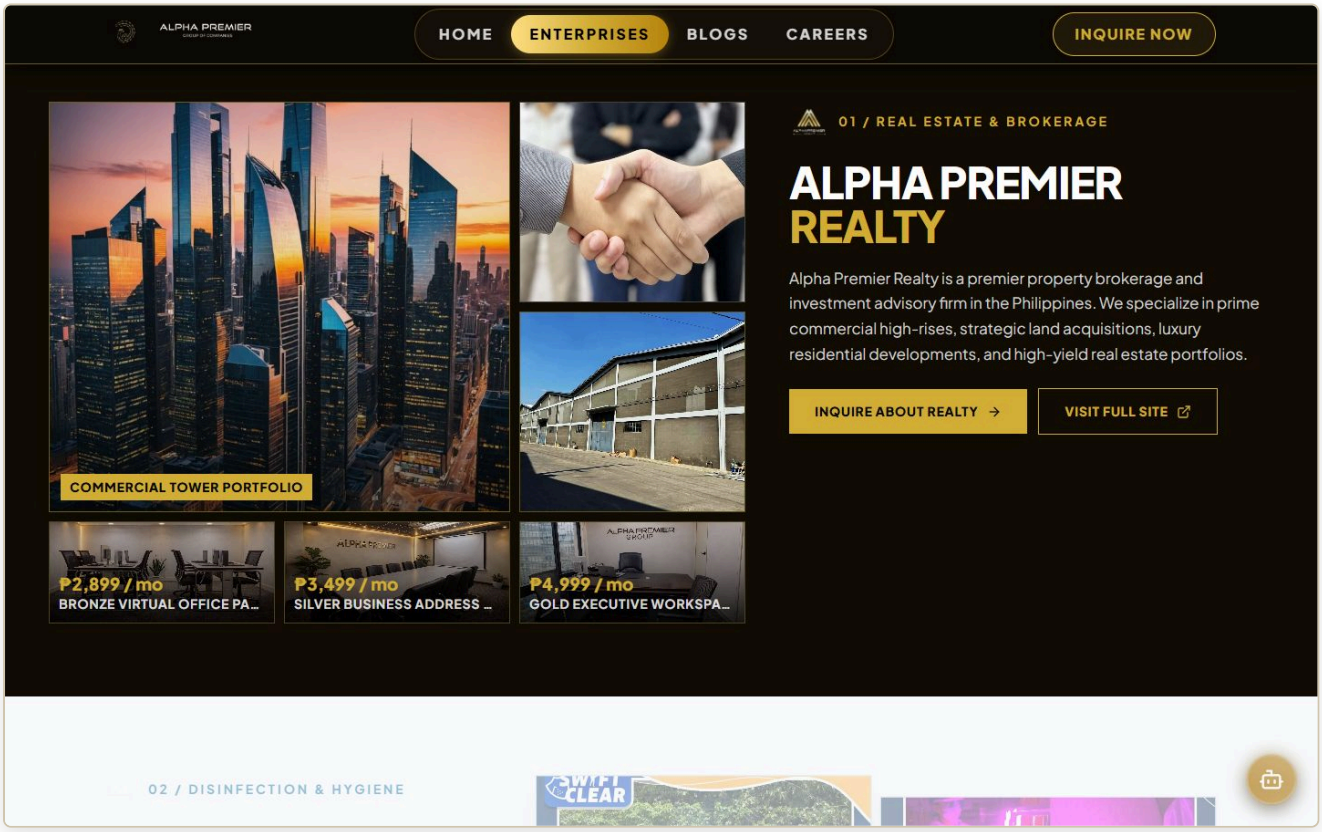

Figure 12. An enterprise section with its inquiry and "Visit Full Site" buttons.

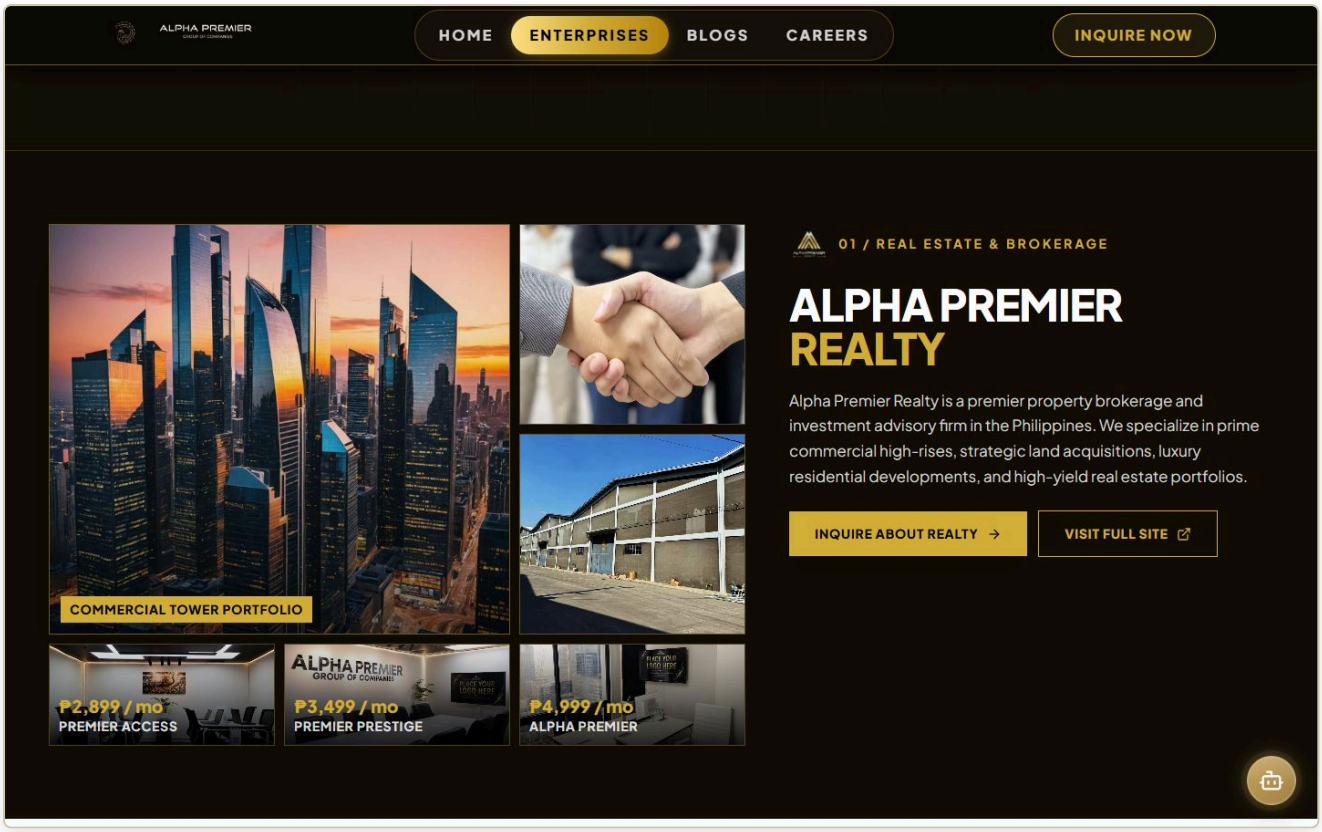

Figure 13. The Virtual Office section with plan price tiles.

5 Sending an inquiry

An inquiry is a request for a consultation, quotation or information. You can send one from four places: the **INQUIRE NOW** page, the pop-up form on the Enterprises page, the Contact page, or each enterprise site's own inquiry form.

5.1 Submit an inquiry

1. Click **INQUIRE NOW** in the top bar (or an inquiry button on the Enterprises page).
2. Fill in the form. Fields marked ***** are required:

Field	Notes
Full Name *	Up to 150 characters. Do not include web links.
Email Address *	Your confirmation email is sent here.
Company / Organization Name	Optional.
Enterprise Division Interest *	Which company your inquiry is for: Alpha Premier Group (default), Alpha Premier Virtual Office or one of the seven companies. Pre-selected if you came from an enterprise button.
Estimated Budget Range	From "Under ₱50,000" to "₱1,000,000+", or "To be discussed".
Target Timeline / Date	Free text, e.g. "Q3 2026" or "Immediate".
Phone / Viber Number *	So the team can call or message you.
Project Details / Requirements *	Describe what you need (up to 10,000 characters).

3. Click **Send Message via Email**. The button shows "Submitting Inquiry..." while it sends.
4. A success screen shows your **reference ticket** (for example `APG-1A2B3C4D`). Write it down. Click **SUBMIT ANOTHER INQUIRY** or **EXPLORE ENTERPRISES** to continue.

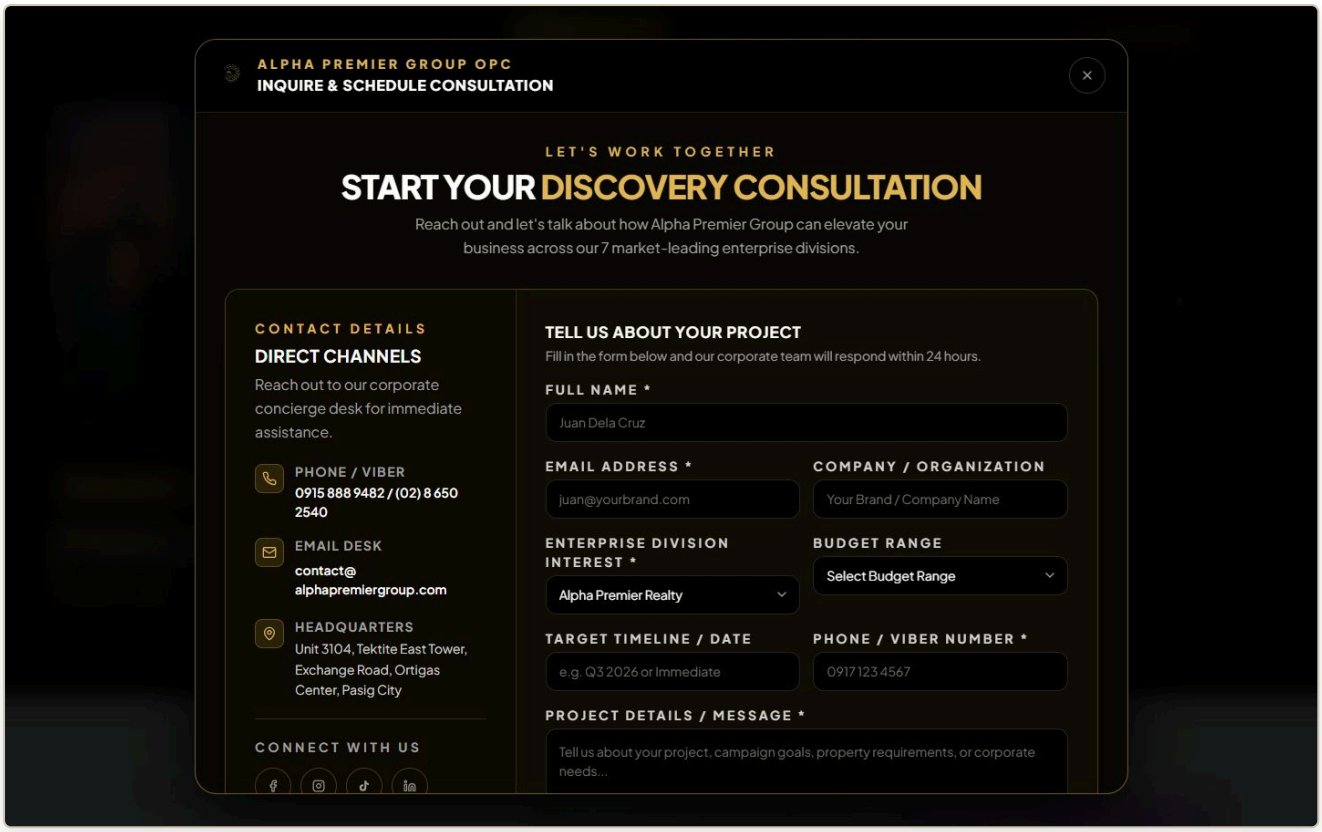

Figure 14. The inquiry pop-up opened from the Enterprises page. The contact details on the left let you call or email directly.

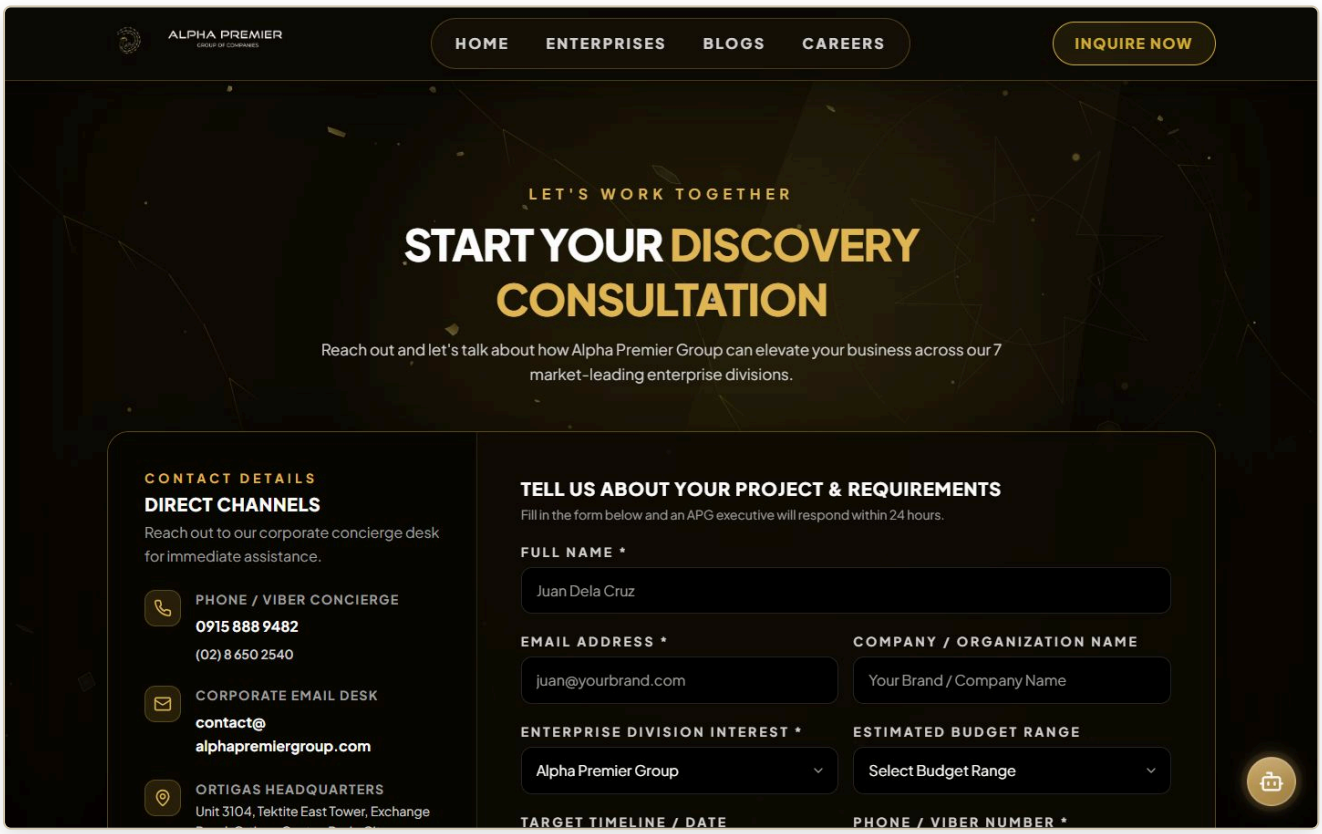

Figure 15. The inquiry form on the Inquire page.

WHAT HAPPENS NEXT

- The APG team receives your inquiry by email immediately and can reply to you directly.
- You receive a branded confirmation email: “We've received your inquiry [your ticket]”. An APG executive aims to respond within 24 hours.

IMPORTANT

- Take at least a few seconds to fill in the form. Forms sent in under 3 seconds, or more than 4 hours after the page was opened, are rejected as possible spam. Refresh the page and try again.
- Avoid web links in your name, and use no more than two links in the message.
- Each type of form (inquiry, newsletter, feedback, job application) accepts up to 5 submissions every 10 minutes from the same connection.

5.2 Contact page

The Contact page (`alphapremiergroup.com/contact`) lists the office phone, email and address, and has a short form: **Your Name***, **Your Email***, **Subject** and **Your Message***. Click **Send Message**. On success you see “Message sent successfully! Ticket: APG-…”.

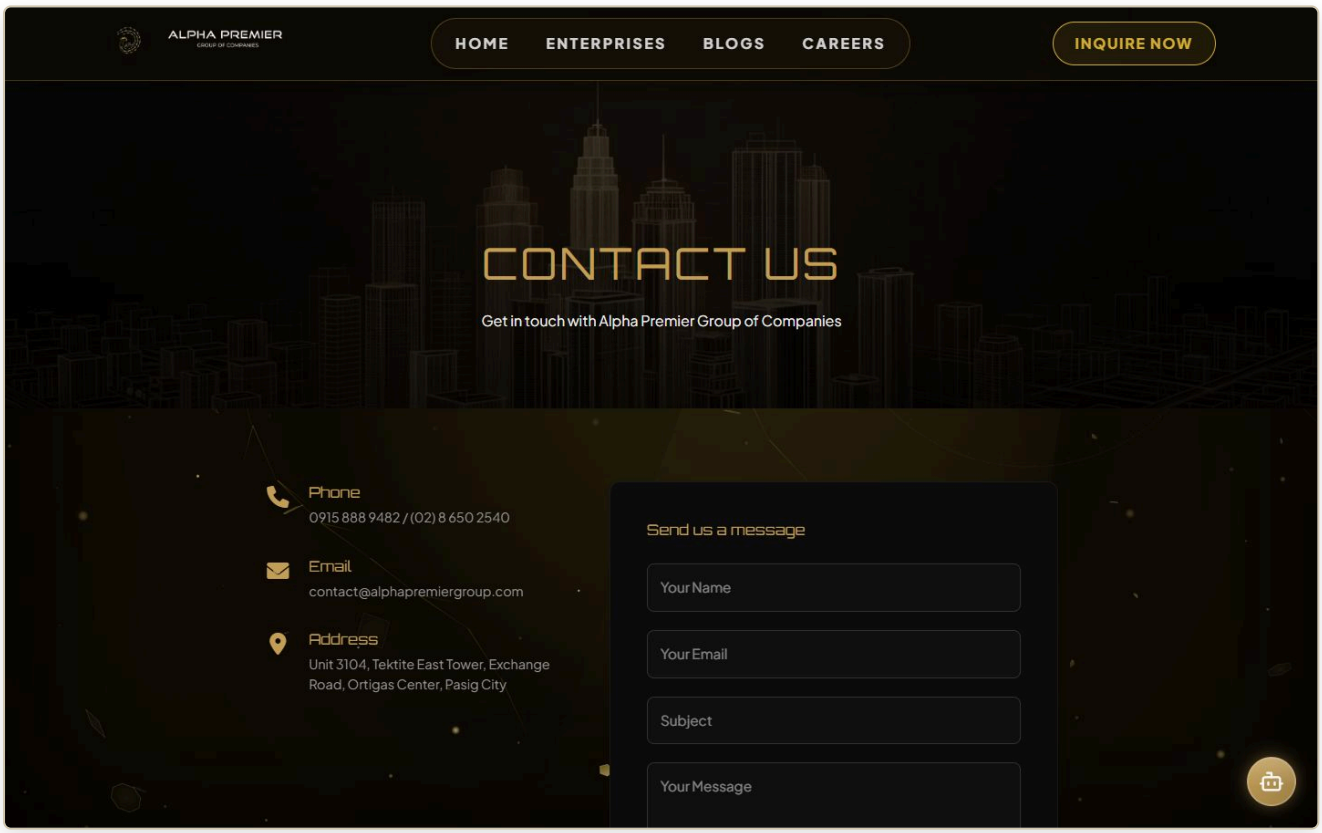

Figure 16. The Contact page.

5.3 Security check

Every form is protected against automated spam by an invisible check. Almost all visitors never see it. If the system is unsure, a small “verify you are human” checkbox appears at the bottom-right of the screen.

Tick it, then submit again.

6 Careers: finding and applying for jobs

6.1 Browse open positions

1. Click **CAREERS** in the top bar.
2. Click **EXPLORE OPEN POSITIONS** to jump to the job list, or **WHY JOIN US** to read about working at APG.
3. Type in **Search roles, skills, locations...**, or click a company filter (**ALL** plus one button for each company that currently has openings).
4. Each card shows the company, location, type and the salary when published. Click **View Full Details** to see its responsibilities and requirements, and **Less Details** to collapse it.

If there are no openings, the page invites you to send a general application instead.

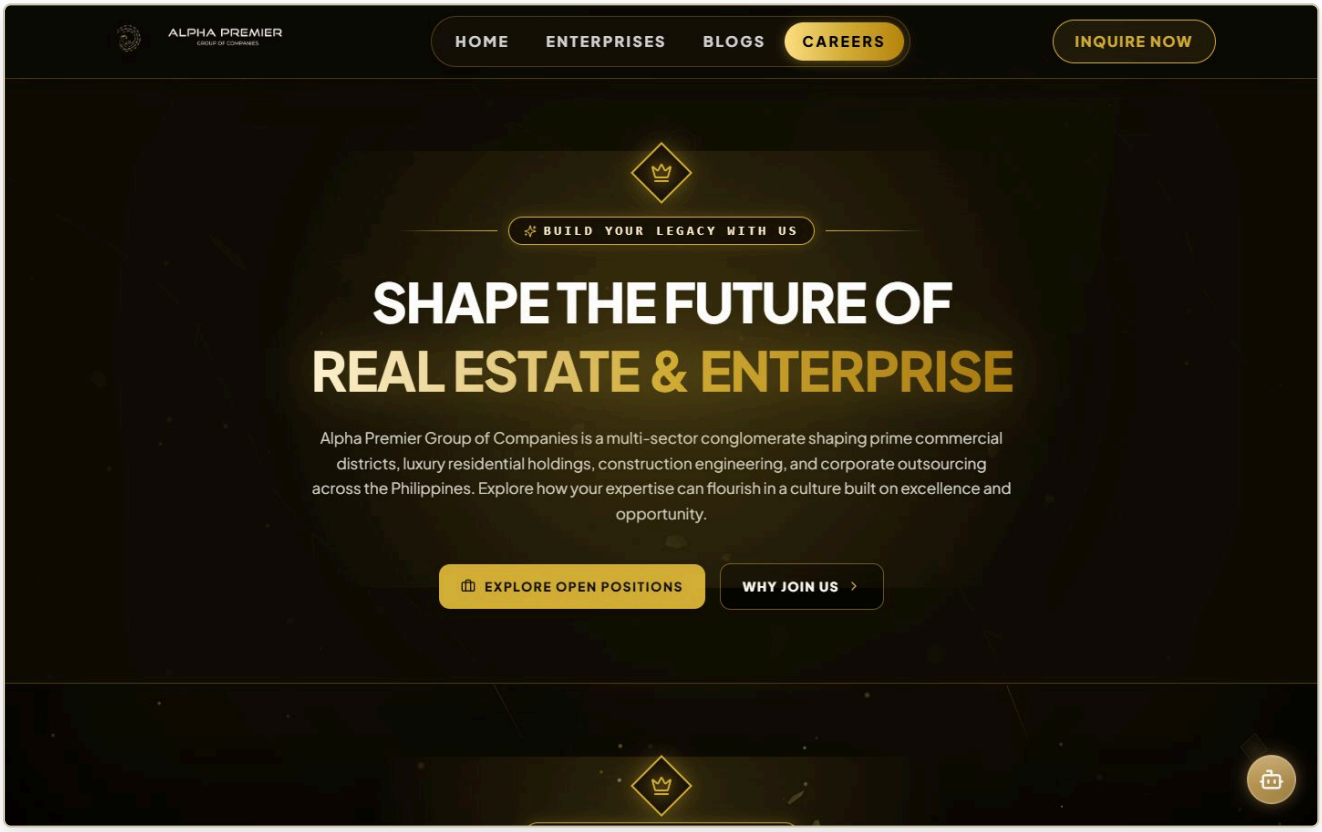

Figure 17. The Careers page.

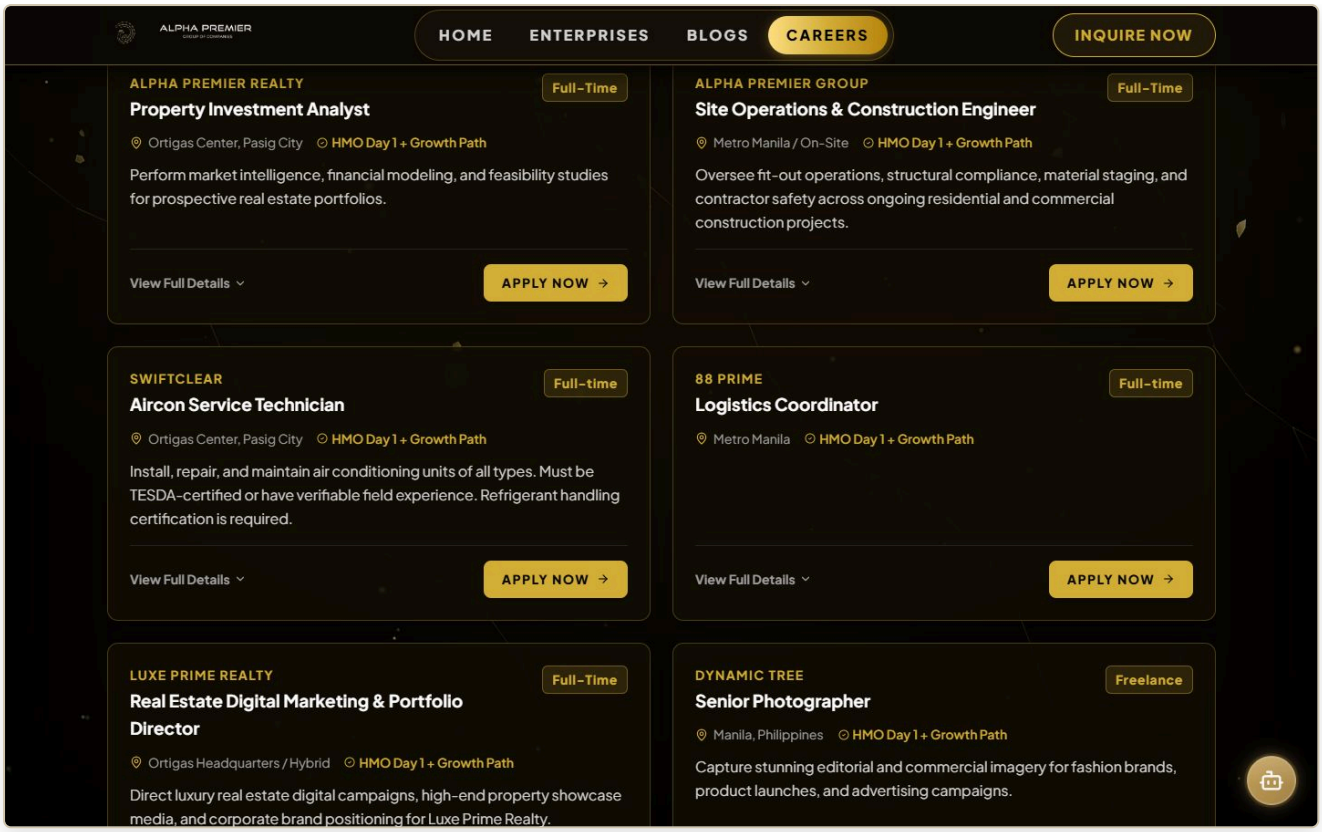

Figure 18. Company filters and job cards with “View Full Details” and “APPLY NOW”.

6.2 Apply for a job

1. Click **APPLY NOW** on the job you want. To be considered for any suitable role, click **SUBMIT GENERAL RESUME** at the bottom of the list instead.
2. On the **Job Application Portal**, check the position in **Applying for position**. You can switch to another job or to “General Application”.
3. Enter your **Full Name***, **Email Address*** and **Mobile Number***.
4. Click **↑ BROWSE** and choose your resume (PDF, DOC or DOCX, up to 15 MB).
5. Optionally write a **Career Summary / Cover Note** (up to 10,000 characters).
6. Click **SUBMIT APPLICATION**. You will see “Application Received!” with a reference such as `APG-APP-1A2B3C4D`.

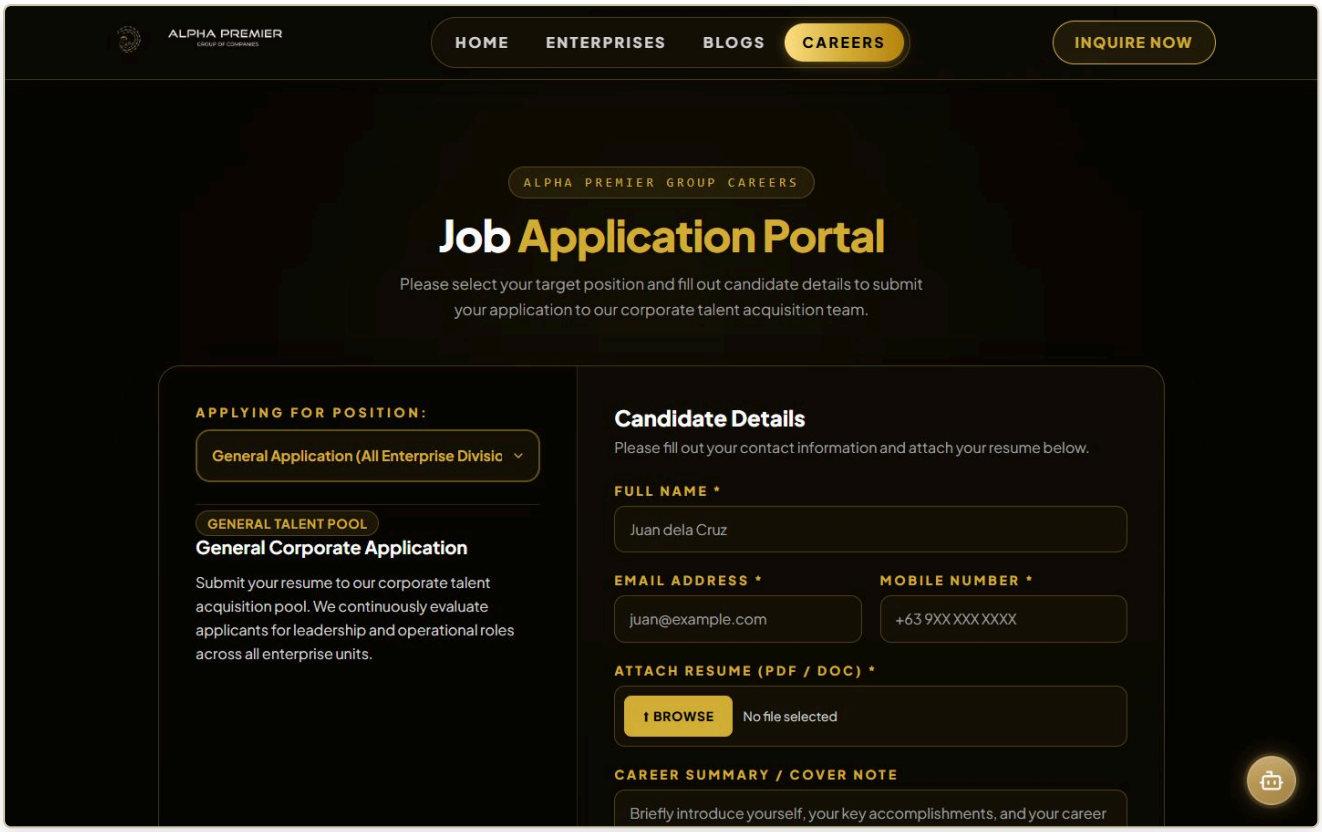

Figure 19. The Job Application Portal.

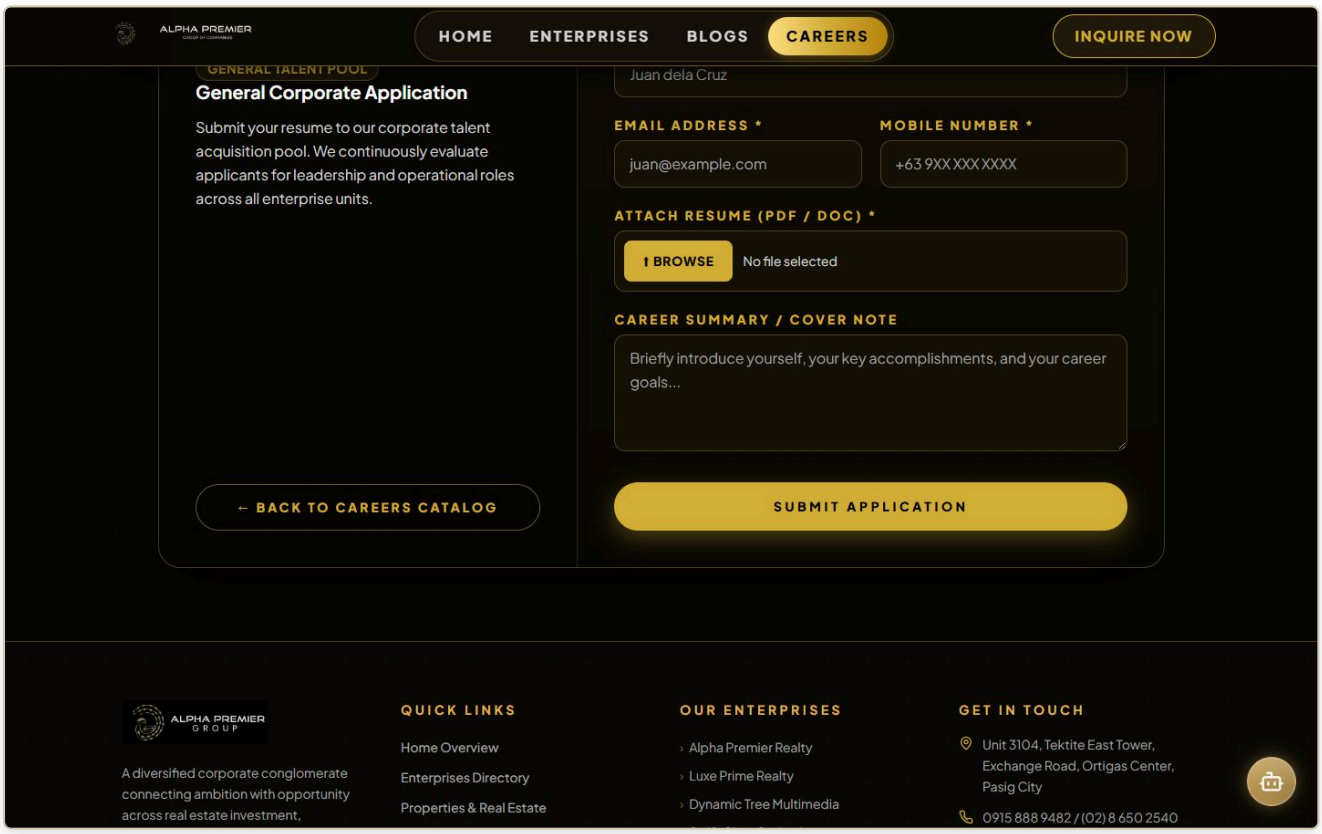

Figure 20. Candidate details and resume upload.

AFTER YOU APPLY

- You receive an email: “We've received your application [reference]”. It confirms the position and whether your resume was received.
- Your application goes straight to the hiring company's HR team with your resume attached and an automatic suitability score.
- Missing a field shows a message under it, e.g. “Please attach your Resume / CV file”. Your resume is checked before upload: it must be a PDF, DOC or DOCX file, not empty, and at most 15 MB.

TIP

Make sure your resume is a text-based PDF or Word file, not a photo of a printed page. The screening system reads the text to match your skills to the job.

6.3 Share your experience (feedback)

Employees, applicants and clients can send feedback about working with APG from the Careers page (and from the Alpha Premier Realty careers page).

1. On the Careers page, scroll to the testimonials and click **Add Feedback / Share Experience**.
2. Enter your **Full Name***, **Email Address*** and **Role / Position***, and choose your **Division** (Alpha Premier Group, Virtual Office or one of the companies).
3. Choose a star **Rating** and write your **Feedback / Testimonial***.
4. Click **Submit Feedback**. “Feedback Submitted!” appears, and you receive a thank-you email.

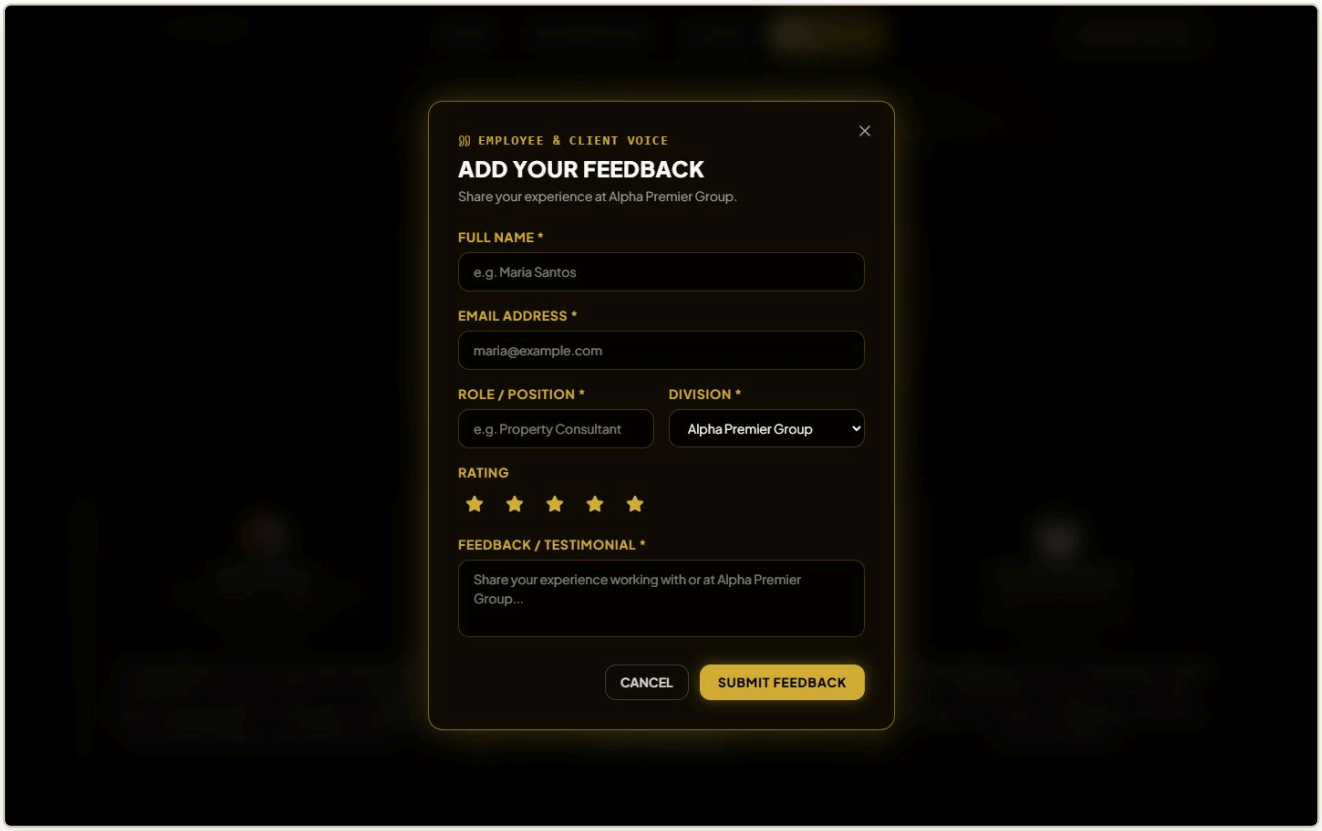

Figure 21. The feedback form on the Careers page.

> **NOTE**
>
> Feedback goes privately to the chosen company's HR team. It is not published on the website automatically; HR may ask your permission to feature it.

7 Blogs & news

1. Click **BLOGS** in the top bar.
2. Filter by category (**ALL** plus the categories of the published articles, most-used first) or type in **Search articles...**.
3. Click **READ FULL ARTICLE** on the featured article (shown when ALL is selected and the search is empty), or **READ ARTICLE** on any card.
4. The article opens in a reading window and the address bar changes to the article's own link. Use **INQUIRE NOW** to contact the team, and ×, Esc or the browser's Back button to close.
5. To share the article, click **Share**. A direct link to the article is copied ("Copied!" appears). Paste it into a message or email; anyone who opens it lands on that article.

The company blogs (Construction, SwiftClear, 88 Prime, Alta Venture, Dynamic Tree) open each article as its own page at `/blogs?post=…`, with an **All Articles** button to return to the list.

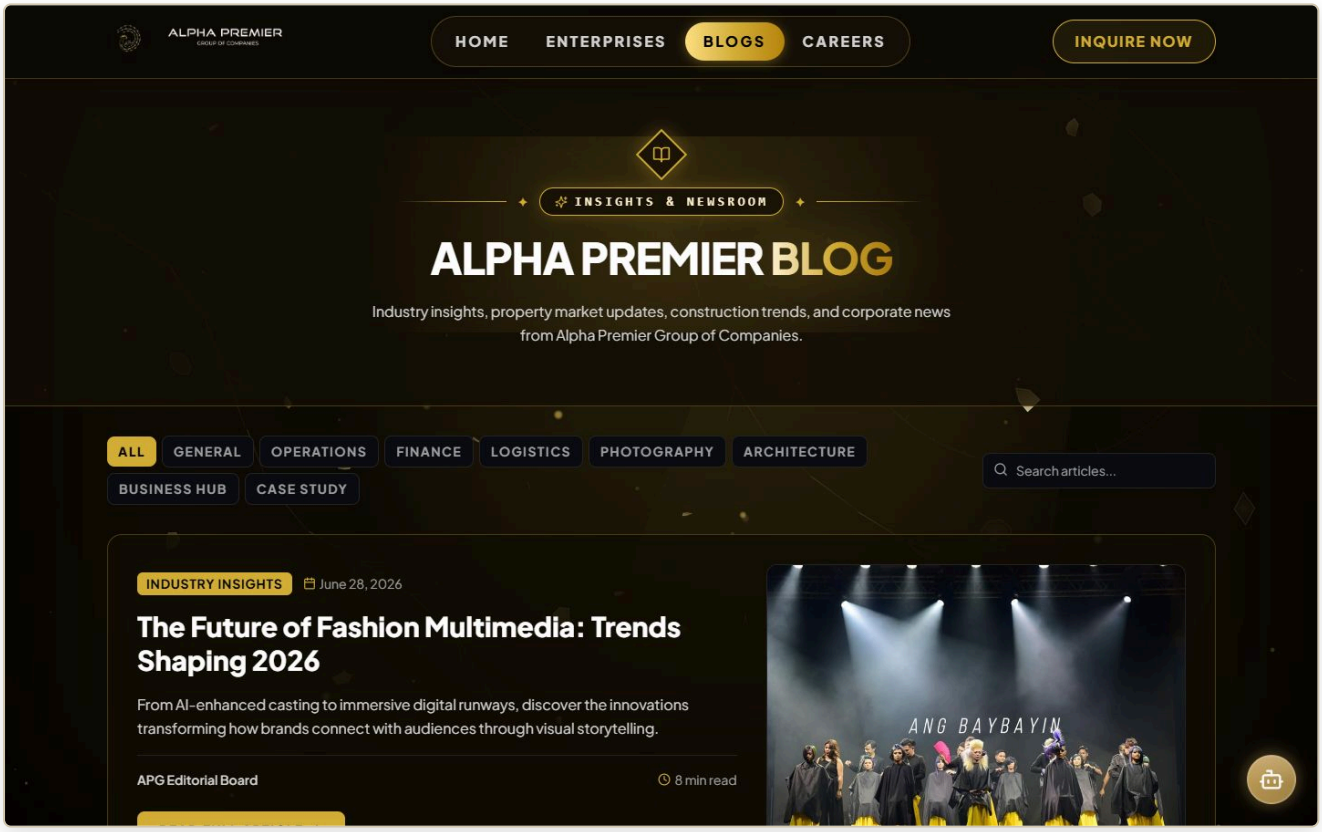

Figure 22. The blog list with category filters and search.

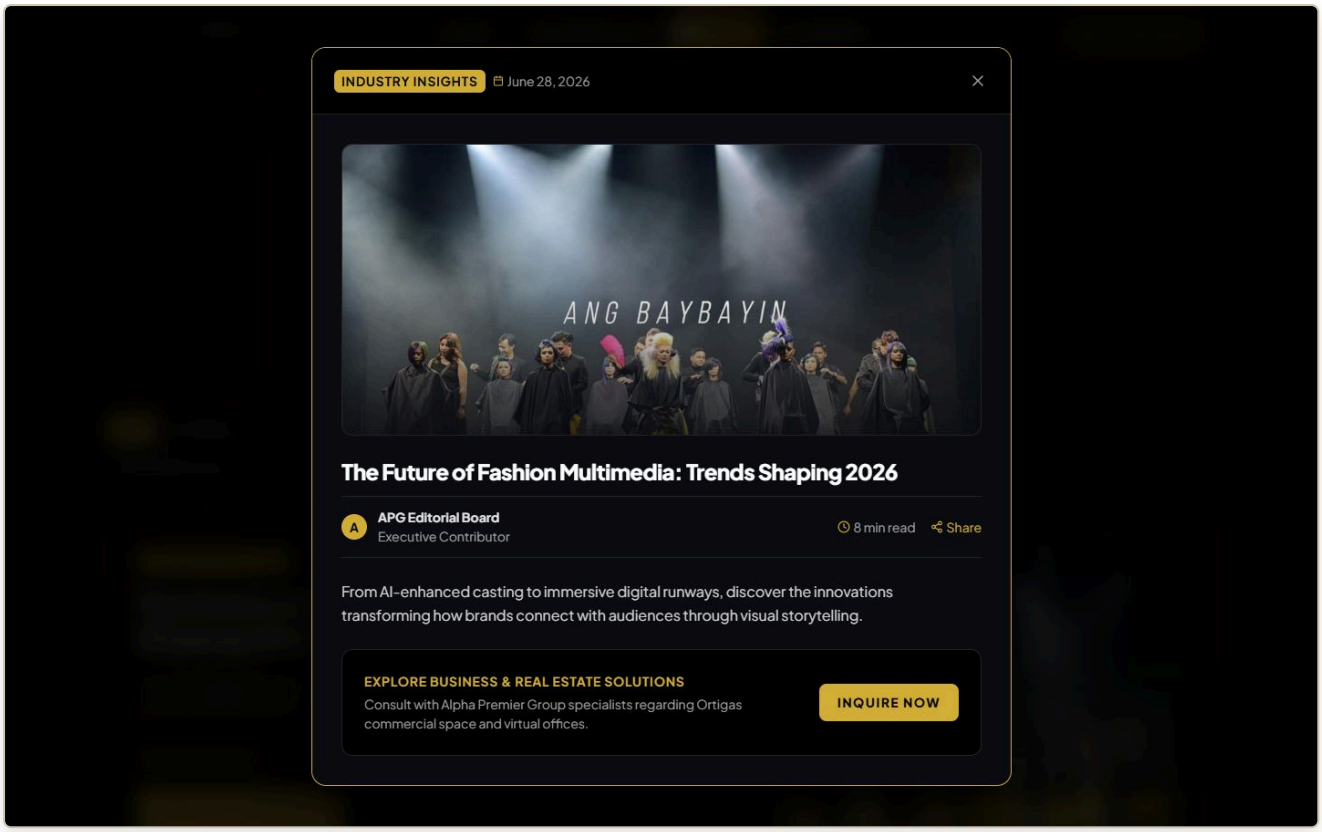

Figure 23. An article open in the reading window.

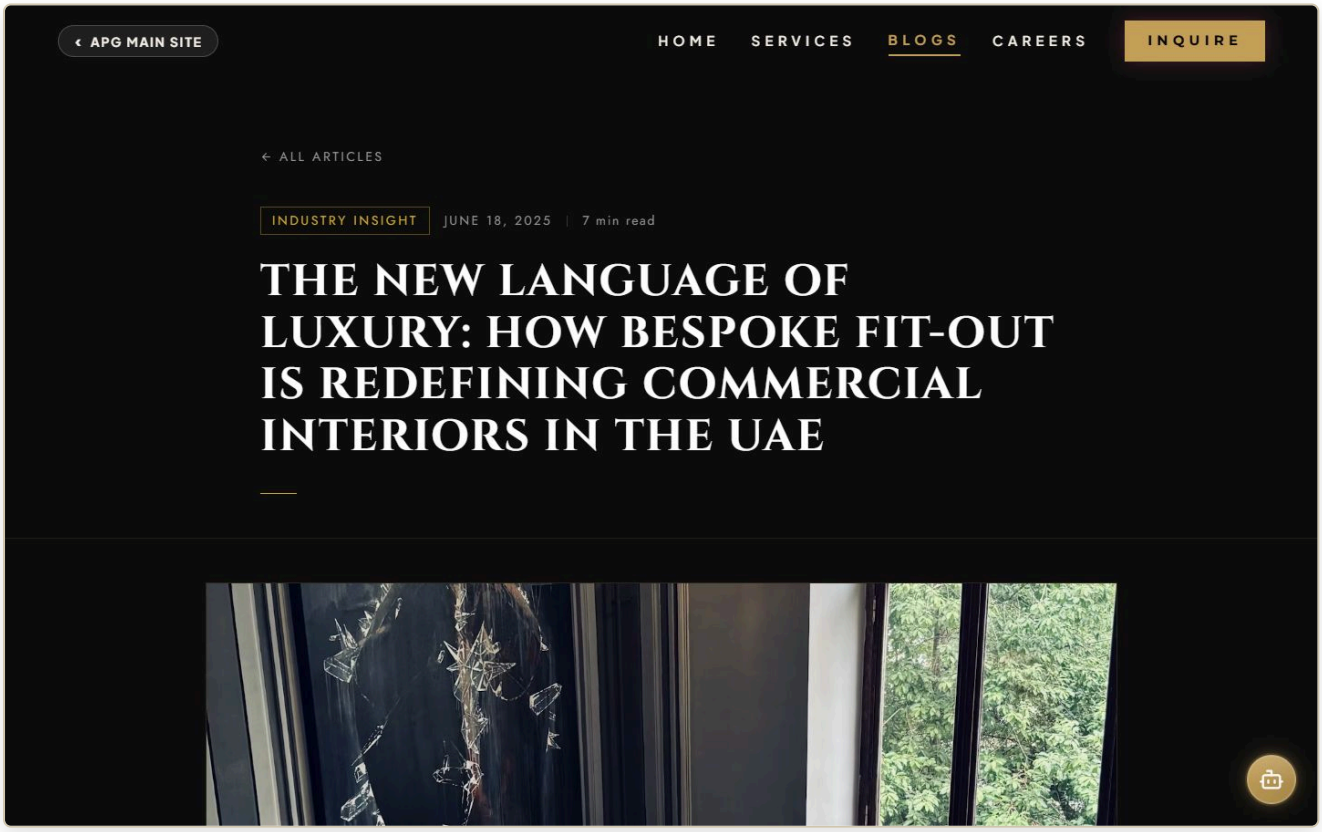

Figure 24. An article page on the Alpha Premier Construction blog.

8 Virtual Office

The Virtual Office site (`virtual-office.alphapremiergroup.com`) offers business-address plans at Tektite East Tower, Ortigas Center. Current plans:

Plan	Price	Inclusions
Premier Access Ideal for startups, freelancers and remote businesses	₱2,899 / mo	Prestigious business address; shared coworking space once a month; mail receiving and handling; company name on the digital signage; complimentary internet during coworking use.
Premier Prestige	₱3,499 / mo	Prestigious business address; shared coworking space once a month; mail handling; company name on the digital signage; complimentary internet; free water; admin printing (10 pages); board room once a month.
Alpha Premier	₱4,999 / mo	Prestigious business address; front desk reception; mail receiving and handling; complimentary internet; free drinking water; admin printing (up to 10 pages a month); board room twice a month; the CEO's office for contract signing with your client.
Platinum Enterprise Custom Suite	Contact for Price	A tailored plan: multi-entity address support, priority board room bookings, a dedicated receptionist and concierge services.

1. Open the Virtual Office site and compare the plan cards. Each card shows the office photo, the monthly price and the full list of inclusions.
2. Click **INQUIRE NOW** on the plan you want.
3. The Virtual Office inquiry form opens with that plan already selected and filled into your message. Add your name, email, phone and any details, then click **Submit Inquiry** .

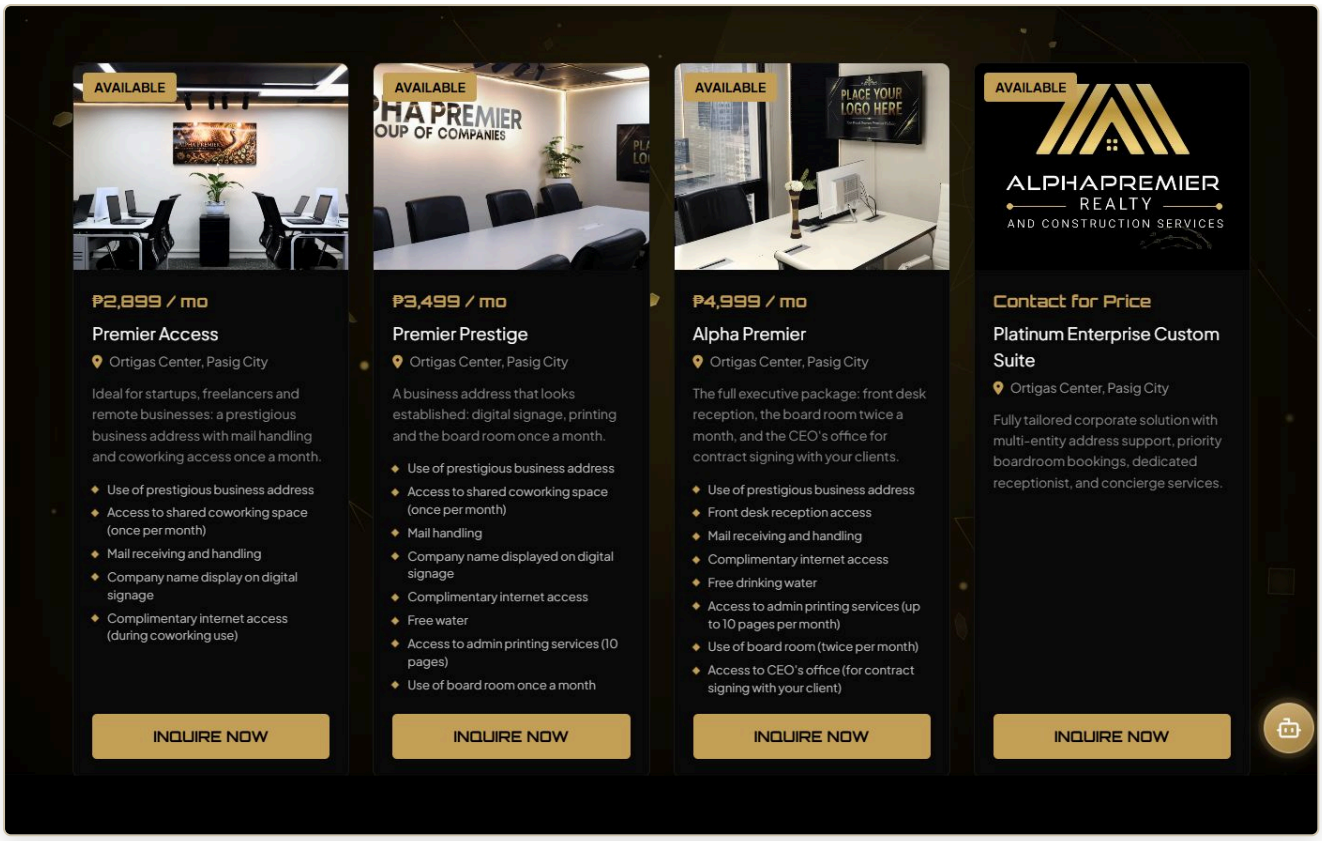

Figure 25. The 2026 Virtual Office plans with photos, prices and inclusions.

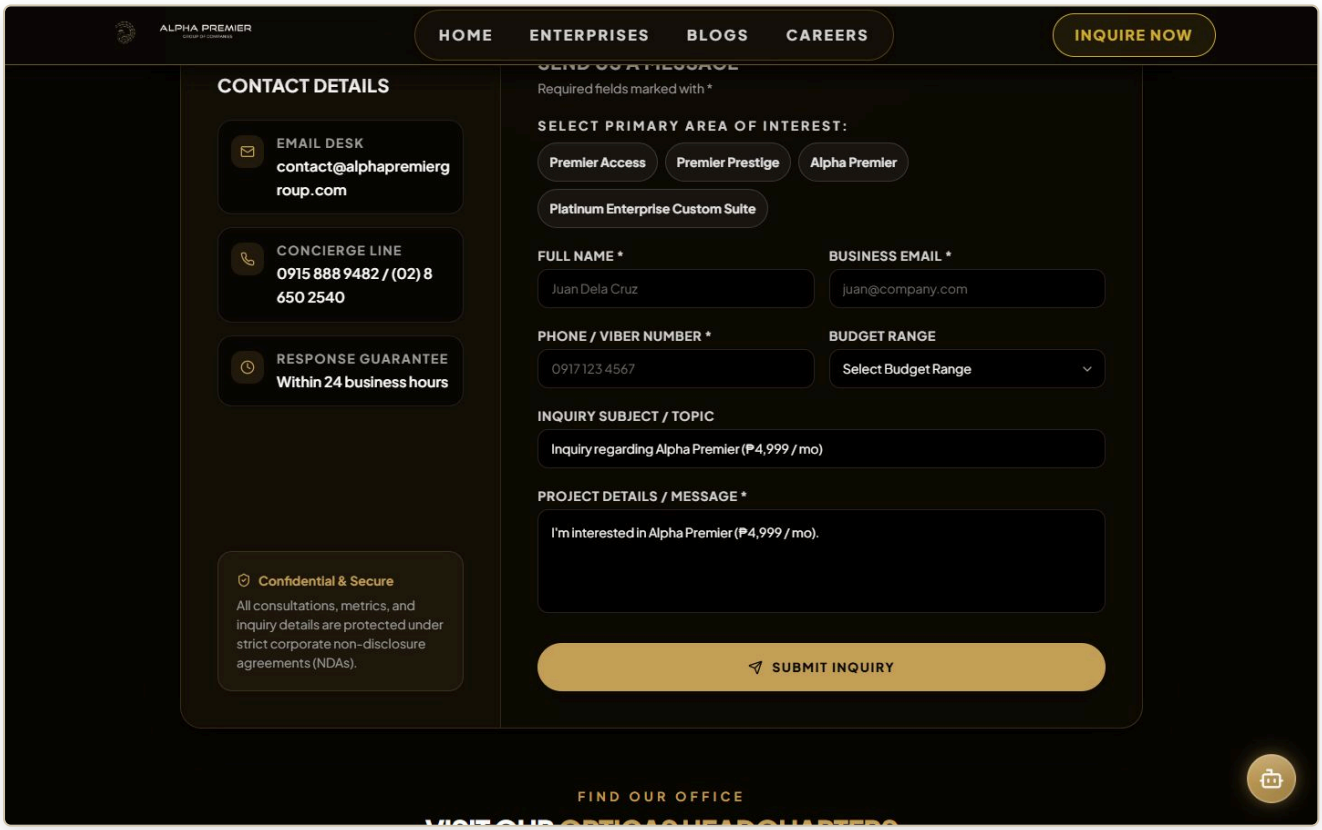

Figure 26. The inquiry form opened from a plan, with the plan pre-selected.

> **NOTE**
>
> Prices are maintained by APG staff and may change; the website and the chat assistant always show the current prices.

9 The chat assistant

Every page of every site has a chat assistant. It answers from the website's live information — services and products, current prices, open jobs, available properties and contact details — and connects you with a real person when needed.

9.1 Start a chat

1. Click the round gold chat button at the bottom-right of the page.
2. Read the welcome message, then either click a **quick-reply** button (e.g. `Properties & Realty`) or type your question in the box and press Enter.
3. To close the window, click ×, the chat button again, or anywhere outside the chat.

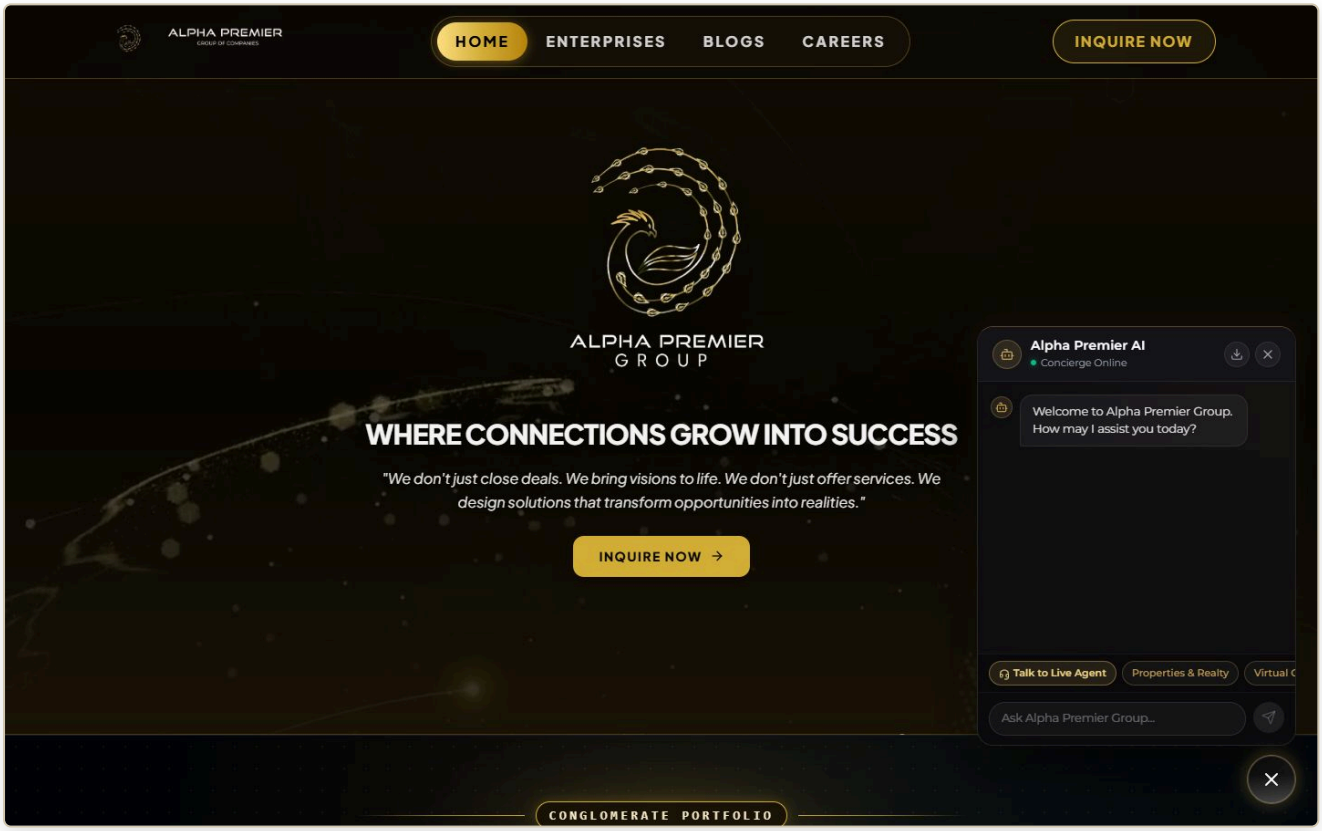

Figure 27. A new chat, with quick-reply buttons above the message box.

Each enterprise site has its own assistant (for example “Alpha Realty AI” or “SwiftClear AI”) with quick replies for that company's services.

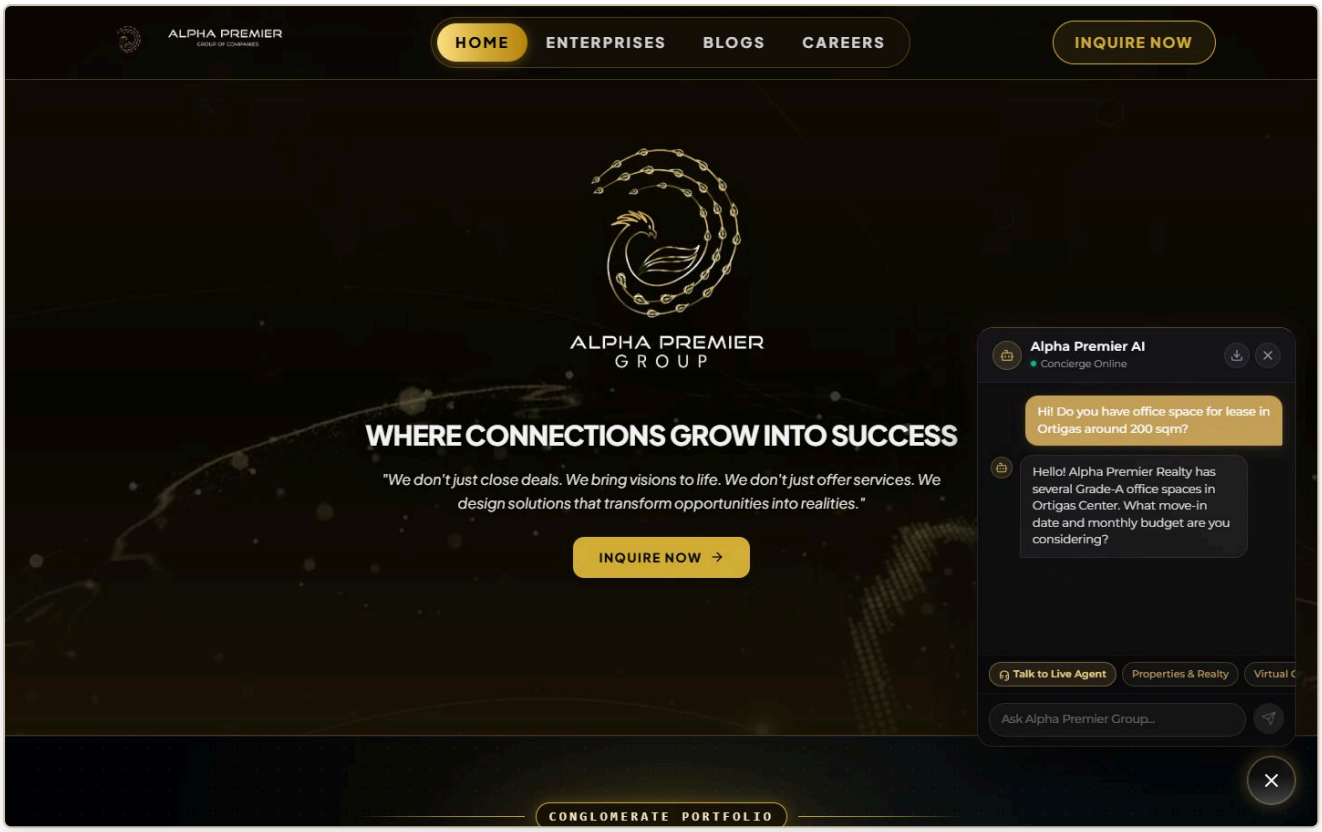

Figure 28. The assistant answering a question.

9.2 Talk to a live agent

You are connected to a person when you:

- click the **Talk to Live Agent** quick reply;
- ask for an agent, broker, representative, manager or specialist;
- ask about negotiating, discounts, payment terms or a viewing schedule; or
- the assistant cannot understand two messages in a row.

1. The assistant replies “Connecting you to a live representative…” and the team is alerted by email.
2. While you wait, add any details (budget, dates, requirements). The agent will see them.
3. When an agent joins, the header shows their name with “Broker Live”, and a green banner reads “You're now chatting with [name]”. Their messages are marked with their name.

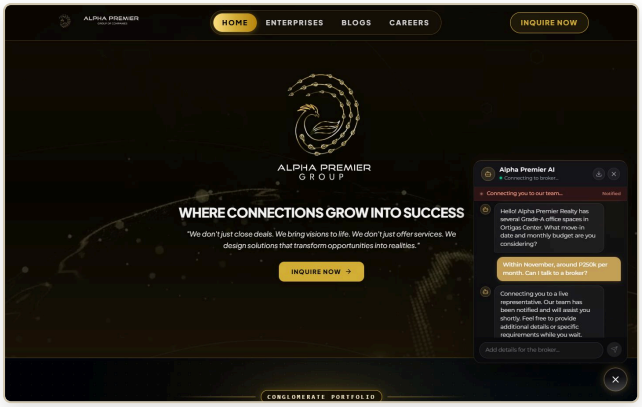

Figure 29. Waiting for an agent.

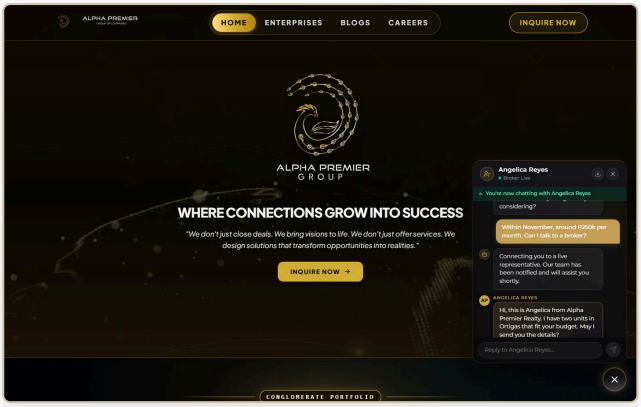

Figure 30. A live agent has joined.

9.3 Transcripts, closed chats and returning later

- **Download a transcript:** click the download icon in the chat header to save the conversation as a PDF.
- **Closed chats:** when the agent resolves your inquiry, you see "Conversation resolved & closed" with that company's phone and email for follow-ups. Click **Start New Chat** to ask something else.
- **Coming back:** your conversation is remembered in this browser, even if you reload the page or move to another APG site. A red number on the chat button shows unread agent replies.

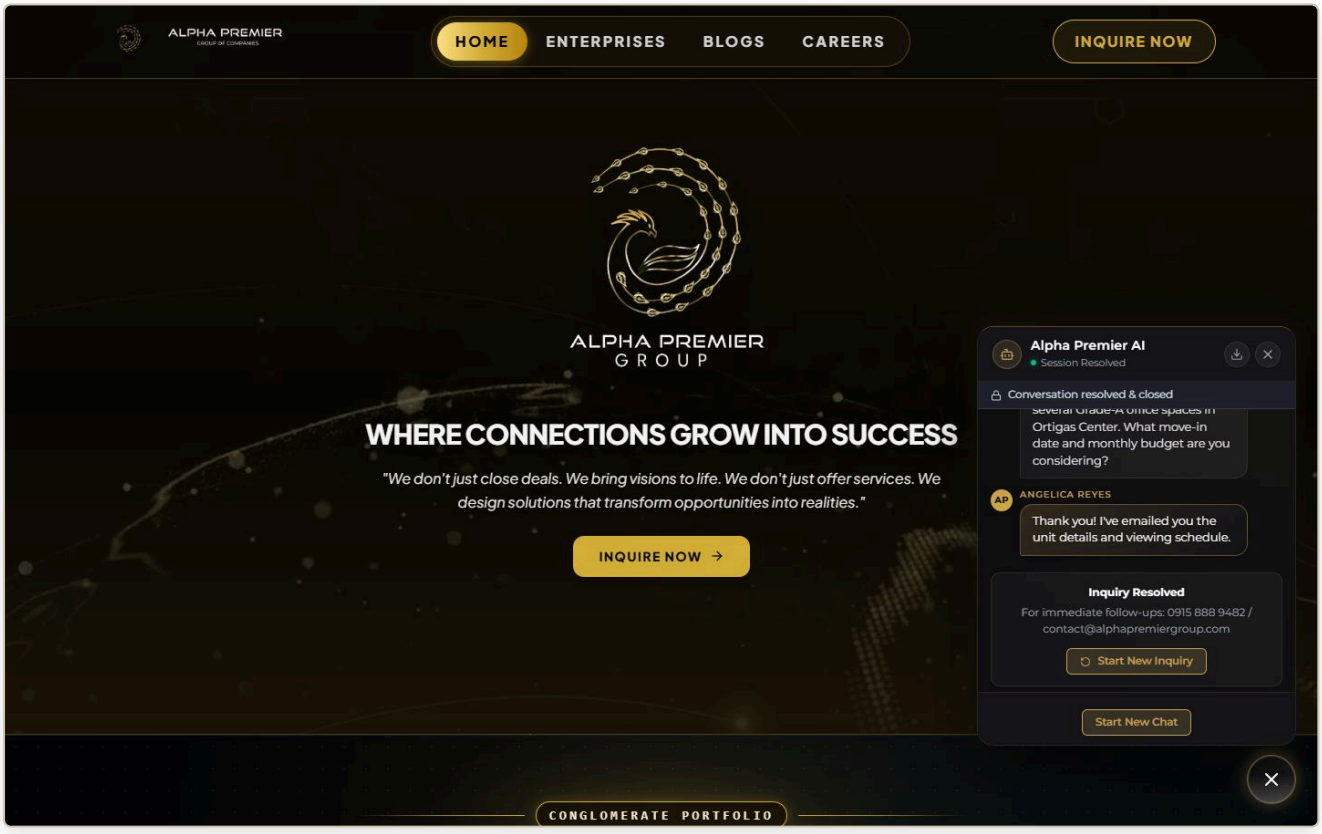

Figure 31. A resolved conversation with the "Start New Chat" option.

> **NOTE**
>
> Agent replies appear only inside the chat window; they are not emailed. Keep the page open (or come back later in the same browser) to see them. For urgent matters call the number shown on the site you are visiting (main: 0915 888 9482 or (02) 8 650 2540).

10 Enterprise sites

Each APG company has a branded website. They share a common layout: an **‹ APG MAIN SITE** button that returns to the group website, a menu (Home, Services, Blogs, Careers), an **Inquire** button, a footer with that company's contact details and social links, and the company's own chat assistant.

10.1 Alpha Premier Realty and live property listings

`realty.alphapremiergroup.com` — property brokerage, leasing and valuation. Its home page shows an **Available now** strip with the newest listings and a **View all** link.

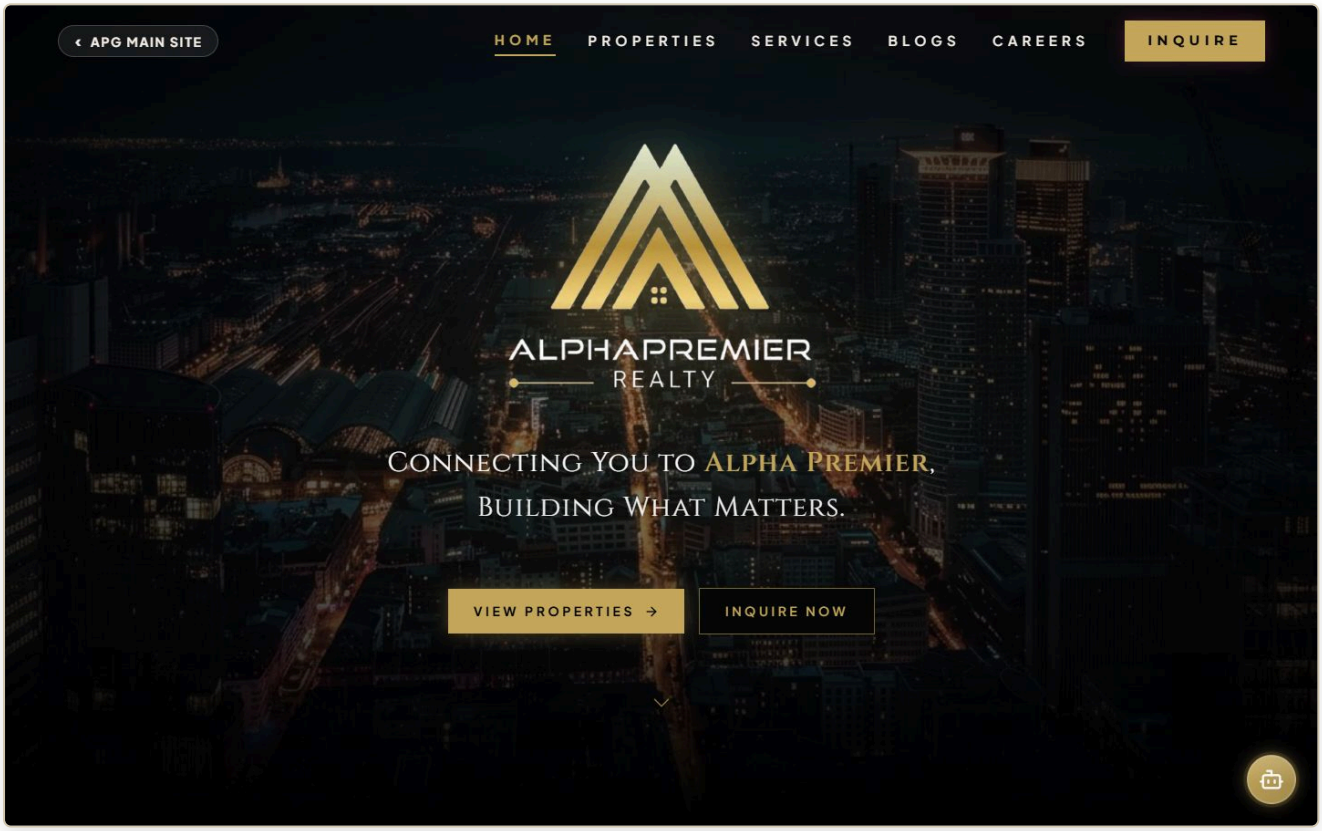

Figure 32. Alpha Premier Realty home page.

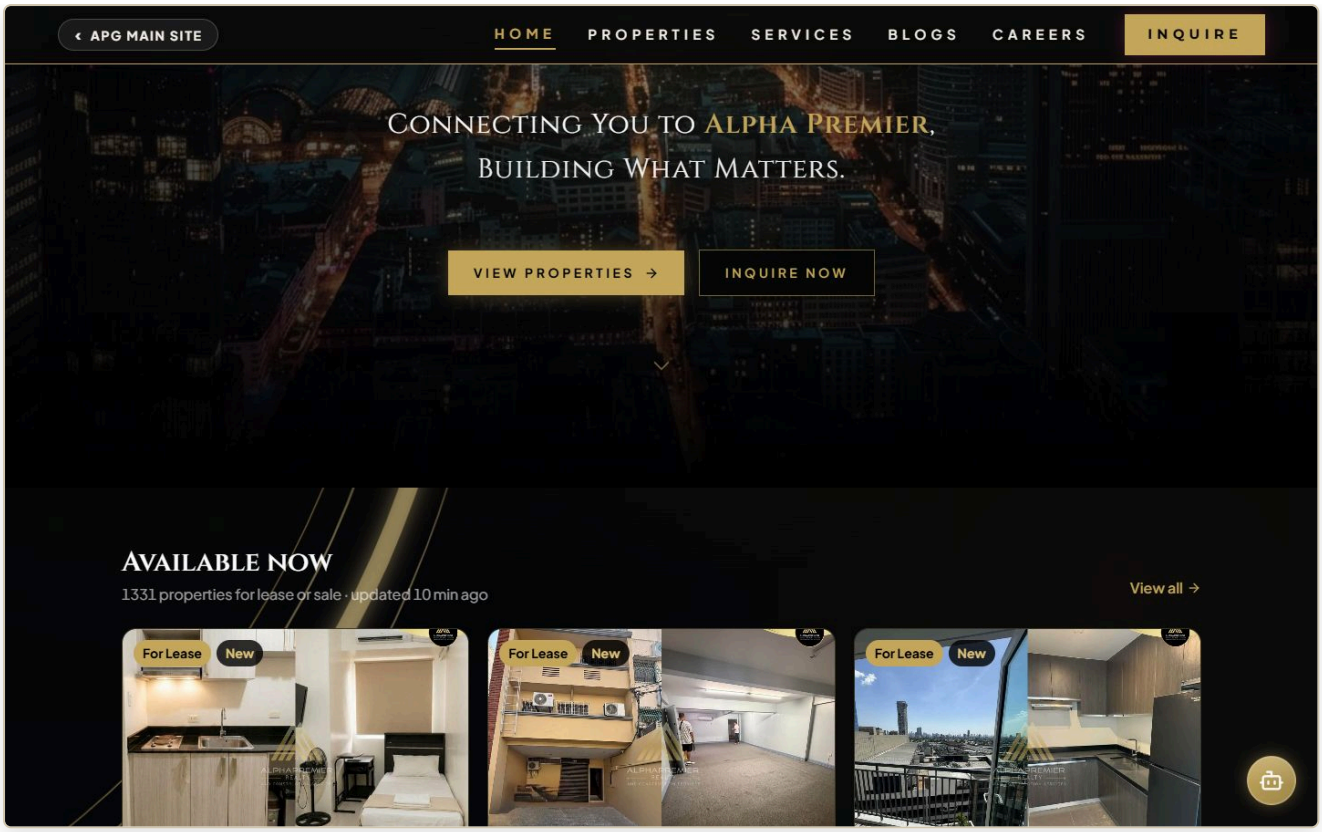

Figure 33. The "Available now" strip on the Realty home page.

FIND A PROPERTY

1. Click **PROPERTIES** (or **VIEW PROPERTIES**). The page shows how many properties are available and when the list was last updated.
2. Type a city, size or reference number in **Search city, size or ref**.
3. Choose **All**, **For Lease** or **For Sale**.
4. Click a property-type chip (e.g. **Lot**, **Commercial Space**, **Warehouse**, **Office Space**). The number on each chip is how many are available.

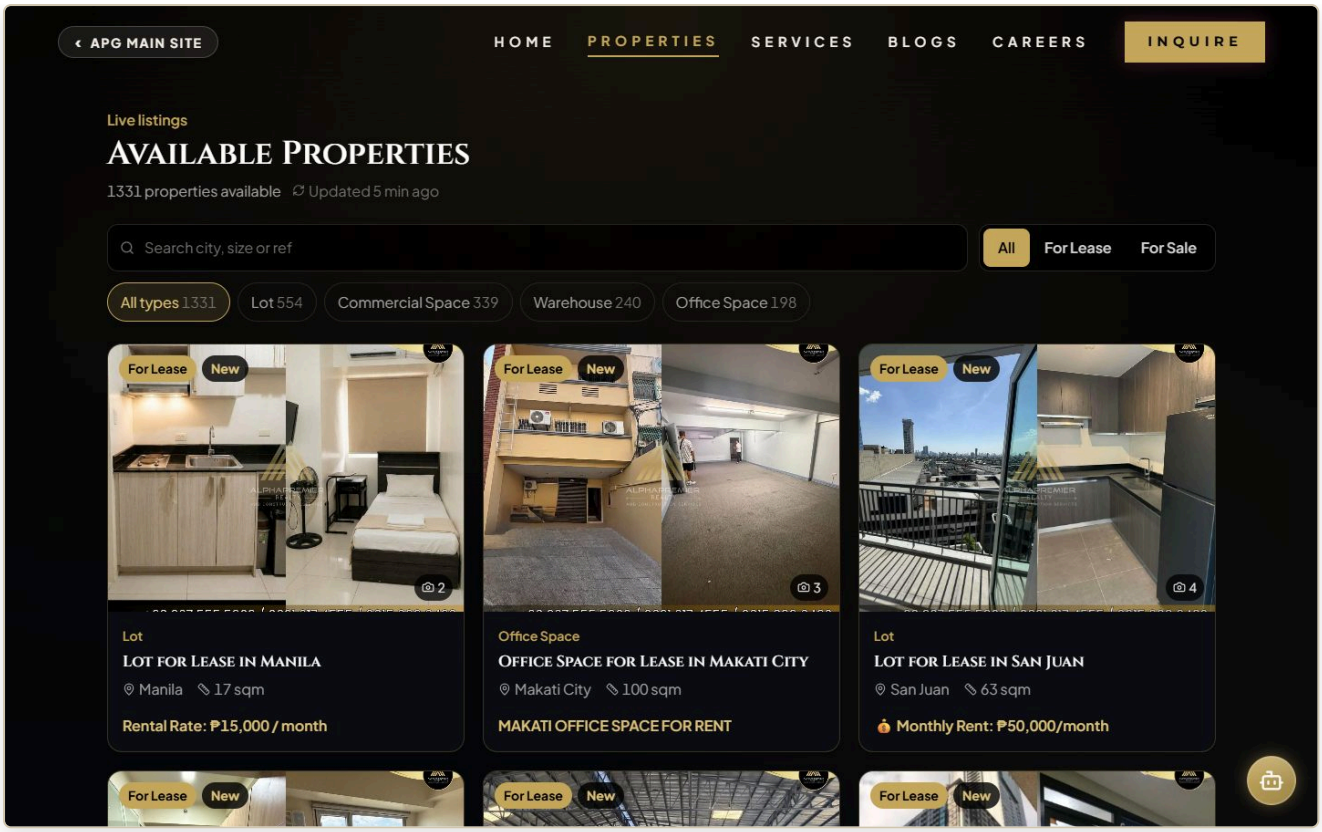

Figure 34. The Available Properties page with search and filters. "New" marks listings added in the last 14 days.

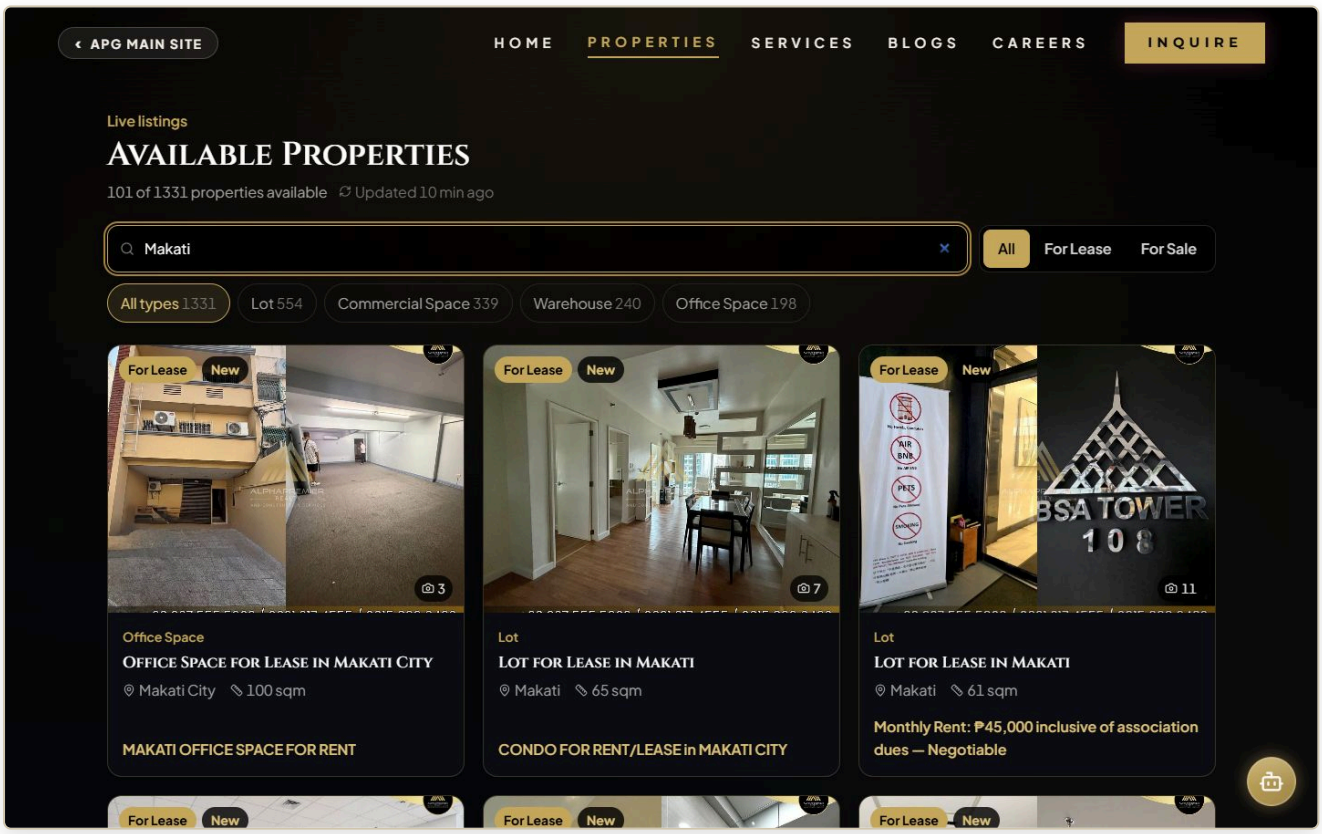

Figure 35. Searching for "Makati".

> **TIP**
>
> Your search and filters are saved in the page address. Copy the address from your browser to share the same filtered list with someone.

VIEW A PROPERTY AND INQUIRE

1. Click a property card. A window opens with photos, type, area, size, rate and key terms.
2. Use the arrows, the thumbnails or your keyboard's arrow keys to browse photos.
3. Click **Inquire about this property**. The Realty inquiry form opens with the property reference (e.g. `APR-1BC5A4`) filled in.
4. Enter your name, email and Viber number and your notes, tick the privacy checkbox, and click **SUBMIT SECURE INQUIRY FILE**. An **INQUIRY SENT** message confirms it, and a confirmation email with a link back to the listing follows.

Listings marked with a ★ **Featured** badge are highlighted by the Realty team and shown first.

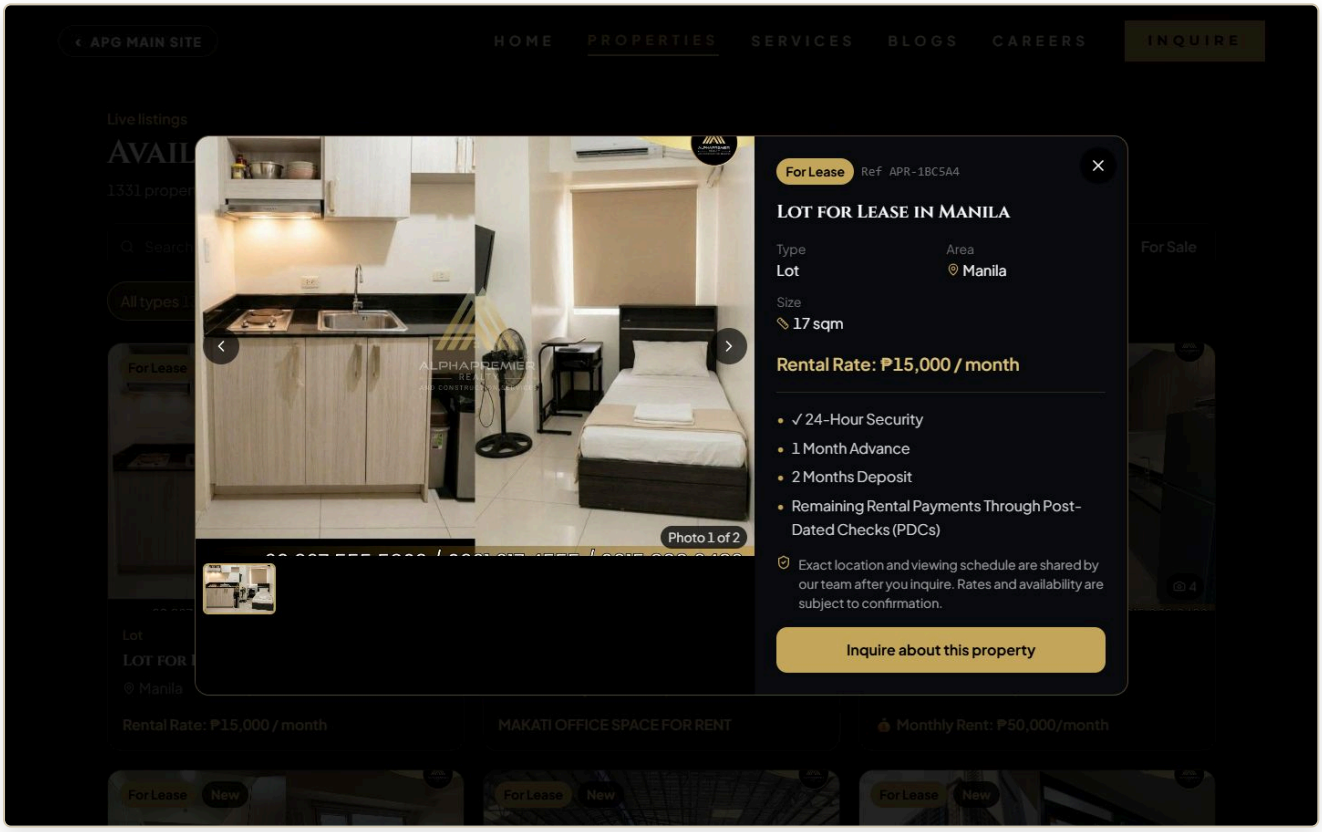

Figure 36. A property's detail window.

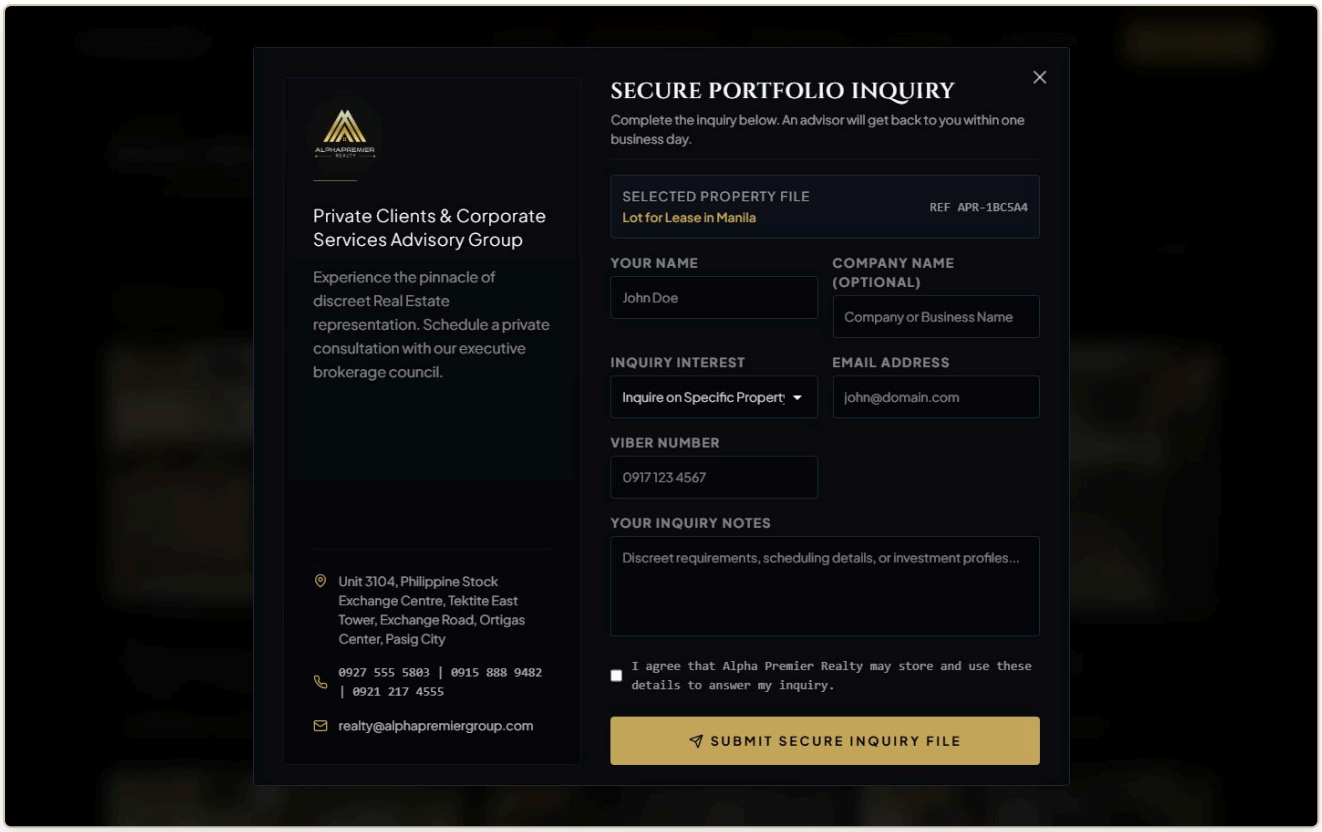

Figure 37. The Realty inquiry form with the selected property.

> **NOTE**
>
> For privacy, exact addresses, building names and owner details are never shown online. The Realty team shares them after you inquire. Rates and availability are subject to confirmation.

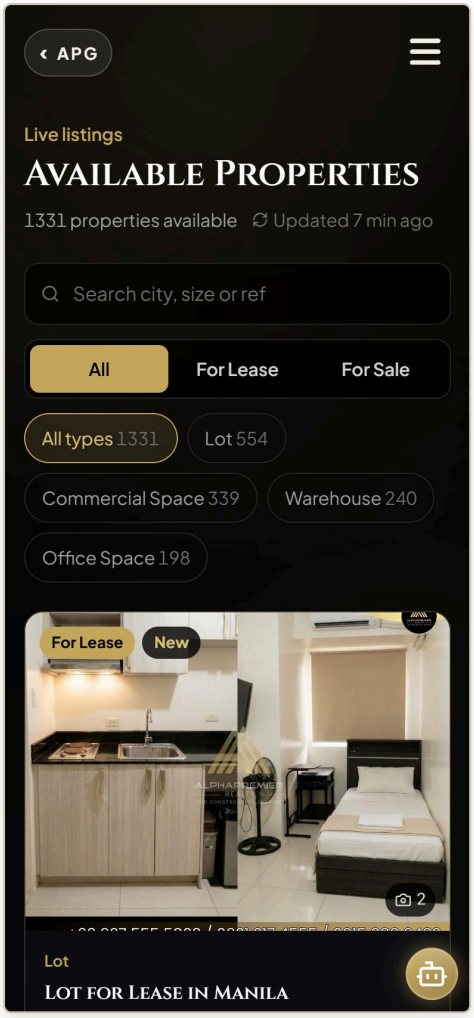

Figure 38. Property listings on a phone.

OTHER REALTY PAGES

- **Services** — **Inquire for Consultation** on each service, or **Speak with a Broker**.
- **Blogs** — filter by category, search, and open an article in a reading window.
- **Careers** — search Realty jobs, open **View Details**, then **APPLY NOW →** and attach your resume.

10.2 The other enterprise sites

Site	Pages	Highlights
Luxe Prime Realty	Home, Services, Blogs, Careers, Inquire	Luxury property services with photo galleries, **Inquire About This Service** and **Schedule Private Consultation**; online job applications.
Alpha Premier Construction	Home, Services, Blogs, Careers, Inquire	General contracting, materials supply and project portfolio; project inquiry form; online job applications (**Apply for this Role** or **Submit General Application**); newsletter on the blog page.
SwiftClear	Home, Services, Blogs, Careers, Inquire	**GET FREE ESTIMATE**; a sanitation request form (facility, service, preferred date, contact); the team aims to reply within 2 hours.

88 Prime	Home, Services, Blogs, Careers, Inquire	Product catalog with **Inquire** on each product; aircon brand selector; **Request a Quote**; searchable procurement articles and newsletter; **SUBMIT RESUME TO TALENT POOL**.
Alta Venture	Home, Services, Blogs, Careers, Inquire	Outsourcing packages with **Book Consultation**; service and blog tag filters; newsletter; department filter on careers with **Send Open Application**.
Dynamic Tree	Home, Services, Blogs, Careers, Inquire	Portfolio (**View Our Work**); newsletter on the blog page; careers application with a portfolio link field; campaign inquiry form with event date and service type.
Virtual Office	Plans, Inquire	See Chapter 8.

Every section has its own address on the company's site, for example `/services`, `/blogs`, `/careers` and `/inquire` (Realty also has `/properties`).

THE 88 PRIME PRODUCT CATALOG

1. On `88prime.alphapremiergroup.com`, scroll to **Products Built for Business**.
2. Each product card shows its category, name, specifications and price when published.
3. Click **Inquire** on a product. The inquiry form opens with "Inquiry regarding [product]" already filled in.

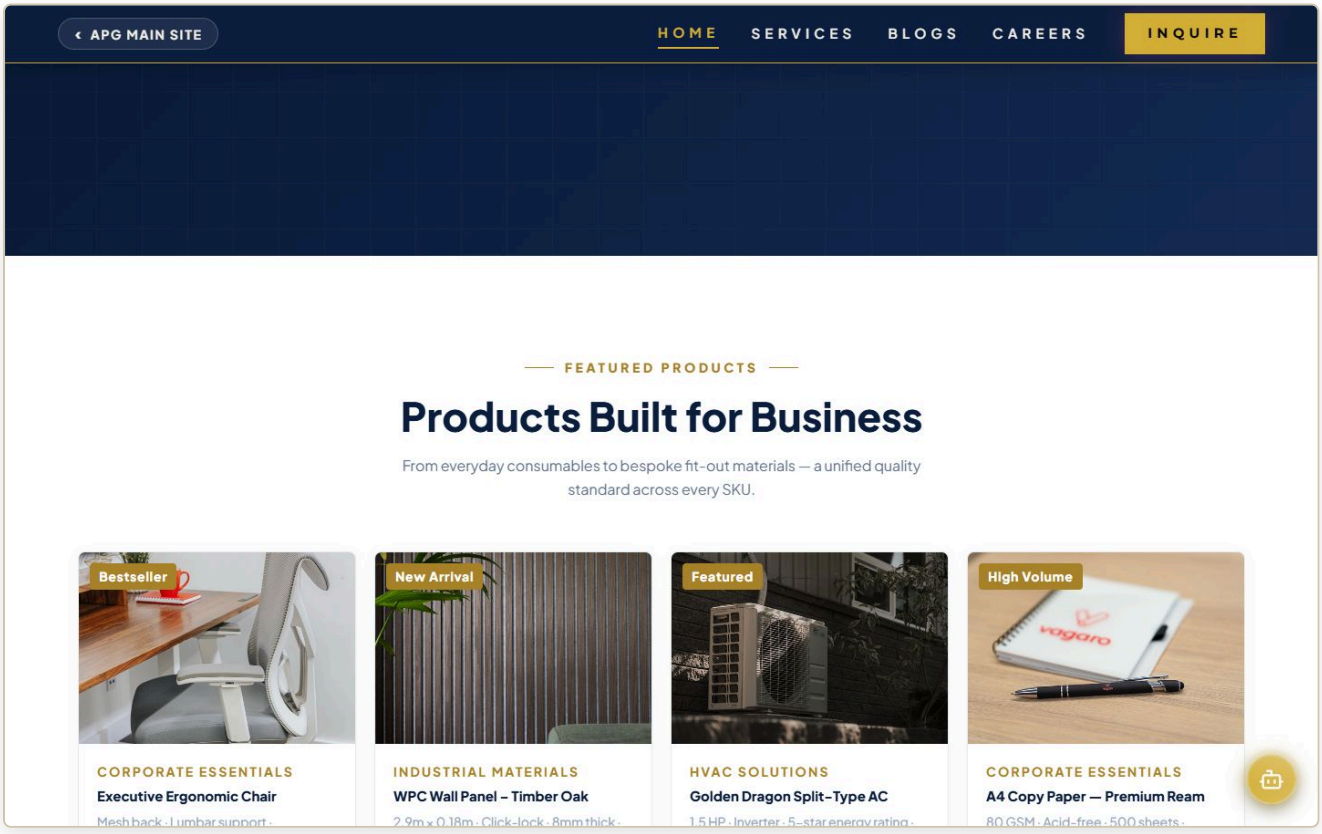

Figure 39. The 88 Prime product catalog.

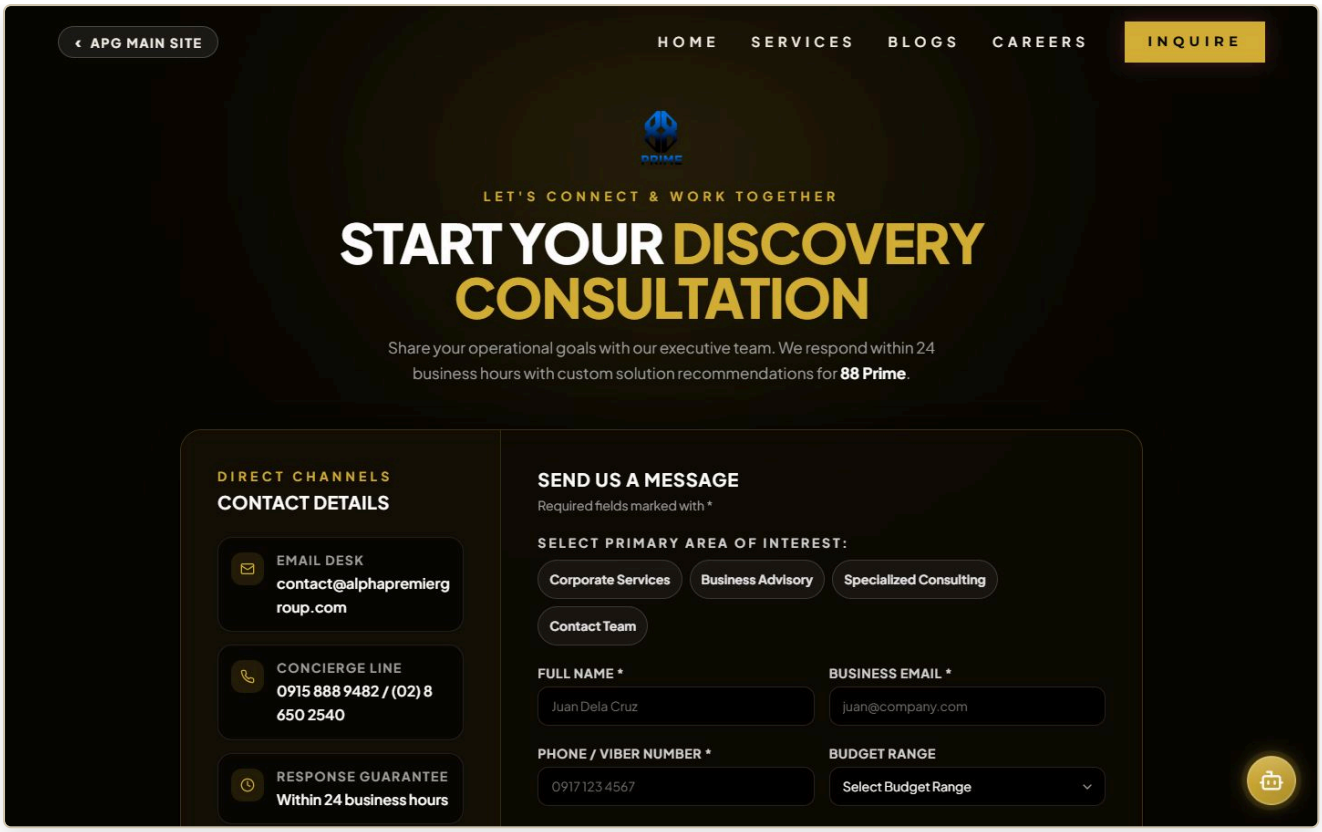

Figure 40. The 88 Prime inquiry form opened from a product.

ENTERPRISE INQUIRY FORM

1. Click **Inquire** in the enterprise menu (or an Inquire button on a service, product or plan, which fills in the topic for you).
2. Choose your main area of interest from the topic chips.
3. Enter **Full Name***, **Business Email*** and **Phone / Viber Number***, an optional **Budget Range** and **Inquiry Subject / Topic**, and **Project Details / Message***.
4. Click **Submit Inquiry**. “Inquiry Received!” shows your reference ticket, and a confirmation email follows. The team aims to reply within 24 business hours.

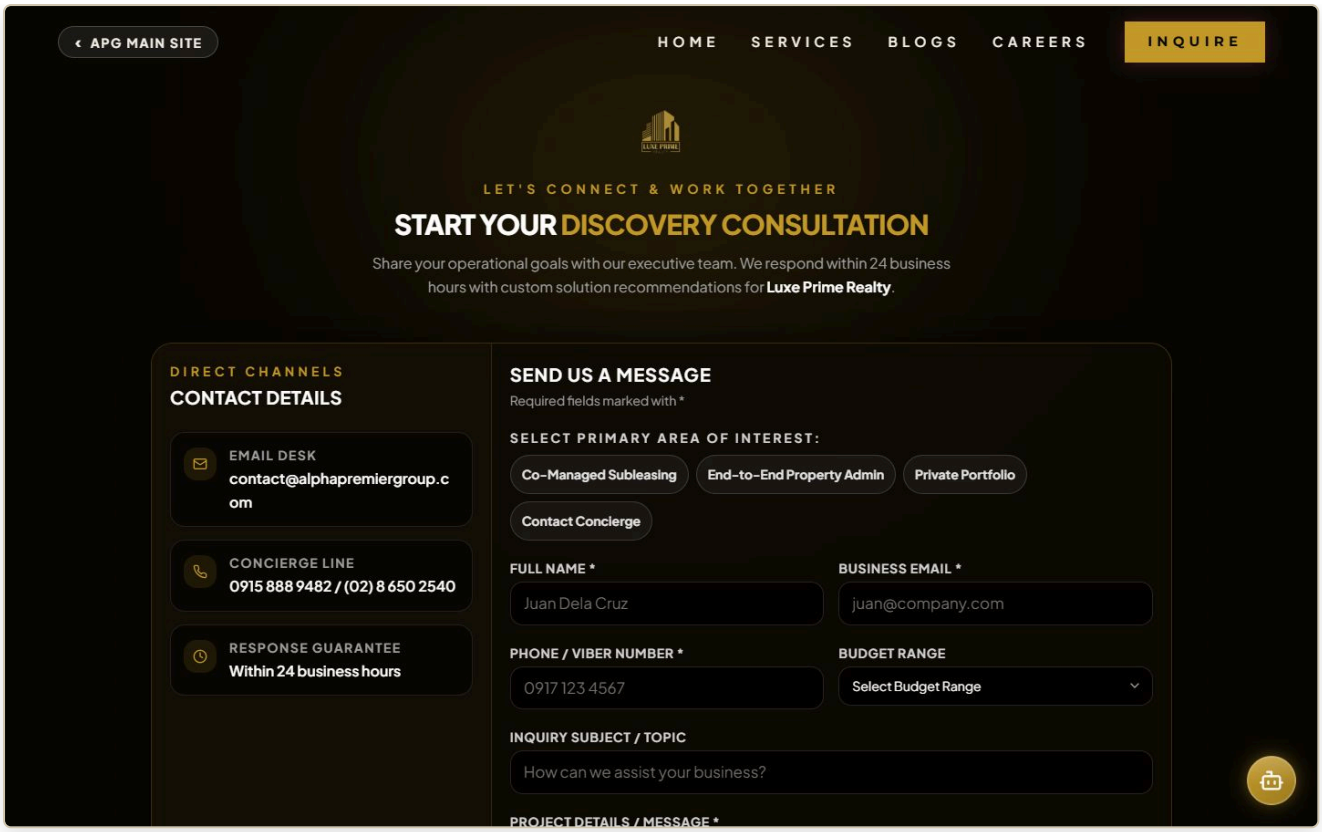

Figure 41. The shared enterprise inquiry form (Luxe Prime Realty).

> **NOTE**
>
> Alta Venture, Dynamic Tree and SwiftClear have their own inquiry forms with fields suited to their services (for example SwiftClear asks for the facility type and preferred date; Alta Venture has no phone field). The steps are the same.

APPLYING FOR A JOB ON AN ENTERPRISE SITE

Each enterprise's Careers page lists its open roles. Click the role's apply button (for example **Apply for this Role** on Alpha Premier Construction), or the general application button if no role fits. Fill in your name, email, mobile number and resume as described in section 6.2, then submit.

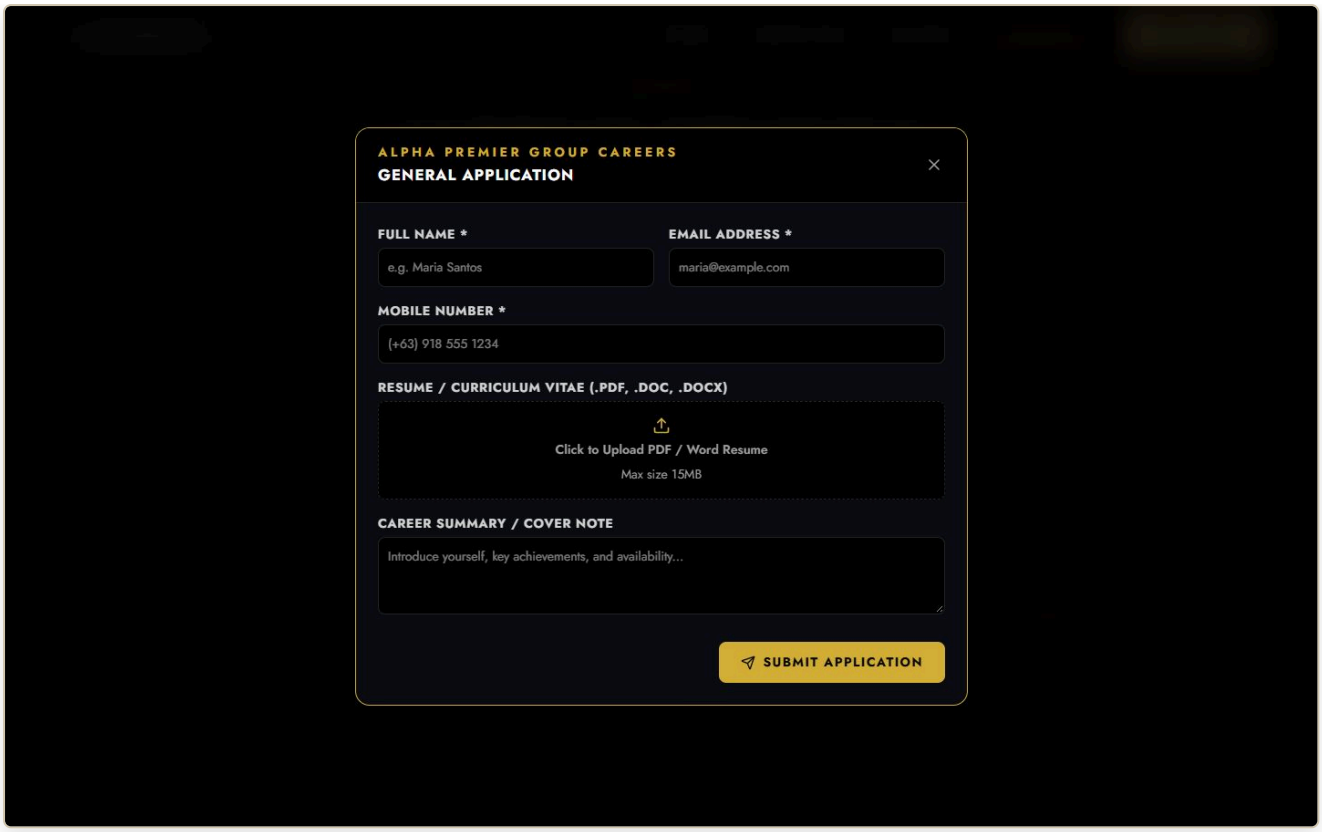

Figure 42. The application form on the Alpha Premier Construction careers page.

PART II

Staff Guide — Admin Console

Signing in, answering live chats, handling inquiries and newsletter sign-ups, editing website content and contact details, managing services, property listings, jobs, applicants, blog articles and user accounts.

11 Signing in, roles and your account

11.1 Sign in

1. Go to `alphapremiergroup.com/admin`.
2. Enter your work **Email** and **Password**, then click **Sign in**.
3. The Dashboard opens. Your role badge and account appear at the top-right.

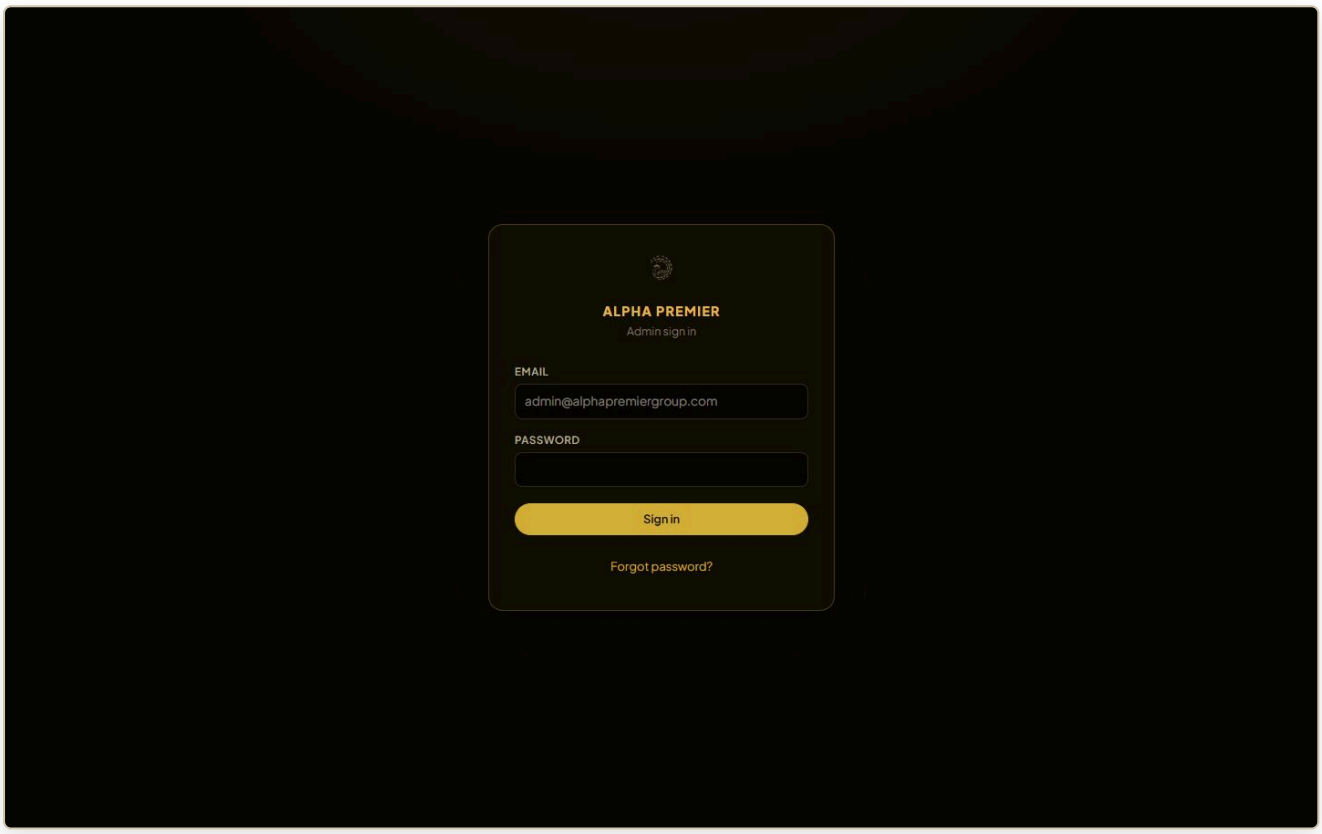

Figure 49. The Admin Console sign-in page.

> **IMPORTANT**
> After 5 failed sign-in attempts, sign-in is blocked for 15 minutes ("Too many failed login attempts"). Never share your account; a super-administrator creates one for each staff member (Chapter 21).

11.2 Forgot your password

1. On the sign-in page click **Forgot password?**.
2. Enter your admin email and click **Send code**. A **6-digit code** is sent to the company security inbox; ask the person who manages that inbox for it.
3. Enter the code, a new password (at least 10 characters, different from the old one) and confirm it, then click **Reset password**.
4. "Password updated" appears. Sign in with the new password.

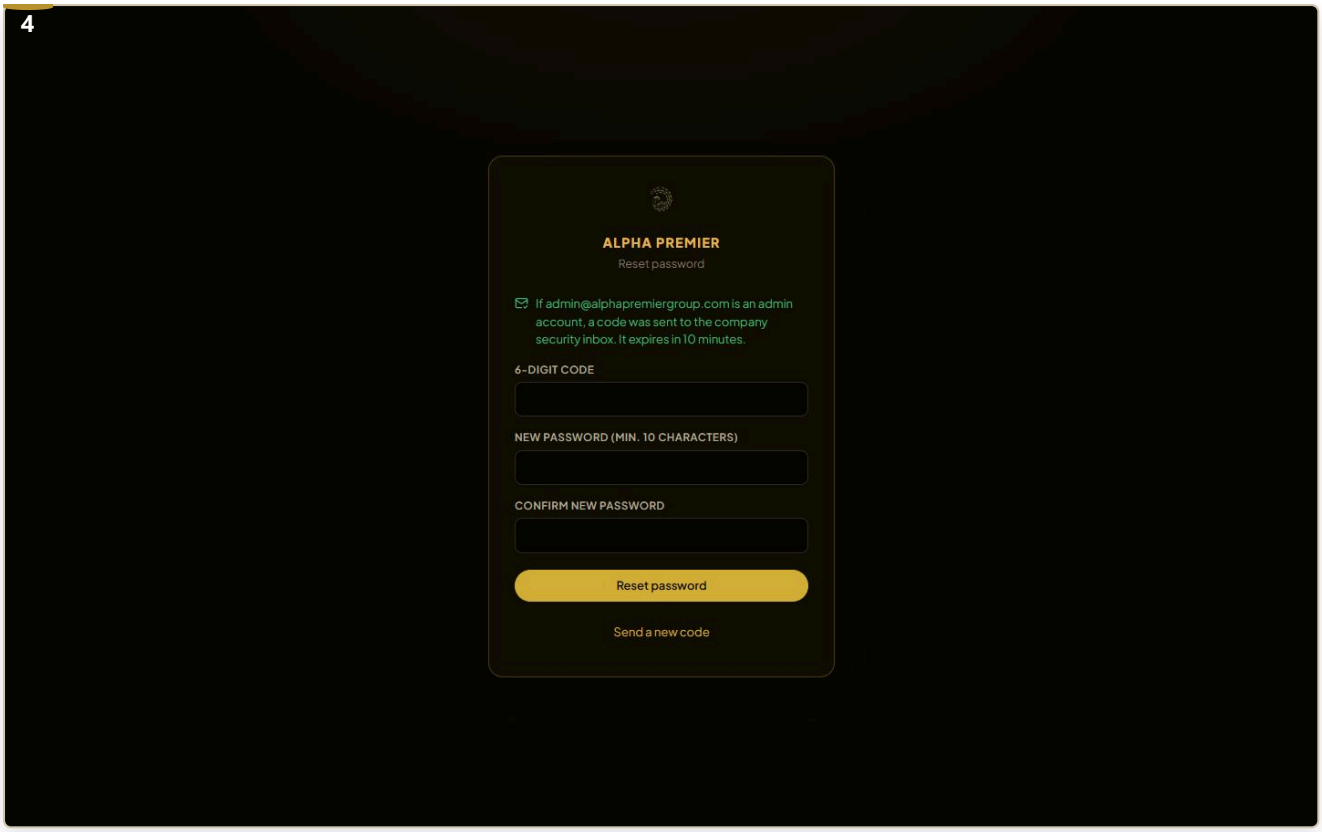

Figure 50. Entering the code and a new password.

> **NOTE**
>
> Codes expire after 10 minutes and allow 5 attempts; click **Send a new code** if yours expired. Codes can be requested 3 times per 15 minutes. A reset signs the account out everywhere.

11.3 Change your password

1. Click **Change password** at the top-right of any Admin Console page.
2. Enter your current password and click **Email me a code**. A code (valid 10 minutes) is sent to the company security inbox.
3. Enter the code and your new password twice, then click **Change password**. Use **Resend code** if needed.
4. "Your password has been changed." appears; click **Done**. You stay signed in here, and every **other** session of your account is signed out.

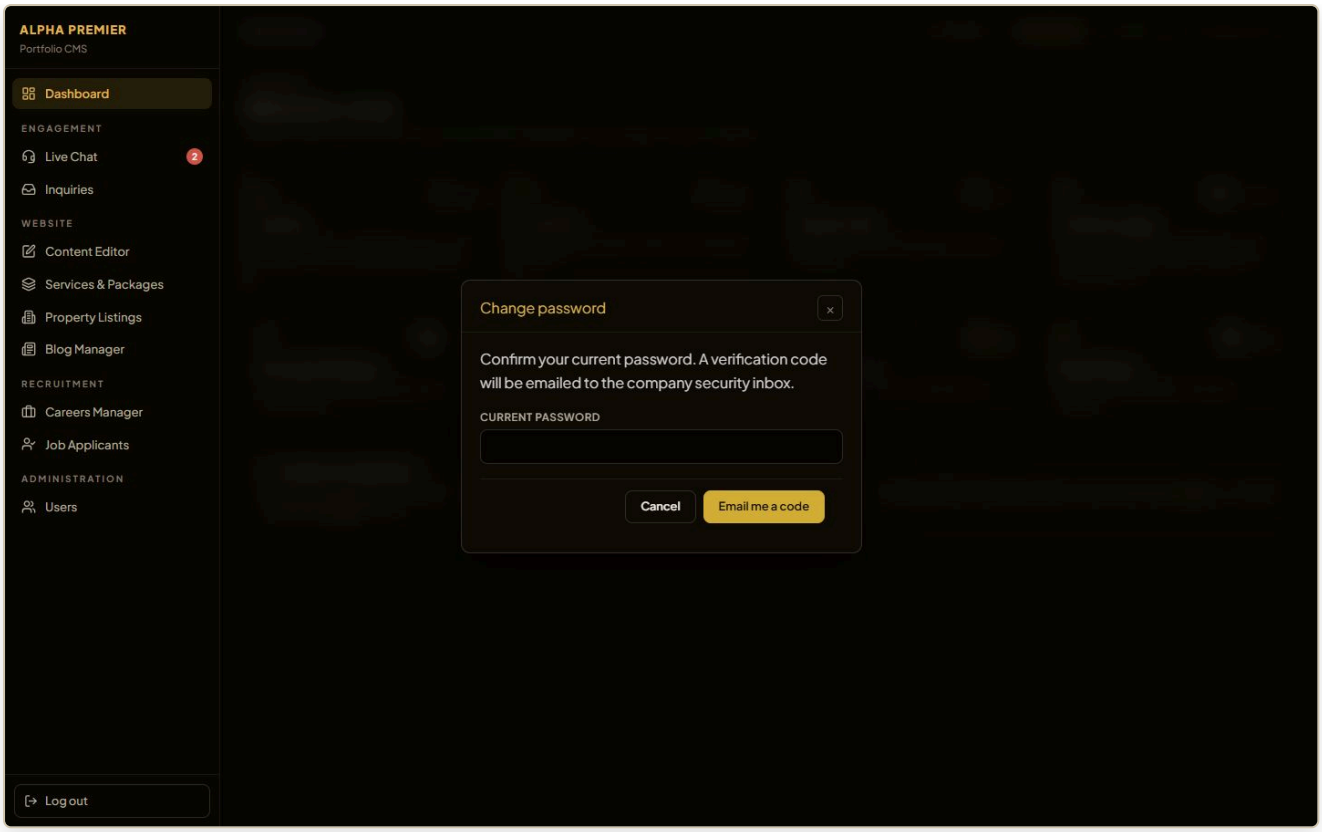

Figure 51. Step 1 of changing your password.

11.4 Console layout, phones and signing out

- **Left sidebar** — the pages your role can use, grouped under gold labels: **Dashboard**; **Engagement** (Live Chat, Inquiries); **Website** (Content Editor, Services & Packages, Property Listings, Blog Manager); **Recruitment** (Careers Manager, Job Applicants); and **Administration** (Users). A group your role cannot use is hidden. The red number beside **Live Chat** is the number of visitors waiting for an agent.
- **Page header** — every page starts with the same header: its group label in gold, the page title (with a gold count such as **4 new** where something is waiting), a one-line description, and the page's buttons on the right. The main action of a page is the gold button.
- **Filters** — list pages share one filter row: an **All enterprises** drop-down (each company shows its count; the drop-down turns gold when a company is selected), a status switcher such as **All · Active · Closed**, and a search box. On a phone the status switcher scrolls sideways.
- **Top bar** — **View site** (opens the public website in a new tab), your role badge and account, and **Change password**.
- **On a phone** — tap the menu button (three lines) at the top-left to open the sidebar; top-bar buttons show as icons only.
- **Log out** at the bottom of the sidebar ends your session. Always log out on shared computers.
- The website's cookie notice does not appear inside the console.

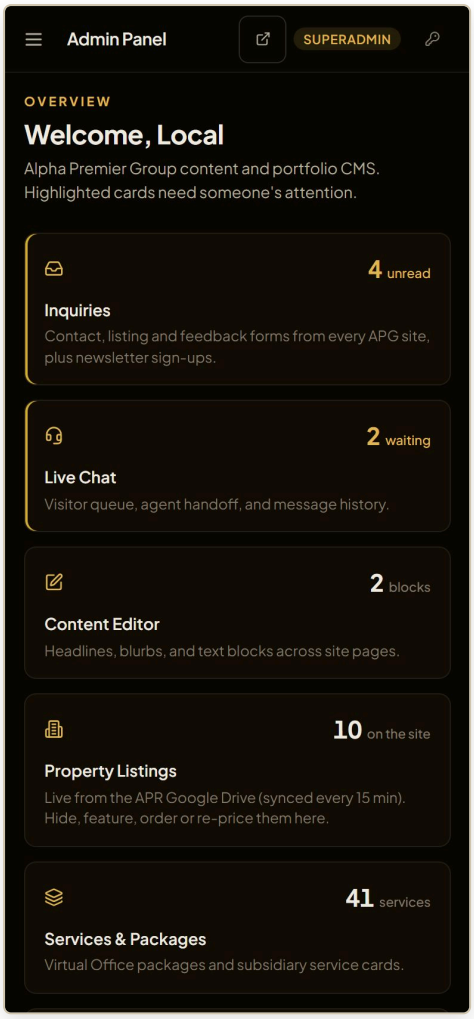

Figure 52. The console on a phone.

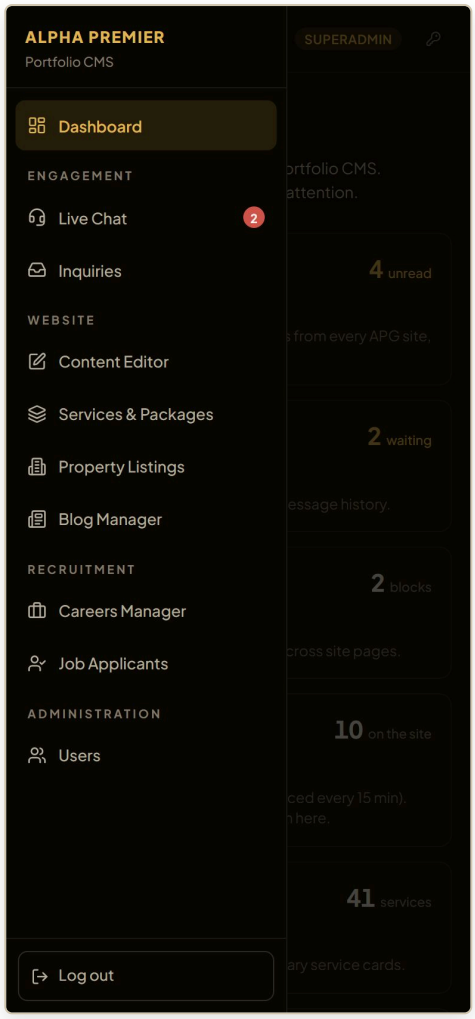

Figure 53. The sidebar opened from the menu button.

11.5 When your session expires

If your session ends — after a long period without activity, a password change or reset from another session, a super-administrator resetting your password, or your account being removed — the next action takes you to the sign-in page with the message **"Your session expired. Please sign in again."**

> **SAVE YOUR WORK**
>
> Unsaved changes in the Content Editor are lost when a session expires. Save regularly when editing for a long time.

11.6 Roles and permissions

Each account has one role. The sidebar shows only the pages your role can use, and the server also blocks anything your role is not allowed to do.

Page / action	Super-admin	Admin	Editor	Recruiter
Dashboard	✓	✓	✓	✓

Live Chat	✓	✓	—	✓
Inquiries & newsletter	✓	✓	—	—
Content Editor (incl. Site settings)	✓	✓	✓	—
Private settings (inboxes, assistant notes)	✓	✓	—	—
Content Editor — Advanced (raw keys)	✓	—	—	—
Services & Packages	✓	✓	✓	—
Property Listings	✓	✓	✓	—
Careers Manager	✓	✓	—	✓
Job Applicants & ATS	✓	✓	—	✓
Blog Manager	✓	✓	✓	—
Delete records (any page)	✓	✓	—	—
Users (create, edit, delete accounts)	✓	—	—	—

Opening a page your role cannot use returns you to the Dashboard. Role changes take effect on your next action.

12 Dashboard

The Dashboard greets you by name and shows a card for each page your role can use, with a live count. Click a card to open that page. Cards with work waiting for someone — unread inquiries, visitors waiting in Live Chat and new job applications — get a gold edge and a gold count so they stand out.

Card	Count shown
Inquiries	Unread inquiries
Live Chat	Visitors waiting (or active chats)
Content Editor	Fields customized from their default wording
Property Listings	Properties currently on the website (shown to every role)
Services & Packages	Number of services, products and plans
Careers	Number of job openings
Job Applicants	New applications (or the total when none are new)
Blog Manager	Number of articles

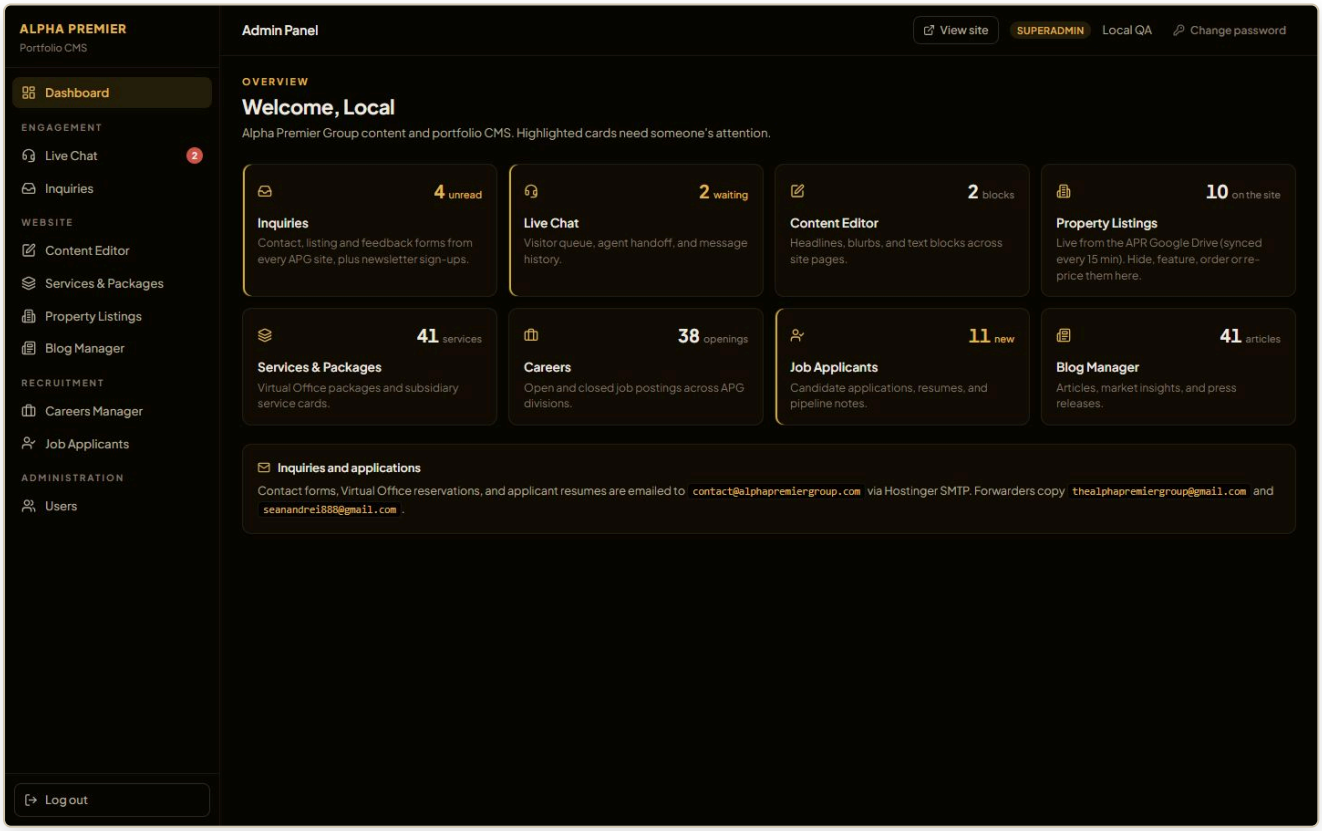

Figure 54. The Admin Console Dashboard.

13 Live Chat

Live Chat is where agents take over conversations from the chat assistant. The queue refreshes automatically every few seconds, and a pop-up notice appears when a new visitor starts waiting.

13.1 The Live Chat screen

- **Tabs** — **Waiting** (visitors asking for a person), **Active** (chats an agent is handling), **Closed** and **All**. Conversations still handled by the assistant appear only under **All**.
- **Search** — find a conversation by company, visitor name, email or message text. The thread stays scrolled to the newest message; the rest of the page stays put.
- **Conversation list** — company, visitor, waiting time, last message, assigned agent and message count.
- **Thread** — the full conversation, with visitor, **APG Assistant** and agent (gold) messages. The header shows the visitor's contact details and assigned agent.

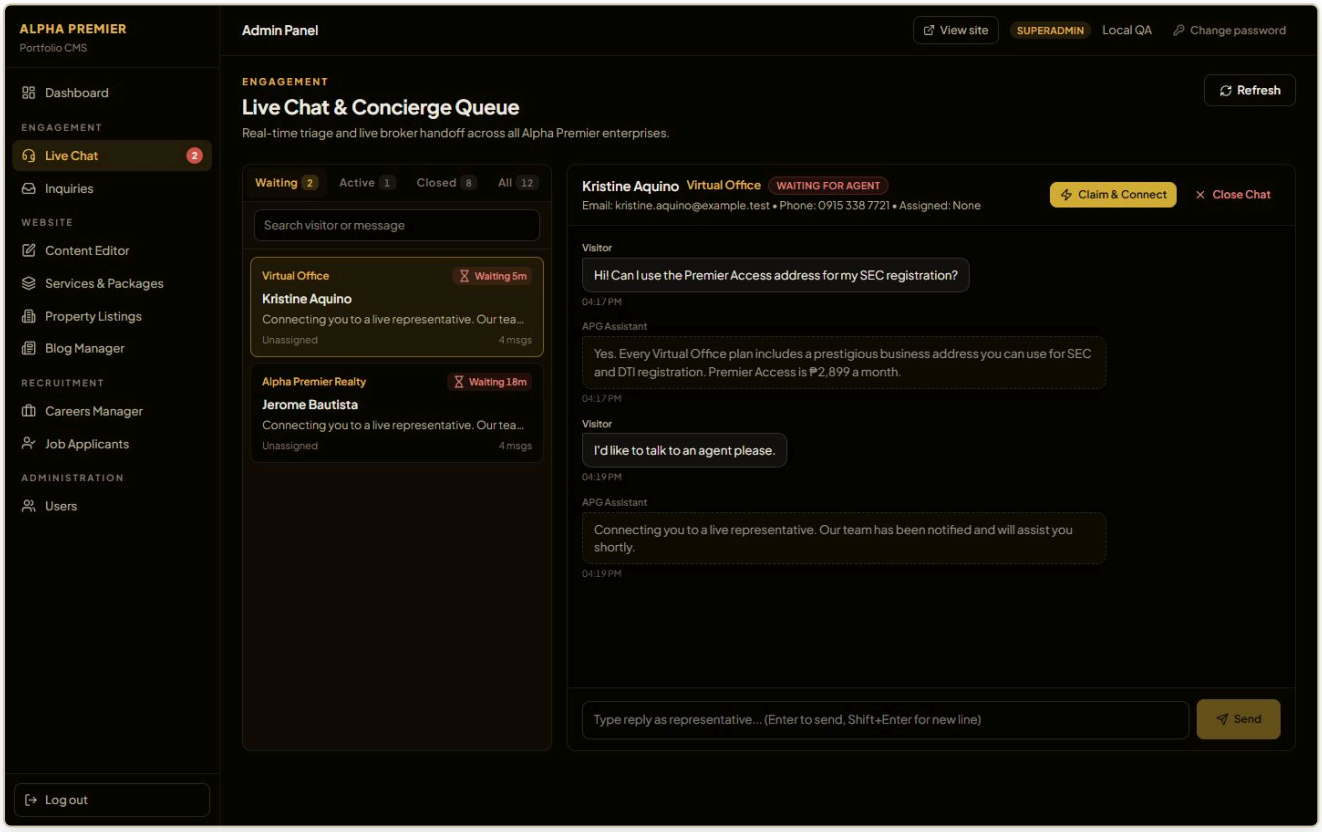

Figure 55. The Live Chat queue with visitors waiting for an agent.

13.2 Answer a waiting visitor

1. Open **Live Chat** (or the link in the "[Live chat] Visitor waiting" email). The oldest waiting chat opens automatically.
2. Read the conversation so far, including the reason for the handoff.

3. Click **Claim & Connect**. The chat moves to **Active**, is assigned to you, and the visitor sees that you joined.
4. Type your reply and press Enter (Shift+Enter adds a new line) or click **Send**.

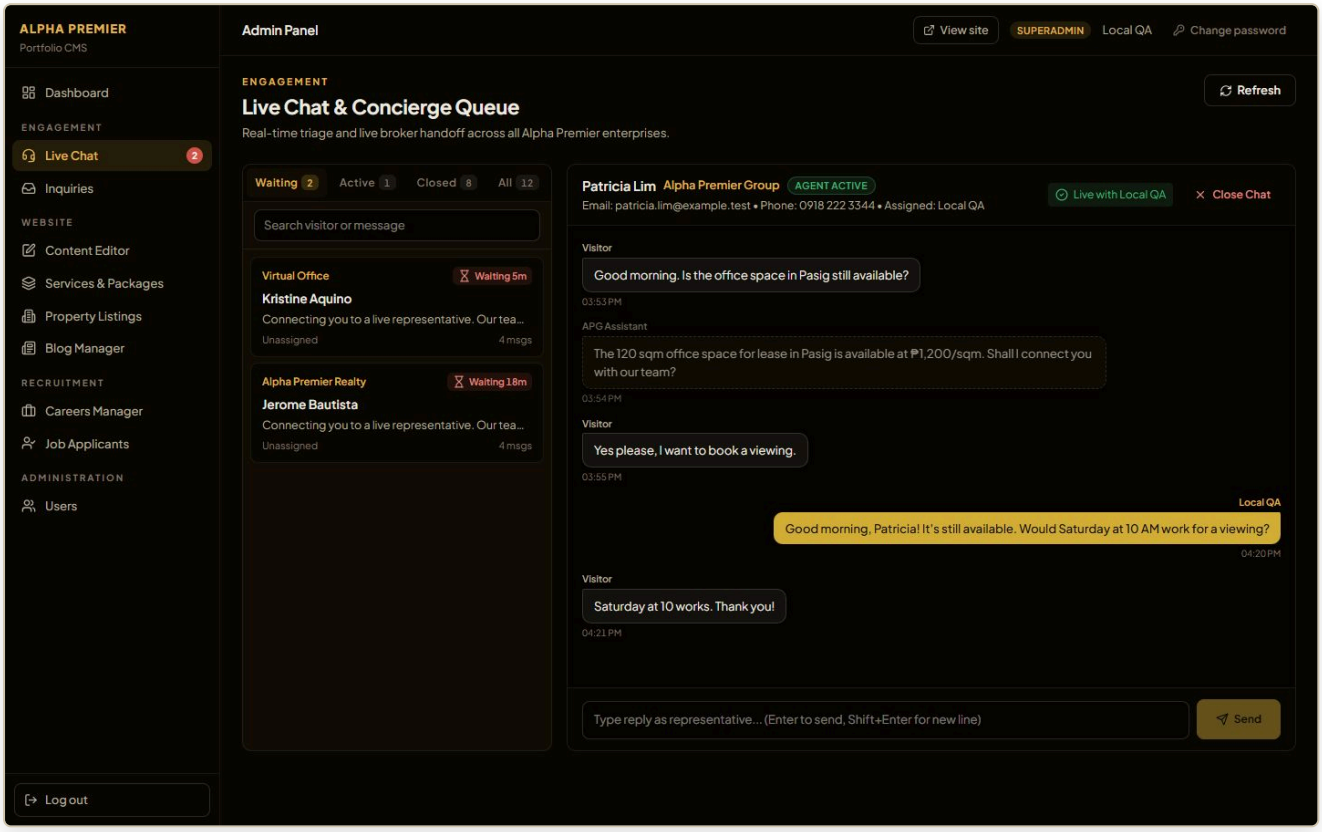

Figure 56. An active chat handled by an agent.

13.3 Take over an assistant conversation

Open the **All** tab, select a conversation marked **BOT** and click **Connect & Take Over**. The assistant stops replying and you are in charge.

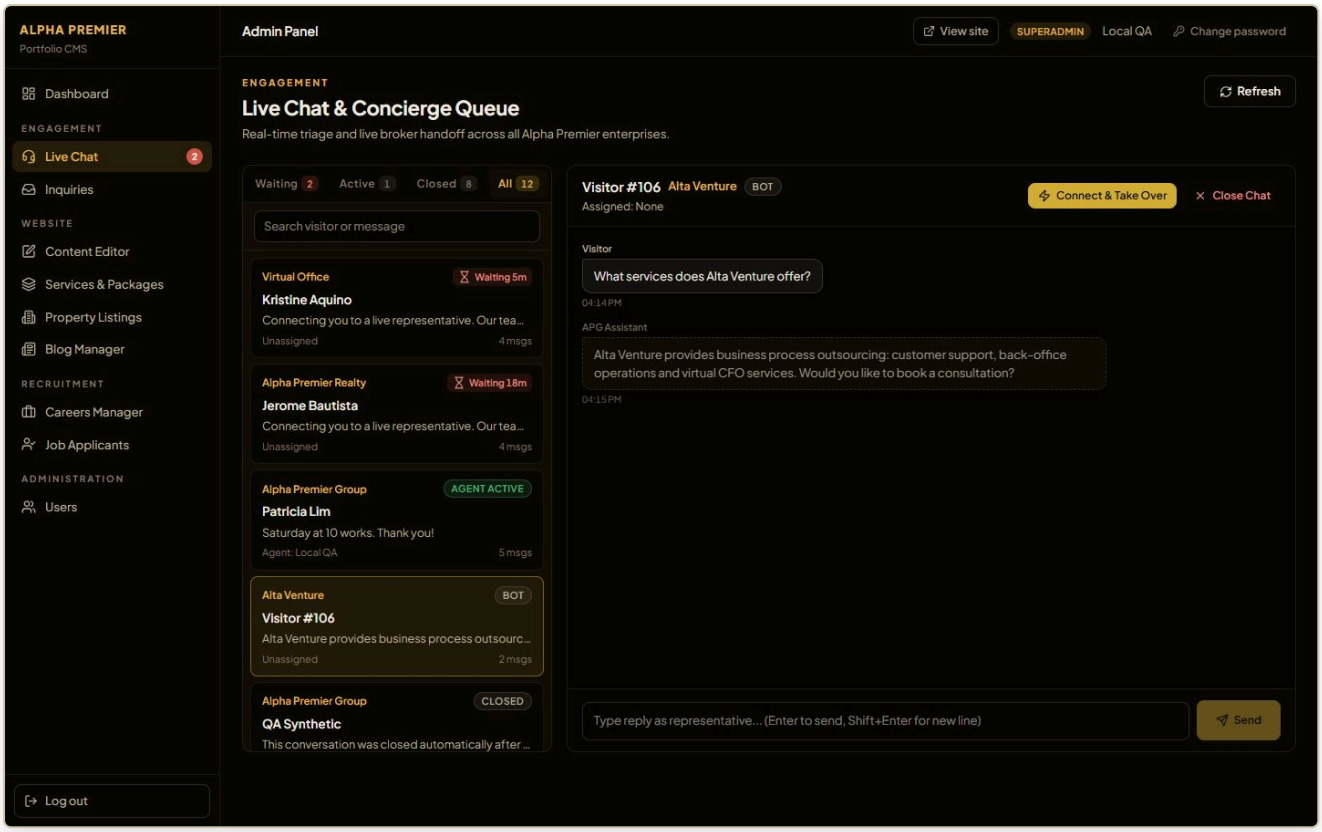

Figure 57. A conversation still handled by the assistant.

13.4 Close a chat

1. When the inquiry is resolved, click **Close Chat**.
2. Click **Yes, Close Session**. The visitor sees that the chat is closed, with that company's phone and email for follow-ups, and can start a new chat.

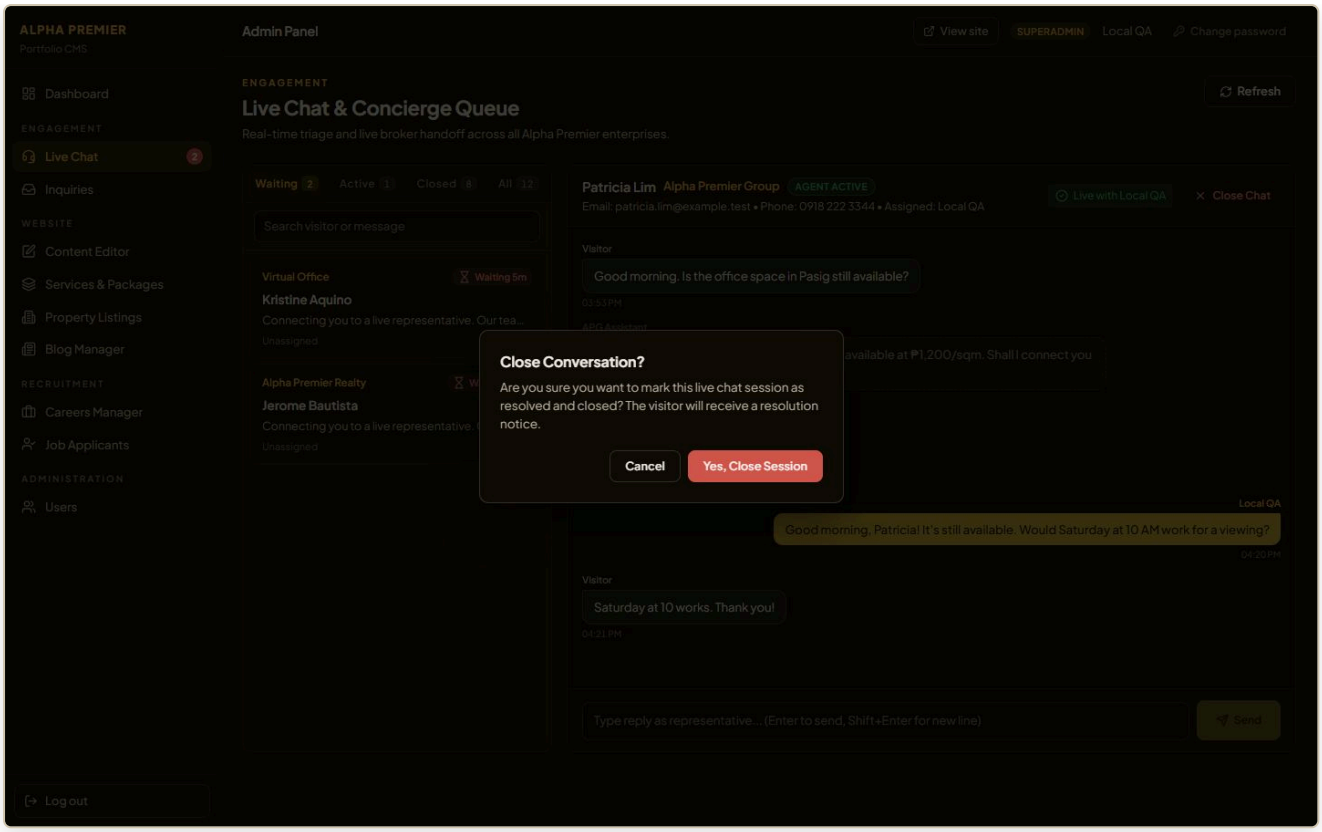

Figure 58. Confirming that a chat should be closed.

BEST PRACTICE

- Claim waiting chats quickly; the visitor sees “Connecting you to our team…” until you do.
- Collect the visitor's email or phone early, so you can follow up if they leave.
- Close chats once resolved to keep the queue accurate.

14 Inquiries & newsletter

Every inquiry, property inquiry, careers feedback and newsletter sign-up from all APG websites is saved here, in addition to being emailed to the team.

14.1 The Inbox

- **Inbox / Newsletter switch** — **Inbox** (with the unread count) and **Newsletter** (with the subscriber count). Unread inquiries have a gold edge on the left of the row.
- **Kinds** — **Inquiry**, **Listing** (a property inquiry from the Realty site), **Feedback** (careers feedback) and **Job question** (an inquiry about a specific position).
- **Statuses** — **New**, **Read**, **Replied** and **Archived**. Change one with the drop-down on the row.
- **Filters** — search (name, email, phone or message), Kind, Company, Status and a From/To date range; **Clear** resets them.
- The list shows the newest 500 items; narrow the filters, or export, to reach older ones.

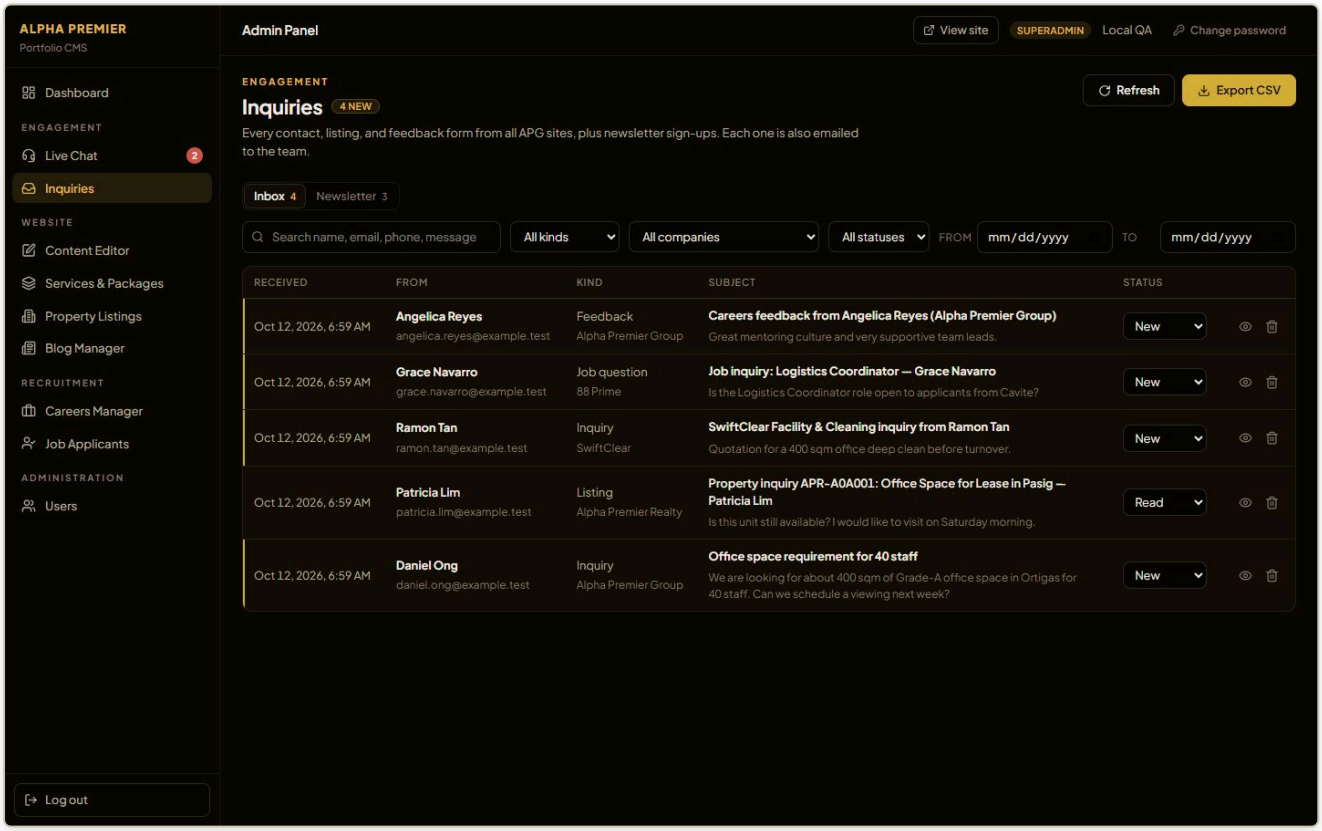

Figure 59. The Inquiries inbox.

14.2 Open and answer an inquiry

1. Click an inquiry's subject. A panel opens with the sender, contact links, reference number and every detail they entered (property, service, budget, timeline, position and so on). Opening a **New** item marks it **Read**.

2. For a property inquiry, the **Listing** line links to the listing on the website.
3. Click **Reply by email**. Your email program opens a reply with the reference in the subject, and the item is marked **Replied**.
4. Set **Archived** when it is finished.

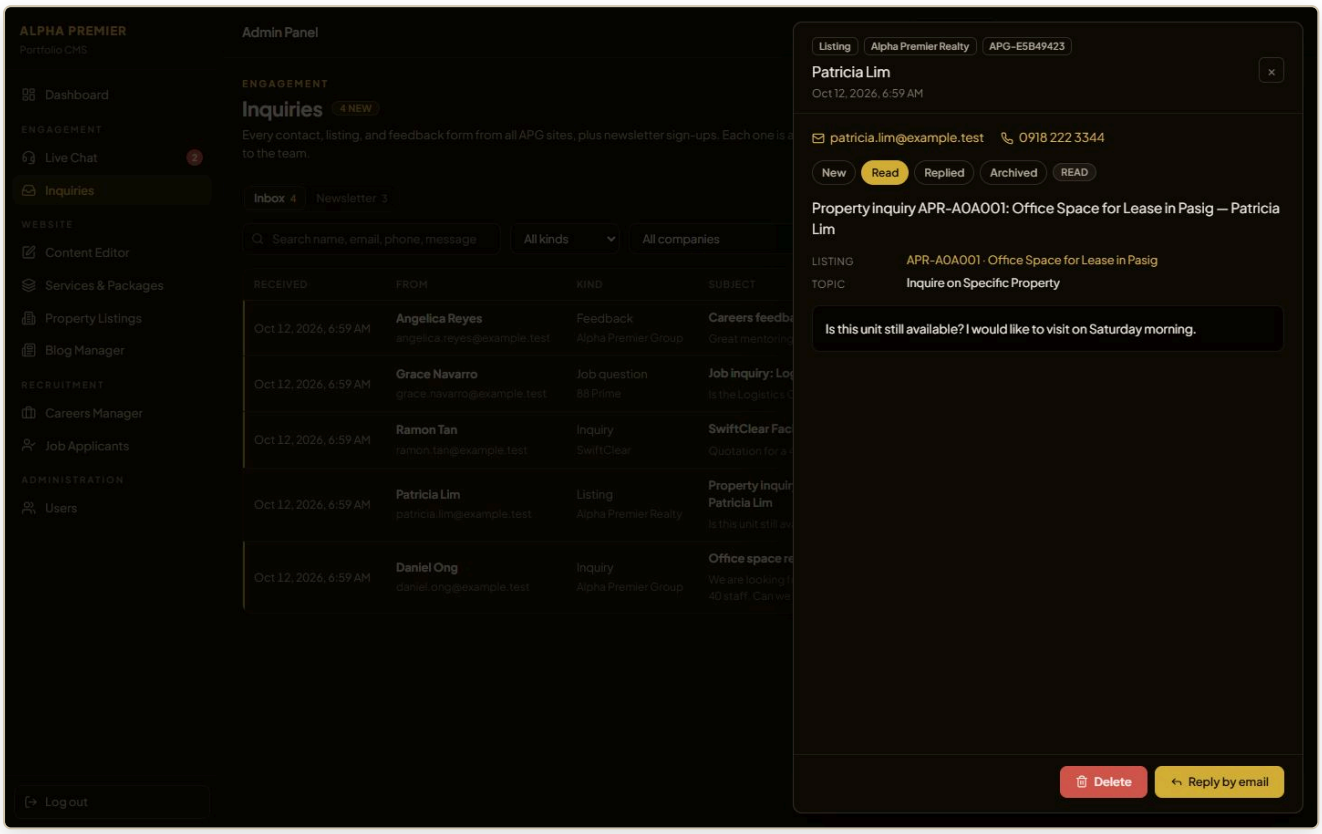

Figure 60. An inquiry opened in the detail panel.

14.3 Newsletter subscribers

The **Newsletter** tab lists each subscribed email once, with the company site it came from, the first sign-up and the latest sign-up date. Use the bin icon to remove someone who asks to unsubscribe.

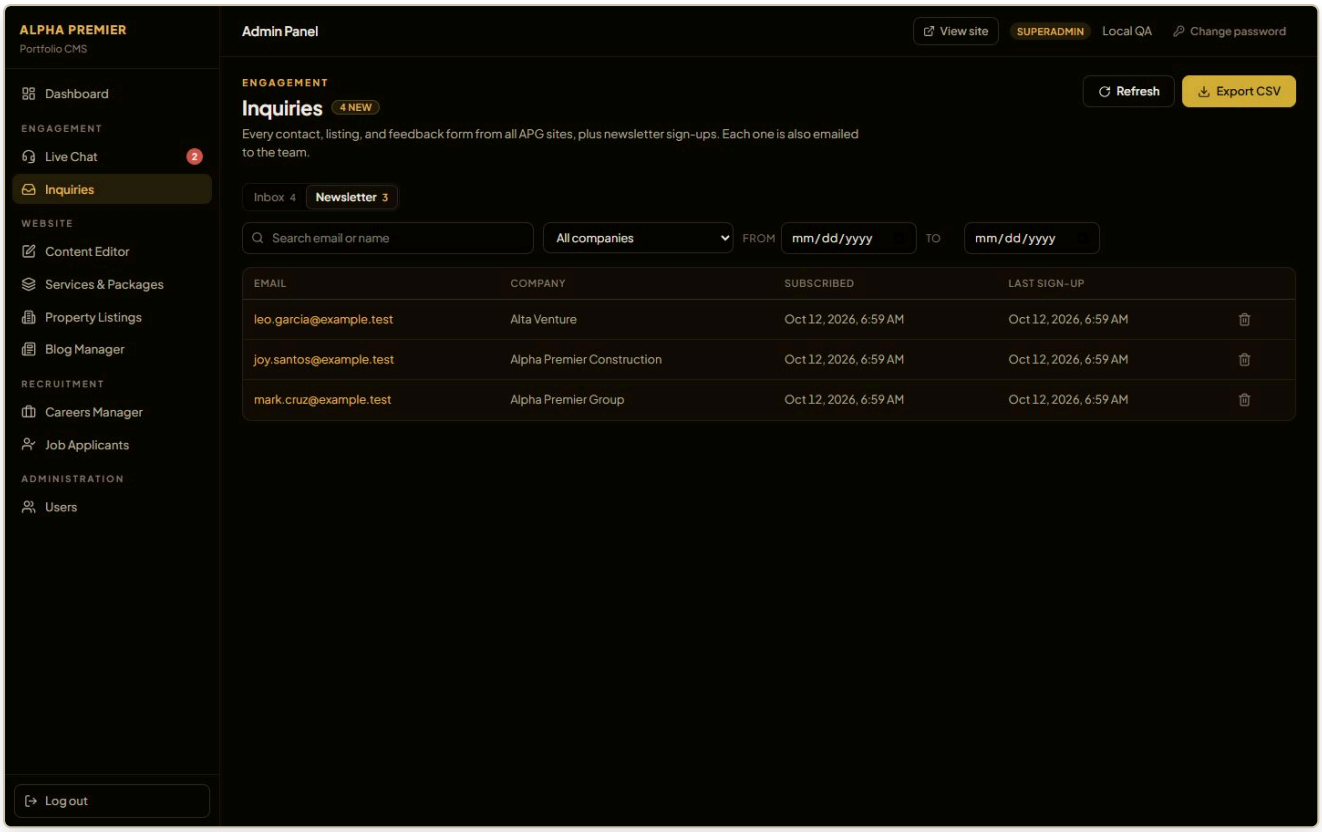

Figure 61. The newsletter subscriber list.

14.4 Export to a spreadsheet

Click **Export CSV** to download everything that matches the current filters (for example, all subscribers for a mailing tool). The file opens in Excel or Google Sheets and includes the date, kind, company, status, contact details, subject, message, reference and other details.

> **DELETING**
>
> Only administrators can delete an inquiry or subscriber. Deleting removes it from the console only; the email already sent to the team is not affected.

15 Content Editor

The Content Editor changes the words, images and contact details on the main website and all company websites — no developer needed. Fields you have not changed keep the original wording.

15.1 Choose a page

1. Open **Content Editor**.
2. Pick a page from the **Page** list. It is grouped into:
   - **Settings** — Site settings (contacts, socials, banner) and Private settings (inboxes, assistant notes).
   - **Main site** — Home page, About & leadership, Careers page, Enterprises page and Contact page.
   - **Company sites** — Dynamic Tree, SwiftClear, Luxe Prime Realty, Alpha Premier Construction, 88 Prime, Alpha Premier Realty, Alta Venture and Virtual Office.
3. The page's sections appear as cards, each with labelled fields. The note under the picker says how many fields are customized; **View page ↗** opens that page on the website.

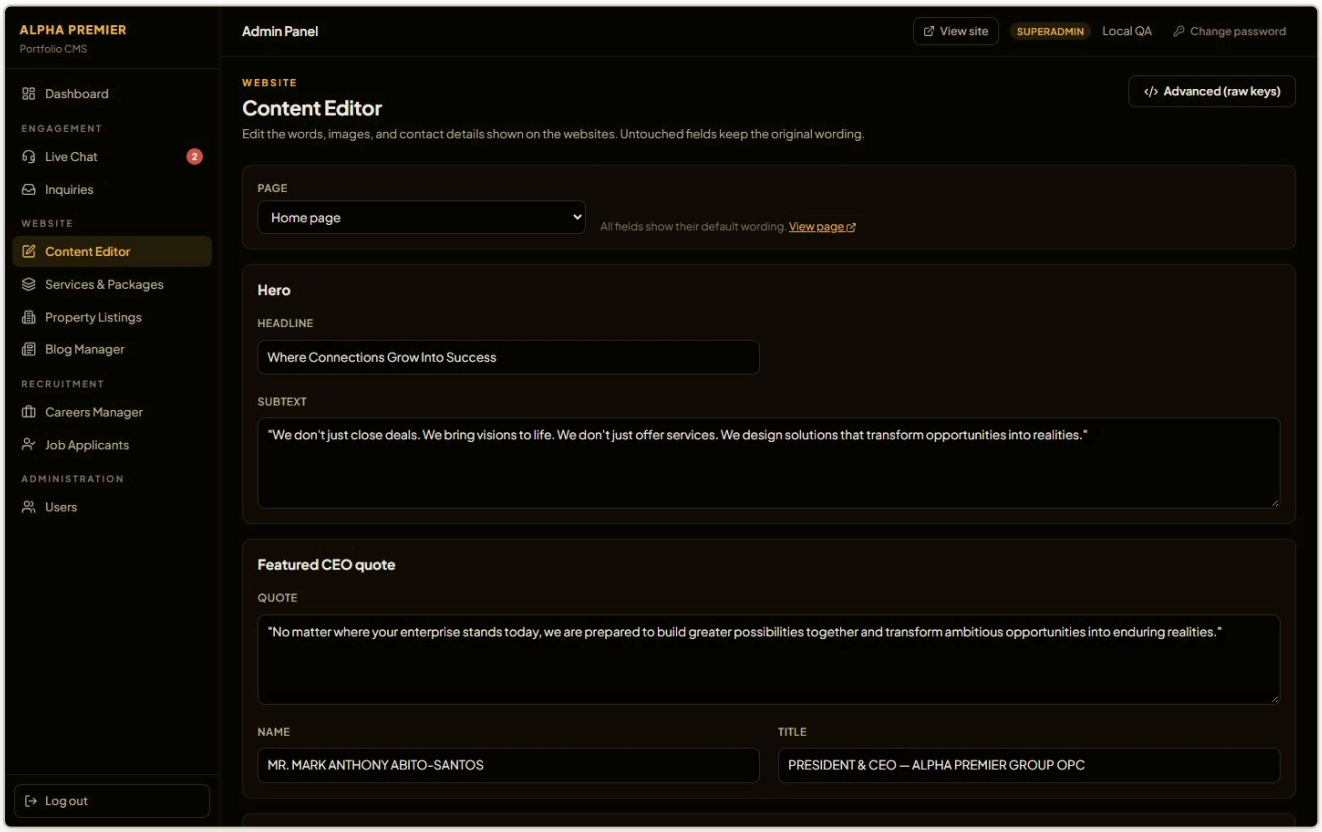

Figure 62. The Content Editor showing the Home page.

15.2 Edit and save

1. Click into a field and change it. A gold **Unsaved** badge appears next to its label, and a bar at the bottom counts your unsaved changes.

2. Click **Save changes** (or **Discard** to throw them away). Saved fields show a grey **Customized** badge.
3. Visitors see the change the next time they load the page.

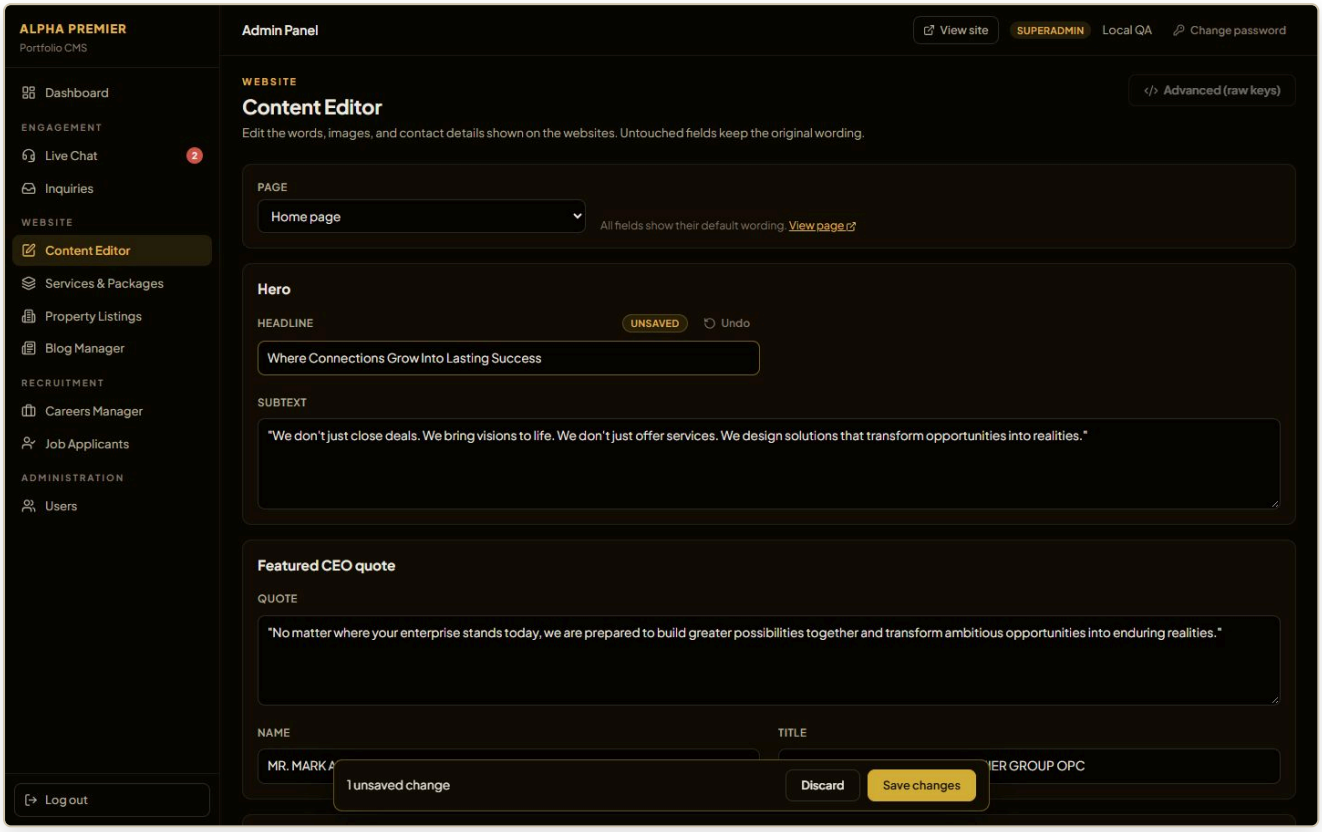

Figure 63. An unsaved change and the save bar.

Field type	How it works
Text / paragraph	Type normally (up to 20,000 characters).
Rich text	**B** and *I* buttons add `**bold**` and `*italic*`; a new line is a line break. A live preview shows the result.
Image	Click **Upload image** (JPG, PNG or WebP, up to 5 MB) or paste an image address.
Link, email, phone	Links must start with `https://` or `/`; emails must be valid; phones may contain digits, spaces and `+ ( ) / - ,`.
On/off switch	Tick to turn a feature on.
List	One item per line.
Repeating items	Numbered items (e.g. FAQ questions, statistics) with move up/down, remove and **Add item**.

> **UNDO AND RESET**
>
> **Undo** next to a field reverts an unsaved change. **Reset to default** removes a saved customization and restores the original wording (you are asked to confirm).

> **UNSAVED CHANGES**
>
> Switching page or leaving the editor with unsaved changes asks for confirmation. Save before long breaks — an expired session loses unsaved work.

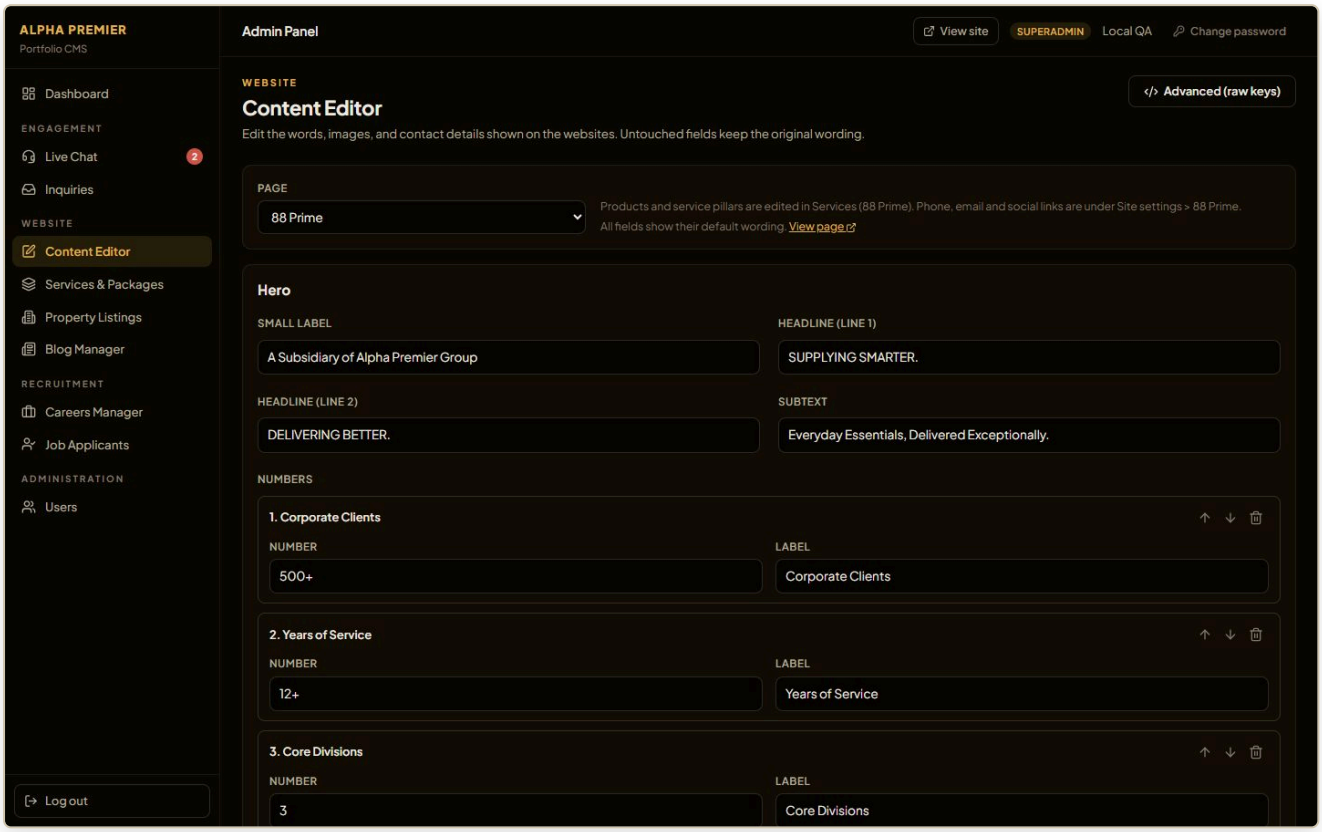

Figure 64. A company page (88 Prime) with repeating items.

15.3 Site settings: contact details and social media

Choose **Site settings (contacts, socials, banner)** to change the details shown in headers, footers, inquiry pages, the Contact page, confirmation emails and the chat assistant.

- **Main contact details** — phone numbers (separate with " / "; the first is used for tap-to-call), public email, full and one-line office address, business hours (shown on the Contact page and main footer when filled in) and the Google Maps link.
- **Main social media links** — Facebook, Instagram, TikTok, LinkedIn, YouTube and Viber. Leave one empty to hide it.
- **Per-company sections** — phone, email, address and social links for each company. An empty field uses the main details.

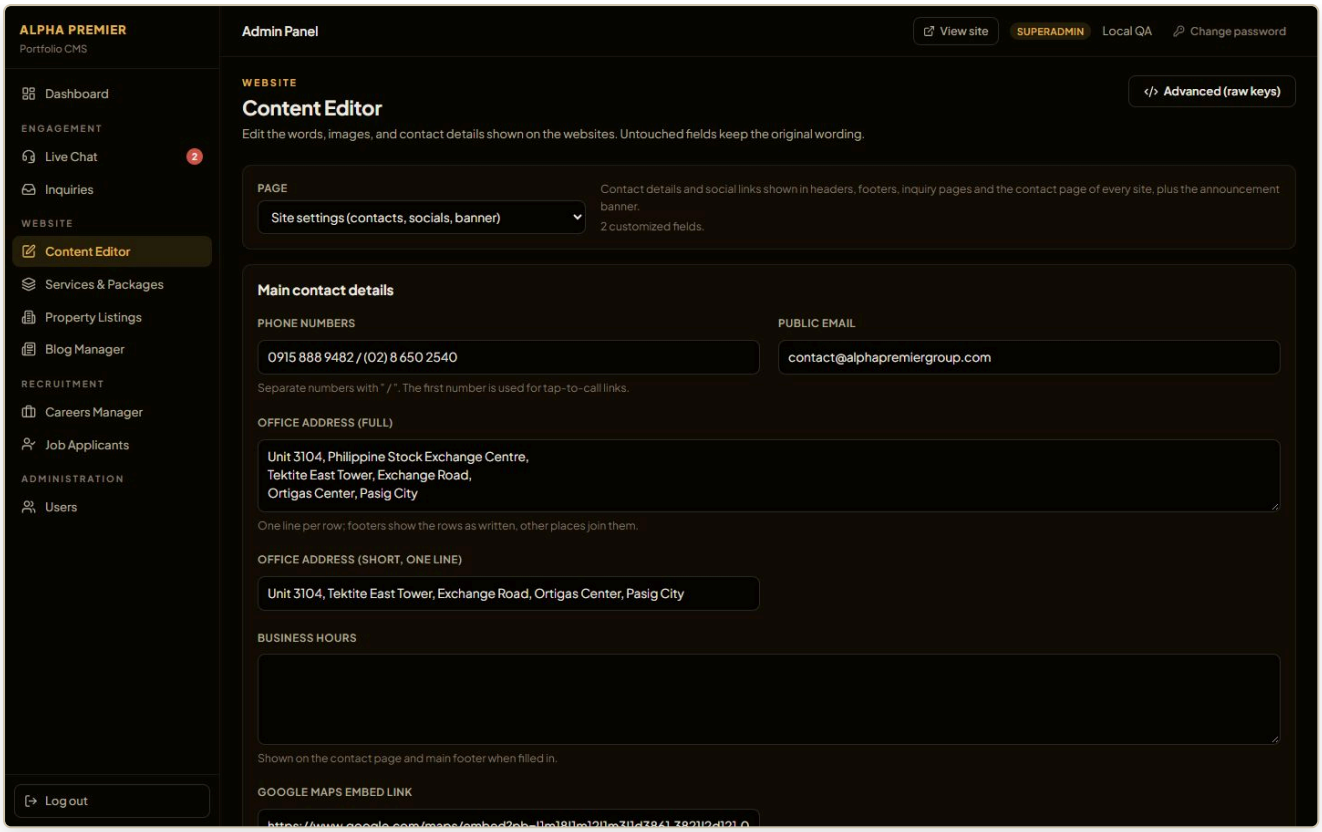

Figure 65. Site settings: main contact details.

15.4 The announcement banner

Use the banner for short notices such as holiday closures or promotions.

1. In **Site settings**, scroll to **Announcement banner**.
2. Tick **Show the announcement banner** and write one sentence in **Announcement text**.
3. Optionally add a **Link** and **Link label** (default "Learn more").
4. Under **Show on these sites**, tick the sites that should show it, or leave all unticked to show it everywhere.
5. Click **Save changes**. To remove it, untick the switch and save.

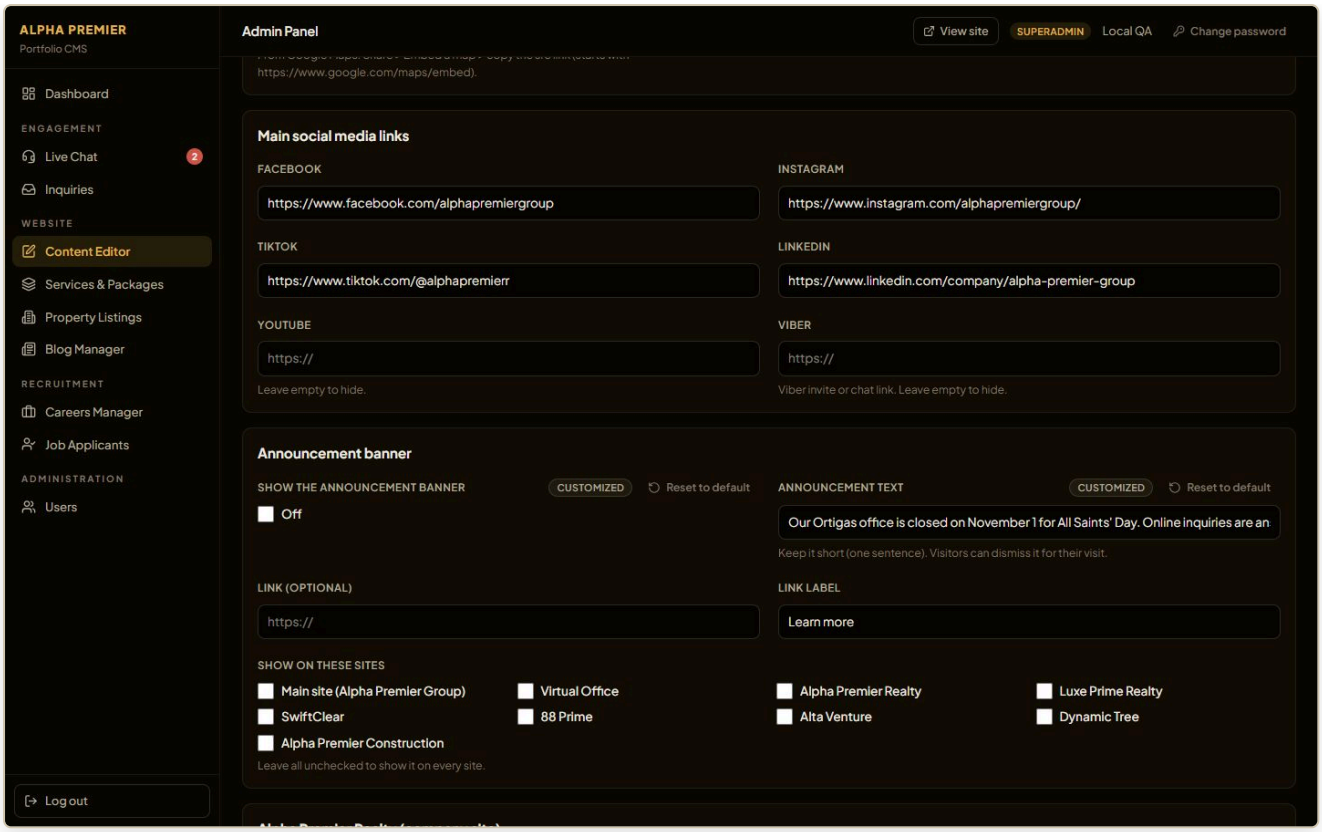

Figure 66. Announcement banner settings.

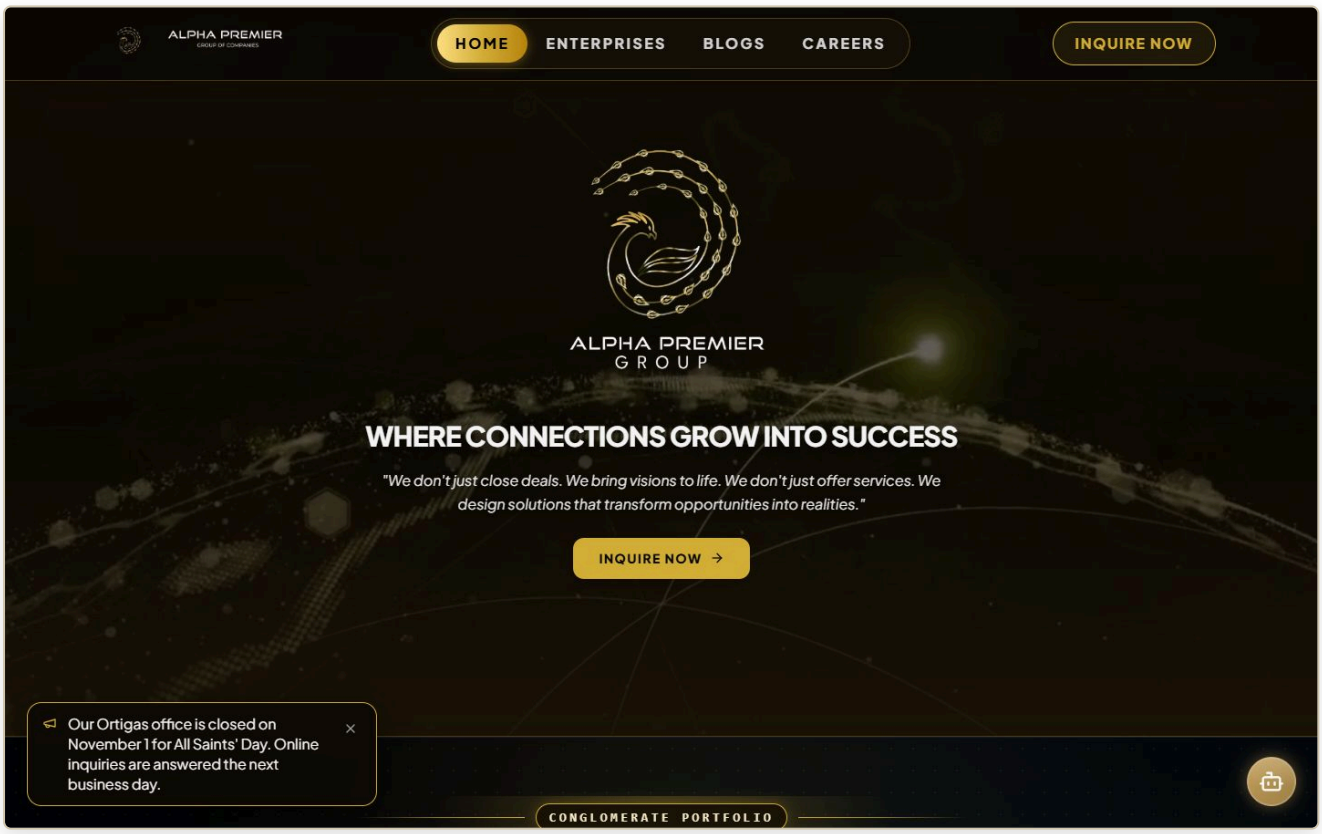

Figure 67. The banner as visitors see it (bottom-left), in the site's colours.

Visitors can close the banner with its ×; it stays closed for the rest of their visit unless the text changes.

15.5 Private settings (administrators)

Private settings are never shown on the website.

- **Inquiry inboxes** — a default inbox and one per company. Website inquiries and newsletter sign-ups go to the company's inbox, otherwise the default.
- **HR inboxes** — a default and one per company. Job applications and careers feedback go to the company's HR inbox, otherwise the default.
- **Chat assistant notes** — plain facts the assistant should know (promotions, holiday hours, policies).

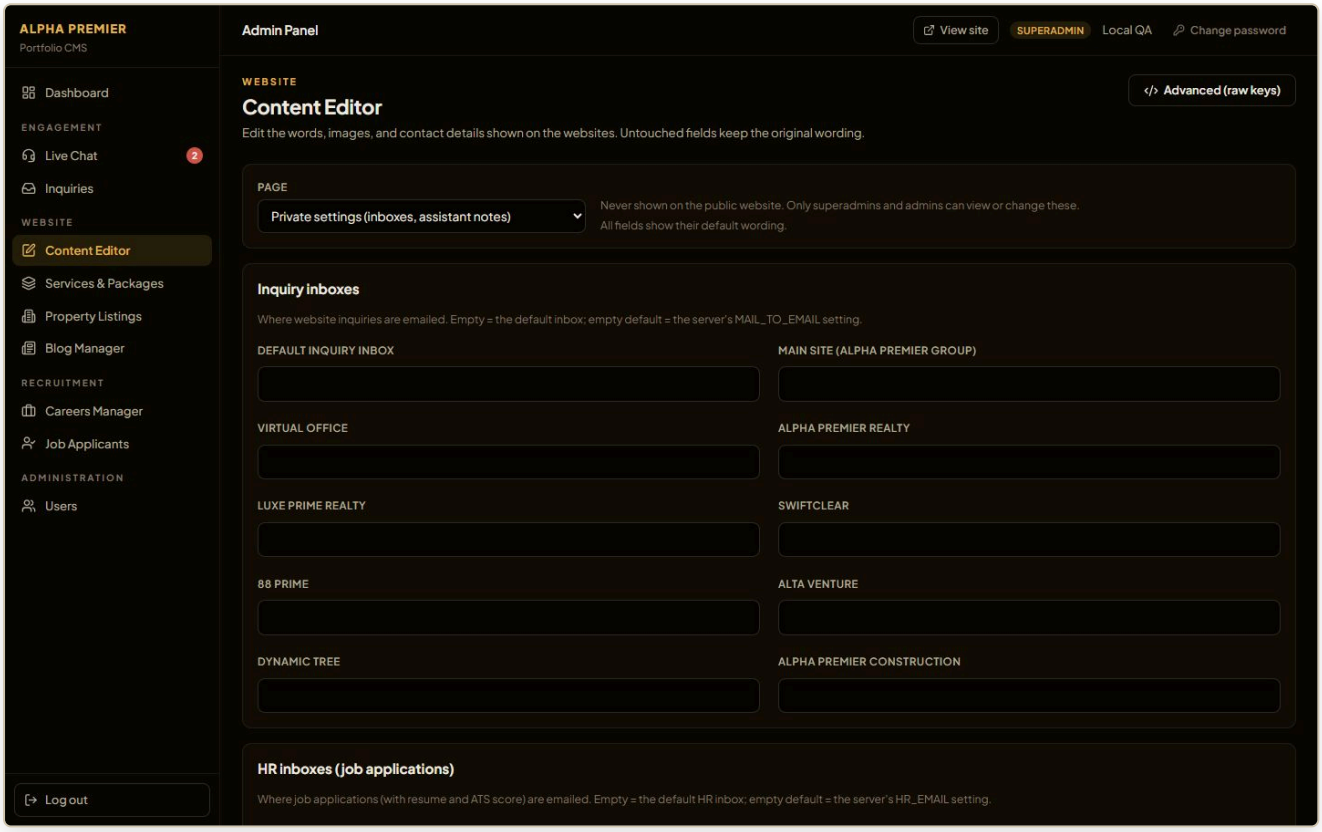

Figure 68. Private settings: inboxes for each company.

> **NOTE**
>
> Live-chat handoff alerts and password codes are not set here; they go to the inboxes configured on the server.

15.6 Advanced (raw keys) — super-administrators

Advanced (raw keys) lists every stored value by its internal key, for troubleshooting. Use the guided editor for normal changes; contact the web team before adding or deleting raw keys.

16 Services & Packages

This page manages each company's services, the 88 Prime product catalog and the Virtual Office plans. Changes appear on the website and in the chat assistant right away.

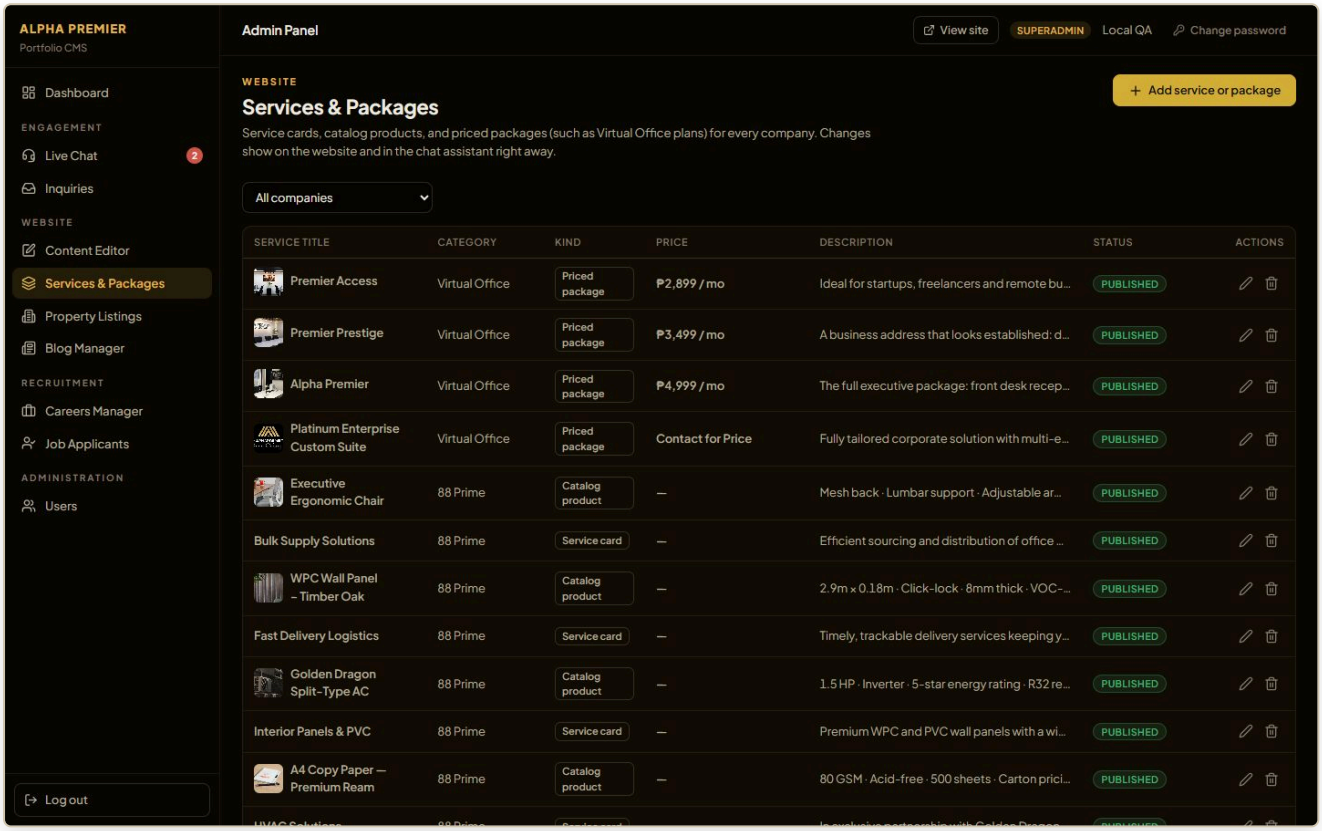

Figure 69. The Services & Packages list.

16.1 Add or edit an item

1. Pick a company in the **All companies** drop-down, then click **Add service or package** or the pencil icon on a row.
2. Choose the **Category** (company) and the **Kind**:
   - **Service card** — a service the company offers.
   - **Catalog product** — a product, e.g. for 88 Prime (Tag = category line, Summary = badge, Description = specs).
   - **Priced package** — a plan with a price, e.g. Virtual Office.
3. Fill in **Service Title***, optional **Summary / Card Teaser** and **Tag**, **Price Display** (shown exactly as typed, e.g. “₱4,999 / mo” or “Contact for Price”) and **Description & Inclusions***.
4. Add a **Cover Image** with **Upload cover image** (JPG, PNG or WebP, up to 5 MB) and optional gallery photos (**Upload photos**, reorder with the arrows).
5. Enter **Feature Bullets** (one per line), the **Sort Order** (lower first) and the **Publish Status** — Published (visible) or Draft (hidden) — then click **Save Service**.

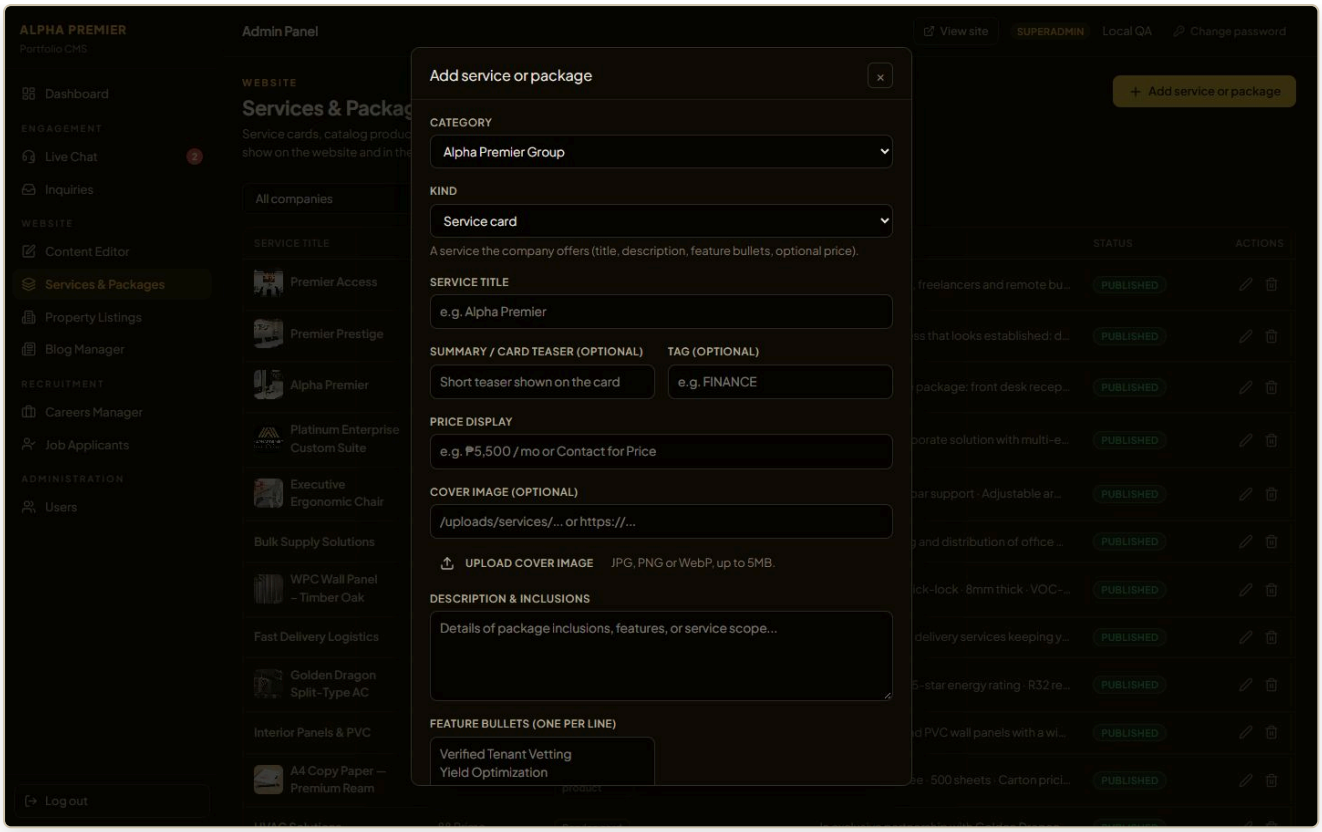

Figure 70. Adding a service, product or package.

> **TIPS**
>
> - Click a row's **Published/Draft** pill to hide or show it quickly.
> - Each company can have only one item with a given title.

16.2 Virtual Office prices and the 88 Prime catalog

- **Virtual Office plans** — choose **Virtual Office** in the drop-down. Each plan is a *Priced package*; its Price Display appears on the plan cards, in the plan choices of the inquiry form, and in the chat assistant's answers. The **Cover Image** is the photo on the plan card and on the Enterprises page tile, and each **Feature Bullet** is one line of the inclusions list on the card. The 2026 plan photos come from the "2026 V3.0 NEW VIRTUAL OFFICE" folder in the APR Google Drive; to change a photo, upload the new one as the plan's cover image.
- **88 Prime catalog** — 88 Prime items of kind *Catalog product* appear in "Products Built for Business" on the 88 Prime home page; *Service card* items appear on its Services page.

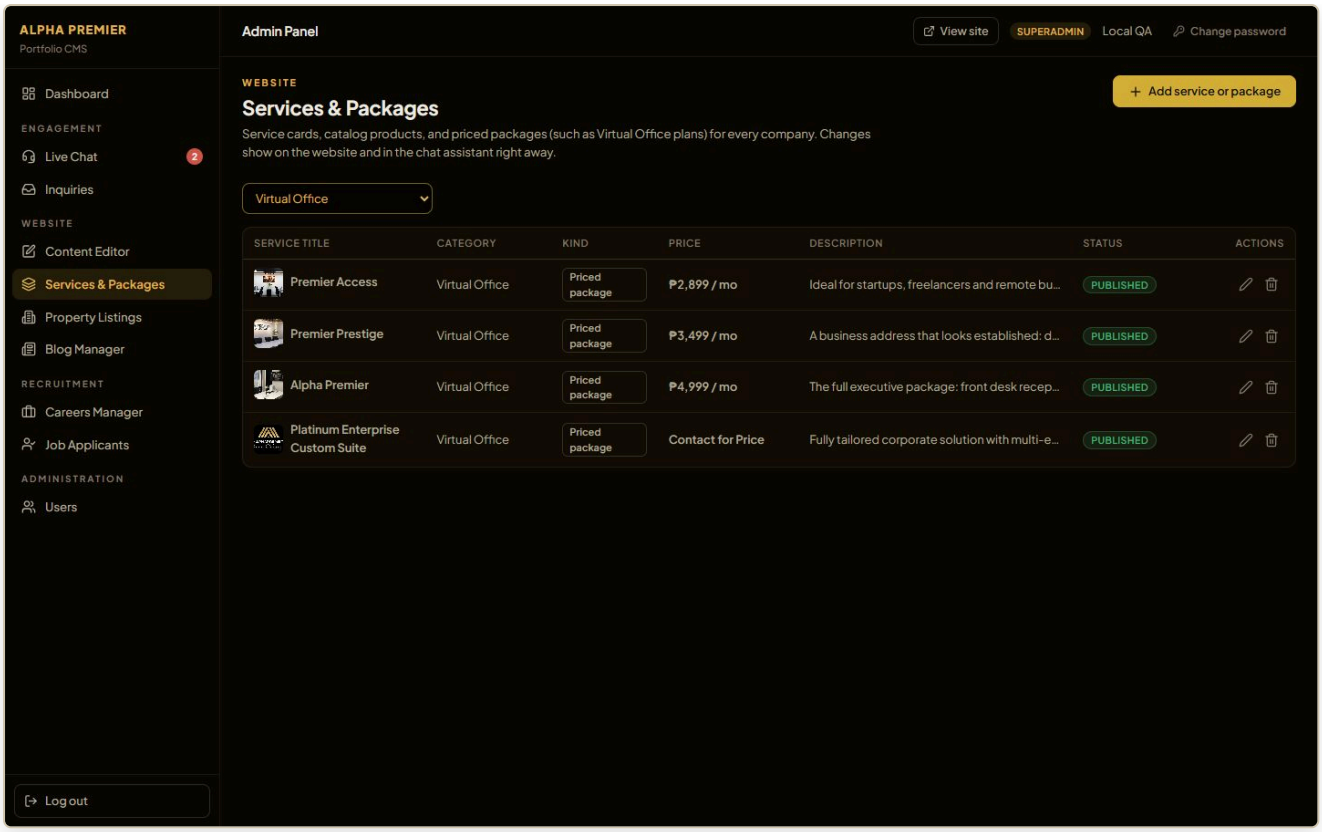

Figure 71. The Virtual Office plans and their prices.

17 Property Listings

Properties on the Realty website come from the Alpha Premier Realty (APR) Google Drive folder, which the website checks every 15 minutes. The **Property Listings** page controls how those listings appear on the website — it never changes the Drive.

17.1 Hide, feature, order or re-price a listing

- The banner at the top shows when the Drive was last synced and how many listings it holds. If a sync fails, the site keeps showing the last good listings.
- Filter with **All**, **On the site**, **Featured** and **Hidden**, or search by reference, area, price or note.
- Click **Featured** on a row to list it first with a ★ "Featured" badge, or **Hidden** to remove it from the website and the chat assistant.
- Click the pencil to open the edit window:
  - **Order** — lower numbers show first (featured listings always come first).
  - **Price shown on the site** — replaces the Drive price; leave empty to use the Drive price.
  - **Internal note** — for staff only, never shown on the site.
- Changes appear on the website within about a minute. Use the folder icon to open a listing's Drive folder, and **View on site** to check it.

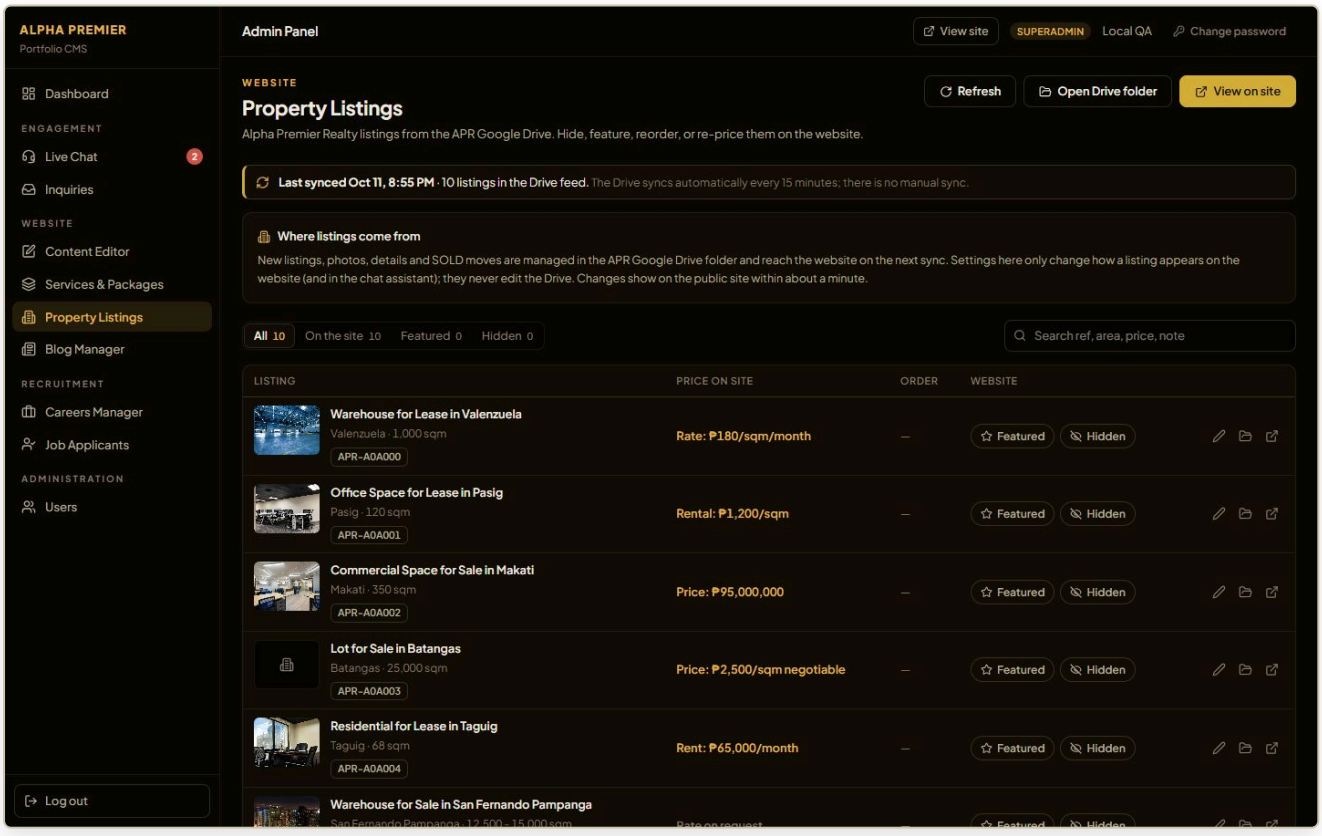

Figure 72. The Property Listings page.

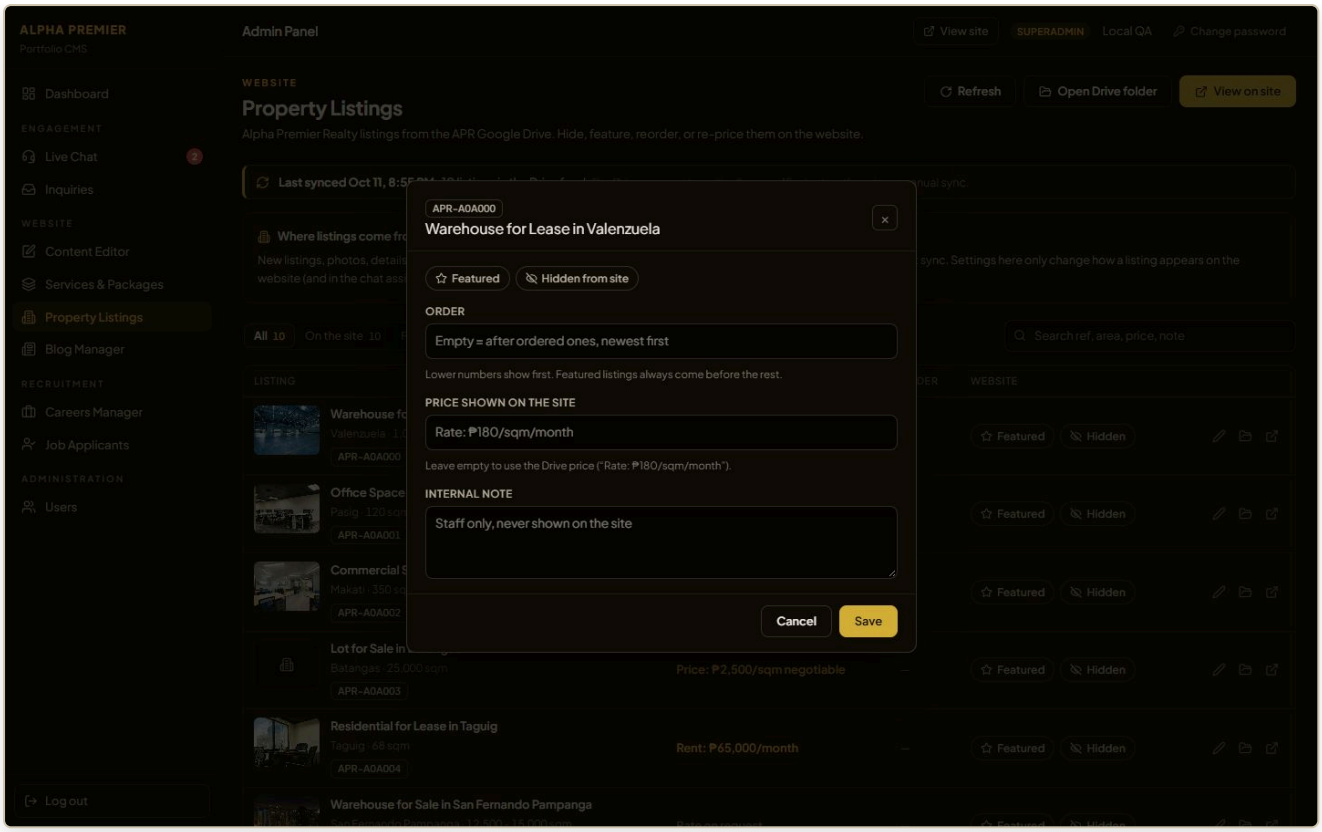

Figure 73. Editing how a listing appears on the website.

17.2 Add a listing (in Google Drive)

1. In the APR listings folder, open the category folder that describes the property. Folder names decide the type and deal:
   - Type — **Warehouse/Industrial**, **Office**, **Commercial/Retail**, **Lot/Land**, or **Condo/House/Residential**.
   - Deal — **Sale** for properties for sale; **Lease** or **Rent** for lease.
2. Create a folder named **City, size street**, e.g. `Valenzuela, 1,000 Lingunan`. The text before the first comma is the area and the number is the size in sqm; the street is never shown online.
3. Inside it, add one Google Doc with the rate and terms (rent or price, dues, advance, deposit, lease length, parking).
4. Upload up to 12 photos (JPG, PNG or WebP), named so the best comes first (e.g. `01-front.jpg`).
5. Within about 15 minutes the property appears on `realty.alphapremiergroup.com/properties` with a reference (`APR-xxxxxx`) and a “New” badge for 14 days.

> **AUTOMATIC PRIVACY PROTECTION**
>
> Only area, size, type, rate and key terms are published. Addresses, building and unit names, owner or broker names, phone numbers, emails and links in the Doc are never shown, and photo location data is removed.

17.3 Update or remove a listing

- **Update** — edit the Doc or replace photos; the website updates on the next sync.
- **Sold or no longer available** — move the folder into a folder named **SOLD**; it disappears from the website and the assistant knows it is unavailable.
- **Temporarily off the site** — use **Hidden** on the Property Listings page instead of moving the folder.

18 Careers Manager

Create and maintain job openings for every APG company. Active openings appear on the main Careers page and the matching company's careers page.

1. Open **Careers Manager**. Filter with the **All enterprises** drop-down and the status switcher (**All**, **Active**, **Closed**), or search titles and divisions.
2. Click **New opening** (or the pencil icon to edit).
3. Enter **Job Title***, **Division / Tag**, **Employment Type**, **Location*** and **Job Description & Responsibilities***.
4. Add requirements and responsibilities one at a time with **Add**; each becomes a removable chip.
5. Choose the **Enterprise**, an optional **Salary** (shown on the job card), and tick **Feature this opening** to highlight it on the company careers page.
6. Set **Status** — Active (Accepting applications) or Closed — and the sort order, then click **Save Opening**.

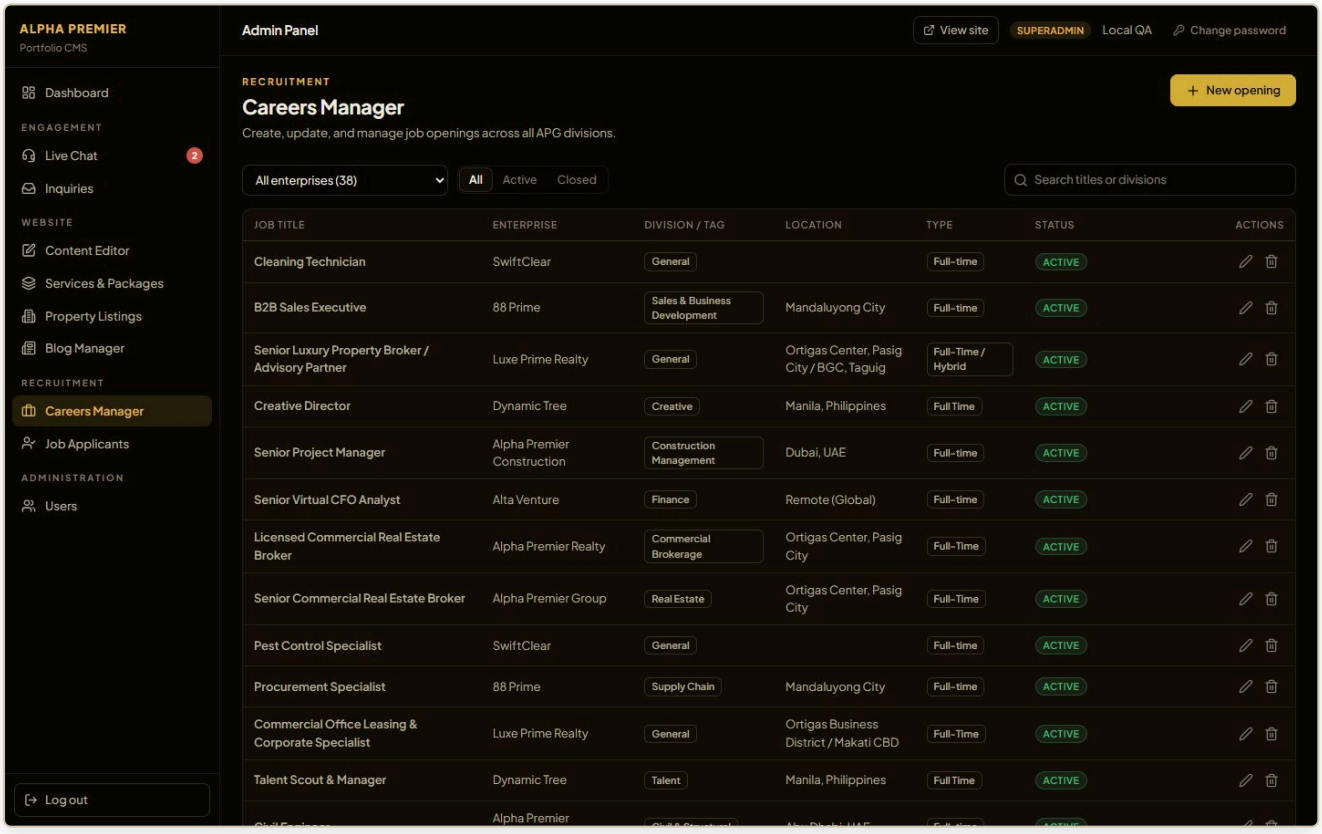

Figure 74. The Careers Manager.

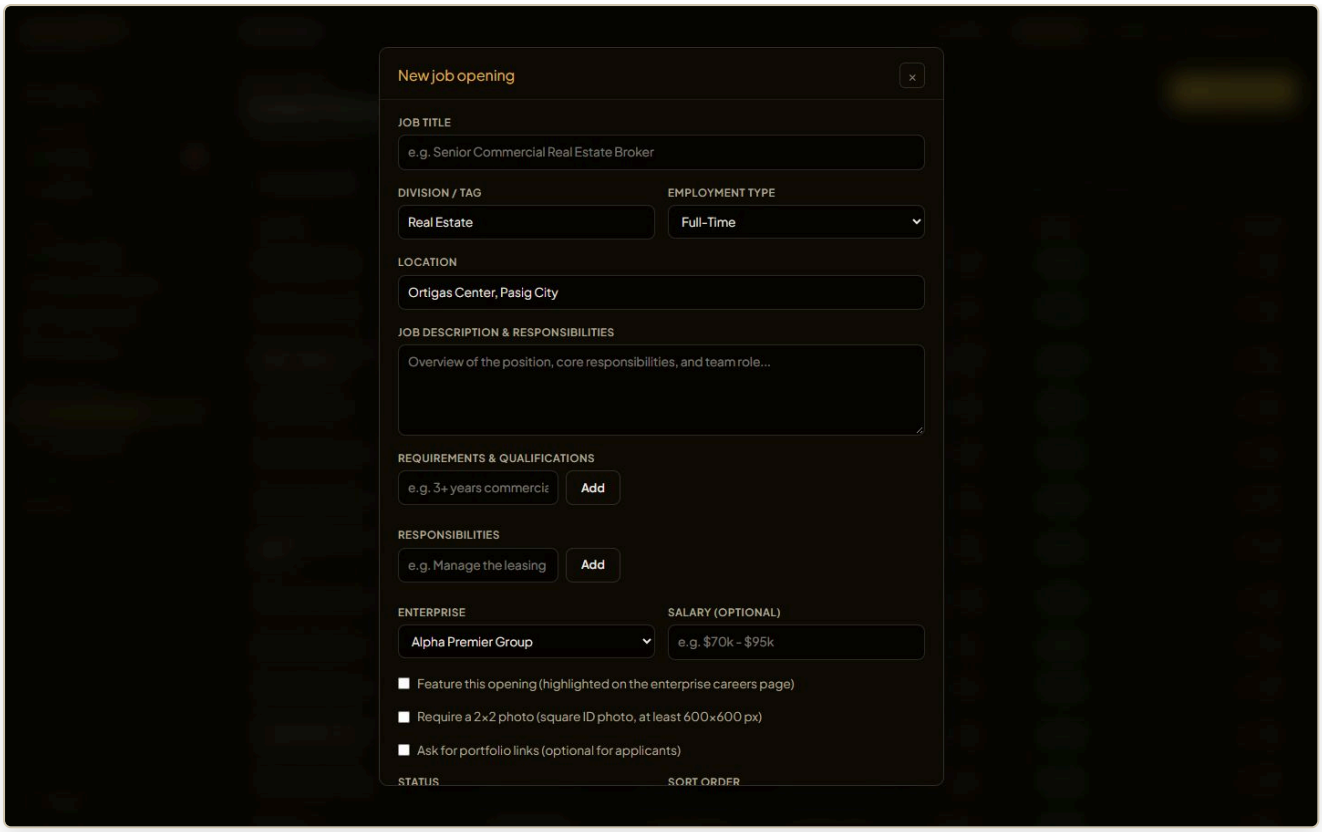

Figure 75. Posting a new job opening.

> **TIP**
>
> Close a job by clicking its **Active** pill rather than deleting it: the posting leaves the website while its applicants keep their position name.

> **KEYWORDS MATTER**
>
> The ATS compares each resume with the job's title, description, requirements and responsibilities. Clear, specific requirements produce more accurate scores.

19 Job Applicants & ATS

Every application from any careers page arrives here. The Applicant Tracking System (ATS) scores each resume against the job from 0 to 100.

19.1 The applicant list

- The **All enterprises** drop-down with counts; the status switcher **All, New, Reviewed, Interviewing, Hired, Rejected**; and the **Shortlisted** toggle, which turns green when on. A gold count next to the title shows how many applications are new.
- Sort by **Newest first** or **Highest ATS score**; search by name, email, phone or role.
- Each row shows contact details, position and company, ATS score, a status drop-down (New in gold, Hired in green, Rejected in red), the date, **View CV**, the review (eye) icon and, for administrators, delete. New applications have a gold edge on the left of the row.

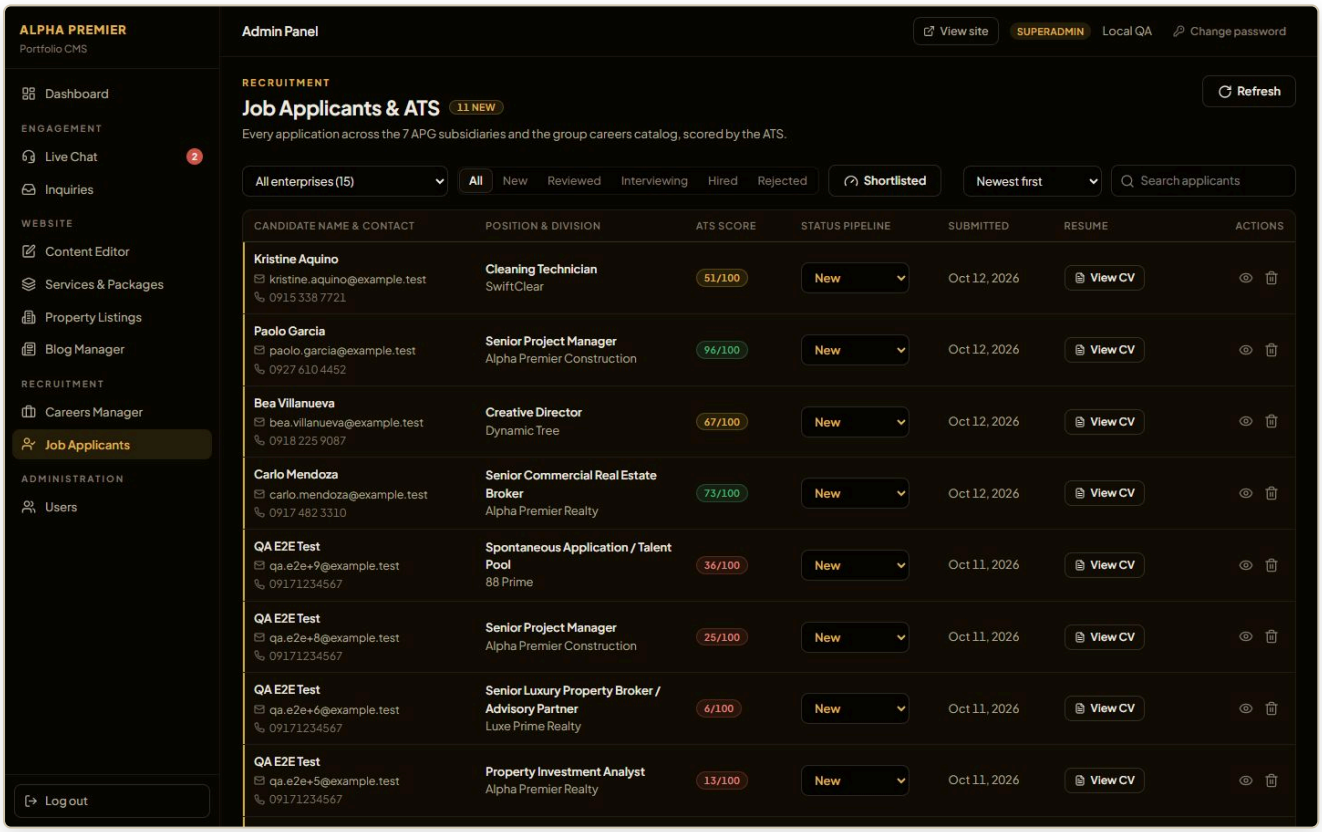

Figure 76. The Job Applicants list with ATS scores.

19.2 Reading the ATS score

Badge	Meaning
Green	Shortlisted — at or above the shortlist threshold (70 by default).
Amber	"Maybe" — worth a closer look.

Red	Weak match for this job.
Pending	Not scored yet; a daily job scores anything missed.

Scores come from AI (**AI scored**) or, when AI is unavailable, keyword matching (**Keyword scored**). Use the score to prioritise — always read the resume before deciding.

19.3 Review an applicant

1. Click the eye icon on the applicant's row.
2. Check the position, contact details and current status.
3. Click **Open Resume** (opens securely; only signed-in staff can open it).
4. Read the **ATS screening** summary, **Strengths**, **Gaps** and matched keywords. Click **Re-screen** after changing a job's requirements.
5. Read the cover note, add **Internal Recruiter & Interview Notes** and click **Save Recruiter Notes**.
6. Move the status along: **New** → **Reviewed** → **Interviewing** → **Hired** (or **Rejected**).

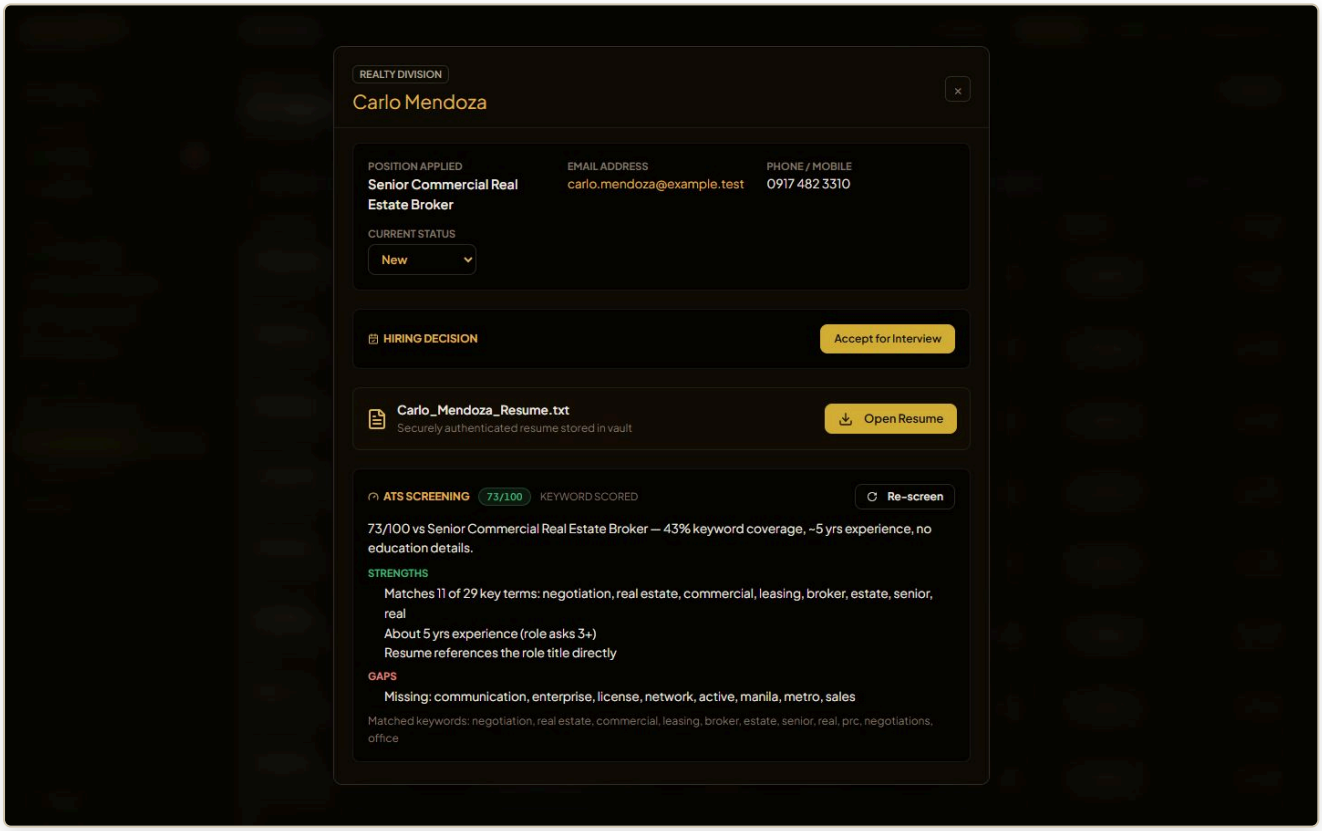

Figure 77. Applicant details with the ATS screening panel.

> **DATA PRIVACY**
>
> Applicant data is protected by the Data Privacy Act of 2012 (RA 10173). Do not download or forward resumes outside the hiring team. Only administrators can delete applicants.

20 Blog Manager

Write and publish articles for the main Blogs page and each company's blog. Every company blog has its own article pages.

20.1 Create or edit an article

1. Open **Blog Manager**. Filter with the **All enterprises** drop-down and the status switcher (**All**, **Published**, **Draft**), or search. If a search finds nothing, click **Clear search**.
2. Click **New article** (or the edit icon on a row).
3. Enter the **Article Title***, choose the **Enterprise** (which site shows it) and **Category**.
4. Enter a **URL Slug*** — short, lowercase and hyphenated, e.g. `metro-manila-real-estate-2026` — and an optional read time.
5. Add a cover image: paste an address or click **Upload image file**.
6. Write a 1–2 sentence **Summary / Excerpt**.
7. Write the **Full Content*** as plain text: a blank line starts a new paragraph, **Heading** (or `##`) adds a heading and **B** makes text bold. The live preview shows the result.
8. Choose **Status** — Draft (private) or Published (live) — and, when publishing, the **Publish Date**.
9. Tick **Feature this article** to make it the hero card on the company's blog, then click **Save Article**.

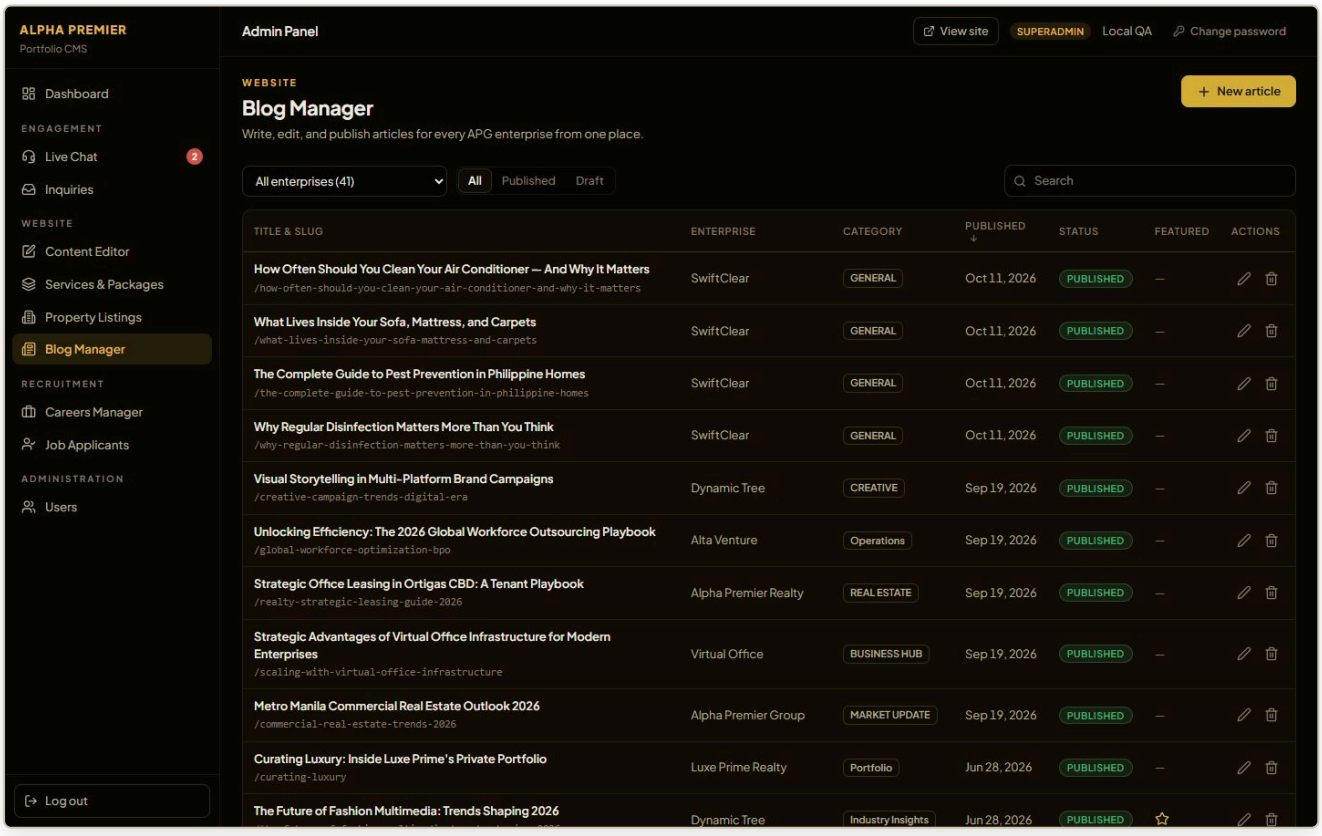

Figure 78. The Blog Manager list.

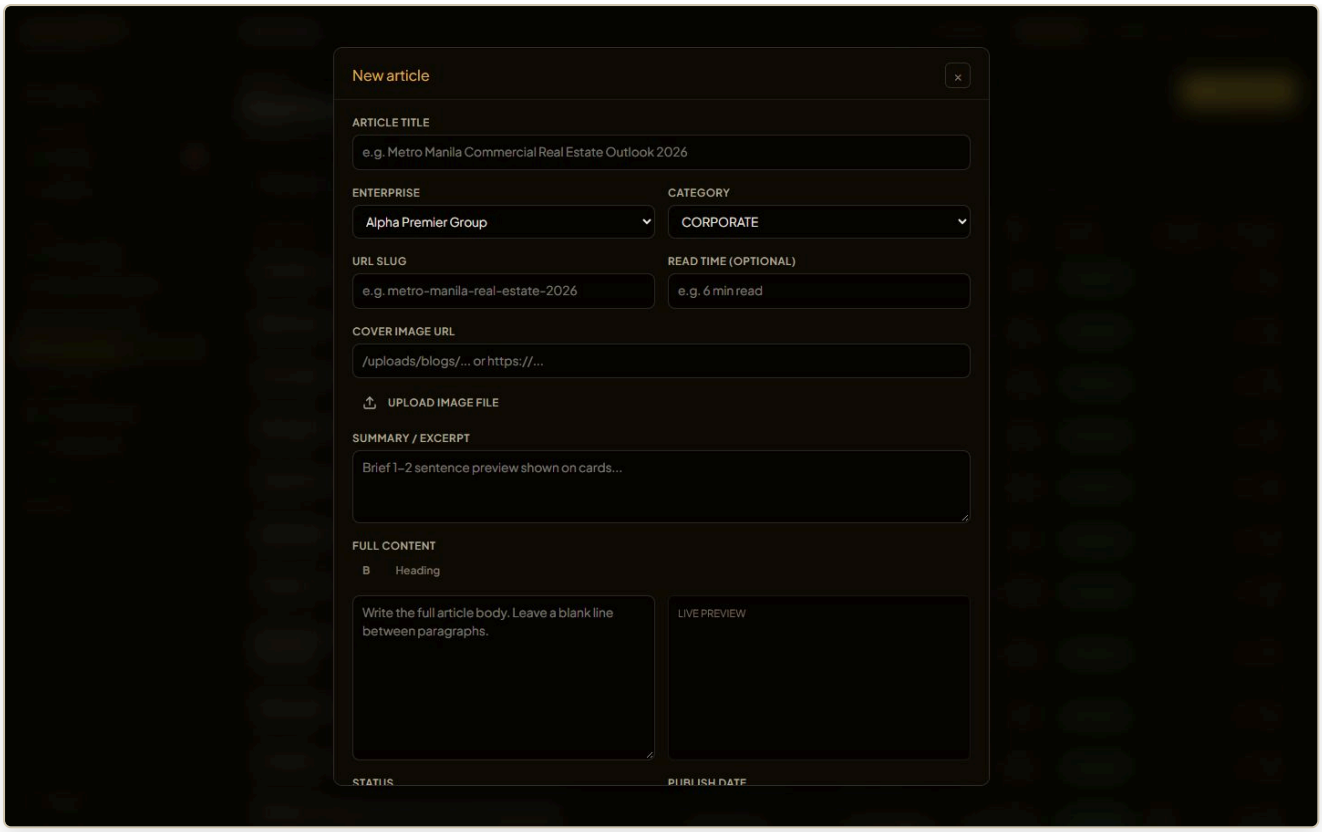

Figure 79. Creating an article.

20.2 Publish, unpublish or delete

- Click an article's **Status** pill to switch between Published and Draft.
- The ★ in the list shows which article is featured; change it with the checkbox in the article form.
- **Delete** (administrators only) — click the bin icon and confirm. This cannot be undone.

21 Users (super-administrators)

Only super-administrators see this page. It lists every Admin Console account with its role. Your own account is marked **YOU** and cannot be deleted.

21.1 Create an account

1. Click **New admin**.
2. Enter the person's work **Email** and **Name**.
3. Choose a **Role**: superadmin, admin, recruiter or editor (see 11.6).
4. Set a temporary **Password** of at least 10 characters and click **Save Account**.
5. Give the person their email and temporary password in person or by phone, and ask them to change it at first sign-in (11.3).

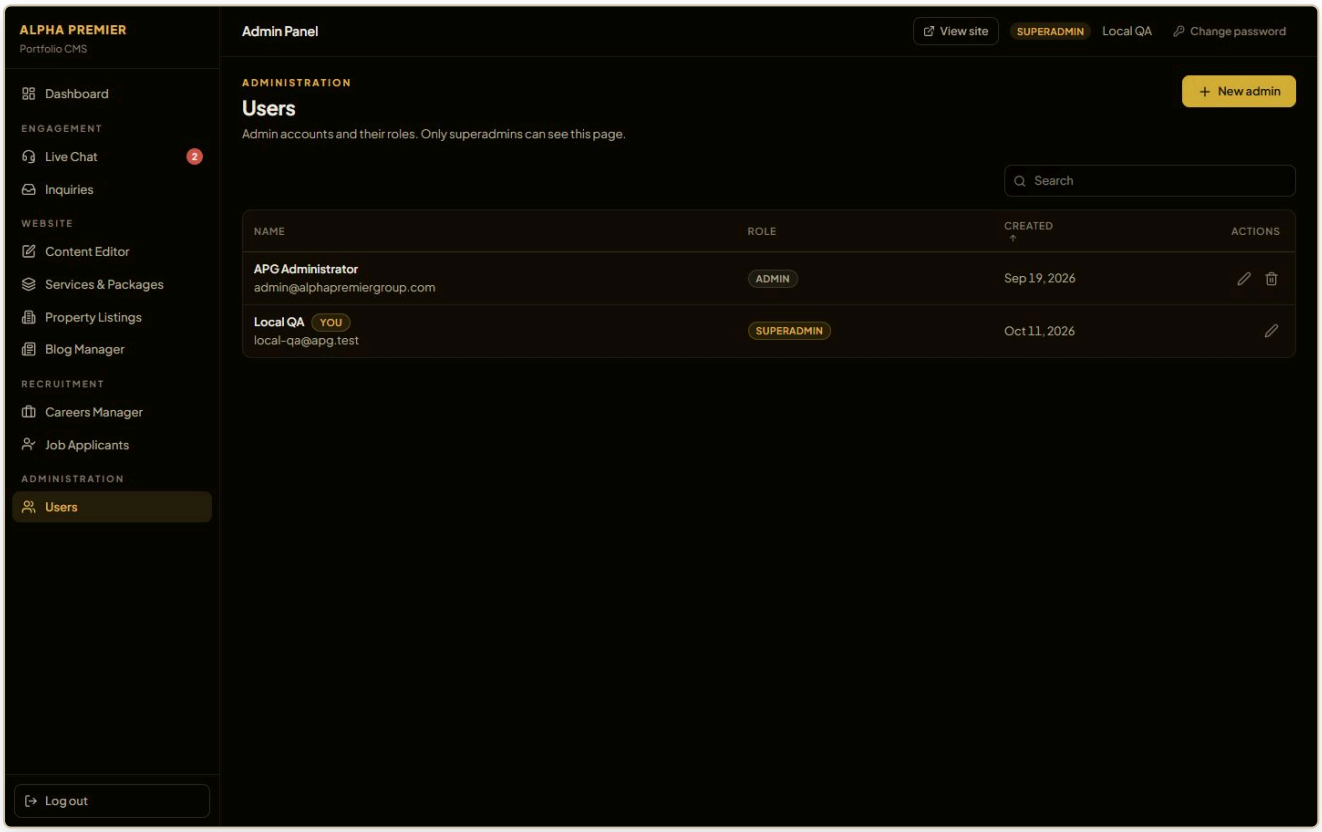

Figure 80. The Users list.

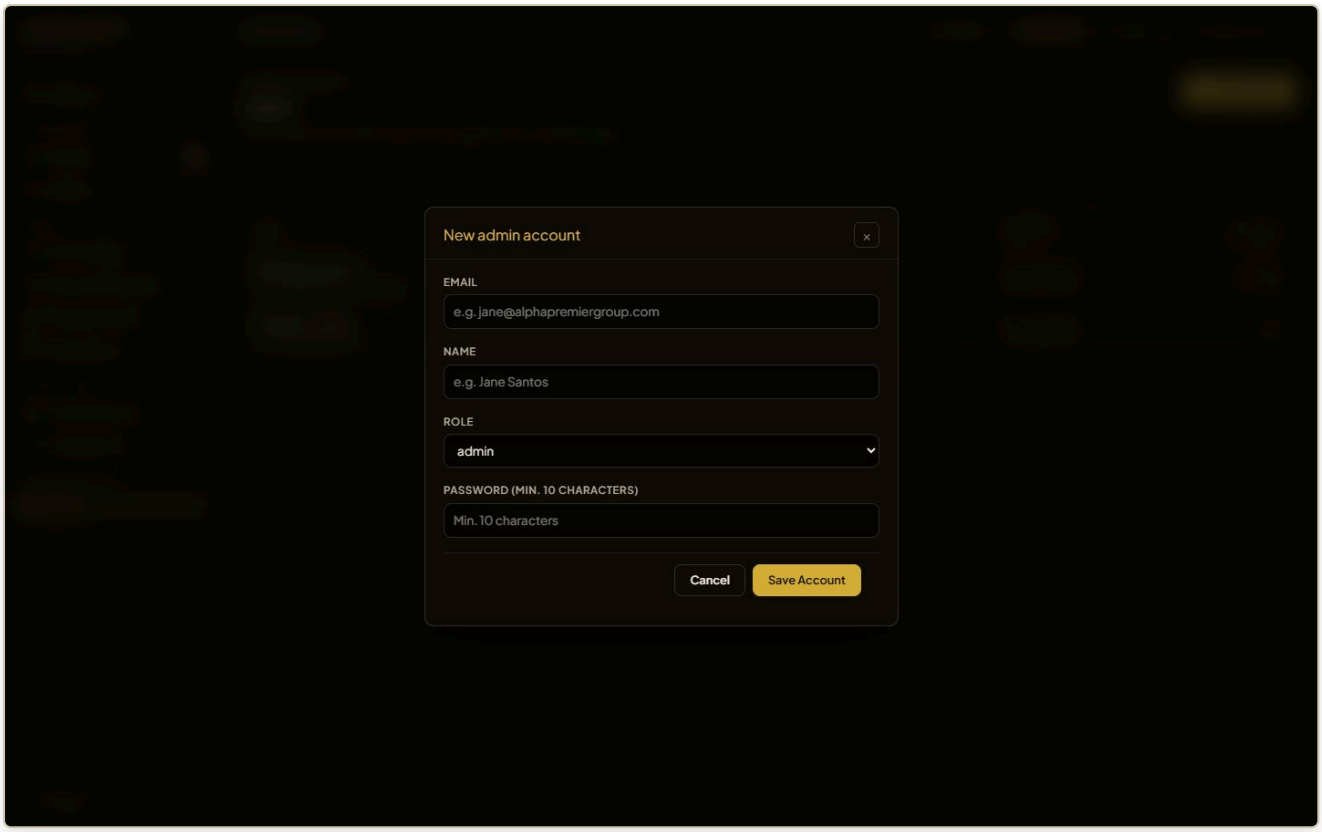

Figure 81. Creating an admin account.

21.2 Edit or remove an account

- **Edit** — change the email, name or role, or set a new password. Setting a new password signs that person out of every session.
- **Delete** — remove the account of someone who has left, on their last day. This cannot be undone.
- The last remaining super-administrator cannot be demoted or deleted.

> **SECURITY**
>
> Give each person the lowest role they need, and keep at least two super-administrator accounts.

22 Email notifications

All emails use the branding of the company involved. Staff can reply directly to the visitor or applicant. Visitor emails show only the company's **public** email and phone from Site settings; private inboxes are never revealed.

When	Who receives it	What it contains
An inquiry or contact form is sent	The company's inquiry inbox (Private settings)	Subject `[APG-…]` with the visitor's details and message. Property inquiries: "Property inquiry APR-…: [title]" with an **Open Drive folder** button. Questions about a job: "Job inquiry: [position]". Also saved in **Inquiries**.
Same	The visitor	"We've received your inquiry [ticket]", with a link to the listing for property inquiries.
A job application is submitted	The company's HR inbox (Private settings)	"Shortlisted: …" or "New application: …" with the ATS score, summary, strengths and gaps, cover note and the resume attached.
Same	The applicant	"We've received your application [reference]".
Someone subscribes to a newsletter	The company's inquiry inbox	"Newsletter subscription — [email]". Also listed under **Inquiries › Newsletter**.
Same	The subscriber	"You're subscribed to [company] updates", including how to unsubscribe.
Careers feedback is submitted	The company's HR inbox	"Careers feedback from [name]" with role, division, rating and feedback. Also saved in **Inquiries** as Feedback.
Same	The sender	"Thank you for your feedback [reference]".
A chat is handed to a live agent	The team inbox set on the server	"[Live chat] Visitor waiting — [company]", the conversation so far and an **Open live chat** button.
A password reset or change is requested	The company security inbox	A 6-digit code, valid for 10 minutes.

> **NOTE**
>
> If a company has no inbox set in Private settings, its emails go to the default inbox, then to the server's fallback address. Each visitor address receives at most three confirmation emails per day. Failed HR emails are retried automatically once a day.

A Troubleshooting

A.1 Messages when sending a form

Message	What to do
Too many submissions. Please try again in a few minutes.	That form was sent 5 times within 10 minutes from your connection. Wait 10 minutes.
Please review the form and try again.	The form was sent too fast (under 3 seconds) or the page was open for over 4 hours. Refresh the page, fill it in again and submit.
Please remove links from your message and try again.	Remove web links from your name, and keep at most two in the message.
Security check failed. Please refresh the page and try again.	Refresh the page. If you use an ad blocker or privacy extension, allow this site, then try again.
Name and email are required fields. / Invalid email address.	Fill in your name and a valid email address.
Full name is required. / A valid email address is required. / Contact/phone number is required.	Complete the missing field on the job application.
One or more fields exceed the maximum allowed length.	Shorten your message (10,000 characters maximum).
Please upload your resume as a PDF, DOC, or DOCX file.	Convert your resume to PDF or Word.
The resume file is empty. Please choose another file.	The file is damaged or blank; export it again and re-attach it.
Resume file is too large. Please upload a smaller file (max 15MB).	Save the resume as a smaller PDF (remove large images) and upload again.
Resume upload failed. / Attachment upload failed. Please try again.	Check your connection and try again.
Something went wrong. Please try again or email us directly…	Try again in a few minutes, or email the address shown.
Network error. Please check your connection and retry.	Check your internet connection, then submit again.

A.2 Other common problems

Problem	Solution

The chat says “If you need immediate assistance, please call…”	The message could not be delivered (too many messages too quickly, or over 2,000 characters). Wait a moment and send a shorter message, or call the number shown.
The chat opens but shows no welcome message	Too many new chats were started from your network in the last hour. Try again later, or use the inquiry form.
I did not get a confirmation email	Check your spam/junk folder. Keep your reference number. The team still received your submission.
A property I saw is gone	It was leased, sold or taken off the site by the Realty team. Ask the chat assistant or send an inquiry for similar properties.
“Something went wrong — This page couldn’t be displayed.”	Click **Reload**. If the site was just updated, the page reloads itself once automatically.
“404 — Oops! Looks like you’re lost.”	The address is wrong or out of date. Click **GO HOME**. (On a company site, an unknown address shows that company’s home page instead.)
An announcement keeps appearing	Close it with its ×; it stays hidden for the rest of your visit.
Staff: “Too many failed login attempts”	Wait 15 minutes, then sign in carefully, or reset your password (11.2).
Staff: “Your session expired. Please sign in again.”	Sign in again (11.5). Unsaved Content Editor changes must be re-entered.
Staff: a page is missing from my sidebar	Your role does not include it (11.6). Ask a super-administrator.
Staff: my content change does not show	Check that you clicked **Save changes** (the field shows **Customized**), then reload the public page.
Staff: a listing change does not show	Changes on the Property Listings page take about a minute; new listings from Drive take up to 15 minutes. Check the sync banner (17.1).
Staff: “Too many reset requests” / “Too many code requests”	Wait 15 minutes before requesting another code.

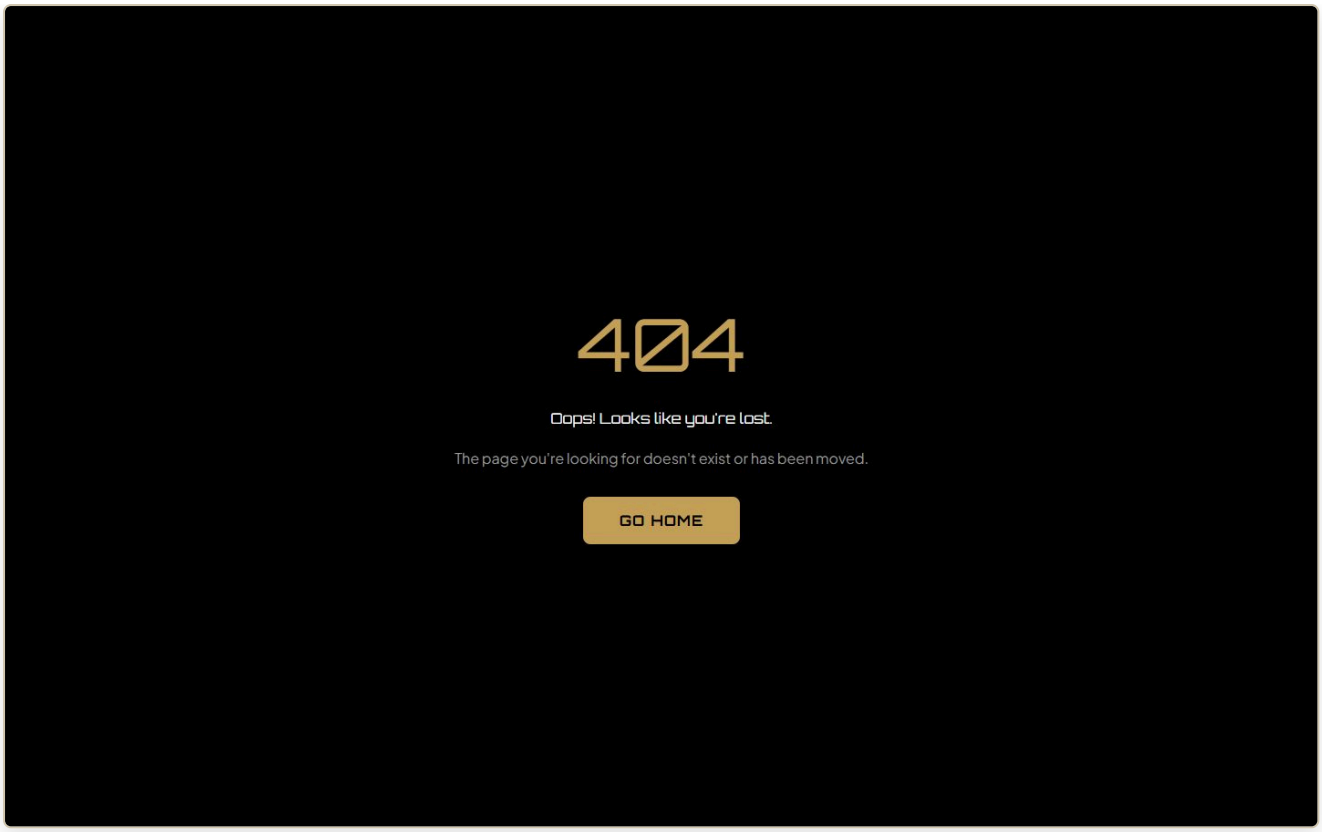

Figure 82. The page shown for an address that does not exist.

B Frequently asked questions

DO I NEED AN ACCOUNT TO USE THE WEBSITE?

No. Only staff need an account, for the Admin Console.

WILL EVERY APG SITE ASK ME ABOUT COOKIES?

No. Your choice on any APG site applies to the main website and all enterprise sites in the same browser for one year.

HOW DO I STOP RECEIVING THE NEWSLETTER?

Reply "Unsubscribe" to any newsletter or to the subscription confirmation email.

HOW QUICKLY WILL APG REPLY TO MY INQUIRY?

The main inquiry form promises a response within 24 hours, and company forms within 24 business hours; SwiftClear aims for about 2 hours. For urgent matters use the chat's **Talk to Live Agent** or call the number on the site.

HOW MUCH IS A VIRTUAL OFFICE PLAN?

Plans start at ₱2,899 per month (Premier Access); see Chapter 8 for all plans. The website and the chat assistant always show current prices.

CAN I APPLY FOR MORE THAN ONE JOB?

Yes. Submit a separate application for each position, or one **General Application** to be considered for all suitable roles.

IS MY PERSONAL INFORMATION SAFE?

Yes. Forms are sent over a secure connection, resumes can only be opened by signed-in staff, and data is handled under the Data Privacy Act of 2012 (RA 10173). See the Privacy Policy.

WHY DOES THE ASSISTANT SAY RATES ARE "SUBJECT TO CONFIRMATION"?

Listings are synced from the Realty team's records every 15 minutes; final rates and availability are always confirmed by a broker.

(STAFF) HOW DO I PUT A PROPERTY ON THE WEBSITE?

Add it to the APR Google Drive folder using the naming format in 17.2. It appears within about 15 minutes; then use the Property Listings page to feature it or adjust its shown price.

(STAFF) HOW DO I CHANGE THE PHONE NUMBER OR EMAIL ON THE WEBSITE?

Content Editor › Site settings (15.3). The change appears on every page, in confirmation emails and in the chat assistant.

(STAFF) WHERE DO INQUIRIES FOR A COMPANY GO?

To that company's inquiry inbox in Private settings (15.5), and they are always saved in Inquiries (Chapter 14).

(STAFF) CAN TWO AGENTS ANSWER THE SAME CHAT?

A chat is assigned to the agent who claims it. Others can read it, but the visitor sees the assigned agent's name.

(STAFF) WHAT IF AI IS UNAVAILABLE?

The chat assistant switches to its built-in answers, and the ATS switches to keyword scoring. Everything else works normally.

C Glossary

Term	Meaning
Admin Console	The private staff area at `/admin`.
Announcement banner	A short notice shown on chosen sites, set in Site settings.
APG	Alpha Premier Group of Companies.
APR	Alpha Premier Realty. Listing references start with `APR-`.
ATS	Applicant Tracking System — automatic resume screening and the applicant pipeline.
Chat assistant / bot	The automated concierge in the chat window ("APG Assistant" in the Admin Console).
Claim	An agent taking ownership of a waiting chat.
Customized	A Content Editor field whose saved value replaces the original wording.
Draft	Saved but not visible on the website.
Enterprise	One of the APG companies, each with its own site.
Featured	An item highlighted and shown first (listings, articles, job openings).
Handoff	Passing a chat from the assistant to a live agent.
Hidden (listing)	A Drive listing taken off the website and chat assistant without changing the Drive.
Inquiry inbox / HR inbox	The email addresses, set in Private settings, that receive each company's inquiries or applications.
Kind (service)	Service card, Catalog product or Priced package.
Reference / ticket	The ID you receive after submitting a form (`APG-…`, `APG-APP-…`).
Shortlisted	An applicant whose ATS score reaches the threshold (70 by default).
Site settings	Public contact details, social links and the announcement banner, edited in the Content Editor.
Slug	The short, hyphenated name used in a web address.
Sync	The automatic 15-minute update of property listings from Google Drive.

D Support & contact
